The first part of the document is a preface written by the author. It discusses the importance of the subject matter and the author's motivation for writing the book. The preface is written in a formal, academic style and is intended to provide context for the reader.

The second part of the document is the main body of the text. It consists of several chapters that explore the various aspects of the subject. The author uses a combination of theoretical analysis and practical examples to illustrate the concepts being discussed. The text is dense and contains many references to other works in the field.

The final part of the document is a conclusion that summarizes the main findings of the study. The author discusses the implications of the research and offers suggestions for future work. The conclusion is written in a clear, concise manner and is intended to provide a final perspective on the subject matter.

INVITING PROPOSALS FOR FOUR PER CENT BONDS.

1896.
Department Circular No. 3.
Division of Loans and Currency.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., January 6, 1896.

Notice is hereby given that sealed proposals will be received at the office of the Secretary of the Treasury, at Washington, D. C., until 12 o'clock M., on Wednesday, the 5th day of February, 1896, for the purchase of one hundred million dollars (\$100,000,000) of United States four per cent coupon or registered bonds, in denominations of fifty dollars (\$50) and multiples of that sum, as may be desired by bidders.

The right to reject any or all bids is reserved.

The bonds will be dated on the first day of February, 1895, and be payable in coin thirty years after that date, and will bear interest at four per centum per annum, payable quarterly, in coin, but all coupons maturing on and before the first day of February, 1896, will be detached, and purchasers will be required to pay in United States gold coin, or gold certificates, for the bonds awarded to them, and all interest accrued thereon after the first day of February, 1896, up to the time of payment for the bonds.

Payments for the bonds must be made at the Treasury of the United States at Washington, D. C., or at the United States subtreasuries at New York, Boston, Philadelphia, Baltimore, Cincinnati, Chicago, St. Louis, and New Orleans, and they may be made at San Francisco with exchange on New York, and all bids must state what denominations of bonds are desired, and whether coupon or registered, and at what place they will be paid for.

Payments may be made by installments, as follows: Twenty per cent (20 per cent) and accrued interest upon receipt of notice of acceptance of bids, and twenty per cent (20 per cent) and accrued interest at the end of each ten days thereafter; but all accepted bidders may pay the whole amount at the date of the first installment, and those who have paid all installments previously maturing may pay the whole amount of their bids at any time, not later than the maturity of the last installment.

The bonds will be ready for delivery on or before the fifteenth day of February, 1896.

Notice is further hereby given that if the issue and sale of an additional or different form of bond for the maintenance of the gold reserve shall be authorized by law before the fifth day of February, 1896, sealed proposals for the purchase of such bonds will also be received at the same time and place, and up to the same date, and upon the same terms and conditions herein set forth, and such bids will be considered as well as the bids for the four per cent bonds herein mentioned.

J. G. CARLISLE,
Secretary of the Treasury.

COLLECTION DISTRICT OF CHICAGO.

1896.
Department Circular No. 5.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., January 4, 1896.

To Collectors and other Officers of the Customs :

The following Act of Congress approved December 27, 1895, creating the collection district of Chicago, is published for the information and guidance of all concerned.

CHARLES S. HAMLIN,

Assistant Secretary.

[AN ACT to amend Section twenty-six hundred and one of the Revised Statutes relative to Ports of Entry.]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section twenty-six hundred and one, Revised Statutes, be, and the same is hereby, amended so as to read as follows :

Section 2601. There shall be in the States of Indiana and Illinois one Collection District as follows :

The District of Chicago ; to comprise the State of Illinois, and the waters and shores of Lake Michigan, within the State of Indiana ; in which Chicāgo shall be the port of entry, and Waukegau and Michigan City ports of delivery : *Provided,* That all present ports of delivery in the State of Illinois now a part of the New Orleans District, shall be ports of delivery in the new District of Illinois and shall have all privileges which they have under existing law : *Provided further,* That nothing in this Act shall be construed to repeal the provisions of the Act approved August seventh, eighteen hundred and eighty-two, which embraces East Saint Louis, Illinois, within the limits of the port of Saint Louis, Missouri.

Approved, December 27, 1895.

SUBSCRIPTIONS TO FOUR PER CENT BONDS.

1896.
Department Circular No. 6.
Division of Loans and Currency.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C. January 9, 1896.

In subscribing for the new four per cent bonds under the circular of January 6, 1896, the annexed form should be followed. The blank may be detached, filled up, and addressed to the Secretary of the Treasury. The subscriber should state plainly the amount of bonds desired, the price which he proposes to pay, and the place where the bonds should be delivered, which may be the subscriber's home or any other more convenient place. He should at the same time state whether he desires to deposit the amount of his subscription at the Treasury Department in the city of Washington, or at one of the following subtreasuries, viz: New York, Boston, Philadelphia, Baltimore, Cincinnati, Chicago, St. Louis, New Orleans, or San Francisco. Deposits at San Francisco must be with exchange on New York.

The bonds will be issued in the following denominations, viz: Coupon bonds, \$50, \$100, \$500, and \$1,000; registered bonds, \$50, \$100, \$500, \$1,000, \$5,000, and \$10,000.

Subscribers should, if practicable, state in their proposals the denominations of the bonds desired and whether they should be coupon or registered; but if at the time of offering the subscription the kind and denomination of the bonds desired can not be stated, the subscriber may defer giving that information until he is notified that his proposal is accepted.

Gold certificates will be received the same as gold coin in payment of subscriptions, but no payment should be made by any subscriber until he has been notified by the Secretary that his subscription has been accepted.

Additional copies of the annexed form of proposal may be had upon application to the Secretary of the Treasury.

J. G. CARLISLE,
Secretary of the Treasury.

Envelopes should be plainly marked: "Proposals for four per cent bonds."

I hereby propose, under the terms of your Circular of January 6, 1896, to purchase U. S. four per cent thirty-year bonds described in said Circular, of the face value of dollars, and I agree to pay therefor at the rate of and accrued interest per \$100. I further agree upon due notice of the acceptance of this subscription, to deposit the amount thereof in gold coin or gold certificates with the U. S. Assistant Treasurer at in accordance with the terms of said Circular.

I desire (registered or coupon) bonds, in denominations as stated below, and I wish them to be delivered to me at

.....

KILLING OF FUR-BEARING ANIMALS IN ALASKA.

1896.

Department Circular No. 7.

Division of Special Agents.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., January 9, 1896.

Department Circular No. 56, dated April 14, 1893, wherein white men married to natives, and residing within the Territory of Alaska, are denied the privilege of killing fur-bearing animals, is hereby modified in such manner as to confer the privileges specified in said Circular upon white men who married natives, and engaged in otter hunting in said Territory, prior to March 2, 1893, in faith of previous rulings of the Department.

J. G. CARLISLE,

Secretary.

SEIZURE OF IMPORTED GOODS FOR UNDERVALUATION UNDER SECTION 7 OF THE ACT
OF JUNE 10, 1890.

1896.
Department Circular No. 8.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., January 8, 1896.

To Collectors and other officers of the Customs:

Section 7 of the act of June 10, 1890, provides that "if the appraised value of any article of imported merchandise shall exceed by more than ten per centum the value declared in the entry, there shall be levied, collected, and paid, in addition to the duties imposed by law on such merchandise, a further sum equal to two per centum of the total appraised value for each one per centum that such appraised value exceeds the value declared in the entry; and the additional duties shall only apply to the particular article or articles in each invoice which are undervalued; and if such appraised value shall exceed the value declared in the entry more than forty per centum, such entry may be held to be presumptively fraudulent, and the collector of customs may seize such merchandise and proceed as in cases of forfeiture for violations of the customs laws; and in any legal proceedings which may result from such seizure the fact of such undervaluation shall be presumptive evidence of fraud, and the burden of proof shall be on the claimant to rebut the same, and forfeiture shall be adjudged unless he shall rebut said presumption of fraudulent intent by sufficient evidence."

Although the language of the above provision has been construed as permissive, rather than mandatory, the Department desires it to be understood that, in any case where an undervaluation of 40 per cent or more has been found of imported merchandise, seizure should be made at once under a presumption of fraud, unless the circumstances are such as to positively relieve the importer from any suspicion of fraudulent intention.

CHARLES S. HAMLIN,

Assistant Secretary.

ADDITIONAL CIRCULAR.

SUBSCRIPTION TO FOUR PER CENT BONDS.

1896.

Department Circular No. 12.

Division of Loans and Currency.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., January 15, 1896.

Treasury Circular (No. 3, 1896), dated January 6, 1896, inviting proposals for the purchase of one hundred million dollars (\$100,000,000) of United States Four Per Cent Bonds, is hereby so modified that, after the payment of the first installment of twenty per cent with accrued interest, as required in said circular, the remainder of the amounts bid may be paid in installments of ten per cent (10 per cent) each and accrued interest, at the end of each fifteen days thereafter; but all accepted bidders may pay the whole amount of their bids at the time of the first installment, and all accepted bidders who have paid all installments previously maturing may pay the whole amount of their bids at any time not later than the maturity of the last installment.

Accepted bidders who pay the whole amount at the time of the first installment, or at any date thereafter, as above provided, will be entitled to receive, at the date of the payment, the whole amount of bonds awarded to them, and accepted bidders who pay by installments will be entitled to receive at the dates of such payments the amount of bonds paid for.

J. G. CARLISLE,

Secretary of the Treasury.

PALM BEACH, FLORIDA, A SUBPORT OF ENTRY AND DELIVERY.

1896.
Department Circular No. 13.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C. January 15, 1896.

To Collectors and other Officers of the Customs:

The following act of Congress approved January 6, 1896, making Palm Beach, Fla., a subport of entry and delivery is published for the information of all concerned.

S. WIKE,

Acting Secretary.

AN ACT to make Palm Beach, Florida, a subport of entry and delivery.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Palm Beach, in the State of Florida, shall be and is hereby made a subport of entry and delivery, and a customs officer, or such officers, shall be stationed at said subport with authority to enter and clear vessels, receive duties, fees and other moneys, and perform such other services and receive such compensation as in the judgment of the Secretary of the Treasury the exigencies of commerce may require.

Approved, January 6, 1896.

VALUE OF AUSTRIAN FLORIN.

1896.
Department Circular No. 16.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., January 20, 1896.

To Collectors and other Officers of the Customs:

The Department is informed by the Honorable Secretary of State, that owing to the decline in value of the Austrian florin, the consuls in Austria-Hungary have all been instructed to furnish currency certificates to invoices, commencing December 11, 1895.

These certificates will be accepted by Collectors of Customs in liquidating invoices made out in the above specified currency.

CHARLES S. HAMLIN,

Assistant Secretary.

REPORTS OF LOCAL APPRAISERS TO THE BOARD OF GENERAL APPRAISERS.

1896.

Department Circular No. 17.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., January 22, 1896.

To Appraisers and Acting Appraisers of Merchandise:

Officers charged with the preparation of reports of the business of their respective districts, which are required by Article 1128 of the Customs Regulations of 1892 to be made monthly to the Board of General Appraisers at New York, are hereby instructed that in case invoices, entries, etc., are transmitted by them daily to the Auditor for the Treasury Department, the data required for said monthly reports should be properly taken in advance of such transmission to avoid delay.

CHARLES S. HAMLIN,

Assistant Secretary.

DRAWBACK ON SUGAR AND SIRUP.

1896.
Department Circular No. 20.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 1, 1896.

To Collectors and other Officers of the Customs:

On the exportation of refined sugars made wholly from imported raw sugars, and on the exportation of sirups made wholly from imported raw cane sugars, drawback will be allowed equal in amount to the duties paid on the imported sugars so used, less the legal deduction of 1 per cent.

When the exported sugars are "hard refined," of standard test, commercially known as loaf, cut loaf, cube, granulated, crushed, or powdered, and are made wholly from imported raw cane sugars, the amount of drawback shall be determined by allowing for each 100 pounds of the exported article, the duties paid on the respective grades and quantities of material used, as indicated in the following schedule:

Test of raw sugar used.	Allowance for 100 pounds, hard refined.	Test of raw sugar used.	Allowance for 100 pounds, hard refined.
Degrees.	Pounds.	Degrees.	Pounds.
100	100.00	87	124.27
99	101.87	86	126.14
98	103.73	85	128.01
97	105.60	84	129.88
96	107.47	83	131.74
95	109.34	82	133.61
94	111.20	81	135.48
93	113.07	80	137.35
92	114.94	79	139.21
91	116.81	78	141.08
90	118.67	77	142.95
89	120.54	76	144.82
88	122.41	75	146.68

When "soft refined" sugars made from imported raw cane sugars are exported, the quantity of "crystallizable sugar" contained therein shall be determined by reference to weight and polariscope test of the exported article, and drawback allowance shall be based on the quantity of "crystallizable sugar" so found, as hereinbefore provided for a like quantity of "hard refined" sugar.

When the "hard refined" sugars hereinbefore described are made wholly from imported raw beet sugars, the dutiable value of the material used for each pound of the exported article shall be determined

by dividing the dutiable value of 1 pound of the material used by the decimal denoting the "net analysis" of such material.

The amount of drawback which may be allowed on the exported sirup product of raw cane sugars shall be determined by allowing for each gallon of the exported article, valued at 5 cents in condition as "thrown" from the "centrifugal," the duties paid on the respective grades and quantities of material used as indicated in the following schedule :

Test of raw sugar used.	Allowance for one gallon sirup.	Test of raw sugar used.	Allowance for one gallon sirup.
<i>Degrees.</i>	<i>Pounds.</i>	<i>Degrees.</i>	<i>Pounds.</i>
99	1.36	86	1.56
98	1.37	85	1.58
97	1.39	84	1.60
96	1.40	83	1.62
95	1.41	82	1.64
94	1.43	81	1.66
93	1.44	80	1.68
92	1.46	79	1.70
91	1.48	78	1.72
90	1.49	77	1.74
89	1.51	76	1.77
88	1.53	75	1.79
87	1.55		

The value of the sirup in condition as thrown from the centrifugal shall be declared by the manufacturer on the drawback entry, which declaration shall be verified by the collector, and if the declaration so verified shows a value per gallon above or below 5 cents, the allowance shall be determined by increasing or reducing the schedule allowance in proportion to the increase or reduction above or below the 5 cents per gallon, but in no case shall the allowance be based on a value of sirup exceeding 8 cents per gallon without special authority from the Department.

For fractional tests of the raw cane sugar used in the manufacture of either refined sugar or sirup, the allowances of quantity of material shall be computed in proportion to the schedule allowances for the degrees next above or below such fractional test.

The quantities of sugar and sirup exported shall be ascertained by United States weighers and gaugers, respectively, and samples shall be taken as ordered by the collector, to be submitted to the appraiser for report of polariscope test and such other expert inspection as may be requisite.

On requisition of collectors, appraising officers shall furnish polariscope tests, "net analyses," and other conditions of valuation of raw sugars not found on the import invoice for use in liquidation of drawback entries.

J. G. CARLISLE,

Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 21.
Division of Customs.

Treasury Department,

TRADE-MARKS.

1896.

Department Circular No. 22.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 5, 1896.

To Officers of the Customs and others:

The attention of officers of the customs and others is invited to the following provision of Section 6 of the Act of August 28, 1894, viz:

“Section 6. That no article of imported merchandise which shall copy or simulate the name or trade-mark of any domestic manufacture or manufacturer, shall be admitted to entry at any custom-house of the United States. And in order to aid the officers of the customs in enforcing this prohibition any domestic manufacturer who has adopted trade-marks may require his name and residence and a description of his trade-marks to be recorded in books which shall be kept for that purpose in the Department of the Treasury, under such regulations as the Secretary of the Treasury shall prescribe, and may furnish to the Department fac-similes of such trade-marks; and thereupon the Secretary of the Treasury shall cause one or more copies of the same to be transmitted to each collector or other proper officer of the customs.”

Applications for the recording of names or trade-marks in this Department will state the name and residence of the domestic manufacturer, and furnish a description of the mark and the names of the ports to which the facsimiles should be sent. No such name or trade-mark will be received unless accompanied by the proper proof of ownership and proof that the owner is a domestic manufacturer, which must consist of the affidavit of the owner or one of the owners, certified by a notary public, or other officer entitled to administer oaths and having a seal.

On the receipt by a customs officer of any such facsimiles, with information from the Department that they have been recorded therein, he will properly record and file them, and will exercise care to prevent the entry at the custom-house of any article of foreign manufacture copying or simulating such mark.

No fees are charged for recording trade-marks in the Department and custom-houses.

A sufficient number of facsimiles should be forwarded to enable the Department to send one copy to each port named in the application, with an additional copy for the files of the Department.

REPORTS OF INSPECTORS OF CUSTOMS ON PRELIMINARY ENTRIES FOR DRAWBACK.

1896.

Department Circular No. 23.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 6, 1896.

To Collectors and other Officers of the Customs:

In view of the frequency of cases where the Inspectors of Customs report on preliminary entries for drawback, apparently filed at least six hours before the lading of the goods, "goods not found," it is hereby ordered that the inspecting and lading officers shall be required to state in such reports, the date and hour when they reached the place of deposit of the goods specified in the entry.

CHARLES S. HAMLIN,

Assistant Secretary.

INFORMATION TO BE INCLUDED IN REPORTS ON APPLICATIONS FOR REMISSION OF
ADDITIONAL (PENAL) DUTIES UNDER SECTION 7 OF THE ACT OF JUNE 10, 1890, ETC.

1896.
Department Circular No. 25.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington D. C., February 13, 1896.

To Collectors and other Officers of the Customs:

Hereafter in transmitting to the Department your reports on applications for the remission of additional (penal) duties levied under Section 7 of the Act of June 10, 1890, you will be careful to state the kinds of merchandise, whether purchased or consigned, the total entered and appraised values thereof; the amount of penal duties, and, if consigned, whether exported by foreign purchaser or manufacturer.

In cases in which application is made for the release of merchandise seized for undervaluation under the section above mentioned, you will include in your reports the kinds of merchandise, the total foreign and appraised values, the regular duties, the amount of the penal duties that would have accrued had the merchandise not been seized, and, if consigned, whether exported by foreign purchaser or manufacturer.

The above information is required for the records of these cases kept in this Department, of which the following are the forms:

Applications for the remission of additional (penal) duties.

No.	Name of Applicant.	Date of Application.	Kind of Merchandise.	Purchased or Consigned.	Entered Value.	Appraised Value.	Penal Duty.	Remitted.	Denied.	Remarks.

Applications for release of seizures where duty is over \$25.

No.	Name of Applicant.	Date of Application.	Kind of Merchandise.	Foreign Value.	Appraised Value.	Duty.	Penal Duty.	Released.	Denied.	Remarks.

CHARLES S. HAMLIN,

Assistant Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

 Discounts, 2 per cent and 1 per cent.

○

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both manual and automated techniques. The goal is to ensure that the information gathered is both reliable and comprehensive.

The third part of the document provides a detailed breakdown of the results. It shows that there is a significant correlation between the variables studied. This finding is supported by statistical analysis and is consistent with previous research in the field.

Finally, the document concludes with a series of recommendations for future research. It suggests that further studies should be conducted to explore the underlying causes of the observed trends. This will help to refine the current model and provide more accurate predictions.

TRANSMISSION OF GOVERNMENT MESSAGES OVER BOND-AIDED OR SUBSIDIZED
TELEGRAPH LINES.

1896.

Department Circular No. 27.

Treasury Department,

OFFICE OF COMPTROLLER OF THE TREASURY,

Washington, D. C., February 17, 1896.

To Disbursing Officers and other Officers and Agents of the Government:

The observance and enforcement of the following regulations will hereafter be required of the disbursing officers and other officers and agents of the Government. A strict compliance therewith will obviate the necessity of disallowances and suspensions in the settlement of their accounts:

1. The statutes of the United States require that the compensation for messages sent at Government expense over telegraph lines constructed in connection with Pacific railroads, to which bonds have been issued by the United States in aid of their construction, shall be withheld by the Secretary of the Treasury and applied in payment of the subsidy bonds and interest. In order that these provisions of law may be complied with, the accounts of the respective telegraph companies for Government messages sent over bond-aided or subsidized lines must be transmitted to the Treasury Department for settlement, and not be paid by disbursing officers or by any other officers or agents of the Government.

2. Officers or agents of the Government, in sending messages on Government business, are instructed to use the bond-aided or subsidized telegraph lines, whenever practicable to do so, in preference to other lines which are not subject to the same conditions.

3. Messages originating on a bond-aided line and directed to a point on a bond-aided line must be sent over the aided line or lines.

4. Messages originating on a bond-aided line and directed to a point near an aided line should be sent over the aided line in cases where the larger part of the service would be over aided lines.

5. Messages originally filed with a nonaided company which has a through line to the point of destination may be transmitted to destination without transfer to any other line. If the company has no through line and transfer is necessary, the transfer must be to a bond-aided line whenever practicable, and at the nearest point of contact with the aided line. In such cases the officer sending the message must indorse thereon the request that it be sent over the bond-aided line; but a failure to make such indorsement shall not be construed as giving the company the right of selection and discrimination against bond-aided lines.

6. When a message is filed with a bond-aided company, whose operator is also serving a nonaided company, the message must be written on a blank furnished by the former company.

7. Where the entire service is over bond-aided or subsidized telegraph lines no payment to the telegraph companies must be made by the officer or agent of the Government who sends the message or by any disbursing officer. In such case the officer or agent sending the message is not charged with any duty respecting the payment thereof, except to inform the agent or operator of the telegraph company who receives the message that it is the duty of the company under the law to transmit the same, and to

present its account therefor to the proper Department of the Government, to be approved by the head of such Department, under the proper appropriation, and forwarded to the accounting officers of the Treasury for settlement in accordance with the requirements of the law. Such accounts should be forwarded by the respective telegraph companies, through their usual channels, to that Department of the Government with which the officers or agents sending the respective messages are connected. For example: An account for messages sent by officers of the Interior Department should be transmitted to that Department, to be approved and forwarded to the accounting officers of the Treasury for settlement; an account for messages sent by officers of the Department of Justice should be forwarded in like manner to that Department, or an account for messages sent by officers of the Treasury Department should be transmitted to the Secretary of the Treasury.

8. Where the service is continuous and entire over lines partly subsidized and partly not, or over connecting lines one of which is subsidized and the other not, but one account for the entire service should be rendered by the telegraph company which receives and transmits the message, showing the respective amounts claimed for aided and nonaided service. Such account is not to be paid by any disbursing officer or by the officer or agent sending the message, but must be forwarded by the telegraph company to the proper Department of the Government in the manner already indicated, and in the settlement thereof by the accounting officers, the amount found due and payable in money for nonaided service will be certified for payment to the telegraph company, and the amount found due for service over the bond-aided lines will be applied as required by law.

9. Whenever practicable prepayment should not be made on messages sent to and from Washington, D. C., but accounts for the same should be sent through the proper channels to the Treasury Department for payment; provided that this shall not apply to officers required to pay the expense of telegraphing from the emoluments of their offices.

For the information and guidance of all concerned is subjoined a list descriptive of the bonded Pacific railroads in connection with which bond-aided or subsidized telegraph lines have been constructed, and a reference to the several acts of Congress relating thereto.

R. B. BOWLER,
Comptroller.

APPROVED:

J. G. CARLISLE,
Secretary of the Treasury.

RECEIVED
PUBLIC WORKS

IMPORTATION, INSPECTION, AND TRANSPORTATION OF CATTLE.

1896.
Department Circular No. 28.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 18, 1896.

To Collectors and other Officers of the Customs:

The annexed regulations issued by the Secretary of Agriculture under date of the 1st instant, concerning the transportation of cattle, are published for the information and guidance of Collectors and other Officers of the Customs.

It will be observed that the Secretary notifies the managers and agents of railroads and transportation companies of the United States, etc., that "a contagious and infectious disease, known as splenic or southern fever," exists among cattle in the following-described area:

"All that country lying south or below a line beginning at the northwest corner of the State of California; thence east, south, and southeasterly along the boundary line of said State of California to the southeastern corner of said State; thence southerly along the western boundary line of Arizona to the southwest corner of Arizona; thence along the southern boundary lines of Arizona and New Mexico to the southeastern corner of New Mexico; thence northerly along the eastern boundary of New Mexico to the southern line of the State of Colorado; thence along the southern boundary lines of Colorado and Kansas to the southeastern corner of Kansas; thence southerly along the western boundary line of Missouri to the southwestern corner of Missouri; thence easterly along the southern boundary line of Missouri to the Mississippi River; thence southerly along the Mississippi River to the southern boundary line of Tennessee; thence easterly along said boundary line to the southeastern corner of Polk County, Tenn.; thence northerly along the eastern boundary line of Tennessee to the southern boundary line of Virginia; thence west along said boundary line to the boundary line of Kentucky at the western point of Virginia; thence northerly along said boundary line to the northernmost point of Virginia; thence southerly along said boundary line to the northeast corner of Virginia, where it joins the southeastern corner of Maryland at the Atlantic Ocean."

Attention is invited to Paragraph 4 of said regulations which prescribes as follows:

"Cattle from the Republic of Mexico may be admitted into the United States to remain below said Federal quarantine line after inspection according to law, but said cattle shall not be permitted to cross said quarantine line otherwise than by rail for immediate slaughter, except by special permit from the inspectors of the Bureau of Animal Industry issued according to the regulations of the said Bureau, and no permit shall be issued except for cattle free from splenic or Texas fever, or from contact therewith during the three months preceding the issuance of said permit, and which have been grazed in a locality free from infection of such fever."

CHARLES S. HAMLIN,

Assistant Secretary.

REGULATIONS CONCERNING CATTLE TRANSPORTATION.

U. S. DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,

Washington, D. C., February 1, 1896.

To the Managers and Agents of Railroads and Transportation Companies of the United States, Stockmen and Others:

In accordance with Section 7 of the act of Congress approved May 29, 1884, entitled "An act for the establishment of a Bureau of Animal Industry, to prevent the exportation of diseased cattle, and to

provide means for the suppression and extirpation of pleuro-pneumonia and other contagious diseases among domestic animals," and of the act of Congress approved March 2, 1895, making appropriation for the Department of Agriculture for the fiscal year ending June 30, 1896, you are hereby notified that a contagious and infectious disease known as splenic or Southern fever exists among cattle in the following-described area :

All that country lying south, or below, a line beginning at the northwest corner of the State of California; thence east, south, and southeasterly along the boundary line of said State of California to the southeastern corner of said State; thence southerly along the western boundary line of Arizona to the southwest corner of Arizona; thence along the southern boundary lines of Arizona and New Mexico to the southeastern corner of New Mexico; thence northerly along the eastern boundary of New Mexico to the southern line of the State of Colorado; thence along the southern boundary lines of Colorado and Kansas to the southeastern corner of Kansas; thence southerly along the western boundary line of Missouri to the southwest corner of Missouri; thence easterly along the southern boundary line of Missouri to the Mississippi River; thence southerly along the Mississippi River to the southern boundary line of Tennessee; thence easterly along said boundary line to the southeastern corner of Polk County, Tenn.; thence northerly along the eastern boundary line of Tennessee to the southern boundary line of Virginia; thence west along said boundary line to the boundary line of Kentucky at the western point of Virginia; thence northerly along said boundary line to the northernmost point of Virginia; thence southerly along said boundary line to the northeast corner of Virginia where it joins the southeastern corner of Maryland, at the Atlantic Ocean.

Whenever any State or Territory located above or below said quarantine line as above designated shall duly establish a different quarantine line, and obtain the necessary legislation to enforce said last-mentioned line strictly and completely within the boundaries of said State or Territory, and said last above-mentioned line and the measures taken to enforce it are satisfactory to the Secretary of Agriculture, he may by a special order temporarily adopt said State or Territorial line.

Said adoption will apply only to that portion of said line specified, and may cease at any time the Secretary may deem it best for the interest involved, and in no instance shall said modification exist longer than the period specified in said special order; and at the expiration of such time said quarantine line shall revert without further order to the line first above described.

Whenever any State or Territory shall establish a quarantine line, for above purposes, differently located from the above-described line, and shall obtain by legislation the necessary laws to enforce same completely and strictly, and shall desire a modification of the Federal quarantine line to agree with such State or Territorial line, the proper authorities of such State or Territory shall forward to the Secretary of Agriculture a true map or description of such line and a copy of the laws for enforcement of same, duly authenticated and certified.

Such States or Territories as now have a line established as last above mentioned can immediately forward certified copies of said line and laws for the enforcement thereof, and if satisfactory to the Secretary of Agriculture, the same may be adopted at once and the Federal line so modified.

From the 15th day of February to the 15th day of November during each year no cattle are to be transported from said area south or below said Federal quarantine line above described to any portion of the United States above, north or west of the above-described line, except by rail for immediate slaughter, and when so transported the following regulations must be observed :

1. When any cattle in course of transportation from said area are unloaded above, north or west of this line to be fed or watered, the places where said cattle are to be fed or watered shall be set apart and no other cattle shall be admitted thereto.

2. On unloading said cattle at their points of destination, pens shall be set apart to receive them, and no other cattle shall be admitted to said pens; and the regulations relating to the movement of cattle from said area, prescribed by the cattle sanitary officers of the State where unloaded, shall be carefully observed. The cars that have carried said stock shall be cleansed and disinfected before they are again used to transport, store, or shelter animals or merchandise.

3. All cars carrying cattle from said area shall bear placards stating that said cars contain Southern cattle, and each of the waybills of said shipments shall have a note upon its face with a similar statement. Whenever any cattle have come from said area and shall be reshipped from any point at which they have been unloaded to other points of destination, the cars carrying said animals shall bear similar placards with like statements, and the waybills be so stamped. At whatever point these cattle are unloaded they must be placed in separate pens, to which no other cattle shall be admitted.

4. The cars and boats used to transport such animals, and the pens in which they are fed and watered, and the pens set apart for their reception at points of destination, shall be disinfected in the following manner :

- (a) Remove all litter and manure. This litter and manure may be disinfected by mixing it with lime or saturating it with a 5 per cent solution of carbolic acid, or, if not disinfected, it may be stored where no cattle can come into contact with it until after November 15.

(b) Wash the cars and the feeding and watering troughs with water until clean.

(c) Saturate the walls and floors of the cars, and fencing, troughs, and chutes of the pens with a solution made by dissolving 4 ounces of chloride of lime to each gallon of water. Or disinfect the cars with a jet of steam under a pressure of not less than 50 pounds to the square inch.

Cattle from the Republic of Mexico may be admitted into the United States to remain below said Federal quarantine line after inspection according to law, but said cattle shall not be permitted to cross said quarantine line otherwise than by rail for immediate slaughter, except by special permit from the inspectors of the Bureau of Animal Industry issued according to the regulations of the said Bureau, and no permit shall be issued except for cattle free from splenic or Texas fever, or from contact therewith during the three months preceding the issuance of said permit, and which have been grazed in a locality free from infection of such fever.

The losses which formerly occurred to the owners of susceptible cattle, both in the interstate and export trade, by the contraction of this disease from exposure in unclean and infected cars and pens, and by means of the manure carried in unclean cars from place to place, became a matter of grave and serious concern to the cattle industry of the United States until this danger was removed by the inspection of this Department. It is absolutely essential, therefore, that this cattle industry should continue to be protected as far as possible by separating the dangerous cattle and by the adoption of efficient methods of disinfection.

Inspectors will be instructed to see that disinfection is properly done, and it is expected that transportation companies will promptly put into operation the above methods.

All prior orders conflicting herewith are hereby revoked.

J. STERLING MORTON,

Secretary.

TRANSPORTATION OF OFFICERS.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 20, 1896.

The following Circular is published for the information of officers of the Revenue Cutter Service :

CHARLES S. HAMLIN,
Assistant Secretary.

CIRCULAR.

WAR DEPARTMENT,
QUARTERMASTER-GENERAL'S OFFICE,
Washington, D. C., February 8, 1896.

In compliance with the request of the Secretary of the Treasury of 4th instant, it is hereby ordered that when officers of the Revenue Cutter Service are ordered from the Atlantic to the Pacific coast, or *vice versa*, officers of the Quartermaster's Department will furnish the necessary transportation, upon presentation of their orders, accompanied with request from the Treasury Department for the transportation involved.

The transportation will be paid by the Treasury Department.

Respectfully,

R. N. BATCHELDER,
Quartermaster-General, U. S. Army.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 30.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 24, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending February 8, 1896.

W. E. CURTIS,
Assistant Secretary.

REPORT ON REAPPRAISEMENTS FOR THE WEEK ENDING FEBRUARY 8, 1896.

N. B.—In corresponding with the Board of General Appraisers relative to any of the items in this report, reference should always be made to the number of Reappraisement.

No. of Reappraisement.

AMENDED STEAMBOAT RULES AND REGULATIONS.

1896.
Department Circular No. 31.

Treasury Department,

STEAMBOAT-INSPECTION SERVICE,

Office of the Supervising Inspector General,

Washington, D. C., February 19, 1896.

At the regular meeting of the Board of Supervising Inspectors of Steam Vessels, held at Washington, D. C., January, 1896, in pursuance of section 4405, Revised Statutes of the United States, amendments were made to Rules I, II, III, V, and IX, of the General Rules and Regulations.

Form 2177, Certificate of Inspection for Foreign Passenger Steamers, was amended; and inspectors in districts where foreign passenger steamers are inspected should make immediate requisition therefor, and, as soon as supplied, use the new form exclusively, interlining the changes in book of certificates.

These amendments to the rules, having received the approval of the Secretary of the Treasury, have now the force of law, as provided in section 4405, Revised Statutes, and must be observed accordingly.

The following devices were approved by the Board, and have also received the approval of the Secretary of the Treasury, as required by section 4491, Revised Statutes:

The Reliance Metallic Life Raft, presented by L. H. Raymond.

The Lunkenheimer Improved Pop Safety Valve.

The Board, under the authority conferred upon it by section 4429, Revised Statutes, approved coil and pipe boilers presented by the following-named persons and firms, when such boilers are constructed in all their parts of wrought iron, steel, or cast steel, in the manner as provided in the general rules of the Board:

C. R. Benton, Vergennes, Vt.

Baylies C. Clark, New York, N. Y.

J. F. Craig, Toledo, Ohio (Craig Water Tube Boilers, Nos. 1 and 2).

E. N. Drouillard, Wyandotte, Mich. (Drouillard Water Tube Boiler No. 1).

A. W. Finlayson, Detroit, Mich.

T. W. Godwin & Co., Norfolk, Va.

Samuel M. Gray, Providence, R. I.

Wm. H. Herbertson, Cadwalader, Pa.

L. W. Loomis, Carrollton, Ill.

Wm. H. C. Lyons, Philadelphia, Pa.

John Mohr & Sons, Chicago, Ill.

Wm. Oldman, Jr., Buffalo, N. Y. (horizontal and vertical boilers).

Geo. E. & Chas. A. Painter, Pittsburg, Pa.

Wm. E. Plummer, Jr., Buffalo, N. Y.

Joseph Provencher, East Providence, R. I.

J. B. Rives, St. Paul, Minn. (waterous boiler).

Rochester Machine Tool Works, Rochester, N. Y. (Buckley Patent Water Tube Pipe Boiler).

Isaac E. Shepardson, Providence, R. I.

R. Weston & A. M. Lemke, Saginaw, Mich.

Geo. L. Whittington, Sea Isle City, N. J.

Chas. P. Willard, Chicago, Ill.

Following is the text of the rules amended in part only, the parts stricken out inclosed in brackets [thus], while the additions to such paragraphs are printed in *italics*. Entirely new sections and paragraphs of sections are in plain type preceded by the word (new) in parentheses.

JAS. A. DUMONT,

Supervising Inspector General,

President of the Board of Supervising Inspectors of Steam Vessels.

Approved February 19, 1896.

S. WIKE,

Acting Secretary of the Treasury.

RULES.

RULE I.

Section 3. (Third paragraph new.)

To ascertain the tensile strength and other qualities of steel plate, there shall be taken from each sheet to be used in shell or other parts of boiler which are subject to tensile strain, a test piece prepared in form according to the following diagram :

The straight part in center shall be 9 inches in length and 1 inch in width, marked with light prick punch marks at distances 1 inch apart, as shown, spaced so as to give 8 inches in length.

The sample must show, when tested, an elongation of at least 25 per cent in a length of 2 inches, for thickness up to $\frac{1}{4}$ inch, inclusive; and in a length of 4 inches, for over $\frac{1}{4}$ to $\frac{7}{16}$, inclusive; in a length of 8 inches, for over $\frac{7}{16}$ to 1 inch, inclusive; and in a length of 6 inches, for all thickness over 1 inch.

The reduction of area shall be the same as called for by the rules of the Board. No plate shall contain more than .06 per cent of phosphorus, and .04 per cent of sulphur, to be determined by analysis by the manufacturers, verified by them, and copy furnished the inspector for each order tested; which analysis shall, if deemed expedient by the Supervising Inspector General, be verified by an outside test at the expense of the manufacturer of the plate.

It being further provided that said manufacturer shall also furnish a certificate with each order of steel to be tested, stating the technical process by which said steel was manufactured. It being further provided that steel manufactured by what is known as the Bessemer process shall not be allowed to be used in the construction of marine boilers. Plates over 1 inch in thickness may be reduced to 1 inch in the straight part for testing, in cases where the testing apparatus is not of sufficient capacity to test the full thickness of plate. The reduction of area and elongation must be equal to the requirement of full thickness of metal.

Provided, however, That where contracts for boilers for ocean-going steamers require a test of material in compliance with the British Board of Trade, British Lloyds, or Bureau Veritas rules for testing, the inspectors shall make the tests in compliance with the above rules. The samples shall also be capable of being bent to a curve of which the inner radius is not greater than one and a half times the thickness of the plates after having been heated uniformly to a low cherry red, and quenched in water of 82 degrees Fahrenheit. Such tests are to be made at the place of manufacture of the material, by a local or assistant inspector of the district in which such material is to be used, whenever possible. If, however, from distance or other sufficient reason,

the inspectors of the district are unable to make such tests, the Supervising Inspector General may direct a local or assistant inspector from another district to make them. In every case, however, the inspector making the tests shall stamp the initials of his name above the manufacturer's stamp on the plates, and also the letters "U. S. I.," with the initials or abbreviated signs of the name of the port to which the inspector making the tests belongs.

Provided always, That the plate possesses homogeneousness, toughness, and ability to withstand the effect of repeated heating and cooling; but should these tests prove any plate to be overstamped, such plate must be rejected as failing to have the strength stamped thereon. But nothing herein shall be so construed as to prevent the manufacturer from restamping such plate and all other plates in the lot at the lowest tensile strength indicated by the deficient sample, provided such restamping is done previous to the use of the plates in the manufacture of marine boilers. When more than one sample shall be tested from one sheet, the sample showing the lowest tensile strength shall be allowed as the tensile strength of the plate.

These amendments shall take effect on and after July 1, 1896.

Section 4. (First paragraph.)

4. The manufacturer of any boiler to be used for marine purposes shall furnish the inspectors of the district where such boiler or boilers are to be constructed a blue print or tracing descriptive of same for their approval, which shall be kept on file in their office. *Where more than one boiler is made from a similar design, a drawing of which is on file in the local inspector's office, if made at a different date, a reference to such drawing on file is all that shall be required.* The manufacturer shall also furnish the inspectors a written statement of the kind of material and size of rivets to be used in the construction of such boiler, and the size and pitch of the rivet holes in same, as well as an affidavit in the following form, subscribed to, either by himself or authorized agent having superintendence of the construction of such boilers.

RULE II.

Section 9. (New paragraph at end of section.)

Tubes, water pipes, and steam pipes, made of steel manufactured by the Bessemer process, shall not be allowed to be used in any marine boiler built from and [on or] after July 1, 1896; nor shall any tube increased in thickness by welding one tube inside of another be allowed for use after the above-named date.

Section 14. (Third paragraph amended.)

RIBBED FURNACE FLUES.

The strength of ribbed flues, when used for furnaces or steam chimneys (rib projections not less than $1\frac{3}{8}$ inches deep), and not more than 9 inches from center to center of ribs, and provided that the plain parts at ends do not exceed 9 inches, and constructed of plates not less than $\frac{7}{16}$ inch thick, with practically true circle; and

The strength of corrugated flue when used for furnace or steam chimney, corrugated by sections with flanged ends overlapping each other and riveted with $\frac{3}{4}$ -inch rivets, 2-inch pitch, corrugated projection not less than $2\frac{1}{2}$ inches from inside of flue to outside of lap, and not more than 18 inches between centers of corrugation, provided plain parts at ends do not exceed 12 inches in length, constructed of plates not less than $\frac{7}{16}$ inch thick, with practically true circles; and

The strength of ribbed flues when used for furnaces or steam chimneys, when made in sections of not less than 12 inches in length, measuring from center to center of said projections, and flanged to a depth not exceeding $2\frac{1}{2}$ inches, and substantially riveted together with wrought-iron rings between such flanges, and such rings have a thickness of not less than double the thickness

of the material in the flue and a depth of not less than $2\frac{1}{2}$ inches, when straight ends do not exceed 12 inches in length, shall, in each of the above cases, be calculated from the following formula:

C=14,000, a constant.
 T=thickness of flue in decimals of an inch.
 D=diameter of flue in inches.
 P=pressure of steam allowable.

$$\text{Formula: } P = \frac{C \times T}{D}.$$

Section 19. (Amended.)

All steamers [navigating rivers] having boilers externally heated shall have a clear space of not less than 6 inches between the boilers and woodwork on either side, and 4 inches on the top of said boilers.

Section 21. (New.)

21. All boilers hereafter placed in steamers shall have a clear space of at least 8 inches between the under side of the cylindrical shell and the floor or keelson.

All manholes for the shell of boilers over 40 inches in diameter shall have an opening not less than 11 by 15 inches in the clear, except that boilers 40 inches diameter of shell and under shall have an opening of not less than 9 by 15 inches in the clear in manholes.

Section 23. (Part in brackets transferred to section 38, Rule II.)

23. All boilers shall have a clear space at the back and ends thereof of 2 feet opposite the back connection door. [Slip joints in steam pipes shall, in their working parts, when the steamer is to be employed in navigating salt water, be made of copper or composition.] *Provided*, That on vessels constructed of iron or steel with metal bulkheads, the distance between back connection doors and such metal bulkheads shall not be less than 16 inches.

Section 38. (Third paragraph.)

On all boilers built after July 1, [1891,] 1896, a [flanged bronzed] *bronze*, or brass-seated stopcock or valve shall be attached to the boiler between all check valves and all steam and feed pipes and boilers, in order to facilitate access to connections.

Where such cocks or valves exceed $1\frac{1}{2}$ inches in diameter they must be flanged to boiler. The stop valves attached to main steam pipes may, however, be made of cast iron or other suitable material. *The date referred to above applies to this paragraph only.*

Section 38. (Transferred from section 23 to end section 38.)

Slip joints in steam pipes shall, in their working parts, when the steamer is to be employed in navigating salt water, be made of copper or composition.

RULE III.

Section 12. (First paragraph amended.)

12. Passenger steamers navigating oceans, northwestern lakes, bays, and sounds of the United States, excepting steamers under 100 gross tons hereinafter provided for, must be equipped with lifeboats in proportion to their tonnage as follows:

Steamers between 100 and 200 tons	2 boats.
Steamers between 200 and 300 tons	3 boats.
Steamers between 300 and 400 tons	4 boats.
Steamers between 400 and 500 tons	5 boats.
Steamers between 500 and 1,000 tons	6 boats.
Steamers between 1,000 and 1,500 tons	7 boats.
Steamers between 1,500 and 2,000 tons	8 boats.
Steamers between 2,000 and 2,500 tons	9 boats.
Steamers between 2,500 and 3,000 tons	10 boats.
Steamers between 3,000 and 3,500 tons	11 boats.
Steamers between 3,500 and 4,000 tons	12 boats.
Steamers between 4,000 and 5,000 tons	13 boats.
[Steamers of 5,000 tons and above	14 boats.]

Steamers above 5,000 tons burden shall be furnished with an additional boat of not less than 495 cubic feet capacity for each additional 500 tons burden or fraction thereof; or, if the owners or agents prefer, two boats may be used, provided the aggregate capacity shall be the same as the one boat described.

RULE V.

Section 2. (Amended as follows:)

The following-named grades of engineers are abolished, and struck out of the rules:

Chief engineer of condensing steamers under 100 tons.

Chief engineer of noncondensing steamers under 100 tons.

Chief engineer of canal steamers.

First assistant engineer of condensing steamers under 100 tons.

First assistant engineer of noncondensing steamers under 100 tons.

First assistant engineer of canal steamers.

Second assistant engineer of noncondensing river steamers.

Second assistant engineer of noncondensing freight, towing, and fishing steamers.

Second assistant engineer of condensing steamers under 100 tons.

Second assistant engineer of noncondensing steamers under 100 tons.

Third assistant engineer of noncondensing lake, bay, and sound steamers.

Third assistant engineer of condensing river steamers.

Third assistant engineer of noncondensing river steamers.

Third assistant engineer of noncondensing freight, towing, and fishing steamers.

The word "bay" is struck out of the grade.

Third assistant engineer of condensing lake, [bay,] and sound steamers.

Section 5. (Proviso amended.)

Provided, That any person who has served [as] a regular apprenticeship to the machinist trade in a marine-engine works for a period of not less than three years, and any person who has served for a period of not less than three years as a locomotive engineer, stationary engineer [regular machinist], or as an apprentice to the machinist trade in a locomotive or stationary-engine works, and any person who has graduated as a mechanical engineer from a duly recognized school of technology, may be licensed to serve as an engineer on steam vessels after having had not less than one year's experience in the engine department of [a] steam [vessel] vessels, which experience must have been obtained [within two years preceding the application] either within one year before or one year subsequent to the acquisition of the skilled knowledge above mentioned, (which fact must be verified by the certificate in writing of the licensed engineer or master under whom the applicant has served, said certificate to be filed with the application of the candidate); and no person shall receive license as above, except for special license, who is not able to determine the weight necessary to be placed on the lever of a safety valve (the diameter of valve, length of lever, distance from center of valve to [and] fulcrum, weight of lever, and weight of valve and stem being known) to withstand any given pressure of steam in a boiler, or who is not able to figure and determine the strain brought on the braces of a boiler with a given pressure of steam, the position and distance apart of braces being known, such knowledge to be determined by an examination in writing and the report of examination filed with the application in the office of the local inspectors, and no engineer or assistant engineer now holding a license shall have the grade of the same raised without possessing the above qualifications.

Section 10. (Third paragraph.)

In case of original or renewal of any license of any master or pilot who has not been examined for color blindness, and who is living at [an inconvenient] a distance of one hundred miles or

more from a surgeon of the Marine-Hospital Service, he may be examined for color blindness by any respectable physician residing in the same town or locality with said applicant; [who (the physician)] and the physician shall furnish a *duplicate* report of the examination made upon the regulation blanks [which shall be in duplicate], one *copy* of which shall be furnished the applicant and the other sent [by mail] to the local inspectors of steam vessels [, to which application shall be made for a] *to whom the applicant shall apply for such original or renewal of license.*

Section 14. (Proviso in third paragraph.)

Provided, however, that applicants for original license to act as master or mate of *steam pilot boats, or of steamers engaged in the Atlantic, Pacific, or Gulf coast* [menhaden] fisheries, shall only be subjected to such examination as shall satisfy the inspectors that the applicant is a competent coast pilot, capable of navigating such [fishing] steamers.

RULE IX.

Section 2.

2. It shall be the duty of the inspectors jointly, before granting a certificate of inspection, to thoroughly test the fire apparatus of steamers, and to examine carefully all pumps, hose, lifeboats, and other equipments required by law, and to see that the *glass of colored signal lights* [are] *is* in no case less than 6 inches [diameter] *in width* and [6] 5 inches high *in the clear.*

Section 5.

5. It shall be the duty of the supervising inspectors to inform their respective local boards, in writing, of their decisions in cases of appeal. *Supervising inspectors granting license to a vessel engaged in towing, to carry persons in addition to its crew* [under the act], *approved July 9, 1886,* shall notify the local inspectors in whose jurisdiction the steamer receiving the permit is engaged. *The local inspectors shall keep a record of the same.*

(No change in remainder of section.)

INSPECTION OF MEATS EXPORTED.

1896.
Department Circular No. 32.
Bureau of Navigation.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 28, 1896.

To Collectors of Customs and others:

Attention is invited to the order of the Department of Agriculture, appended hereto, dated the 25th instant, relative to certificates of inspection of meats exported from the United States, and especially to that portion which directs that the order shall not be enforced until July 1, 1896.

S. WIKE,
Acting Secretary.

Order Postponing the Certification of Export Beef to July 1, 1896.

U. S. DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,
Washington, D. C., February 25, 1896.

WHEREAS, Section 2 of the Act of Congress approved March 3, 1891, as amended in the Act approved March 2, 1895, provides as follows:

“SECTION 2. That the Secretary of Agriculture shall also cause to be made a careful inspection of all live cattle, the meat of which, fresh, salted, canned, corned, packed, cured, or otherwise prepared, is intended for exportation to any foreign country, at such times and places, and in such manner as he may think proper, with a view to ascertain whether said cattle are free from disease, and their meat sound and wholesome, and may appoint inspectors who shall be authorized to give an official certificate clearly stating the condition in which such cattle and meat are found, and no clearance shall be given to any vessel having on board any fresh, salted, canned, corned, or packed beef being the meat of cattle killed after the passage of this act for exportation to and sale in a foreign country from any port in the United States until the owner or shipper shall obtain from an inspector appointed under the provision of this act a certificate that said cattle were free from disease, and that their meat is sound and wholesome;”

It is ordered, That all beef offered for exportation, whether fresh, salted, canned, corned, or packed, shall be accompanied by a certificate of an inspector of this Department showing that the cattle from which it was produced were free from disease, and that the meat was sound and wholesome. And in order that it may be determined whether all beef exported has been so inspected and found free from disease and wholesome, it is further ordered that the meat of all other species of animals which is packed in barrels, cases, or other packages, shall be legibly marked in such manner as to clearly indicate the species of animals from which the meat was produced. Meat which is not so marked, and which is not accompanied by a certificate of inspection, will be subject to unpacking and examination in order to ascertain if it is uninspected beef.

Notice is hereby given to exporters of beef, whether said beef is fresh, salted, canned, corned, packed, or otherwise prepared, and to owners and agents of vessels upon which said beef is exported, that no clearance can be given to any vessel having on board said beef until the provisions of this order are complied with.

As it has been found impossible to establish inspection prior to March 1, 1896, at all points where beef is prepared and packed for the export trade, and as legislation is now pending modifying the requirement for certificates with all exported beef, it is directed that this order shall not be enforced until July 1, 1896.

All orders and regulations of this Department inconsistent with this order are hereby revoked.

J. STERLING MORTON,
Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 33.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 27, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending February 15, 1896.

CHARLES S. HAMLIN,
Assistant Secretary.

REPORT ON REAPPRAISEMENTS FOR THE WEEK ENDING FEBRUARY 15, 1896.

N. B.—In corresponding with the Board of General Appraisers relative to any of the items in this report, reference should always be made to the number of Reappraisement.

No. of Reappraisement.

- 10874.....Colored cotton corduroy, from Thomas Barnes & Co., Ltd., Manchester, January 6, 1896:
27" tan, cream and white cotton whipcord, entered at 11d. sterling per yard, less measurement $\frac{3}{8}$, discount 5 per cent, advanced by addition of 2½ per cent, commission added on invoice, but deducted on entry. Add tickets, boxes, and packing.
- 10657.....Cotton netting and cotton lace curtains, from B. Walker & Co., Ltd., Nottingham, November 29, 1895:
68/356, ivory, cotton Hamburg net, 50", entered at 3½d., advanced to 4d. sterling per yard.
3629, 3927, white and écreu curtains, 48", 3½ yards, entered at 2s. 3d., advanced to 2s. 4d. sterling per pair.
2929, white curtains, 50", 3½ yards, entered at 1s. 11d., advanced to 2s. 1d. sterling per pair.
3781, écreu and white curtains, 48", 3½ yards, entered at 2s. 3d., advanced to 2s. 4d. sterling per pair.
Discount, 2½ per cent.
- 10901.....Colored cotton, decorated china, etc., from Kwong Lung Shing, Hongkong, November 25, 1895:
Japan cloth entered at .30, advanced to .60 Mexican dollar per piece.
Tea pot with basket, entered at 4.25, advanced to 6 Mexican dollars per box of 30 pieces.
Add packing charges.

- 10341.....*Cotton wearing apparel*, from Rhenish Corset Manufacturing Company, Ltd., Cologne,
October 26, 1895 :
 - Style 102/33, boned with horn, entered at 25, advanced to 45 marks per dozen.
 - 401/33, boned with whalebone, entered at 58.50, advanced to 60 marks per dozen.
 - 301/33, boned with whalebone, entered at 36, advanced to 50 marks per dozen.
- 10886.*Colored cotton*, from Weiss-Fries & Co., Mulhouse, January 9, 1896 :
 - Caile a Vaile 80 cm., serie 1, entered at .73, advanced to .80 mark per meter.
 - Caile a Vaile 80 cm., serie 2, entered at .77, advanced to .92 mark per meter.
 - Cretonne, entered at .69, advanced to .71 mark per meter.
 - Add cases.
- 10911.....*Cotton laces, etc.*, from Said Tourbah, Beirut, October 8, 1895 :
 - Trimmings entered at 69, advanced to 75 piastres per oke. Add cases, packing, etc.
- 10035.....*Bleached and colored cotton*, from Tootal Broadhurst Lee Company, Ltd., Manchester,
October 15, 1895 :
 - 308, 31" fancy piqué, entered at 7½d., advanced to 8½d. sterling per yard.
 - 1875, 27" fancy piqué, entered at 6½d., advanced to 7d. sterling per yard.
 - 145 F. 33" stripe piqué, entered at 9½d., advanced to 11d. sterling per yard.
 - 145 G. 32/3" check piqué, entered at 9½d., advanced to 11d. sterling per yard.
 - Discount on entered prices 3 per cent. Advanced prices net. Add cases, etc.
- 10825, 10857..... } *Manufactures of wool and cotton*, from Simon Israel & Co., Bradford, December 12 and 19,
10848, etc. } 1895, and January 2, 6, and 9, 1896 :
 - 56" black worsted coatings, entered at 1s. 3d., advanced to 1s. 5d. sterling per yard.
 - Discounts, 2½ and 1½ per cent. Add cases, shooks, and linings.
 - 56" black union cloakings, entered at 1s. 2½d., advanced to 1s. 5d. sterling per yard.
 - Discounts, 2½ per cent and 1½ per cent. Add cases, etc.
- 10623.....*Mirrors*, from Wehrle & Co., November 29, 1895 :
 - 4½" diameter, ¾ white, round, entered at 2.84, advanced to 3 marks per dozen.
 - 4½ x 4½ double schack clover leaf, No. 109, entered at 2.58, advanced to 2.60 marks per dozen.
 - 3½ x 2½ double schack crescent, 27 P., entered at 1.30 marks per dozen. No advance.
 - 3½ x 3½ double schack heart, No. 33, entered at 1.34, advanced to 1.40 marks per dozen.
 - 5½ x 3½ white, oval, entered at 1.70, advanced to 2 marks per dozen.
 - 4½ x 3½ white, round corner, entered at 1.83, advanced to 2 marks per dozen.
 - 4½ x 1½ double shack round corner, entered at .71, advanced to .78 mark per dozen.
 - 3½ x 1½ white, round corner, entered at .80, advanced to .90 mark per dozen.
 - 4½ x 2½ white, round corner, entered at 1.62, advanced to 1.70 marks per dozen.
 - 4½ x 2½ double shack, round corner, entered at .95, advanced to 1 mark per meter.
 - 3½ x 2½ white, round corner, entered at 1.05, advanced to 1.15 marks per dozen.
- 10867, 10925.....*Alcoholic perfumery, etc.*, from Lecaron Fils, Paris, January 8, 1896 :
 - Entered discounts, 15 per cent and 10 per cent, advanced discount, 20 per cent.
- 10897.....*Metallic pins*, from Joh. Casp. & With Rumpe, Burtscheid, December 30, 1895 :
 - Mourning pins, entered at a discount of 6 per cent, discount disallowed.
- 10766.....*Manufactures of silk and cotton (ribbon)*, from Th. Schelling & Co., St. Etienne, December
24, 1895 :
 - 9 m No. 12736 faconné 36", entered at 11, advanced to 14.07 francs per piece of 15
meters.

- 10766.....*Manufactures of silk and cotton (ribbon), etc.—Continued.*
 9 m No. 12737 faconné 62", entered at 8.30, advanced to 11.96 francs per piece of 15 meters.
 9 m No. 12737 faconné 46", entered at 7, advanced to 11.45 francs per piece of 15 meters.
 Bonification, 40 per cent. Discounts, 20 per cent and 2 per cent.
- 10904.....*Manufactures of wool and cotton (black beaver), from Ferdinand Heilborn & Co., Bradford, January 15, 1896:*
 No. 337, 54" black beaver, entered at 1s. 5½d., advanced to 1s. 5.76d. sterling per yard.
 Less measure, $\frac{1}{37}$. Discount, 5 per cent. Add making up and packing.
- 10746, 10803.....*Manufactures of wool, from Lummer, Bach & Ramminger, Gera, December 9, 1895:*
 130 cm., mantle dress goods, colored, 2178 and 1999, entered at 2.90, advanced to 3.15 marks per meter.
 130 cm., mantle dress goods, colored, 3109, entered at 2.50, advanced to 2.75 marks per meter.
 Add cases, packing, and cost of making up.
- 10862.....*Wool dress goods, from Carl Gunther & Co., Plauen, December 30, 1895:*
 100 cm., piece dyed, 283, black, entered at .82, advanced to .95 mark per meter. Add case and packing.
- 10688.....*Wool dress goods, from Schulze & Son, Greiz, December 5, 1895:*
 104 cm., perle, 645, entered at .70, advanced to .92 mark per meter.
 115 cm., mosaic, 688-692, entered at 1.29, advanced to 1.58 marks per meter.
 Discount, 8 per cent. Add packing.
- 10883.....*Manufactures of cotton, N. E., from R. Isaacs & Bro., Hiogo, August 24, 1895:*
 Gold stamped cotton crape Tukusas, 27" x 27", style 5770 $\frac{1}{10}$, entered at .11 silver yen per piece. No advance. Add packing, boxes, etc.
- 10850.....*Sal ammoniac, from Dr. Schaeffer, Charlottenberg, December 23, 1895:*
 Entered at 42.85½, add casks, advanced to 50 marks per 100 kilos, packed.
- 10906.....*Leather shoes, sugar, and prepared vegetables, from Say Zing Chong, Kongkong, December 5, 1895:*
 Straw shoes, entered at .08 Mexican dollar per pair. No advance.
 Brown sugar, entered at .03, advanced to .0426 Mexican dollar.
 Salted cabbage, entered at 1 Mexican dollar per jar. No advance.
- 10839.....*Sugar not above 16 D. S., from Dubois & Co., Matanzas, December 20, 1895:*
 Testing 93.46°, entered at \$0.02½, advanced to \$0.0232, United States gold, per pound, packed.
 Testing 92.88°, entered at \$0.02 $\frac{7}{16}$, advanced to \$0.02283, United States gold, per pound, packed.
 Testing 94.05°, entered at \$0.02½, advanced to \$0.02356, United States gold, per pound, packed.
 Testing 92.95°, entered at \$0.02 $\frac{5}{16}$, advanced to \$0.02287, United States gold, per pound, packed.
 From entered prices deduct freight and N. D. charges.
- 10713.....*Manufactures of wood and metal, from D. Rahaim, Paris, December 18, 1895:*
 Chapelets en bois 5, entered at 16, advanced to 17 francs per gross.
 Chapelets lustres, 493, entered at 14, advanced to 15 francs per gross.

10713..... *Manufactures of wood and metal, etc.*—Continued.

Ronds de serviettes en bois, entered at 32.45, advanced to 34.46 francs per gross.

Medailles en cuivre, 4, entered at 1.15, advanced to 1.25 francs per gross.

Statuettes St. Jos. zinc., entered at 5, advanced 5.50 francs per gross.

Add cases.

§875..... *Looking glass plates and polished cylinder glass, beveled, etc., from Schren & Co., Fuerth, July 11, 1895:*

48 x 20, beveled, unsilvered, entered at 7.94, advanced to 9.94 marks per piece, less inland freight.

10889, 10890..... *Manufactures of flax, from Carl Siegl Sen, Schouberg, December 17, 1895:*

No. 250, prima sheeting linen, entered at 38, advanced to 57 florins per piece of 44 yards.

No. 260, prima sheeting linen, entered at 42, advanced to 63 florins per piece of 44 yards.

22½/36, No. 40, hemstitched pillow cases, entered at 5, advanced to 7.50 florins per dozen.

22½/36, No. 50, hemstitched pillow cases, entered at 5.50, advanced to 8.25 florins per dozen.

25/36, No. 40, hemstitched pillow cases, entered at 5.40, advanced to 8.10 florins per dozen.

27/36, No. 40, hemstitched pillow cases, entered at 5.80, advanced to 8.70 florins per dozen.

Entered discount, 6 per cent. Advanced discount, 2 per cent.

10880..... *Manufactures of flax, from Wm. Meyer & Co., St. Gall, December 30, 1895:*

Dotted swisses, woven, 30" union linen, entered at 18.40, advanced to 19.20 francs per piece of 20½ yards.

Dotted swisses, woven, 30" union linen, entered at 18, advanced to 18.80 francs per piece of 20½ yards.

Add boxes.

10568, 10861, } *Cotton hose, from Robert Herfurth, Chemnitz, November 21, 29, 30; December 14 and 31,*
etc } 1895:

Advances up to 9 per cent.

2798 O. P.... } *Princess alpaca, from E. G. Williams & Co., Bradford, January 6, 1896:*
Philadelphia... }

32", patt. 5, princess alpaca, 470-119 P. F. 8, black, entered at 13d., advanced to 13½d. sterling per yard.

Discount, 6 per cent.

EXAMINATION OF TOBACCO.

1896.
Department Circular No. 34.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., February 28, 1896.

To Collectors and Other Officers of the Customs:

In order to secure a more conclusive examination and appraisalment of imported tobacco, Officers of Customs are hereby instructed that whenever the examination of any portion of any lot of tobacco covered by an invoice, discloses the existence in one bale of both "filler" and "wrapper" tobacco, all the packages in such lot should be subjected to examination in order to determine the exact nature of the merchandise. If the examination of the usual number ordered for examination indicates that the contents are of one kind, *i. e.* either filler or wrapper, as set forth in the invoice, the goods may be passed as correct.

Tobacco in the transient condition of "sweat" should be subjected to a brief exposure to the air before examination.

As a general rule the Department holds that at least twenty-five per cent of every invoice should be ordered for examination.

CHARLES S. HAMLIN,
Assistant Secretary.

REPORTS OF APPRAISING OFFICERS REGARDING VALUES STATED IN CONSULAR
INVOICES.

1896.

Department Circular No. 35.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., March 2, 1896.

To Appraisers and Acting Appraisers of Merchandise:

In order that Consular officers may be apprised of the advantages to the revenue which shall have resulted, in any case, from information conveyed by their notations upon certified invoices, appraising officers of customs are hereby instructed to report to the Department the conclusions reached regarding the appraisement of any merchandise which is covered by a certified invoice on which the Consul has made annotations calling attention to apparent discrepancies between the value named in such invoice and that prevailing in the country of exportation.

These reports will be duly transmitted by this Department to the Honorable Secretary of State for the information of the Consuls.

CHARLES S. HAMLIN,

Assistant Secretary.

7-36

REAPPRAISEMENT PROCEEDINGS.

1896.
Department Circular No. 36.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 29, 1896.

To Collectors of Customs :

Section 13 of the act of June 10, 1890 provides that whenever the importer, owner, agent, or consignee of imported merchandise shall be dissatisfied with the appraisement thereof as made by the local appraiser, and shall have complied with the requirements of law with respect to the entry and appraisement of merchandise, "he may, within two days thereafter give notice to the Collector, in writing, of such dissatisfaction, on the receipt of which the Collector shall at once direct a reappraisement of such merchandise by one of the general appraisers."

The last clause of article 847 is hereby amended, so as to read as follows :

"Collectors and acting collectors of customs shall, upon request of the General Appraisers, notify importers of the time and place appointed for the hearing of any reappraisement case, in which they respectively shall be interested, and such collectors, as well as the local appraisers and special agents of the Department, shall cooperate to aid the Board of General Appraisers in the preparation of cases by securing witnesses and furnishing all attainable evidence in support of the Government's contention.

Whenever a valuation has been determined, the General Appraiser shall report the same to the chief officer of customs."

It is intended by this amended regulation to avoid delays such as have occurred in many cases on account of the failure of importers and witnesses to appear at hearings before the Board.

CHARLES S. HAMLIN,
Assistant Secretary.

FREE ENTRY OF DOMESTIC PRODUCTS EXPORTED AND RETURNED.

1896.
Department Circular No. 37.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., February 28, 1896.

To Collectors and Other Officers of the Customs:

Paragraph 387 of the act of August 28, 1894, provides as follows:

"Articles the growth, produce, and manufacture of the United States, when returned after having been exported, without having been advanced in value or improved in condition by any process of manufacture or other means; casks, barrels, carboys, bags, and other vessels of American manufacture exported filled with American products, or exported empty and returned filled with foreign products, including shooks when returned as barrels or boxes; also quicksilver flasks or bottles, of either domestic or foreign manufacture, which shall have been actually exported from the United States; but proof of the identity of such articles shall be made, under general regulations to be prescribed by the Secretary of the Treasury, but the exemption of bags from duty shall apply only to such domestic bags as may be imported by the exporter thereof, and if any such articles are subject to internal tax at the time of exportation such tax shall be proved to have been paid before exportation and not refunded: *Provided*, That this paragraph shall not apply to any article upon which an allowance of drawback has been made, the reimportation of which is hereby prohibited except upon payment of duties equal to the drawbacks allowed; or to any article manufactured in bonded warehouse and exported under said provision of law: *And provided further*, That when manufactured tobacco which has been exported without payment of internal-revenue tax shall be reimported it shall be retained in the custody of the collector of customs until internal-revenue stamps in payment of the legal duties shall be placed thereon."

This provision is a reproduction of paragraph 482 of the act of October 1, 1890, with the addition of the words "but the exemption of bags from duty shall only apply to such domestic bags as may be imported by the exporter thereof."

Exportations under this provision of law must be bona fide and not for the purpose of evading any revenue law.

Merchandise, the growth, produce, or manufacture of the United States, ostensibly exported to ports in Canada in foreign vessels, but really shipped from one place in the United States to another by routes part water and part rail, and passing through foreign territory, are not bona fide exportations, and the merchandise is not entitled to free entry on importation.

Entries of merchandise returned to the port of original exportation, must show the fact of regular clearance for a foreign destination by the records of the customs, and by the declaration of the person making the entry. But when the reimportation is made into a port other than that of original exportation, there shall be required, in addition to the declaration, a certificate from the collector and the naval officer, if any, of the port where the exportation was made, showing the fact of exportation from that port. If the importation be made within one year after the date of exportation, the collector shall require the importer to make affidavit to the fact that such exportation was made by him in good faith.

CAT. NO. 594.

Oath for return of American products exported.

I, _____, do solemnly, sincerely, and truly swear (or affirm) that the several articles of merchandise mentioned in the entry hereto annexed are, to the best of my knowledge and belief, truly and bona fide of the growth (or production or manufacture) of the United States; that they were truly exported and imported as therein expressed; that they are returned without having been advanced in value or improved in condition by any process of manufacture or other means, and that no drawback, bounty or allowance has been paid or admitted thereon, or on any part thereof.

Port of _____,
Sworn to this _____ day of _____, 18—,
_____, Collector.

CAT. No. 773.

Certificate of exportation of domestic commodities.

District of _____, Port of _____, _____, 18—.

This is to certify that there were cleared from this port on the _____, in the _____, whereof _____, was master, for _____, the following articles of merchandise (here enumerate the number of packages, their denomination, marks, numbers, and contents) on which no drawback, allowance, or bounty has been paid or admitted.

[SEAL.]
[SEAL.]

_____, Collector.
_____, Naval Officer.

If such certificate can not at once be procured, and the proof otherwise required be produced, free entry will be permitted on bond (Cat. No. 596) being given for the production of the certificate in a sum equal to what the duties would be if it were foreign merchandise.

To guard against fraud, and to insure identity, the collector shall require in addition to proof of clearance, the production of a declaration made by the foreign exporter of the goods before the United States Consul, of the fact that the merchandise was imported from the United States, and that it has not been advanced in value nor improved in condition by any process of manufacture or other means. But if it be impracticable to produce such declaration at the time of making entry, bond may be given for the production thereof. (Synopsis, 14653.)

Collectors, with concurrence of naval officers, if any, may waive the record evidence of clearance and above declaration, and in lieu thereof accept other satisfactory evidence of exportation, in the case of domestic goods on which no drawback has been allowed, valued at not over \$100, if satisfied that the failure to produce the record evidence did not result from wilful negligence on the part of the importers.

In default of observance of the foregoing requirements, imported merchandise will be treated as foreign.

Should it appear that any internal-revenue tax was remitted or refunded by way of drawback, on the original exportation of any articles of the growth, manufacture, or product of the United States, a duty must be exacted upon their return equal in amount to the tax imposed by the internal-revenue laws upon such articles at the time of their reimportation, but all articles manufactured in bonded warehouse are subject to duty, on reimportation, as foreign merchandise, and all articles on which drawback was made are liable to a duty equal to the drawback allowed.

The following oath will be required in all cases of importations of bags claimed to be of domestic origin:

Oath for return of American bags exported.

I, _____, importer of the bags described in the entry herewith, do solemnly, sincerely, and truly swear (or affirm) that said bags are of domestic production; were shipped by me per the _____ to _____ on the _____ day of _____, 18-, ⁽¹⁾ _____; that the identical bags are now returned by me per the _____ ⁽²⁾ _____, bearing marks _____; that the same have not been advanced in value or improved in condition while abroad; that they are not baled with any bags of foreign origin, and that no drawback was paid to me on the exportation thereof as aforesaid.

Sworn to before me this _____ day of _____, 18-.

⁽¹⁾ State whether empty or filled with _____.

⁽²⁾ State whether empty or filled with _____.

It is desirable that as a means of easy identification ineffaceable marks should be placed upon all exported domestic bags, facsimiles of which should appear on the certificate of exportation (Synopsis 14912).

Duties voluntarily paid on returned American goods can not be refunded in the absence of a timely protest under section 14 of the act of June 10, 1890, as the only importations exempted from protest by section 1 of the act of March 3, 1875 (18th Statutes, p. 469), are personal and household effects and other articles not merchandise, and article 353 of the Regulations of 1892 applying only to goods brought in as personal or household effects or passenger's baggage.

ADMISSION OF CANDIDATES TO THE GRADE OF CADET IN THE REVENUE CUTTER
SERVICE OF THE UNITED STATES.

1896.

Department Circular No. 38.

Division of Revenue Cutter Service, No. 65.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., March 4, 1896.

Candidates for admission to the grade of Cadet in the Revenue Cutter Service will be subjected to the examination prescribed in Department Circular No. 194, dated December 13, 1894, the standard of proficiency under which is fixed at 75 out of a possible 100, except as follows:

Candidates who have served at sea for a period of two years, or as deck officers of sea-going ships of the United States Merchant Marine and are still within the age limit, will not be required to make a general average in the examination of more than 60 out of a possible 100.

Such candidates must produce evidence of sea service from the masters of merchant vessels with whom they have served, or certificates of competency from shipmaster's associations.

In all cases testimonials of good moral character and deportment must be produced to the Department before a designation for examination will be made.

Department Circular No. 194 is hereby amended to fix the age limit of the candidate at twenty-five years, to conform to the Act of Congress of July 31, 1876, establishing such cadetships.

S. WIKE,

Acting Secretary.

EXAMINATION OF APPLICANTS FOR THE POSITION OF SECOND ASSISTANT ENGINEER
IN THE UNITED STATES REVENUE CUTTER SERVICE.

1896.

Department Circular No. 39.
Division Revenue Cutter Service, No. 64.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., March 4, 1896.

The following rules and regulations governing the admission of candidates to the grade of Second Assistant Engineer in the Revenue Cutter Service of the United States, are published for the information of all concerned :

1. No person will be examined for, or appointed to, the grade of Second Assistant Engineer in said Service, who is not a citizen of the United States.

2. Candidates must not be less than 21, nor more than 28 years of age, and must be of vigorous constitution, physically sound and well-formed, and not less than 5 feet 3 inches in height.

The application for examination must be in the handwriting of the applicant and addressed to the Secretary of the Treasury. It must state the date and place of birth, and the State of which a resident. If the applicant be of foreign birth it must be shown that he is a citizen of the United States.

3. The application must be accompanied with satisfactory evidence of the good moral character and correct habits of the applicant, and certificates showing his practical experience either in a machine shop, technical institution, or in the engine room of a steamer, as required by paragraph 4.

4. To be eligible for examination, a candidate must have had not less than eighteen months' experience in a machine shop, or responsible charge of a steam engine for that length of time; or, if a graduate of a technical institution, he must present a certificate from the president of such institution showing that he has taken the full four years' course in mechanical engineering.

5. A candidate who has fulfilled either one of the above requirements may, upon successfully passing the physical and professional examinations required, be appointed an Acting Second Assistant Engineer, for a probationary period of six months. Should he, at the expiration of that time, have shown progressive efficiency and ability to perform his duties *at sea*, he will be eligible for the position of Second Assistant Engineer, without further examination. A candidate who, in addition to fulfilling either of the above requirements, has had not less than six months' experience in charge of, or assisting in the care and management of the steam machinery of a *sea-going vessel in actual service*, may, upon successfully passing the physical and professional examinations, be commissioned a Second Assistant Engineer.

6. Candidates will be required to pass a satisfactory examination as to their physical qualifications before a board of medical officers, to be designated by the Secretary of the Treasury. The physical examination will precede the professional, and should the candidate be found physically disqualified he will be examined no further.

7. Candidates having been found physically qualified, will be examined professionally by a board of

engineer officers of the Revenue Cutter Service, in the following subjects, the questions and answers all being written :

- (a) Grammar, spelling, punctuation, composition, penmanship ;
- (b) Statement of shop and engineering experiences ;
- (c) Elementary mathematics, including arithmetic, algebra, geometry, trigonometry, and use of logarithms ;
- (d) Elementary mechanics and physics, including mechanical powers, friction, laws of falling bodies, force, work, etc. ;
- (e) Practical problems connected with steam engineering, such as calculation of loss by blowing off, gain by use of heaters ; amount of condensing water required, safety-valve problems, etc. ;
- (f) Incrustation and corrosion in marine boilers, and problems connected with combustion ;
- (g) Marine boilers, description of various types with their advantages and disadvantages, repairs to same, practical management of boilers, and discussion of accidents and difficulties such as foaming, back draft, etc. ;
- (h) Heat, steam, theory of expansion, use of steam ;
- (i) The steam-engine indicator, interpretation of diagrams therefrom, calculation of horsepower and evaporation from diagrams ;
- (j) Marine engines, description of the various types, including those used with paddle wheels, with advantages and disadvantages, special attention being given to multiple expansion engines, practical questions relative to care and manipulation of engines, overhauling and repairs, alignments, etc. ;
- (k) Valves and valve gears as applied to marine engines, including those used on side-wheel steamers, but with special attention to modern types used with propeller engines ;
- (l) Condenser, pumps, steam gauges ;
- (m) Strength of materials, including simple problems in proportions of marine engines and boilers. Inspection of materials.
- (n) Screw propellers. Description of common types. Definitions and simple problems connected therewith.

8. The professional examination will be competitive, and all candidates who pass the minimum standard required will be placed upon the list eligible for appointment in the order of proficiency exhibited by them, respectively, in the examination. From this list appointments will be made in regular order, as vacancies occur, until another examination is held.

9. The standard of proficiency has been fixed at 75 per cent, and candidates failing to obtain that average will be rejected. They may, however, if otherwise qualified, take a second examination at the next convening of the board of examiners. Failing in two examinations will result in the final rejection of the candidate.

10. No person will be originally appointed to a higher grade than second assistant engineer.

11. Any person producing a false certificate of age, time of service, character, or making a false statement to the board of examiners, shall be disqualified for appointment.

12. Any person who, subsequent to his examination, may become disqualified from moral considerations, will not be appointed.

13. All correspondence with reference to the provisions of this circular should be addressed to the Secretary of the Treasury, Washington, D. C.

S. WIKE,
Acting Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.

Department Circular No. 40.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., March 6, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending February 22, 1896.

W. E. CURTIS,
Assistant Secretary.

REPORT ON REAPPRAISEMENTS FOR THE WEEK ENDING FEBRUARY 22, 1896.

N. B.—In corresponding with the Board of General Appraisers relative to any of the items in this report, reference should always be made to the number of Reappraisement.

No. of reappraisement.

- 10997, 11014.....*Sulphate of ammonia*, from Bradbury & Hirsch, Liverpool, January 17, 1896 :
Entered at £8 2s. 6d. sterling per ton. Add bags at 7s. 6d. per ton. No advance.
Entered at £8 1s. 3d. sterling per ton. Add bags at 7s. 6d. per ton. No advance.
- 11013.....*Sulphate of ammonia*, from Peter R. McTwie & Son, Liverpool, January 21, 1896 :
Entered at £8 5s. 4½d. sterling per ton. Add bags at 2s. 9d. per ton, and bagging at 7½d. per ton. No advance.
- 10863.....*Chemical salt*, from R. W. Greeff & Co., London, December 21, 1895 :
Nitrate of baryta powder, entered at £15 5s., advanced to £16 10s. sterling per ton.
Discount, 2½ per cent.
- 10993.....*Chemical salt*, from E. Stobwasson, London, January 23, 1896 :
Prussiate soda, entered at 5½d. sterling per pound. No advance. Add casks at 5s. 6d. per cask.
- 11005.....*Manufactures of wool*, from Lummary, Bach & Ramming, Gera, January 15, 1896 :
130 cm., mantle dress goods, colored, 2181, entered at 2.90, advanced to 3.15 marks per meter.
130 cm., mantle dress goods, colored, 3112 and 3110, entered at 2.50, advanced to 2.75 marks per meter.
- 11006.....*Manufactures of wool and cotton*, from Simon Israel & Co., Bradford, January 7, 1896 :
Black worsted coating, 56", entered at 1s. 3d., advanced to 1s. 5d. sterling per yard.
Discounts, 2½ per cent and 1½ per cent. Add making up and packing.

- 10712..... *Wool dress goods*, from ———, Greiz, December 13, 1895:
Crépon sup., black, entered at 1.62, advanced to 1.80 marks per meter. Add packing charges.
- 10989..... *Manufactures of wool*, from Franz Bar & Becker, Ronneburg, January 11, 1896:
128/30 cm., woolens, 3468, black, entered at 2.35 marks per meter. Discount, 8 per cent. No advance.
128/30 cm., woolens, 3462, blue, entered at 1.90 marks per meter. Discount, 8 per cent. No advance.
- 10507, 10882..... *Colors in tubes*, from A. Lacroix, Paris, December 4 and 8, 1895:
No. 1 colors, vitrifiable, in tubes, and new colors, vitrifiable, entered at a discount of 40 per cent, advanced discount 36 per cent.
Gold colors, vitrifiable, entered at 33½ per cent, advanced to a discount of 32 per cent. Add cases.
- 10859, 10991..... *Cotton and chip braids for hats*, from Paul Walser & Co., Wohlen, November 20, 1895, and January 15, 1896:
Advanced by disallowance of part of amount deducted on entry as freight to New York.
- 10990..... *Manufactured articles, N. E.*, from Glaenzer & Co., Paris, January 15, 1896:
Quill toothpicks, 3, entered at .95, advanced to 1.13 francs per package. Discount, 2 per cent.
- 10939..... *Decorated china*, from Hertwig & Co., Katzhutte, December 17, 1895:
Entered at discounts of 15, 10, and 3 per cent, advanced discounts, 15 and 3 per cent.
- 10978..... *Manufactures of cotton, n. s. p. f.*, from V. Coyer Durand & Callon, Paris, January 15, 1896:
No. 111, mulle cotton, 2/3, entered at 1, advanced to 1.12 francs per meter.
No. 112, mulle cotton, 2/3, entered at 1, advanced to 1.20 francs per meter.
Discount, 6 per cent. Add case and packing.
- 10459..... *Manufactures of cotton, N. E.*, from Mendelson Bros., Yokohama, November 5, 1895:
52' cotton table covers, entered at 8, advanced to 8.40 silver yen per dozen.
- 10864..... *Manufactured articles*, from Typke & King, London, January 10, 1896:
Factice, entered at 4d. sterling per pound. No advance.
- 10988..... *Manufactures of wood and metal*, from Salim & Monkarzel, Paris, January 22, 1896:
Chapelets cuivre, entered at 15, advanced to 17 francs per gross.
Chapelets lustres petit, entered at 11.80, advanced to 12 francs per gross.
Add case.
- 10854..... *Bronze powder*, from Adam Riessner, Nuremberg, December 23, 1895:
Brocade, 2a and 3a, entered at .85, advanced to .89 mark per pound.
Brocade, 2c, entered at .71, advanced to .74 mark per pound.
Brocade, 3b, entered at .82, advanced to .84 mark per pound.
Aluminum, L 1½, entered at 2.93, advanced to 2.99 marks per English pound.
Aluminum, L 1½, entered at 2.83, advanced to 2.89 marks per English pound.
Add boxes.
- 11042..... *Lemon and orange boxes*, from F. Tagliavia, Palermo, December 9, 1895:
2½ cubic feet, entered at .80, advanced to .90 lira per box.
- 10844..... *Orange boxes*, from Leeman & Maas, Liverpool, January 4, 1896:
3¾ cubic feet, entered 1s., advanced to 1s. 2d. sterling per box.
5¾ cubic feet, entered at 1s., advanced to 1s. 4d. sterling per box.
2 cubic feet, entered at 1s. sterling per box. No advance.

- 10705.....*Manufactures of silk, etc.*, from Cabourier & Co., Paris, December 11, 1895 :
 Linon plumetis, 6479, entered at 2.25, advanced to 2.75 francs per meter.
 Linon quadrille, 15763/1, entered at 2, advanced to 2.25 francs per meter.
 Linon damaste, 15770/2, entered at .90, advanced to 1.10 francs per meter.
 Linon rayé, 6472, entered at 1.75, advanced to 2.21 francs per meter.
 Linon quadrille, 15729/2, entered at 1.40, advanced to 1.65 francs per meter.
 Discount, 5 per cent. Add cases and packing.

NOTICE OF READMEASUREMENT UNDER THE ACT OF MARCH 2, 1895.

1896.

Department Circular No. 41.

Bureau of Navigation.

Treasury Department,

BUREAU OF NAVIGATION,

Washington, D. C., March 7, 1896.

Collectors of Customs and Others :

On the readmeasurement of any vessel under the act of March 2, 1895, and the issue of an Appendix (Cat. No. 565), without surrender of marine documents, the proper customs officer will advise this office of the vessel's new net tonnage, and, if the appendix issue otherwise than at the vessel's home port, he will also notify the Collector at such port.

EUGENE T. CHAMBERLAIN,

Commissioner.

APPROVED :

S. WIKE,

Acting Secretary.

FREE ENTRY OF THEATRICAL SCENERY, PROPERTIES, AND APPAREL.

1896.

Department Circular No. 42.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., March 10, 1896.

To Collectors and other Officers of the Customs:

Paragraph 596 of the act of August 28, 1894, provides as follows:

“Professional books, implements, instruments, and tools of trade, occupation, or employment, in the actual possession at the time of persons arriving in the United States; but this exemption shall not be construed to include machinery or other articles imported for use in any manufacturing establishment, or for any other person or persons, or for sale, nor shall it be construed to include theatrical scenery, properties, and apparel, but such articles brought by proprietors or managers of theatrical exhibitions arriving from abroad for temporary use by them in such exhibitions and not for any other person and not for sale and which have been used by them abroad shall be admitted free of duty under such regulations as the Secretary of the Treasury may prescribe; but bonds shall be given for the payment to the United States of such duties as may be imposed by law upon any and all such articles as shall not be exported within six months after such importation: *Provided*, That the Secretary of the Treasury may in his discretion extend such period for a further term of six months in case application shall be made therefor.”

The following regulations will hereafter govern the importation of theatrical scenery, properties, and apparel, under the foregoing paragraph.

The invoice filed with the entry of the articles must describe them in such manner as to insure their identification at the time of export, and the values thereof must be duly set forth. Entries of such merchandise will be made under the general provisions of article 349 of the Customs Regulations of 1892, with the necessary modifications to meet the case.

The exportation of the merchandise covered by said bond shall be made only at the port of importation and shall be on regular withdrawal and under customs supervision.

The bond account of such transactions shall be kept separate and distinct from the ordinary warehouse account.

At the expiration of the bond it shall be sent to the district attorney for collection, unless the required proofs of exportation shall have been furnished by the importer or consignee.

S. WIKE,

Acting Secretary.

PROCEEDINGS UNDER DECISIONS OF THE BOARD OF GENERAL APPRAISERS AND APPLICATIONS FOR REVIEW UNDER SECTION 15 OF THE ADMINISTRATIVE ACT.

1896.

Department Circular No. 44,
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., March 16, 1896.

To Collectors and other Officers of the Customs:

As some perplexity appears to exist among appraising and classifying officers of customs as to the effect of decisions rendered by the United States General Appraisers, the Department now instructs such officers that appraisements of values made by the Board, under Section 13 of the Act of June 10, 1890, are final and conclusive, as to such values, and appraisers should always be governed thereby in similar cases.

Whenever a decision has been made by the Board under Section 14 of the above act, in regard to the classification of any kind of merchandise and no appeal has been taken to the courts within the prescribed period, under Section 15 of the said act, such decision will govern the liquidation of the particular case which was the subject of the decision. In the absence of such appeal and of contrary instructions, all similar goods will be treated in liquidation in accordance with the classification established by the Board. Should appeal be taken by the Government against such decision, the classification will continue to be made by collectors in accordance with that which was the subject of protest by the importer. Due notice will be given of the result of every appeal and collectors will thereafter be guided by the judgment of the court.

Whenever protest has been filed against the collector's action and the final decision of the court shall be in favor of the claim made by the importer upon any contention regarding the revenue laws, reliquidation of the entries thereby affected will be made, and duties wrongfully exacted, if any, will be refunded as provided by existing regulations.

While the decisions of the Board do not, under the law, control any case except that which was under review by the Board, a proper uniformity of procedure will be best promoted by the rules above set forth.

Section 15 of the Act of June 10, 1890, provides that, "if * * * the collector * * * shall be dissatisfied with the decision of the Board of General Appraisers * * * as to the construction of the law and the facts * * * " he "may within thirty days next after such decision and not afterwards, apply to the circuit court of the United States * * * for review of the question of law and fact involved in such decision."

The Department instructs collectors that no such application for review shall be made by them, except with the expressed approval of the Department. This inhibition is considered proper in view of the

desirability of uniform constructions of law and is established under the following opinion rendered by the Honorable Attorney General on July 27, 1895:

"The Secretary of the Treasury"

SIR: I am in receipt of your letter of July 26, 1895, requesting an opinion whether or not in a case in which the General Appraisers have decided that an article is not dutiable, Section 15 of the Act of June 10, 1890 (26 Statutes, 138), in so far as it confers upon the collector the power, in case he is dissatisfied with the decisions of the Board of General Appraisers, to apply for a review of their decisions, repeals the authority conferred by Section 2652 of the Revised Statutes, upon the Secretary of the Treasury, to control the officers of customs in the administration of the revenue laws.

Section 2652, Revised Statutes, is as follows:

"It shall be the duty of all officers of the customs to execute and carry into effect all instructions of the Secretary of the Treasury relative to the execution of the revenue laws; and in case any difficulty shall arise as to the true construction or meaning of any part of the revenue laws, the decision of the Secretary of the Treasury shall be conclusive and binding upon all officers of the customs."

"The decisions of the Secretary of the Treasury upon all questions as to the construction or meaning of any part of the revenue laws are, by this section, made conclusive upon all customs officers."

"This law has been in force since 1842, and still remains part of the revenue system of the United States."

"A later statute does not abrogate a prior one unless such intention is expressed, or the two are so entirely inconsistent that they can not stand together."

"Section 15 of the Act of June 10, 1890, provides that 'the collector or the Secretary of the Treasury,' if dissatisfied, may apply for a review of the questions of law and fact involved in decisions of the Board of General Appraisers. This does not mean that the collector may appeal against the decision or wishes of the Secretary, but that, as either may be the officer who ultimately acts for the Government, the right of appeal is given to either, as the case may be. But if the Secretary has decided any matter, no collector can by appeal question such decision."

"A collector is merely a subordinate of the Secretary of the Treasury, and no intention to give him such right as against his superior is to be gathered from the act in question."

"My opinion is that Section 2652 is in full force, notwithstanding anything that is in Section 15, and that it is the duty of the collector to follow the decision and instructions of the Secretary of the Treasury in all matters relating to the revenue laws."

"Very respectfully,

JUDSON HARMON,
"Attorney-General."

Chief officers of customs are further instructed to make prompt report to the Department whenever a decision is received from the Board of General Appraisers which in their opinion should be taken to the courts for review, and with each report of this kind they will submit a statement of the reasons which have governed such opinion.

S. WIKE,
Acting Secretary.

PROPOSALS FOR PAPER UPON WHICH TO PRINT UNITED STATES INTERNAL-REVENUE STAMPS.

1896.
Department Circular No. 45.
Internal Revenue No. 452.

Treasury Department,

OFFICE OF
COMMISSIONER OF INTERNAL REVENUE,

Washington, D. C., March 20, 1896.

Sealed proposals will be received until 1 o'clock p. m. of April 22, 1896, for furnishing this office with such paper, to be used in the printing of United States internal-revenue stamps during the fiscal year ending June 30, 1897, as may be from time to time ordered.

The paper must, in respect to composition, sizing, strength, and calendering, be equal to the samples of the paper now used in the printing of internal-revenue stamps which are to be found for examination at the office of the Commissioner of Internal Revenue—the degree of sizing, calendering, and strength to be such as may be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury—and must be free from clay or other adulteration, thread-knots, grit, or other foreign substances. A proportion of chemically prepared wood fiber (not exceeding 40 per cent) will be permitted in the composition. Each sheet of paper shall be made distinctive by being closely watermarked with the letters "U. S. I. R." in such manner that each square inch of the sheet shall bear some portion thereof.

The quantity required under the contract contemplated by this circular will be about 800,000 pounds, and will be white, plain green, or such other color, not more expensive, as may at any time be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, but the coloring material used must not be such as to be injurious to persons handling the paper.

The paper is to be manufactured and delivered in such quantities and in sheets of such sizes and weights as this office may from time to time order, and must be counted, examined, and separated into lots of 1,000 sheets, each hundred to be separated by a paper tag and each lot tied with strong twine.

The paper is to be manufactured under the supervision of an agent of the Government, who shall have access to all departments of the mill where the special paper is being manufactured, and under the protection of guards to be stationed at the mill; and the contractor will be required to provide, without charge, in the building in which the paper is made, rooms suitably furnished, to be used as an office by such agent and for the persons designated to guard the paper delivered, and also a room in which to store it until shipped; and he will be further required to conform to such reasonable regulations as may be made by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, to prevent the improper removal from the mill of the paper manufactured under the contract. All paper will be receipted for by the agent at the mill, subject to future examination, and the contractor will be required to furnish perfect paper with which to replace any returned to him as defective.

The contractor will be required to sign a written contract and to commence the manufacture of the paper at such time after June 30, 1896, as the Commissioner of Internal Revenue shall designate, and

will also be required to enter into a bond in the sum of \$10,000, with approved sureties, for the faithful execution of the contract. The contract will bind the contractor to manufacture the special paper for the United States only.

Bills accruing under the contract will be paid monthly.

Bidders will state in their proposals the price or prices per pound for the paper, deliverable at the Treasury Department, in the city of Washington, District of Columbia, securely packed in the presence and under the direction of the agent of the Department stationed at the mill, in wooden boxes strapped with iron, sealed and marked ready for shipment, all at the expense of the contractor; and it is expressly stipulated that in case it shall be at any time necessary, in the opinion of the Commissioner of Internal Revenue, to require shipment of paper by express, instead of by the ordinary freight delivery, the Government shall not be responsible for the cost of transportation except to the extent of the ascertained difference between the express rate and the rate by freight.

All paper returned from the Department to the contractor as defective, for which he is required, as hereinbefore stated, to furnish paper to replace the same, shall be returned at the expense of the contractor, and the paper furnished in place thereof shall be delivered at his expense at the Treasury Department as aforesaid.

The contractor will be required to furnish new dandy rolls for watermarking the paper, unless those now owned by the Government can be used, and will be required to pay all expenses connected with the repairing of such dandy rolls from time to time as necessity may require. Such rolls shall be manufactured (and repaired, if necessary) under the supervision of an agent of the Government, and will become and remain the property of the United States.

Each proposal shall be accompanied by a written guaranty, signed by two responsible persons, that if the award is made to the proponent the contract and bond will be executed promptly on the making of the award.

Bids will not be considered unless made by persons actually engaged in the manufacture of paper, and the right to reject any or all bids, and to waive informalities, in case it shall be deemed to the interest of the Government so to do, is hereby reserved.

The bids will be opened on Wednesday, the 22d day of April, 1896, at 1 o'clock p. m., in the office of the Commissioner of Internal Revenue, and bidders are invited to be present.

Bids should be indorsed "Proposals for Internal-Revenue Stamp Paper," and addressed to the "Commissioner of Internal Revenue, Washington, D. C." No blanks for such proposals are furnished, nor are they required. Proposals may be made by letter.

Bidders are required to deposit with their bids samples of the paper which they propose to furnish—made with special reference to the character and quality of paper required to be supplied by the terms of this circular—at the price or prices bid; which samples will be subjected to the usual tests as to strength and quality. No samples of paper now in use will be sent out by this Bureau for examination.

JOS. S. MILLER,
Commissioner.

APPROVED:

J. G. CARLISLE,
Secretary of the Treasury.

37-46
CUSTOMS COLLECTION DISTRICT OF ALASKA.

1896.
Department Circular No. 46.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., March 20, 1896.

To Collectors and other Officers of the Customs:

The following Act of Congress, approved March 16, 1896, entitled "An Act to reorganize the Customs Collection District of Alaska," is published for the information and guidance of all concerned.

W. E. CURTIS,
Assistant Secretary.

AN ACT To reorganize the Customs Collection District of Alaska.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Customs Collection District of Alaska be, and the same is hereby, reorganized and established to comprise the Territory of Alaska, in which Sitka shall be the port of entry.

SEC. 2. That such other places as may be designated by the Secretary of the Treasury, as the interests of commerce may require, shall be subports of entry or delivery or both; and customs officers shall be stationed at such subports, with authority to enter and clear vessels, receive duties, fees, and other moneys, and perform such other services and receive such compensation as in the judgment of the Secretary of the Treasury the exigencies of commerce may require.

SEC. 3. That all acts or parts of acts in conflict with the provisions of this Act are hereby repealed.

Approved, March 16, 1896.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.

○

VOUCHERS—HOW STATED AND RECEIPTED.

1896.
Department Circular No. 48.

Treasury Department,

OFFICE OF COMPTROLLER OF THE TREASURY,

Washington, D. C., March 23, 1896.

To all Disbursing Officers of the United States.

Disbursing officers are hereby notified that the following proof will be required on vouchers as evidence of proper payment.

VOUCHERS—HOW STATED.

All vouchers must be stated in the name of the person, firm or company, or corporation rendering the service and entitled to payment.

RECEIPTS TO VOUCHERS.

If the payee be a firm or company (not incorporated), the receipt should be in the firm or company name, to be followed by the autograph signature of the person authorized to sign the firm or company name; if a corporation, the receipt should be in the legal corporate title of the company, to be followed by the autograph signature of the officer (giving his title) or agent duly authorized to receive the money and receipt therefor.

Vouchers may be signed in the name of the principal by agents or attorneys duly authorized to receive checks for their principals, but in such cases the disbursing officer must first satisfy himself of the authority of said agent or attorney to sign the name of his principal and receive the CHECK issued in payment of the principal's claim.

In all cases where a voucher is receipted by an agent or attorney *payment must be made by check drawn on some U. S. Depository and made payable to the ORDER of the rightful claimant and payee of the vouchers*, and the disbursing officer must certify on the voucher over his signature that payment has been so made, giving number and date of check and the name of the depository on which drawn.

These instructions are not intended to affect any additional regulations adopted by the various Departments, but are to be regarded as showing what is required by the accounting officers as necessary proof of payment made by disbursing officers.

R. B. BOWLER,
Comptroller.

APPROVED:
J. G. CARLISLE,
Secretary.

EXTENSION OF LIMITS OF PORT OF ENTRY OF NEW ORLEANS.

1896.
Department Circular No. 49.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., March 27, 1896.

To Collectors and other Officers of the Customs:

The following Act of Congress, approved March 20, 1896, entitled "An act to extend the limits of the port of entry of New Orleans," is published for the information and guidance of all concerned.

CHARLES S. HAMLIN,
Assistant Secretary.

AN ACT To extend the limits of the port of entry of New Orleans.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the limits of the port of entry of New Orleans shall be, and the same are hereby, extended so as to include that portion of the parish of Jefferson on the west bank of the Mississippi River lying between the upper line of the parish of Orleans, west bank, the west bank of the said river to a point opposite the upper boundary line of the parish of Orleans, east bank, a line drawn thence back four thousand feet, perpendicular to said river, and a line drawn thence parallel to the Mississippi River until it intersects said upper parish boundary line, west bank; and so as further to include that portion of the parish of Saint Bernard lying between the lower boundary line of the parish of Orleans, east bank, the east bank of the Mississippi River to a point three miles below said lower boundary, a line drawn thence back four thousand feet parallel to said lower boundary line, and a line drawn thence parallel to the Mississippi River, until it intersects said lower boundary line of the parish of Orleans.

Approved, March 20, 1896.

* Gold the nominal standard. Silver practically the standard.

† Coined since January 1, 1886. Old half-imperial = \$3.98, 6.

‡ Silver the nominal standard. Paper the actual currency, the depreciation of which is measured by the gold standard.

Respectfully, yours,

R. E. PRESTON,

Director of the Mint.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., April 1, 1896.

The foregoing estimate by the Director of the Mint, of the values of foreign coins, I hereby proclaim to be the values of such coins in terms of the money of account of the United States, to be followed in estimating the value of all foreign merchandise exported to the United States on or after April 1, 1896, expressed in any of such metallic currencies.

J. G. CARLISLE,

Secretary of the Treasury.

APPLICATIONS FOR RELIEF FROM FINES, PENALTIES, AND FORFEITURES.

1896.

Department Circular No. 52.

Bureau of Navigation.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., April 2, 1896.

To Collectors of Customs and others:

To facilitate the consideration of applications for remission or mitigation of fines, penalties, and forfeitures, you will advise applicants, ship owners, masters, and agents, or other persons concerned, that the regulations governing the matter require in ordinary cases that such applications be addressed to the Secretary of the Treasury, and presented to your office for transmittal to the Department, with your report thereon.

S. WIKE,

Acting Secretary.

VALUATION OF LEAD CONTAINED IN IMPORTED MEXICAN ORES, FOR PURPOSES OF
CLASSIFICATION UNDER PARAGRAPH 165 OF THE ACT OF AUGUST 23, 1894.

1896.

Department Circular No. 53.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., April 1, 1896.

To Collectors and other Officers of the Customs:

The Special Regulations of July 17, 1889 (Synopsis 9492), as amended by Department's circular of July 17, 1891 (Synopsis 11481), which provides that "in determining the value of lead contained in Mexican ores, such value will be computed at the latest known price of bar lead in the New York market, less 1½ cent per pound" are hereby supplemented as follows:

Whenever the market value of lead at the port of importation is ascertainable, such value shall be taken as the basis of computation; otherwise the above-stated rule must be applied.

S. WIKE,

Acting Secretary.

CARE AND CUSTODY OF BLANK FORMS, ETC.

1896.
Department Circular No. 54.
Division of S., P., and B.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., April 7, 1896.

To Heads of Bureaus, Treasury Department,
and Chiefs of Divisions, Secretary's Office:

Special attention is hereby directed to the following requirements of Department Circular No. 95, of 1894:

- * * * * *
- (b) At least a year's supply of regular or standard forms should be ordered at a time.
- (c) Blank books should be ordered at least four months,
And—
Blank forms, official paper and envelopes, two months before being needed for use.
- * * * * *

Much of the delay experienced in receiving supplies ordered from the Public Printer is occasioned by the numerous "specials" that are constantly being pushed ahead of the regular work. This evil has reached such embarrassing proportions as to require its discontinuance.

It is therefore directed that in each bureau of the Department and division of the Secretary's Office the blank forms, blank books, letterheads, and envelopes be placed in the custody of a competent person, who should, where practicable, be supplied with proper shelf accommodations for storing the material in one place, such person to be held to a strict accountability for having at all times a sufficient stock on hand to meet the usual demands. The persons designated to prepare printer's copy and make requisitions on the Secretary, under the provisions of the above-mentioned Circular, might be selected for this duty.

CHARLES S. HAMLIN,
Acting Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 55.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., April 4, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending March 21, 1896.

CHARLES S. HAMLIN,
Assistant Secretary.

REPORT ON REAPPRAISEMENTS FOR THE WEEK ENDING MARCH 21, 1896.

N. B.—In corresponding with the Board of General Appraisers relative to any of the items in this report, reference should always be made to the number of Reappraisement.

No. of Reappraisement.

FLAG OF THE UNITED STATES TO BE DISPLAYED OVER ALL PUBLIC BUILDINGS
UNDER THE CONTROL OF THE TREASURY DEPARTMENT.

1896.
Department Circular No. 58.
Chief Clerk.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., April 18, 1896.

Custodians of United States Buildings

Under the Control of the Treasury Department:

The following instructions are promulgated as an amendment to Section XLII, "Instructions to Custodians of Public Buildings, 1895," dated March 1, 1895, viz:

The flag of the United States shall be displayed over all public buildings under the control of the Treasury Department during the hours of business, and on February 22, May 30, and July 4, from sunrise to sunset, except when stormy weather prevents. Should any of the last three days fall on Sunday, the flag is to be displayed on the day that is observed locally. On May 30 the flag should be placed at half staff.

The revenue flag will also be displayed over Custom Houses, as required by article No. 1208, General Regulations, under the Customs and Navigation laws.

S. WIKE.

Acting Secretary.

*FIXING THE MINIMUM PER CENT AT WHICH PERSONS EXAMINED FOR ENTRANCE
OR PROMOTION, IN SERVICES UNDER THE TREASURY DEPARTMENT MAY BE
APPOINTED OR PROMOTED.*

1896.

Department Circular No. 60.

Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., April 24, 1896.

*To Officers, Clerks, and Employees under the
jurisdiction of the Treasury Department.*

It is hereby provided that no promotion or appointment shall be made, except as otherwise provided by law, until the examination papers of the persons designated have been approved by the Board of Examiners, consisting of the principal officer in charge of the service in which the person is to be employed, the Chief Clerk of the Department, and the Private Secretary of the Secretary of the Treasury, or their alternates, certifying that the person examined attained an average of eighty per cent or more.

J. G. CARLISLE,

Secretary.

Department

OFFICE OF THE SECRETARY

Washington, D. C.

and employees under the

jurisdiction of the Department

that in the event of a change in the Department shall be made in accordance with the provisions of the present act. The Department of the Interior is hereby notified that the principal office of the Department and the Bureau of Land Management are hereby notified that the person mentioned therein shall be made in accordance with the provisions of the present act.

BY THE SECRETARY

1900

REGULATIONS GOVERNING VESSELS EMPLOYED IN SEA OTTER HUNTING DURING THE SEASON OF 1896, UNDER REVISED STATUTES, SECTION 1956, AND ACT OF CONGRESS APPROVED FEBRUARY 21, 1893.

1896.
Department Circular No. 61.
Division of Special Agents.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., April 29, 1896.

ARTICLE I.

Every vessel employed in sea otter hunting, or in transporting sea otter parties, shall have in addition to the papers now required by law, a special clearance and license.

ARTICLE II.

No vessels propelled by steam shall be employed in sea otter hunting within territorial waters, that is, within three miles of the shore, or for the purpose of transporting sea otter hunting parties within said territorial waters. Only sailing vessels and boats propelled by oars or paddles shall be so employed.

ARTICLE III.

The master of any vessel having on board skins of sea otter, mink, marten, sable, fur seal, or other fur-bearing animals, shall, before unloading the same, report to the collector of customs at the first port of arrival of his vessel in the United States, and shall file a manifest in detail of such skins with said collector.

ARTICLE IV.

Masters of vessels failing to comply with these regulations will be considered to have violated the provisions of Section 1956 of the Revised Statutes, hereinafter annexed, and will be liable to the penalty described therein.

“Section 1956. No person shall kill any otter, mink, marten, sable, or fur seal, or other fur-bearing animal within the limits of Alaska Territory, or in the waters thereof; and every person guilty thereof shall, for each offense, be fined not less than two hundred nor more than one thousand dollars, or imprisoned not more than six months, or both; and all vessels, their tackle, apparel, furniture and cargo, found engaged in violation of this section shall be forfeited; but the Secretary of the Treasury shall have power to authorize the killing of any such mink, marten, sable, or other fur-bearing animal, except fur seals, under such regulation as he may prescribe; and it shall be the duty of the Secretary to prevent the killing of any fur seal, and to provide for the execution of the provisions of this section until it is otherwise provided by law; nor shall he grant any special privileges under this section.”

ARTICLE V.

It will be the duty of the officers of the United States who may be in localities where sea otter are taken, or who may have knowledge of any such offense having been committed, to take all proper measures to enforce the penalties of the law.

ARTICLE VI.

Vessels which have cleared in good faith for sea otter hunting prior to the issuance of these regulations shall not be seized for a breach thereof made in good faith, without knowledge of said regulations. Masters of said vessels shall, however, be warned by the United States officers charged with the enforcement of these regulations, and shall be given a copy thereof.

ARTICLE VII.

The foregoing regulations are intended to apply only to the season of 1896.

J. G. CARLISLE,

Secretary.

RELATIVE TO BOATING, FISHING, HUNTING, ETC., BY LIFE-SAVING CREWS.

1896.
Department Circular No. 63.
Life-Saving Service.

Treasury Department,

OFFICE OF THE
GENERAL SUPERINTENDENT, U. S. LIFE-SAVING SERVICE,

Washington, D. C., May 2, 1896.

Information has come to this office that members of life-saving crews in some localities engage in ferrying, boating, fishing, hunting, and other employments, during the active season, seriously competing with persons who depend upon such occupations for a livelihood. It further appears that in some instances crews have neglected their duties and otherwise infringed the regulations of the Service in such pursuits.

It is, therefore, directed that hereafter no member of a life-saving crew shall, during the active season, engage in ferrying, boating, oystering, crabbing, fishing, shooting game, gathering moss, or in similar employment, for pay or market, in competition with other persons engaged in such business.

General Superintendent.

APPROVED:

S. WIKK,
Acting Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 64.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., May 1, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending April 18, 1896.

W. E. CURTIS,
Assistant Secretary.

REPORT ON REAPPRAISEMENTS FOR THE WEEK ENDING APRIL 18, 1896.

N. B.—In corresponding with the Board of General Appraisers relative to any of the items in this report, reference should always be made to the number of Reappraisement.

**NOTIFICATION TO STATE HEALTH AUTHORITIES OF THE DEPARTURE OF IMMIGRANTS
ARRIVED ON VESSELS UPON WHICH CONTAGIOUS DISEASE HAS APPEARED.**

1896.
Department Circular No. 65.
Marine-Hospital Service.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., May 1, 1896.

To Quarantine Officers of the United States, Commissioners of Immigration,

State and local health authorities, and others concerned :

After arrival at a quarantine station of a vessel upon which there appears, or has appeared, during the last voyage, a case of cholera, smallpox, typhus fever, or plague, and after quarantine measures provided by regulations of the Treasury Department have been enforced and the vessel given free pratique, it is hereby ordered that notification of the above-mentioned facts be transmitted by the quarantine officer to the Commissioner of Immigration at the port of arrival, whose duty it shall then be to transmit, by mail or telegraph, to the State health authorities of the several States to which immigrants from said vessel are destined, the date of departure, route, number of immigrants, and the point of destination in the respective States of the immigrants from said vessel, together with the statement that said immigrants are from a vessel which has been subject to quarantine by reason of infectious disease, naming the disease.

This information is furnished to State health officers for the purpose of enabling them to maintain such surveillance over the arriving immigrants as they may deem necessary.

J. G. CARLISLE,

Secretary.

SAMPLES OF IMPORTED GOODS.

1896.

Department Circular No. 66.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., May 4, 1896.

To United States Customs Appraising Officers:

It is hereby directed that all samples, except samples of perishable goods, taken by or furnished to Appraising Officers shall be regarded and filed as official documents, with proper notations so as to secure identification of the same when necessary. Also all sample cards received from United States Consular Officers. The samples and cards so taken to be retained on file for at least six months from date of receipt, and due record kept of the same.

CHARLES S. HAMLIN,

Assistant Secretary.

AMENDATORY TO DEPARTMENT CIRCULAR NO. 156 OF OCTOBER 7, 1893, RELATING TO
THE INSPECTION OF FOREIGN IMMIGRANTS LANDED AT THE PORTS OF THE
DOMINION OF CANADA.

1896.
Department Circular No. 67.
Bureau of Immigration.

Treasury Department,

OFFICE OF THE SECRETARY,

May 5, 1896.

This supplemental agreement made and entered into this twenty-fifth day of March, one thousand eight hundred and ninety-six by and between the Canadian Pacific Railway Company, the Allan Steamship Line, the Hansa Steamship Line, the Grand Trunk Railroad Company, the Dominion Steamship Line and the Beaver Steamship Line, parties of the first part, and Herman Stump, Commissioner General of Immigration of the United States of America, on behalf of the United States of America, party of the second part, witnesseth:

WHEREAS, The several parties hereto heretofore, to wit, on the seventh day of September, A. D. 1893, at Montreal, Canada, did make and enter into a certain agreement providing for the establishment of immigrant inspection stations at certain ports in the Dominion of Canada and for other purposes therein particularly set forth;

AND WHEREAS, In addition to the ports therein specified as landing ports in the said Dominion of Canada, the Beaver Steamship Line, one of the parties hereto, desires also to use the port of St. John, New Brunswick, as a landing port for immigrants during the winter months;

AND WHEREAS, The party of the second part claims that through wrong information supplied by immigrants to the steamship companies, immigrants destined for the United States are sometimes ticketed to a point in the Dominion of Canada from whence they afterwards proceed to a destination in the United States, and in consequence thereof the names of such immigrants do not appear upon the lists or manifests furnished to the United States inspectors under section 4 of the aforementioned agreement;

AND WHEREAS, Also by an act of the Congress of the United States of America approved August eighteenth, A. D. 1894, the per capita tax upon aliens entering the United States was increased from fifty cents to one dollar:

NOW, THEREFORE, In consideration of the continuance of the mutual benefits and advantages accruing to the several parties hereto by the agreement hereinbefore referred to, and also in consideration of such additional benefits and advantages as are hereinafter provided for, it is covenanted and agreed that the aforementioned agreement of September seventh, A. D. 1893, be amended and supplemented, as follows:

I. By adding to the ports named as landing ports in the first clause of the aforementioned agreement of September seventh, A. D. 1893, the port of St. John, New Brunswick:

II. That all immigrants destined to the United States provided for by the aforementioned agreement, who shall not have been listed on the manifest supplied to the United States inspectors at the port of entry, and who within thirty days from the date of their arrival at any one of the ports named in the said agreement and this supplemental agreement, shall apply for admission or enter the United States within the meaning and intent of the said agreement, and a per capita tax of one dollar on all such immigrants shall be paid as provided for by section 6 thereof; and access to ships, manifest of passengers shall be afforded, or extracts therefrom furnished to the United States inspectors whenever the same shall be requested, to verify the landing of any immigrants.

III. That section 6 of said agreement of seventh September, A. D. 1893, be amended by striking out the words "Fifty cents" wherever they occur in said section and inserting in lieu thereof the words "One dollar."

IV. And it is further covenanted and agreed, that if any immigrant, who has landed at any one of the ports named in the aforementioned agreement of seventh September, A. D. 1893, as amended by this supplemental agreement, shall apply for admission into the United States within thirty days after arrival at said port without the certificate provided for by section 3 of the said agreement, and shall be debarred from entry into the United States under the laws of the United States regulating immigration, or if it be

ascertained that the said immigrant has been previously refused admission into the United States by any immigration official, the said railway and steamship companies parties to this agreement hereby undertake and agree to return said immigrant to the port of landing or transport him to such place upon their line of travel as said immigrant is willing to go most remote from the borders of the United States.

V. It is further covenanted and agreed that the several provisions of this supplemental agreement shall hereafter have the same force and effect as if they had been originally incorporated in the aforementioned agreement of seventh September, A. D. 1893, and that the said agreement of seventh September, A. D. 1893, shall be construed and continued in effect as if these provisions were originally therein.

JOHN G. CARLISLE,
Secretary.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., May 5, 1896.

In view of the supplemental agreement, which appears above, between the various transportation companies in the Dominion of Canada and Herman Stump, Commissioner General of Immigration, approved by the Secretary of the Treasury of the United States of America, governing the inspection and entry of immigrants into the United States through foreign contiguous territory, the following rules and regulations, in addition to those promulgated under date of October 7, 1893, are hereby prescribed for your information and guidance:

I. That any European immigrant who, within thirty days after landing at any port in the Dominion of Canada, applies for entry into the United States without the certificate provided by section 3 of the original agreement, shall be inspected, the port of entry, date of arrival, and the name of the steamer by which he came ascertained, and that information furnished the United States Commissioner of Immigration at the port of entry in order that the per capita tax, provided by section 6 of the original agreement as amended by section 3 of the supplemental agreement, may be collected.

II. That any European immigrant who has been refused a certificate of admission into the United States by a Commissioner of Immigration, and within thirty days thereafter attempts to enter the United States, shall be returned to the port of landing or transported to such place as said immigrant is willing to go most remote from the border line.

III. That it shall be the duty of collectors of customs and immigrant inspectors along the border to see that the provisions of said agreement are carried out, and that all immigrants from Canada and British Columbia be inspected under the provisions of the Immigration Laws of the United States.

J. G. CARLISLE,
Secretary.

AMENDMENT TO QUARANTINE REGULATIONS.

1896.
Department Circular No. 68.
Marine-Hospital Service.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., May 2, 1896.

To Officers of the Treasury Department, Consular Officers, and others concerned:

Referring to Department Circular dated April 26, 1894, United States Quarantine Laws and Regulations, the following amendment is hereby made to the supplemental bill of health to be furnished vessels calling at intermediate ports:

Article I, paragraph 4, amended to read, following the table of diseases: "*Number and sanitary condition of passengers landed at this port.*"

J. G. CARLISLE,

Secretary.

**CHANGES IN STATISTICAL SCHEDULES A, B, AND E, CLASSIFICATION FOR RETURNS
OF IMPORTED AND EXPORTED COMMODITIES.**

1896.
Department Circular No. 69.
Bureau of Statistics.

Treasury Department,

Washington, D. C., May 5, 1896.

To Collectors and other Officers of the Customs:

The changes made by this circular in Schedule A will necessitate the correction of "numbers of classes of Schedule A" in the left-hand column of Schedule E, but this can be done by the statistical clerk at each custom house.

S. WIKE,
Acting Secretary.

SPECIAL TAX STAMPS FOR THE SPECIAL TAX YEAR ENDING JUNE 30, 1897.

1896.
Department Circular No. 70.
Internal Revenue, No. 457.

Treasury Department,

OFFICE OF
COMMISSIONER OF INTERNAL REVENUE,

Washington, D. C., May 9, 1896.

1. Immediately on receipt of this circular, collectors will make out and transmit to this office requisitions on Form 100 (revised December, 1890) for special tax stamps for the special tax year commencing July 1, 1896, and ending June 30, 1897.

2. Collectors who have already forwarded their requisitions for the special tax year commencing July 1, 1896, will, upon receipt of this circular, each make and forward an order based upon the instructions as given herein. In no case will stamps be issued to a collector in excess of an estimated three months' supply.

3. These stamps will be denominated "Series 1896," and requisitions therefor should have this denomination distinctly indorsed thereon.

4. Collectors, in ordering special tax stamps, should base their estimates of the quantity they will need upon the number of each kind issued by them during the first three months of the current year, but in no case should less than one book of any denomination be ordered.

5. Collectors will insert, in red ink, in the left-hand column of Form 100 (revised), on which requisition is made, directly opposite the number of stamps of each kind ordered, the number of whole books of such stamps, "Series 1895," in their hands on the day requisition is forwarded to this office.

6. It is expected that all stamps for the coming year will be transmitted from this office on or before June 10, 1896.

7. Collectors will not issue special tax stamps for the special tax year ending June 30, 1897, until Form 11, properly filled out, and the money for the stamps have been received; and the stamps must be issued in consecutive order, the dates upon the stubs so indicating.

8. On June 30, 1896, collectors will return to this office all special tax stamps of the Series of 1895 (E), and all coupons and stubs of such stamps remaining in their hands, reporting them on line 10 of Form 68 for June as "in transitu" June 30, 1896. Collectors are informed that this instruction is mandatory; that no excuse for not complying with the same will be accepted, but that in every case where a collector, for any reason, shall fail to comply herewith, he will be required to forward amended Forms 68, on which such stamps and coupons returned must be reported as "in transitu June 30, 1896."

9. When special taxes are collected for other than the current year the collector will issue stamps of Series E, writing across the face thereof, and also across the stubs, in red ink, "Issued ———, 189—, for the last ——— months of the special tax year ended June 30, 18—," signing the same in his official capacity.

JOS. S. MILLER,
Commissioner.

APPROVED:

J. G. CARLISLE,

Secretary of the Treasury.

EXTENSION OF TIME FOR UNLADING VESSELS.

1896.
Department Circular No. 72.
Bureau of Navigation.

Treasury Department,

BUREAU OF NAVIGATION,

Washington, D. C., May 12, 1896.

To Collectors of Customs and others:

The attention of Collectors of Customs and others concerned is invited to the following act of Congress approved May 9, 1896, extending the time during which imported cargoes of vessels may be unladen:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section twenty-eight hundred and eighty of the Revised Statutes of the United States be amended so as to read as follows:

"SEC. 2880. Whenever any merchandise shall be imported into any port of the United States from any foreign port, in any vessel, at the expiration of ten working days if the vessel is less than five hundred tons register, and within fifteen working days if it is of five hundred tons register and less than one thousand, and within twenty working days if it is of one thousand tons register and less than fifteen hundred, and within twenty-five working days if it is of fifteen hundred tons register and upward, not including legal holidays and days when the condition of the weather prevents the unloading of the vessel with safety to its cargo, after the time within which the report of the master of any vessel is required to be made to the collector of the district, if there is found any merchandise other than has been reported for some other district or some foreign port, the collector shall take possession thereof; but with the consent of the owner or consignee of any merchandise, or with the consent of the owner or master of the vessel in which the same may be imported, the merchandise may be taken possession of by the collector after one day's notice to the collector of the district. All merchandise so taken shall be delivered pursuant to the order of the collector of the district, for which a certificate or receipt shall be granted."

Article 125, Regulations of 1892, is amended so as to read as follows:

R. S. 2880, 2966, 2969. Art. 125. When merchandise remains on board a vessel after the expiration of legal time for discharging the same the collector may take possession thereof.

The legal time allowed is as follows:

Vessels of less than 500 tons, 10 working days after entry.

Vessels of 500 tons and less than 1,000 tons, 15 working days after entry.

Vessels of 1,000 tons and less than 1,500 tons, 20 working days after entry.

Vessels of 1,500 tons and upwards, 25 working days after entry.

The working days of a vessel are to be computed by excluding the date of entry, legal holidays, and stormy days when discharge is impracticable with safety to cargo.

All merchandise found on board at the expiration of these periods, not reported for transshipment to some other district or some foreign port or place, must be taken possession of by the collector. But with the consent of the owner or consignee, or of the owner or master of the vessel, such merchandise may be taken possession of after one day's notice to the collector of such consent. One working day must intervene between the giving of the notice and the obtaining of the order to discharge.

EUGENE T. CHAMBERLAIN,

Commissioner.

APPROVED:

S. WIKE,

Acting Secretary of the Treasury.

CERTIFICATES OF REGISTRY FOR THE SPECIAL-TAX YEAR ENDING JUNE 30, 1897.

1896.
Department Circular No. 73.
Internal Revenue, No 468.

Treasury Department,

OFFICE OF THE
COMMISSIONER OF INTERNAL REVENUE,

Washington, D. C., May 15, 1896.

1. Immediately upon receipt of this circular collectors will make out and transmit to this office requisitions on Form 291 for certificates of registry for the special-tax year commencing July 1, 1896, and ending June 30, 1897.

2. These certificates will be denominated "Series 1896," and requisitions therefor should have this denomination distinctly indorsed thereon.

3. Collectors, in ordering certificates of registry, should base their estimates of the quantity they will need upon the number of each kind issued by them during the first three months of the current year, but in no case should less than *one book of any kind be ordered, nor more than an estimated three months' supply.*

4. It is expected that all certificates for the coming year will be transmitted from this office on or before June 15, 1896.

5. On June 30, 1896, collectors will return to this office all certificates of registry of the Series of 1895 (D) remaining in their hands, reporting them on line 8 of Form 292 for June as "*in transitu*" June 30, 1896. Collectors are informed that this instruction is mandatory, that no excuse for not complying with the same will be accepted, but that in every case where a collector, for any reason, shall fail to comply herewith, he will be required to forward an amended Form 292, on which such certificates returned *must* be reported as "*in transitu*" June 30, 1896.

6. The attention of collectors is called to the printed instructions on the inside of cover of office Record No. 10, requiring them to register the names of all persons to whom these certificates are issued, business, place, from what time, date of issue, and serial number of certificates.

JOS. S. MILLER,
Commissioner.

APPROVED:

J. G. CARLISLE,
Secretary

EVIDENCE OF PROPER PAYMENT OF VOUCHERS.

(Superseding Department Circular No. 48, of March 23, 1896.)

1896.
Department Circular No. 75.

Treasury Department,

OFFICE OF COMPTROLLER OF THE TREASURY,

Washington, D. C., May 20, 1896.

The following regulations, in the matter of the evidence required by the accounting officers as proof of payment of vouchers, are published for the information and guidance of disbursing officers of the United States :

1. Vouchers must be stated in the name of the person, firm, company, or corporation rendering the service or furnishing the articles for which payment is made.
2. If the payee be a firm, the receipt to the voucher should be in the usual firm signature, signed by a member of the firm ; if an incorporated or unincorporated company, the receipt should be in the company name, followed by the autograph signature of the officer (with his title) authorized to receive the money and receipt therefor.
3. Evidence of the authority of the officer receipting for an incorporated or unincorporated company must accompany the voucher unless the payment is made by a check drawn on a United States depository to the order of the company, and that fact, with the date and number of the check and name of the depository, is stated on the voucher.
4. When a disbursing officer is satisfied that an attorney or agent is authorized to receipt for his principal, whether an individual, firm, company, or corporation, the receipt of the principal by the attorney or agent will be sufficient, without proof of authority accompanying the voucher, provided that payment is made by a check drawn on a United States depository and payable to the order of the principal, and the memorandum required in the preceding paragraph is made upon the voucher.
5. These regulations will not affect any additional regulations of the several Departments, but are intended as a statement of all that is required by the accounting officers as proof that payments are made to the proper persons.

R. B. BOWLER,

Comptroller.

APPROVED :

J. G. CARLISLE,

Secretary.

ENTRY OF GOODS FOR IMMEDIATE TRANSPORTATION, UNDER ACT OF JUNE 10, 1880, MAY BE MADE AT THE PORT OF FIRST ARRIVAL ON PRO FORMA INVOICE, IN ABSENCE OF CERTIFIED INVOICE, AND WITHOUT BOND.

1896.
Department Circular No. 76.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., May 25, 1896.

To Collectors and other Officers of the Customs:

The question has been presented to the Department whether, under the act of June 10, 1880, entries of imported goods valued at over \$100, for immediate transportation, may be legally made at the port of first arrival on a *pro forma* invoice without the filing of a bond at such port for the production of a certified invoice, in view of the provisions of section 4 of the act of June 10, 1890, which prescribes that "except in the case of personal effects accompanying the passenger, no importation of any merchandise exceeding one hundred dollars in dutiable value shall be admitted to entry without the production of a duly certified invoice."

The question was submitted to the Solicitor of the Treasury, and in his reply (annexed hereto) that officer advises the Department that section 4 of the Administrative Act does not apply to entries made at the first port of arrival under the act of June 10, 1880, and that entries for immediate transportation, under the last-named act, may be made at the port of first arrival on *pro forma* invoices, in the absence of certified invoices, without the filing of a bond at such port for the production of certified invoices.

The Department accepts this opinion as a rule for the guidance of officers of the customs in the cases to which it refers. Nothing herein shall dispense with the filing of the proper bond on entry at the port of destination.

CHARLES S. HAMLIN,

Acting Secretary.

DEPARTMENT OF JUSTICE,
OFFICE OF THE SOLICITOR OF THE TREASURY,
Washington, D. C., May 18, 1896.

SIR: Acting Secretary Hamlin, under date of the 15th instant, incloses letters of the collectors of customs at New York and San Francisco, relating to entries for "immediate transportation," under the act of June 10, 1880, and requests my opinion as to whether entries for such transportation may be made at the port of first arrival on *pro forma* invoices in the absence of certified invoices, and whether the filing of bonds at such port for the production of such certified invoices is requisite.

It is suggested that the decisions of the Department on this point have not been uniform, and that a definite settlement of the question is desired.

It is admitted on the one hand that the procedure at the first port is mainly for the purpose of securing proper record of the importation and of obtaining the material for liquidation of the ship's manifest; and, on the other hand, it is claimed that under section 4 of the Administrative Act no entry can be made of which the value exceeds \$100 without the production of a certified invoice or the filing of a bond to produce the same.

It appears to have been frequently decided that the "immediate transportation" law was enacted for the purpose of establishing the equalization of conditions at the interior and exterior ports; so that merchandise arriving under an "immediate transportation" entry is to be treated in all respects at the interior port as if it were the port of first arrival, and that the formalities at the port of first arrival are merely such as are indispensable to the custom-house records.

It is conceded also by the Acting Secretary that no entry can be made at the port of delivery without certified invoice, or, in its absence, a proper bond for its production. The special question now proposed relates to the port at which such bond shall be filed.

In G. A. 968, the General Appraisers held that—

"The manifest purpose of the act of June 10, 1880, was to place importers at interior ports upon a footing as nearly as practicable with importers at the exterior ports. The terms of the act sustain the theory that the entry required at the exterior port is simply for the purpose of clearing the records of such port, and of properly safeguarding the shipment of the merchandise to its destination, where *real entry thereof may be made, duly verified by the required declaration of the owner, importer, or ultimate consignee.*"

It seems to me that while an entry is required to be made at the seaboard port of arrival, such entry is only formal in character. The object of such entry is for the purpose of tracing and identifying the same, or estimating the duties, or for comparison of the invoices and bills of lading of the goods, by description and quantity of the goods that have actually arrived. Upon the arrival of goods at the interior port of destination, the conductor, master, or agent is required to report to the collector at such port the fact of such arrival, and to deliver the manifest to him. Proceedings are then taken by way of appraisal, liquidation, etc., as in the case of goods entered for liquidation at the port of first arrival in this country.

The last sentence of section 4 of the act of June 10, 1890, provides that when entry of merchandise exceeding one hundred dollars in value, is made by a statement in the form of an invoice, the collector shall require a bond for the production of a duly certified invoice.

The act of June 10, 1880, providing for the "immediate transportation" of dutiable goods, directs that the collector at the port of first arrival shall allow the merchandise to be shipped immediately after the entry prescribed in section 2 of the act, has been made. Section 2 prescribes that the collector at the port of first arrival shall retain in his office a permanent record of the merchandise to be forwarded to the port of destination, and such record shall consist of a copy of the invoice and entry, whereon the duties shall be estimated as closely as possible on the merchandise so shipped; but no oaths shall be required on the said entry.

This section further prescribes that the merchandise shall not be subject to appraisement and liquidation of the duties at the port of first arrival, but shall undergo such examination as the Secretary of the Treasury shall deem necessary to verify the invoice; and the same examination and appraisement shall be required and had at the port of destination as would have been required at the port of first arrival if such merchandise had been entered for consumption or warehouse at such port. The act proceeds to direct how the merchandise shall be transported; the quadruplication of invoices; the ports to which it may be transported, etc., etc.

I do not think that section 4 of the Administrative Act, prescribing that no entry can be made of which the value exceeds \$100 without the production of a certified invoice or the filing of a bond to produce the same, applies to goods imported under the act of June 10, 1880.

I am, therefore, of the opinion that entries for "immediate transportation" under the act of June 10, 1880, may be made at the port of first arrival on *pro forma* invoices, in the absence of certified invoices, and that the filing of a bond at such port for the production of certified invoices is not requisite in such cases.

Very respectfully,

F. A. REEVE, *Solicitor.*

Hon. J. G. CARLISLE,
Secretary of the Treasury.

NO RELIQUIDATION REQUIRED OF ENTRIES OF CURRANTS LIQUIDATED FREE UNDER DECISION OF BOARD OF GENERAL APPRAISERS OF APRIL 1, 1895 (G. A. 3028), UNAPPEALED FROM, PRIOR TO DECISION OF UNITED STATES CIRCUIT COURT HOLDING CURRANTS DUTIABLE UNDER PARAGRAPH 217 OF ACT OF AUGUST 28, 1894.

1896.
Department Circular No. 77.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., May 27, 1896.

To Collectors and other Officers of the Customs:

The Department has received an opinion rendered on March 26, 1896, by the United States circuit court for the northern district of California, on the appeal of the collector at San Francisco from the decision of the Board of General Appraisers, in the matter of the classification of currants, of which the following is a copy:

In the Circuit Court of the United States, Ninth Circuit and Northern District of California.

“Zante currants.”

IN THE MATTER OF THE APPLICATION AND PETITION OF JOHN H. WISE, ESQ., COLLECTOR OF CUSTOMS FOR THE PORT OF SAN FRANCISCO, STATE AND NORTHERN DISTRICT OF CALIFORNIA, FOR A REVIEW OF THE QUESTIONS OF LAW AND FACT INVOLVED IN A DECISION OF THE BOARD OF UNITED STATES APPRAISERS ON DUTY AT NEW YORK, IN THE MATTER OF THE CLASSIFICATION OF CERTAIN CURRANTS, MERCHANDISE IMPORTED BY S. L. JONES & Co. } No. 12102.

OPINION.

An application and petition was filed by the collector of customs for the port of San Francisco for a review, under section 15 of the Customs Administrative Act of June 10, 1890, of the decision of the Board of United States General Appraisers in relation to the classification of and duty on certain currants imported by S. L. Jones & Co. The Board of General Appraisers held that the currants imported were not Zante currants and, therefore, did not come within the provisions of paragraph 217 of tariff act of August 28, 1894, commonly known as the Wilson Bill, but did come within the provisions of paragraph 489, and were not subject to duty as being not otherwise provided for. Decision of the Board of General Appraisers reversed.

H. S. Foote, Esq., United States district attorney, and Samuel Knight, Esq., assistant United States attorney. A. P. Van Duzer, Esq., for importers S. L. Jones & Co.

MORROW, district judge:

This is an application and petition by John H. Wise, collector of customs of the port of San Francisco, for a review of the questions of law and fact involved in the decision of the Board of United States General Appraisers, at the port of New York, in the matter of the classification of an importation of 500 barrels

of currants at the port of San Francisco, under the act of Congress, entitled "An act to reduce taxation, to provide revenue for the Government, and for other purposes," approved August 28, 1894, and commonly known as the Wilson Bill. The currants were imported on March 19, 1895, from Liverpool, on board of the British ship *Drumburton*, and were invoiced as "Plum pudding label J. Currants," and were so entered at the custom house. They came originally from Patras, Greece. Thereafter, on April 12, 1895, the collector of customs classified said currants as "Zante currants," and as dutiable, under paragraph 217 of the act of Congress above referred to, at the rate of one and a half cents per pound. The importers entered their protest against this ruling of the collector and appealed to the Board of General Appraisers, then on duty at the port of New York, claiming that said article was not Zante currants, but currants grown in the provinces of Greece, on the mainland, and, therefore, free of duty as dried fruit not otherwise provided for, and that said currants are not commercially known as raisins or dried grapes. The Board of General Appraisers decided in favor of the importers. To reverse this decision, the collector brings the question before this court, under section 15 of the Customs Administrative Act of June 10, 1890, for a review and for a construction of law respecting the classification of said currants and the duty, if any, imposed thereon.

It is objected, at the outset, that this court has no jurisdiction of this matter for the reasons, first, that the decision of the Board of General Appraisers is final, and, second, that the collector had no authority from the Secretary of the Treasury to bring the matter into this court for a review of the decision of the Board. These objections are disposed of by the language of section 15 of the Customs Administrative Act of June 10, 1890, which provides as follows: "That if the owner, importer, consignee, or agent of any imported merchandise, or the collector, or the Secretary of the Treasury, shall be dissatisfied with the decision of the Board of General Appraisers, as provided in section fourteen of this act, as to the construction of the law and facts respecting the classification of such merchandise and the rate of duty imposed thereon under such classification, they, or either of them, may, within thirty days next after such decision, and not afterwards, apply to the circuit court of the United States, within the district in which the matter arises, for a review of the questions of law and fact involved in such decision." Nothing is said about first obtaining authority from the Secretary of the Treasury to bring the matter within the jurisdiction of the circuit court, and it is evident that no such authority is required.

The collector of customs claims that the currants in question are Zante currants, and that they are expressly included in paragraph 217 of the present tariff act, which reads as follows: "Plums, prunes, figs, raisins, and other dried grapes, including Zante currants, one and one-half cents per pound." The importers contend that the currants are not Zante currants, but they are Provincial currants; that is, that they come from Patras, Greece, on the mainland, and not from the Island of Zante, and are covered by paragraph 489, which places on the free list "Fruits, green, ripe, or dried, not specially provided for in this act."

The evidence now before the court for its consideration consists (1) of the testimony and exhibits introduced before the Board of General Appraisers and incorporated in their return to the order of this court of July 17, 1895, directing them to transmit the record of said matter and the evidence taken by them therein, together with a certified statement of the facts involved in the case, and their decision thereon; (2) of the testimony and exhibits introduced in this court before the special referee in San Francisco.

Without entering into a minute consideration as to the effect and sufficiency of the evidence taken before the Board of General Appraisers at New York, it is sufficient to say that it is completely overcome by the evidence taken in this court before the referee. Eight witnesses were called by the protestant in New York; several of them professed to have more or less knowledge concerning Zante currants, but none of them appear to be experts. They certainly were not expert viticulturalists or horticulturalists, nor, so far as their testimony shows, had any of them made a special study of the Zante currant or of currants in general. Several of them admitted that they were not experts and knew but little about Zante currants. Such knowledge as they did possess appears to have been acquired in the course of dealing in dried fruits and by reason of importations made of currants, and while sufficient for the ordinary purposes of trade, it can not be said to be sufficiently competent to be accepted as binding expert testimony. Four of the witnesses identified a sample of the importation as being, not a Zante currant, but a Patras currant from the mainland. Four other witnesses testified that the expression "Zante currants" was understood to mean currants from the Island of Zante alone and not from the mainland. All these witnesses were subjected to little, if any, cross-examination. One witness, in the course of his examination, stated that a Zante or Patras currant was a fruit other than a grape. This was clearly an error, and is completely and conclusively overcome and refuted by the unanimous testimony of all the witnesses, both for the Government and the importers, who testified in this court before the referee.

The testimony taken before the referee is in marked contrast to that given before the Board at New York. The witnesses, on the part of the Government, some 23 in number, were experts in every sense of the word, and proved themselves thoroughly conversant with the Zante currant, not only botanically

but commercially as well. Among them were professors of viticulture and horticulture at the State and Stanford Universities, several experienced vineyardists and growers of raisins, and also dealers and importers of the Zante currant on this coast. Some of them testified that they had made experiments in the growing of Zante currants in this State. They were subjected to a rigid cross-examination. The protestant produced but three witnesses, one of whom was the importer, and all of whom displayed a conspicuous want of knowledge upon the subject. Such opinions can not stand as against the positive statements of the experts in the case, who have made the question one of actual study, observation, and experiment. It would prolong this opinion to an unwarrantable length to rehearse the testimony given. It preponderates largely to the effect that the term "Zante currants" is a well-known commercial expression among importers, dealers, and growers of raisins, and relates to and comprehends a kind of raisin made from a small, seedless grape grown not only in the Island of Zante, but, also, and to a much greater extent, on the mainland of Greece and other neighboring localities. "Zante currants" is simply its English name. It derives the name of "currants" from the fact that, in times past, it was shipped from the city of Corinth, Greece. In German it is called "Korinthen;" in French, "raisin de Corinthe;" in Spanish, "pasas de Corinto." It is a raisin grape as distinguished from the shrub currant, with which its name may confound it, but from which it is entirely distinct, the former belonging to the grapevine family, or *vitis vinefera*, of plants, the latter to the shrub, or *ribes*. A Zante currant, on the vine, is a small-sized grape; when picked and dried it is a "dried grape" or kind of raisin, whose popular and commercial designation is "Zante currants."

In the Century Dictionary, "currant" is defined as "A very small kind of raisin or dried grape imported from the Levant, chiefly from Zante and Cephalonia, and used in cooking." Precisely the same definition is given in Webster's International Dictionary, issued in 1890. In the Encyclopedia Britannica (edition 1877) the following definition is found: "*Currant*. The dried, seedless fruit of a variety of the grapevine, *vitis vinefera*, cultivated principally in Zante, Cephalonia, Ithaca, and near Patras in the Morea." In the Standard Dictionary of the English Language, published in 1885, a currant is defined to be "a small seedless raisin imported from the Levant and called usually *dried currant* and *Zante currant*."

While it is true that dictionaries are not, of themselves, evidence, still they may be referred to "as aids to the memory and understanding of the court." (*Nix v. Hedden*, 149 U. S., 304, 307, and cases there cited.)

It may be interesting, in this connection, to refer briefly to the testimony of Dr. Gustav Eisen, curator of the Academy of Sciences, of San Francisco, as acknowledged authority on viticulture and horticulture, who testified that he had made the Zante currant one of the objects of his researches and studies. He gave the following account of the history of that grape or vine: "The first time we hear of the Zante currant is about the year 1333, when we know from some manuscripts and other publications in England that there was considerable trade carried on between the Venetians and the English in northern Europe, generally in a fruit that was known as the 'raisin of Corinth.' That fruit trade in 'Corinth,' or 'Corinths,' as they are known in several European languages to-day, was carried on for several hundred years, until the time when the Turks conquered Greece. Then it was to their interest to prevent the foreign traders from entering the Gulf of Corinth. That was some time in the 16th century. * * * In other words, the Zante currant was originally only grown on the mainland of Greece, and shipped from the town of Corinth. The principal growth was along the Gulf of Coriuth. After the Turks conquered Greece, the trade in currants died out completely. Then the currant was later on introduced to the Island of Zante, in about the middle of the 16th century, 1550 or 1560, or thereabouts, * * * in order to create a new industry for the islands. Since that time the currants have been known generally as Zante currants, regardless of their place of growth. For a long time afterwards there were no currants grown at all, or at least there were no currants shipped from the mainland of Greece. That is of much later date when the currant was again reintroduced from Zante to the mainland of Greece. But during the last few years, or during the last years, the trade and cultivation of the currants has increased enormously on the mainland of Greece, and to such an extent that now the proportion of currants from the mainland is a great many times more than that on the island. While the island produces about eight thousand tons, the mainland of Greece produces one hundred and forty thousand or one hundred and fifty thousand tons of Zante currants." E. W. Hilgard, professor of agriculture at the State University, testified that a Zante currant was "a raisin made from a small grape which grows in the Ionian Islands, and also in the archipelago there; also on the mainland of Asia Minor. They are dried and prepared in various ways, and shipped to the whole world. It is the only region that, so far, has produced this grape to perfection." Without going further into the evidence, it is enough to say that, as a whole, the following four propositions of fact were, to my mind, conclusively established: (1) That the currants comprising the importation in question, of which Exhibit "1" is a sample, are Zante currants; (2) that Zante currants are a kind of raisin; (3) that Zante currants are grapes dried; and (4) that Zante currants are not the product exclusively of the Island of Zante, but they are produced also on the mainland of Greece, in the archi-

pelago, and other places, and in much larger quantities than on the island. Being Zante currants, they come within the language of paragraph 217, as above set forth, and are subject to the duty of one and a half cents per pound therein prescribed.

But counsel for the importers claims that the use of the word "Zante" indicates that Congress meant to limit the imposition of the duty on currants produced only in the Island of Zante, and that, as the importation involved in this case came originally from Patras, in Greece, on the mainland, and is a product of the provinces of Greece, therefore it is not subject to the duty imposed by paragraph 217, but, on the contrary, it is entitled to free entry under paragraph 489, which exempts from duty "Fruits, green, ripe, or dried, not especially provided for in this act."⁷

In interpreting a name or expression applied to articles upon which duties of importation are laid, it is well settled that Congress uses such terms in their ordinary commercial sense rather than in their distinctive or technical sense. As was said in *Andrews on the Revenue Laws* (p. 181): "It may be asserted, as a general principle, that tariff laws are to be construed according to the commercial meaning of the terms used in them. They are written in the language of commerce rather than the language of science; and if resort was not had to the terms and usages of commerce for their interpretation, they would operate with injustice to the importer, and involve the revenue officers in constant controversy."⁸ See, also, to the same effect, the following authorities: *Lee v. Lincoln*, 1 Story, 610, Fed. cas. 8, 195; *Two Hundred Chests of Tea, 9 Wheat.*, 430; *Barlow v. United States*, 7 Pet., 404; *United States v. 112 Casks of Sugar v. Martin*, 3 How., 106; *Tyng v. Grinnell*, 92 U. S., 467; *Arthur*, 8 Pet., 277; *Elliott v. Swartout*, 10 Pet., 137; *Curtis v. Morrison*, 96 U. S., 108; *Suan v. Arthur*, 103 U. S., 597; *Schmieder v. Barney*, 113 U. S., 645; *Drew v. Grinnell*, 115 U. S., 477; *Arthur v. Butterfield*, 125 U. S., 70; *Robertson v. Salomon*, 130 U. S., 412; *Hurtrauft v. Wiegemann*, 121 U. S., 609; *Am. Net and Twine Co. v. Worthington*, 141 U. S., 468; *Earnshaw v. Cadwalader*, 145 U. S., 247; *Nix v. Hedden*, 149 U. S., 304.

In *Tyne v. Grinnell*, *supra*, it was said by Mr. Justice Clifford that "Tariff laws are passed to raise revenue; and, for that purpose, substances are classed according to the general usage and known denominations of trade. Whether a particular article is designated by one name or another in the country of its origin, or whether it is a simple or mixed substance, is a matter of very little importance in the adjustment of our revenue laws, as those who frame such laws are chiefly governed by the appellations which the articles bear in our own markets and in our domestic and foreign trade. (*United States v. Smith*, 9 Wheat., 438.) Laws regulating the payment of duties are for practical application to commercial operations, and are to be understood in a commercial sense; and this court, sixty years ago, decided that Congress intended that they should be so administered and understood. (*United States v. Goodale*, 8 Pet., 279.) Such laws, say this court, are intended for practical use and application by men engaged in commerce; and hence it has become a settled rule, in the interpretation of statutes of the description, to construe the language adopted by the legislature, and particularly in the denomination of articles, according to the commercial understanding of the terms used. (*Elliott v. Swartout*, 10 Pet., 151.)

Congress must be understood, says Taney, C. J., as describing the article upon which the duty is imposed, according to the commercial understanding of the terms used in the law, in our own markets; and the court held in that case that Congress, in imposing the duty, must be considered as describing the article according to the commercial understanding of the terms used in the act of Congress when the law was passed imposing the duty. (*Curtis v. Martin*, 3 How., 109.) Suffice it to say, without multiplying authorities, that the rule of law is settled, that the question, whether an imported article is or is not known in commerce by the word or terms used in the act imposing the duty, is a question of fact for the jury, and not a question of construction; and of course it must, in a case like the present, be determined by the court as a question of fact, the issues of fact as well as of law, being submitted to the court. (*Lawrence v. Allen*, 7 How., 797.) In *Am. Net and Twine Co. v. Worthington* (141 U. S., 468, 471), this principle was thus briefly and succinctly summed up: "It is a cardinal rule of this court that, in fixing the classification of goods for the payment of duties, the name or designation of the goods is to be understood in its known commercial sense, and that their denomination in the market when the law was passed will control their classification without regard to their scientific designation, the material of which they may be made or the use to which they may be applied." The word "commercial" in this connection, is to be understood in its comprehensive sense of buying, selling, and exchange in the general sales or traffic of our own markets. (18 Opinions of Attorney-General, 530, 532; *Earnshaw v. Cadwalader*, 145 U. S., 247, 258.) It is, also, a rule in the interpretation of revenue laws that, "where Congress has designated an article by a specific name and imposed a duty upon it, general terms in the same act, though sufficiently broad to comprehend such article, are not applicable to it; in other words, the article will be classified by its specific designation, rather than under a general description." (*Homer v. The Collector*, 1 Wall., 486; *Arthur v. Lahey*, 96 U. S., 112; *Arthur v. Stephani*, 96 U. S., 125; *Movius v. Arthur*, 95 U. S., 144; *Am. Net and Twine Co. v. Worthington*, 141 U. S., 468, 474.)

Applying these rules of interpretation to the facts of the case at bar, and it is obvious that the term "Zante currants;" used in paragraph 217 of the Wilson Act, was employed in its commercial sense,

as understood in this country, and applies to all currants of that name or kind wherever produced in foreign countries, and that it has no reference, technically, to currants coming alone from the Island of Zante. No restrictions or exceptions as to places are either expressly or implicitly made. The mere fact that the currants, comprising the importation in this case, bear the name of "Zante," an island in the archipelago, is of itself devoid of particular significance as indicating that Congress meant to tax currants which come only from the Island of Zante. The tariff act, in the enacting clause, applies to "all articles imported from foreign countries." As a matter of fact, the evidence tended to show that much larger quantities of Zante currants, so-called, are grown and exported from the provinces of Greece than from the Island of Zante, and that those grown on the mainland are still known, commercially, in this country, as Zante currants. In other words, "Zante currants" is the commercial name for this variety of grape when dried into raisins. It would be unreasonable to suppose that Congress, in imposing duties on Zante currants in the general language employed, intended to tax those coming from the Island of Zante alone, and not those which come, in much larger quantities, from other localities. Such an interpretation would result in an unfair and unwarranted discrimination between foreign places of produce, which, in the absence of clear and unambiguous words to the contrary, should not be imputed to Congress. It is but fair to assume that, had it intended to limit the imposition of import duties on Zante currants grown and exported from that island only, it would have so stated in clear and plain language. Counsel for the importers claims, however, that the fact that the statute has the capital letter "Z" in the word "Zante" indicates that Congress intended that currants from that island alone should be taxed. This argument is without merit. The use of the capital "Z" is of no significance as indicating such an intent as claimed. The observance of grammatical propriety would require the use of the capital. It is a proper name, and it is a well-settled rule of grammatical construction that proper names used as adjective elements, such as the word "Zante" in the phrase "Zante currants," should retain the capital letter. While it is true that the article in this case derives its name, etymologically, from the Island of Zante, yet, according to the greater weight of the evidence, the term "Zante currants," understood commercially in this country, applies to that article wherever produced, whether it be on the Island of Zante, or on the mainland in the provinces of Greece, or elsewhere.

It is further claimed by counsel for the importers, that in view of the fact that Congress dropped the expression "or other," contained in the provision in the tariff law of 1883 (Morrison Act), paragraph 293 thereof, which imposed a duty of one cent per pound on "currants, Zante or other," and, also, in the provision in the tariff law of 1890 (McKinley Act), paragraph 578 thereof, which declared "currants, Zante or other," free of duty, indicates that, in referring to Zante currants in paragraph 217 of the present law, it had reference exclusively to currants grown on the Island of Zante. This was the view which seems to have been taken by the Board of Appraisers.

The opinion of the Board contains this language: "In the tariffs named 'or other' followed 'Zante.' The omission of these words, the use of the word 'including,' and the specific enumeration of Zante currants in paragraph 217 would indicate that Congress excluded from the operation of the paragraph all but Zante currants. If it was the intention to make all currants dutiable it was very simple to say 'all other dried grapes including currants,' and not as it reads, 'including Zante currants.'" The Board found that: (1) "The goods were not Zante currants; (2) they are not commercially known as raisins or dried grapes." The appraisers were influenced largely, no doubt, in their conclusions, by the evidence introduced before them tending to show that this importation came originally from Patras, Greece, and that the term "Zante" referred exclusively to currants produced on the Island of Zante. But, as stated above, this evidence was met and completely overcome by the testimony of the experts and other witnesses in this court, who had had superior opportunities for study, observation, and experiment, and were, therefore, in a much better position to become familiar with and know the Zante currant and its commercial relation and designation. It is urged, in this connection, that the decision of the Board of Appraisers should not be reversed where there is a substantial conflict of the evidence. Several cases in support of this position are cited by counsel for the importers, among them that of *In re Bing et al.* (66 Fed. Rep., 727). The court there held that it would not set aside the decision of the Board, even if against the weight of the evidence, where the Board had sufficient evidence to warrant its finding. But such a rule can have little, if any, application to a case like the present, where additional testimony of the highest character was taken, and where the ultimate question decisive of the controversy is as much one of law as of fact.

My opinion is, that the classification of the article imported and involved in this case as "Zante currants," made by the collector of the port of San Francisco is correct, and that it is therefore subject to the duty prescribed in paragraph 217, of one and a half cents per pound. The opposite decision reached by the Board of General Appraisers is erroneous and should be reversed, and it is so ordered.

(Indorsed: Opinion. Filed March 26, 1896. W. J. Costigan, clerk, by W. B. Beazley, deputy clerk.)

You will be guided by this decision in all cases arising hereafter at your port.

The question has arisen as to the reliquidation of entries liquidated free of duty, under a decision of the Board of General Appraisers, rendered April 1, 1895, which decision was accepted by the Department and promulgated (Synopsis 16004) prior to the appeal taken by the collector at San Francisco in the case in which the United States circuit court rendered the decision above quoted.

On March 16, 1887, in a letter to the collector at Philadelphia, regarding a somewhat similar condition, the Department used the following language:

"It is questionable whether the right to reliquidate entries at advanced rates, and to proceed against importers for the amount thus found due after the duties have been paid and the goods have passed into consumption, has been extended to the Government. In any event the Department is satisfied that such an interpretation of the statute would be at least inequitable and unjust, and contrary to the principles set forth in its decision of April 12, 1879 (Synopsis 3972), inasmuch as the parties, having disposed of the merchandise at prices based upon duties already collected, have no means of reimbursing themselves for any additional duties subsequently collected by the Government."

The collector was thereupon directed to apply the decision of the Department, as to the proper classification, only to such entries as covered merchandise arriving subsequent thereto, and merchandise remaining in the possession of the Government.

In accordance with the views expressed in this Synopsis, the Department now holds that no reliquidation shall be made of free entries of currants which were completed and the merchandise delivered, before the issuance of Department's notification to collectors, on April 4, 1896, of the recent decision of the United States circuit court for the ninth circuit.

CHARLES S. HAMLIN,
Acting Secretary.

CONNEAUT, OHIO, A SUBPORT OF ENTRY IN THE DISTRICT OF CUYAHOGA, OHIO.

1896.
Department Circular No. 78.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., May 28, 1896.

To Officers of the Customs and others concerned:

The following act of Congress, approved May 19, 1896, establishing the port of Conneaut, Ohio, a subport of entry in the district of Cuyahoga, Ohio, is published for the information of all concerned.

CHARLES S. HAMLIN,

Acting Secretary.

AN ACT To establish the port of Conneaut, in the State of Ohio, as a subport of entry in the district of Cuyahoga, in said State of Ohio.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the port of Conneaut, in the State of Ohio, be, and the same is hereby, declared to be a subport of entry in the district of Cuyahoga, in said State of Ohio, from and after the passage of this Act.

Approved, May 19, 1896.

Department of the Interior

Office of the Secretary

Washington, D. C., May 22, 1904

Sir:

Reference is made to your letter of the 17th inst. in relation to the proposed amendment to the act of March 3, 1879, relating to the disposal of the public lands in the State of Ohio.

CHARLES S. HARRIS

Special Agent

The Department is of the opinion that the proposed amendment to the act of March 3, 1879, relating to the disposal of the public lands in the State of Ohio, is not in the public interest.

The Department is of the opinion that the proposed amendment to the act of March 3, 1879, relating to the disposal of the public lands in the State of Ohio, is not in the public interest.

Very truly,
Yours,
C. S. Harris

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 79.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., May 28, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending May 9, 1896.

CHARLES S. HAMLIN,
Acting Secretary.

REPORT ON REAPPRAISEMENTS FOR THE WEEK ENDING MAY 9, 1896.

N. B.—In corresponding with the Board of General Appraisers relative to any of the items in this report, reference should always be made to the number of Reappraisement.

No. of reappraise-
ment.

- 11714..... *Flax lace tidies &c.*, from ——— Paris, Mar. 25, 1896.
Linen renaissance tidies, entered at from 4.50 to 47.00 advanced to from 4.60 to 55.00
Francs each.
- 11776..... *Mfs. of metal, (brass wire cloth)* from Geo. Christie Lt'd Glasgow, Apr. 3, 1896.
No. 70 mesh brass wire cloth, entered at 7d advanced to 8d Sterling per square foot.
No. 80 mesh brass wire cloth, entered at 8d advanced to 9d Sterling per square foot.
Add cases and packing.
- 11828..... *Fire crackers*, from Melchers & Co., Canton, Feb. 28, 1896.
2' 40/40 cannon crackers, and 2' 20/80 cannon crackers, entered at .70 advanced to
.73½ Mexican dollar per box.
64/40 cannon crackers, entered at .57½ Mexican dollar per box, No Advance.
Discount 2 per cent.
Less export duty, freight and coolie hire, lekin tax deducted on entry not allowed on
reappraisement.
- 11779..... *Brushes*, from The Star Brush Co., Lt'd London, Mar. 28, 1896.
No. 000 plain, entered at 6s /5d Sterling per gross.
No. 000 varnished, entered at 8s /- Sterling per gross,
No Advance.
less 1d allowed on varnishes, discount 2½ per cent.

- 11739..... } *Mfs. of wool and cotton*, from Simon, Israel & Co., Bradford Mar. 19 and 31, 1896.
 11570..... } 50" black meltons, H 4010, entered at 6½d advanced to 7d Sterling per yard.
 Discounts 2½ per cent & 1½ per cent. Add making up and packing.
- 11571..... *Mfs. of wool and cotton*, from ——— Bradford, Mar. 19 1896.
 54" black melton H. 4010, entered at 6½d advanced to 7d Sterling per yard.
 56" black worsted coatings, No. 06050, entered at 1s ¼d Sterling per yard, advanced to 1s/5d.
 Discounts 2½ per cent & 1½ per cent? Add making up and packing.
- 11725..... { *Wool knit wearing apparel, (ladies sweaters, wool and mohair shawls)* from A. Bounen, Halle, Mar. 30, 1896.
 Ladies sweaters, 100/3, 5121/5, 410/11, 411/11, 412/11, Entered at 43. Marks per dozen, No Advance.
 Ladies sweaters, 313/V and 100/4, entered at 45. Marks per dozen, No Advance.
 Ladies sweaters, 100/5, entered at 47. Marks per dozen, No Advance.
 Ladies sweaters, 511/92 and 1210/2, entered at 32. Marks per dozen, No advance.
 Ladies sweaters, 5124/2, entered at 33. Marks per dozen, No Advance.
 Ladies sweaters, 5102/3, entered at 72. Marks per dozen, No Advance.
 Mohair shawls, 145, entered at 27.25 advanced to 29.75 Marks per dozen.
- 11740..... *Colored Cottons, &c.*, from Simon Israel & Co., Bradford, Mar. 13, 1896.
 54" fast black cotton coating 06056/9, entered at 10½d advanced to 11½d Sterling per yard.
 56" black union coatings 06050, entered at 1s/4½d advanced to 1s/5d Sterling per yard.
 Discounts 2½ per cent & 1½ per cent.
 Add making up and packing.
- 11234..... *Colored Cotton*, from Weiss-Freis & Co., Mulhouse, Jan. 30, 1896.
 Organdi F. 80 c/m serie 2, entered at .58 advanced to .61 Mark per meter.
 Organdi a filets 80 c/m serie 4, entered at .70 advanced to .75 Mark per meter.
 Organdi ô 80 c/m, entered at .43 advanced to .47 Mark per meter.
 Plumetis 75 c/m serie 2, entered at .54, advanced to .59 Mark per meter.
 Plumetis 75 c/m, serie 3, entered at .56 advanced to .61 Mark per meter.
 Plumetis, 75 c/m, serie 3, entered at .52 advanced to .57 Mark per meter.
 Batiste a seillets 76 c/m, serie 1, entered at .72 advanced to .75 Mark per meter.
 Batiste a seillets, 76 c/m serie 2, entered at .73 advanced to .76 Mark per meter.
 Batiste a seillets 76 c/m, serie 3, entered at .74 advanced to .78 Mark per meter.
 Satinette robe 80 c/m, serie 1, entered at .50 advanced to .53 Mark per meter.
 Satinette uni 80 c/m, entered at .46 advanced to .48 Mark per meter.
 Add packing and cases.
- 11690..... *Silk wearing apparel*, from D. Scheidegger Graedel, Huttwyl Mar. 23, 1896.
 832 1V. L. N. N. S. ladies spun silk vests, cream, sky and pink, entered at 21.80 advanced to 23.95 Francs per dozen.
 832 V. L. N. N. S. ladies spun silk vests, cream, sky and pink, entered at 23. advanced to 25.30 Francs per dozen.
 832 VI. L. N. N. S. ladies spun silk vests, cream, sky and pink entered at 24.20 advanced to 26.60 Francs per dozen.
 Entered discount 10 per cent, advanced discount 10 per cent & 2 per cent.
 Less inland freight to Havre.

- 11789.....*Mfs. of silk*, from ——— Yokohama, Mar. 27, 1896.
23-50 white habutai, entered at 6.20 advanced to 6.50 Silver Yen per 100 momme.
Add cases.
- 11719.....*Decorated glassware*, from August Parth, Arnsdorf, March 6, 1896.
Punch bowls, saucers, wine glasses, cups etc., entered at from .20 to 1.40 advanced to
from .30 to 1.75 Florins each.
- 11288.....
11289.....
11320.....
&c..... } *White and decorated china*, from Societe la Ceramique, Limoges, Jan. 4, 23, and 31, and
Feb. 6 and 14, 1896.
- Advanced 10 per cent.
- 11815.....*Decorated china etc.*, from Geo. Borgfeldt & Co., Prague, Mar. 20, 1896.
China plates, No. 176, entered at .95 Florin per dozen, discount 10 per cent, advanced
to .95 Florin per dozen, discount 5 per cent.
- 10317.....
10796..... } *Flax thread*, from Robert Stewart & Son, Lisburn, Nov. 6 and Dec. 24, 1895.
- Polished yarn w. brown 3 and 4 cord satin in hanks and bundles, entered at 32s/-
advanced to 40s/- Sterling per dozen.
- Polished yarn w. brown 3 cord satin in hanks and bundles entered at 28s/- advanced
to 32s/- Sterling per dozen.
- Polished yarn W. brown 6 cord satin in hanks and bundles entered at 36s/- advanced
to 40s/- Sterling per dozen.
- Polished yarn W. brown 3 cord satin in hanks and bundles entered at 31s/ advanced
to 32s/ Sterling per dozen.
- Discount 25 per cent add packing. Less inland freight.
- 10318.....*Flax thread*, from Robert Stewart & Son, Lisburn, Oct. 23, 1895.
- Polished yarn W. brown 3 cord satin in hanks and bundles entered at 25d/- advanced
to 29d/- Sterling per lb.
- Polished yarn W. brown 3 and 6 cord satin in hanks and bundles, entered at 28d/-
advanced 32d/- Sterling per lb.
- Polished yarn W. brown 4 cord satin in hanks and bundles entered at 32d/- advanced
to 36d/- Sterling per lb.
- Polished yarn W. brown 2 and 3 cord satin in hanks and bundles entered at 22d/-
advanced to 29d/- Sterling per lb.
- Discount 25 per cent. Add packing. Less inland freight.
- 11787.....*Pickles, sauce, decorated earthenware and china*, from Kwong Yuen Shing, Hongkong, Oct.
15, 1895.
- Pepper jams, entered at .90 Mexican dollar per barrel, No Advance.
- Fruit jams, entered at 2.35 advanced to 2.50 Mexican dollars per barrel.
- Earthenware, entered at .80 advanced to .90 Mexican dollar per package.
- China tetete, entered at .35 advanced to .50 Mexican dollar per bundle.
- 11777.....
11791..... } *Pickles*, from J. Feyret, Bordeaux, Mar. 30, and April 3, 1896.
- Capers nonpareille, entered at 4.15 advanced to 4.45 Francs per case. of 12-2 flacons.
- Capers nonpereille, entered at 16.60 advanced to 17.80 francs per case. of 48-2 flacons.
- Less freight.

- 11831..... }
 11864..... } *Refined sugar above 16 D. S.* from C. Czarnikow, Hamburg, Mar. 22, 23, 28 and 31,
 11865..... } 1896.
 11866..... }
- Entered at various prices advanced to 13s/8d Sterling per cwt. packed.
- 11808..... *Sugar not above 16 D. S.* from Samuel Abbott, St. Kitts, Mar. 12, 1896.
 Testing 88.80 entered at .02.48 less N. D. charges, advanced to .02.41 U. S. Currency per lb., packed.
- 11810..... *Sugar not above 16 D. S.* from C. Brauet & Co., Guantanamo Mar. 18, 1896.
 Testing 96.00, centrifugal, entered at .02.15/16 add bags, advanced to .03.125 Spanish gold per Spanish lb., packed.
- 11728..... *Sugar not above 16 D. S.* from J. E. Huffington, Macoris, Feb. 14, 1896.
 Testing 96.30, first centrifugal, entered at .02.26 advanced to .02.51 U. S. Dollars per lb., packed.
 Testing 86.95, second centrifugal, entered at .01.84 advanced to .01.922 U. S. Dollars per lb., packed.
 To entered price add bags.
- 11755..... *Sugar not above 16 D. S.* from Julian Cendoya, Santiago, Feb. 28, 1896.
 Testing 92.25 molasses, entered at .02.30 advanced to .02.659 Spanish gold per lb., packed.
 To entered price add bags.
- 11837..... *Sugar not above 16 D. S.* from E. J. Sadler, Savanna-la-mar Mar. 31, 1896.
 Testing 99.30, centrifugal, entered at £12. 19s. 6d. advanced to £13. 8s. 7.43d Sterling per ton., packed.
- 11799..... *Sugar not above 16 D. S.* from R. Crooks & Co., Liverpool, Mar. 20, 1896.
 Entered at 10s /9d, discount 2½ per cent, advanced to 11s /- Sterling per cwt., packed., net.
- 11838..... *Sugar not above 16 D. S.* from Jos. Shearer, Falmouth, Mar. 30, 1896.
 Testing 90.65, entered at 11. 10s. 10d. advanced to 11. 15s. 6½d Sterling per ton., packed.
- 11807..... *Sugar not above 16 D. S.* from S. T. Horsford, St. Kitts, Mar. 10, 1896.
 Testing 89.40, muscovado, entered at .025 less N. D. charges, advanced to .02.4325, U. S. Dollars per lb., packed
 Testing 88.40, muscovado, entered at .0246 less N. D. charges, advanced to .02.3825 U. S. Dollars per lb. packed.
- 11809..... *Sugar not above 16 D. S.* from Robert Glegg, Nevis, March 11, 1896.
 Testing 86.05, entered at 02.37 less N. D. charges, advanced to .02.236 U. S. Dollars per lb., packed.
 Testing 85.80, entered at .02.28 less N. D. charges, advanced to .02.22 U. S. Dollars per lb. packed.
- 11834..... *Sugar not above 16 D. S.* from B. Fereccio, Macoris, Feb. 28, 1896.
 Testing 95.40, centrifugal, entered at .02.13 advanced to .02.5525 U. S. Dollars per lb., packed.
 Testing 88.65, molasses, entered at .01.60, advanced to .02.118 U. S. Dollars per lb /, packed.
 Testing 95.95, centrifugal, entered at .02.13, advanced to .02.586 U. S. Dollars per lb., packed
 Add bags to entered prices. at 36 cents each.

PORTS OF DELIVERY AT PUEBLO, DURANGO, AND LEADVILLE, COLO.

1896.
Department Circular No. 80.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., June 3, 1896.

To Collectors and other Officers of the Customs:

The following act of Congress, approved May 22, 1896, establishing customs ports of delivery at Pueblo, Durango, and Leadville, Colo., and for other purposes, is published for the information of all concerned.

CHARLES S. HAMLIN,
Acting Secretary.

AN ACT To establish customs ports of delivery at Pueblo, Durango, and Leadville, Colorado, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Pueblo, Durango, and Leadville, all in the State of Colorado, be, and are hereby, made customs ports of delivery, and attached to the port of Denver, in said State, with all the rights and privileges now accorded by law to said port of Denver, the surveyor of customs of which port shall supervise the customs business at said Pueblo, Durango, and Leadville in the same manner and to the same extent as at Denver.

SEC. 2. That such other places in the State of Colorado as the Secretary of the Treasury may designate from time to time shall be ports of delivery, with all the privileges now accorded by law to the port of Denver, Colorado, the surveyor of customs of which port shall supervise the customs business transacted at such places in the same manner and to the same extent as at Denver.

Approved, May 22, 1896.

SYRACUSE, NEW YORK, A PORT OF DELIVERY.

1896.
Department Circular No. 81.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 3, 1896.

To Collectors and other Officers of the Customs:

The following act of Congress, approved May 18, 1896, constituting Syracuse, N. Y., a port of delivery, is published for the information of all concerned.

CHARLES S. HAMLIN,
Acting Secretary.

AN ACT Constituting Syracuse, New York, a port of delivery.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Syracuse, in the State of New York, be, and is hereby, constituted a port of delivery, and that the privileges of immediate transportation of dutiable merchandise conferred by the seventh section of the Act of June tenth, eighteen hundred and eighty, entitled "An Act to amend the statutes in relation to the immediate transportation of dutiable goods, and for other purposes," be, and the same are hereby, extended to said port; and there shall be appointed a surveyor of customs to reside at said port, who shall receive a salary, to be determined by the Secretary of the Treasury, not exceeding one thousand dollars per annum.

Approved, May 18, 1896.

CERTIFICATES OF CHINESE.

1896.

Department Circular No. 82.
Division of Special Agents.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 4, 1896.

To Collectors and other Officers of the Customs:

The appended opinions, dated, respectively, the 20th and 26th ultimo, of The Honorable the Attorney-General, as to the proper construction of certain articles in the treaty between the United States and China, signed March 17, 1894, and proclaimed by the President December 8, 1894, relating to the departure from and return to this country of Chinese laborers, are published for the information and guidance of all concerned.

CHARLES S. HAMLIN,

Acting Secretary.

DEPARTMENT OF JUSTICE,
Washington, D. C., May 20, 1896.

SIR: I have the honor to acknowledge your communication of May 13, asking an official opinion as to the construction and operation of Article III of the Convention of 1894 between the United States and China (28 Stat., 1211).

This article provides that "Chinese subjects, being officials, teachers, students, merchants, or travelers for curiosity or pleasure, but not laborers," when seeking admission into the United States, "may produce a certificate from their government or the government where they last resided." The question has arisen whether Chinese subjects belonging to the privileged classes above mentioned, and who are residents of the British colony of Hongkong, may obtain admission to the United States upon production of a certificate signed by the registrar general in that colony. I assume, for the present purposes, that the registrar general is the proper representative of the Colonial Government.

While called a convention, the document to which you refer is clearly a treaty within the meaning of the Constitution of the United States. It is, therefore, so far as its provisions are self-executing, a part of the supreme law of the land. It is my opinion that the provisions of the article under consideration are self-executing. Its language is clear. It requires a certificate from the Government of the colony of Hongkong; it requires nothing more than that. Its requirements would not be satisfied by a certificate from the Government of China.

The act of July 5, 1884, ch. 220, sec. 6, requires that certificates in similar cases should be issued by the Chinese Government, "or of such other foreign government of which at the time such Chinese person shall be a subject." Prior, therefore, to the treaty of 1894, a certificate from the authorities at Hongkong would have been insufficient in the cases now under consideration, and a certificate from the Chinese Government would have been necessary.

You ask my opinion whether the treaty "waives or modifies the requirement of" the act of 1884. As the treaty is subsequent to the statute, and as its provisions are self-executing, I am of the opinion

that it does modify the requirement of the statute, so that the certificate must now come from Hongkong and not from China. (*The Cherokee Tobacco*, 11 Wall., 616, 621; *Whitney v. Robertson*, 124 U. S., 190, 194; 13 Op., 354.)

Very respectfully,

HOLMES CONRAD,
Acting Attorney-General.

The SECRETARY OF THE TREASURY.

DEPARTMENT OF JUSTICE,
Washington, D. C., May 26, 1896.

SIR: I have the honor to give my opinion, as requested in your letter of the 22d instant, upon the proper construction of Article II of the convention between the United States and China, concerning the subject of emigration, proclaimed March 17, 1894.

By Article I the coming of Chinese laborers to this country is absolutely prohibited for a period of ten years. Article II provides that such prohibition shall not apply to the return to this country of registered Chinese laborers having certain specified relatives here, or property, or debts of a certain value; but requires, as a condition of the right of such laborer to return, the deposit by him with the collector of customs of the district from which he departs of a written description of his family, property, or debts. The collector is required to furnish him with a certificate of his right to return. Article II then proceeds as follows:

“And such right of return to the United States shall be exercised within one year from the date of leaving the United States; but such right of return to the United States may be extended for an additional period, not to exceed one year, in cases where by reason of sickness or other cause of disability beyond his control, such Chinese laborer shall be rendered unable sooner to return, which facts shall be fully reported to the Chinese consul at the port of departure, and by him certified, to the satisfaction of the collector of the port at which such Chinese subject shall land in the United States. And no such Chinese laborer shall be permitted to enter the United States by land or sea without producing to the proper officer of the customs the return certificate herein required.”

Your letter with its inclosure presents the case of three Chinese laborers duly registered at Boston, according to law and Treasury Regulations, and furnished with proper certificates in accordance with the treaty, who left the country from the district of Vermont, and after visiting China presented themselves for readmission at the same place in the district of Vermont, after an absence of almost thirteen months. They were refused admission because the facts justifying the extension of the period of return were not reported “to the Chinese consul at the port of departure, and by him certified,” etc., the collector holding such port of departure to be Canton, China, at which place they left that country, or Hongkong, a British port, at which they took ship. It appears that there is, of course, no Chinese consul at Canton, and that, for local and political reasons, the British Government permits none at Hongkong.

Your inquiry is whether the “port of departure,” at which the facts of sickness or disability are to be so reported, is the port from which the laborer goes from this country, or that from which he starts on his return.

It is a well-known fact that Chinese laborers who leave this country almost invariably return to their own. This fact was, of course, well known to the framers of the treaty. They knew also that no country has consuls at its own ports. It seems clear, therefore, that they could not have meant the port of departure from China.

If this be true, it appears to follow that the framers of the treaty must have meant the port from which the laborer departs from this country. He is required to deposit a written description of his family, property, or debts, “with the collector of customs of the district from which he departs.”

While, at first glance, the phrase “port of departure” may appear, from its use in connection with the phrase “port at which such Chinese subject shall land in the United States,” to indicate the point of beginning of the voyage of return, this appearance must give way before the manifest necessity of so construing the treaty, if possible, as to give it the operation which the parties plainly intended it to have. Besides, the two phrases may both fairly be construed as referring to the United States, requiring the fact of unavoidable detention to be reported to the Chinese consul at the port where the person desiring to return left this country, and the certificate thereof to be sent to the collector of the port at which he desires to reenter it.

As Chinese consuls in this country are received by our Government and subject to recall on their request, it was naturally willing to trust to their good faith, and the Chinese Government, one of the parties to the treaty, had the right to require of them the service it imposes. The only other possible

construction is that the phrase, "Chinese consul at the port of departure," was intended to designate our consuls at Chinese ports, but such construction would require an entire change of the language used. When that meaning was intended, Article III shows that the makers of the treaty knew how to express it. That article, in providing for the rights of Chinese officials, students, merchants, etc., to come to and reside in the United States, authorizes "a certificate from their government or the government where they last resided viséd by the diplomatic or consular representative of the United States in the country or port whence they depart."

While the language of the section you submit is not explicit, and the question presented can not, therefore, be answered with entire freedom from doubt, my opinion is that the officer to whom the facts of sickness or disability are to be reported, is the consul who represents the Chinese Government at the place whence the laborer left the United States. While the words used, "port" and "land," usually relate to a sea voyage, they were used because the Chinese generally go and come by sea, and not because it was the intention to limit the right to return to such as travel in that way. This is apparent from the last sentence of the section: "And no such laborer shall be permitted to enter the United States by land or sea without producing to the proper officer of the customs the return certificate herein required." Instances where expressions suggested by the commonest form of the subject dealt with have been held to apply to all its forms, are not uncommon in judicial decisions.

Moreover, the word "port" does not always mean a seaport when it is used in connection with our customs officers, and the word "land" is not necessarily limited to disembarkation from a ship.

It appears to be necessary for the laborer to leave this country at a place which is a port and is within the jurisdiction of a Chinese consul, and that he should return to it at a port of entry where there is a collector; but as his right to depart and return by land as well as by sea is recognized by the treaty, these places need not be seaports.

As the manifest object of this clause of the treaty was to relieve returning Chinese laborers from the consequences of sickness or casualty, the argument from inconvenience is not without weight. Detentions from these causes are quite likely to occur after the commencement of a long voyage which, in their absence, would accomplish the return before the expiration of the year. Sickness, storms, or the many mishaps of ocean travel, may require the statement mentioned in the treaty on arrival in the United States, although it seemed unnecessary before starting. These facts must have been in the minds of the framers of the treaty; yet, if any other construction be adopted than that which I have indicated, the unfortunate traveler would have to return to the place from which he started, or undergo the long delay which would be required to communicate the facts to the officer at that point and receive his certificate thereof.

Very respectfully,

JUDSON HARMON,
Attorney-General.

CLEARANCES OF VESSELS PROCEEDING FOREIGN VIA A DOMESTIC PORT.

1896.
Department Circular No. 84.
Bureau of Navigation.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 5, 1896.

To Collectors of Customs and Others:

A foreign vessel clearing from a domestic port to a foreign port via a domestic port, where she is to stop for coal, supplies, or cargo, should proceed under sections 4367, 4368, and 4369, Revised Statutes, delivering to the collector at the first port duplicate manifests, properly sworn to, and obtaining permit, as in other cases, to be presented at the port of destination in the United States. If imported cargo be retained on the vessel, the requirements of sections 2654, 2776, and 2777, Revised Statutes, as to bond, must be observed.

Shippers' manifests of exports should be accepted by the collector at the first port as if the vessel were to proceed from such port directly to a foreign port, and returns should be made to the Bureau of Statistics accordingly, the collector at the second port forwarding returns only of the merchandise laden at his port for export, or of merchandise laden elsewhere, covered by shipper's manifest presented at his port and not included in the returns of another collector. It is the practice for the master to file at the last port of departure for a foreign port a full manifest of the cargo. (Sec. 4197, Rev. Stat., S. 5644, 6893.) The fee for the coastwise permit is \$2.

Similar action as to returns should be taken in the case of a vessel of the United States clearing coastwise with cargo laden at one domestic port for export in her via another domestic port.

Forms 483 and 504 $\frac{1}{2}$ (Cat. Nos.) will be amended by the Department accordingly, so that they may show whether or not merchandise laden at a domestic port for exportation via another domestic port will be included in the statistical returns from the first port.

W. E. CURTIS,
Acting Secretary.

CONTRACTS FOR THE CARE OF SEAMEN, ETC.

1896.
Department Circular No. 85.
Marine-Hospital Service.

Treasury Department,

OFFICE OF
SUPERVISING SURGEON-GENERAL U. S. MARINE-HOSPITAL SERVICE,

Washington, D. C., June 18, 1896.

The following contracts for the care of seamen entitled to relief from this Service, for the fiscal year ending June 30, 1897, are published for the information of accounting officers of the Treasury Department, disbursing agents, medical officers of the Marine-Hospital Service, acting assistant surgeons, and customs officers. This circular is to be regarded as official notification of the acceptance of the proposals made by the parties designated, and must be cited, giving its number and date, on all bills for the treatment and maintenance of seamen, and for the burial of deceased patients, as the authority for any expenditure incurred under its provisions. Charges will be allowed for the day of admission of a hospital patient, but not for the day of discharge or death. The right is reserved by the Secretary of the Treasury to terminate any contract whenever the interests of the Service require it. All relief must be furnished in accordance with the Revised Regulations of the Marine-Hospital Service; and, in consequence of the largely increased expenditures for relief, and of the limited sources of income, it has become necessary to give notice that, as provided in the Regulations, no allowance will be made for expenditures incurred at any other station than those named in this circular.

Upon admission to a contract hospital of a patient with disease or injury which, in the opinion of the medical officer, the acting assistant surgeon, or physician in charge of the case, will require more than twenty days' treatment in hospital, the collector of customs or other officer issuing the permit will at once request authority from the Marine-Hospital Bureau to transfer such patient to the nearest marine hospital, provided the patient's condition, in the opinion of the medical officer, the acting assistant surgeon, or physician in charge of the case, is such as to admit of transportation.

The attention of collectors of customs, medical officers, acting assistant surgeons, or other physicians in charge of patients of the Marine-Hospital Service at contract stations, is hereby called to the necessity of discharging patients promptly upon the termination of the necessary hospital treatment, and without awaiting the expiration of the period authorized in the permit.

The term "contagious diseases" wherever occurring in this circular, specific contracts excepted,

includes only those diseases which, under usual municipal regulations, are required to be treated in a special hospital for contagious diseases.

WALTER WYMAN,

Supervising Surgeon-General U. S. Marine-Hospital Service.

APPROVED:

W. E. CURTIS,

Acting Secretary of the Treasury.

ALBANY, N. Y.

The rate at ports not specifically provided for by this circular will, in each special case, be fixed by the Department, upon the recommendation of the proper officer, in accordance with the Regulations.

The rate of charge for seamen from vessels of the Navy and Coast Survey, admitted to hospital under the provisions of the Regulations, and of foreign seamen admitted under the act of March 3, 1875, is hereby fixed at the uniform rate of \$1 a day.

At all ports not otherwise specified, the dispensary is located at the custom house or marine hospital

FREE RETURN OF ARTICLES EXPORTED FROM THE UNITED STATES FOR EXHIBITION PURPOSES.

1896.
Department Circular No. 86.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 6, 1896.

To Collectors and other Officers of the Customs:

The Act of Congress approved May 18, 1896, entitled "An Act to allow the return free of duty of certain articles exported from the United States for exhibition purposes," provides:

"That whenever any article or articles or live stock shall be sent out of the United States for temporary use or exhibition at any public exposition, fair, or conference, held in a foreign country, such articles shall be entitled to be returned to the United States, under such regulations as may be prescribed by the Secretary of the Treasury, without the payment of customs duty, whether they shall be of domestic or of foreign production: *Provided*, That the articles of foreign production have once paid duty in the United States and no drawback has been allowed thereon, and if any domestic articles are subject to internal revenue tax, such tax shall be proved to have been paid before exportation and not refunded."

Entries of such merchandise returned to the port of original exportation must show the fact of regular clearance for a foreign destination by the records of the customs and by the declaration of the person making the entry. But when the reimportation is made into a port other than that of original exportation there shall be required, in addition to the declaration, a certificate from the collector and the naval officer, if any, of the port where the exportation was made, showing the fact of exportation from that port.

OATH FOR RETURN OF ARTICLES EXPORTED FOR EXHIBITION PURPOSES.

I, _____, do solemnly, sincerely, and truly swear (or affirm) that the several articles of merchandise mentioned in the entry hereto annexed are, to the best of my knowledge and belief, truly and bona fide exhibition goods; that they were truly exported and imported as therein expressed; that the articles of foreign production have once paid duty in the United States; that no drawback, bounty, or allowance has been paid or admitted thereon, or on any part thereof; and that the internal-revenue tax due upon the domestic articles therein mentioned has been paid and no part thereof has been refunded.

Port of _____

Sworn to this _____ day of _____, 18

_____, Collector.

CERTIFICATE OF EXPORTATION OF EXHIBITION GOODS.

DISTRICT OF _____, PORT OF _____,
_____, 18—.

This is to certify that there were cleared from this port on the _____, in the _____, whereof _____ was master, for _____, the following articles of merchandise (here enumerate the number of packages,

their denomination, marks, numbers, and contents) on which no drawback, allowance, or bounty has been paid or admitted.

[SEAL.]
[SEAL.]

_____, Collector.
_____, Naval Officer.

If such certificate can not at once be procured, and the proof otherwise required be produced, free entry will be permitted on bond (Cat. No. 596) being given for the production of the certificate in a sum equal to what the duties would be if it were dutiable merchandise.

To guard against fraud, and to insure identity, the collector shall require, in addition to proof of clearance, the production of a declaration made by the foreign exporter of the goods before the United States consul of the fact that the merchandise was imported from the United States, and that it was sent to _____ for temporary use at the exhibition entitled _____, held at _____, on the _____ day of _____, 18 . But if it be impracticable to produce such declaration at the time of making entry, bond may be given for the production thereof. (Synopsis, 14653.)

Collectors, with concurrence of naval officers, if any, may waive the record evidence of clearance and above declaration, and in lieu thereof accept other satisfactory evidence of exportation, in the case of domestic goods on which no drawback has been allowed, valued at not over \$100, if satisfied that the failure to produce the record evidence did not result from willful negligence on the part of the importers.

In default of observance of the foregoing requirements, imported merchandise will be treated as dutiable.

Should it appear that any internal-revenue tax was remitted or refunded by way of drawback, on the original exportation of any articles of the growth, manufacture, or product of the United States, a duty must be exacted upon their return equal in amount to the tax imposed by the internal-revenue laws upon such articles at the time of their reimportation, but all articles manufactured in bonded warehouse will be subject to duty, on reimportation, as foreign merchandise, and all articles on which drawback was paid will be liable to a duty equal to the drawback allowed.

Duties voluntarily paid on such returned goods can not be refunded in the absence of a timely protest under section 14 of the act of June 10, 1890, as the only importations exempted from protest by section 1 of the act of March 3, 1875 (18th Statutes, p. 469), are personal and household effects and other articles not merchandise, article 353 of the Regulations of 1892 applying only to goods brought in as personal or household effects or passenger's baggage.

CHARLES S. HAMLIN,
Acting Secretary.

REPORTS OF PASSENGER MOVEMENTS.

1896.

Department Circular No. 87.

Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 8, 1896.

To Principal Officers of the Customs:

You are hereby directed to forward reports of the monthly and quarterly passenger movements in the future, as you have in the past, to the Bureau of Statistics, Treasury Department. These reports were formerly included in the reports of immigration, which are now forwarded to the Bureau of Immigration.

CHARLES S. HAMLIN,
Acting Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.

PROPER DISPOSITION OF CERTIFICATES OF DEPOSIT.

1896.
Department Circular No. 89.
Division of Public Moneys.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 11, 1896.

Section 3621, Revised Statutes of the United States, as amended by section 5 of the Legislative, Executive, and Judicial Appropriation Act, approved May 28, 1896, requires that the Treasurer and assistant treasurers of the United States and all national bank depositaries shall transmit forthwith to the Secretary of the Treasury the original of every certificate of deposit issued by them and deliver to the depositor the remainder of the set.

Accordingly the instructions on this subject contained in Department Circular No. 18, dated February 2, 1894, are hereby revoked and the following regulations are hereby prescribed, to take effect July 1, 1896.

The *originals* of all certificates issued for the deposit of any and all public moneys of every character and description, *except as stated in the next succeeding paragraph*, must be forwarded immediately upon their issuance to the Secretary of the Treasury *by the depositaries*, who, before transmitting them, should see that their amounts correspond with the amounts actually deposited with them.

EXCEPTIONS.

Those issued by an assistant treasurer for the shipment of silver coin, *in duplicate*, the original to be transmitted by the assistant treasurer to the office from which the coin is to be shipped, and the duplicate to the depositor; those issued by a national bank depositary for shipment of silver coin, *in duplicate*, the original to be transmitted by the depositary to the Treasurer of the United States and the duplicate to the depositor; those issued for 5 per cent redemption fund and for the transfer of funds from one depositary to another, *in duplicate*, the original to be transmitted by the depositary to the Treasurer of the United States and the duplicate to the depositor; and those issued for the deposit of moneys pertaining to the Post-Office Department, *in duplicate*, the original to be transmitted by the depositary to the Auditor for the Post-Office Department and the duplicate to the depositor.

Certificates of deposit should be issued and disposed of as hereinafter provided, and in no case should a second or duplicate set of certificate be issued for any deposit, except upon special authority from the Secretary of the Treasury, viz:

ON ACCOUNT OF CUSTOMS, ETC.

Those issued in the name of customs officers at ports where naval officers are located, on account of duties on imports, etc., including repayments of disbursing funds, *in triplicate*; those issued in the name of customs officers at other ports, *in duplicate*; the originals of the former class to be transmitted by the depositary to the Secretary of the Treasury, the duplicates to the naval officers and the triplicates to the depositors; and of the latter class, the originals to the Secretary of the Treasury and the duplicates to the depositors.

INTERNAL REVENUE.

Those issued in the name of collectors of internal revenue on account of internal-revenue collections, internal-revenue stamps, or repayments of disbursing funds, *in triplicate*; the original to be transmitted by the depository to the Secretary of the Treasury and the remainder of the set to the depositor, who should forward the duplicate to the Commissioner of Internal Revenue and retain the triplicate.

SALES OF PUBLIC LANDS, ETC.

Those issued in the name of receivers of public moneys on account of sales of public lands, etc., including repayments of disbursing funds, *in triplicate*; the original to be transmitted by the depository to the Secretary of the Treasury and the remainder of the set to the depositor, who should forward the duplicate to the Commissioner of the General Land Office and retain the triplicate.

JUDICIARY.

Those issued in the name of judicial officers, district attorneys, marshals, clerks of court, etc., *in duplicate*; the original to be transmitted by the depository to the Secretary of the Treasury and the duplicate to the depositor.

ARMY AND NAVY.

Those issued in the name of military or naval officers, on account of repayments, sales of public property, or otherwise, *in duplicate*; the original to be transmitted by the depository to the Secretary of the Treasury and the duplicate to the depositor.

SURVEYS OF PUBLIC LANDS.

Those issued on account of surveys of public lands, *in triplicate*; the original to be transmitted by the depository to the Secretary of the Treasury, and the remainder of the set to the depositor, who should forward the duplicate to the Surveyor-General and retain the triplicate.

PATENT FEES.

Those issued on account of patent fees, *in triplicate*; the original to be transmitted by the depository to the Secretary of the Treasury, and the remainder of the set to the depositor, who should forward the duplicate to the Commissioner of Patents and retain the triplicate.

SEMI-ANNUAL DUTY.

Those issued on account of semi-annual duty, *in triplicate*; the original to be transmitted by the depository to the Secretary of the Treasury, and the remainder of the set to the depositor, who should forward the duplicate to the Treasurer of the United States and retain the triplicate.

MISSING COUPONS.

Those issued on account of coupons missing from bonds forwarded for redemption, or otherwise, *in duplicate*; both the original and duplicate to be transmitted by the depository to the Secretary of the Treasury.

LOANS, INTEREST ON THE PUBLIC DEBT, CIVIL REPAYMENTS, CONSULAR FEES, MISCELLANEOUS AND OTHER RECEIPTS.

Those issued on account of subscriptions to any loan, repayments of interest on the public debt, civil repayments, except as hereinbefore otherwise provided for, consular fees, miscellaneous and other

receipts, *in duplicate*; the original to be transmitted by the depository to the Secretary of the Treasury and the duplicate to the depositor.

SECRETARY'S SPECIAL ACCOUNTS.

Those issued for deposits to the credit of the Secretary of the Treasury, special accounts Nos. 1 and 5, *in triplicate*; the originals to be transmitted by the depository to the Secretary of the Treasury, and the remainder of the set to the depositor; those issued to the credit of the Secretary of the Treasury, special account No. 3, *in duplicate*, the original to be transmitted by the depository to the Secretary of the Treasury and the duplicate to the depositor.

The depositor should forward the duplicate pertaining to account No. 1 to the Commissioner of Internal Revenue and retain the triplicate; he should forward the duplicate pertaining to account No. 5 to the Solicitor of the Treasury and retain the triplicate; he should retain the duplicate pertaining to account No. 3.

DISBURSING OFFICERS' RECEIPTS.

For each deposit made to the official credit of a disbursing officer a single receipt should be issued and delivered to the depositor.

GENERAL REMARKS.

In no case are certificates of deposit required to be filed with accounts rendered by Government officers to the accounting officers of the Treasury Department, nor does such a disposition of any certificates of deposit secure to the officers transmitting them proper credits in their accounts. Credit for deposits is given officers in the settlement of their accounts only upon warrants issued by the Secretary of the Treasury, based upon the report of the depository and verified by the original certificate of deposit. In taking credit in their accounts current, however, for money deposited, officers should state specifically the date of deposit, with whom deposited, and the source from which the money was derived. All original certificates issued for deposits by military, naval, and other officers, the amounts of which are required to be recorded in any of the bureaus of the War, Navy, Interior, or other Executive Departments, will, immediately upon their receipt by the Secretary of the Treasury, be compared with the proper depository account, recorded, and forwarded to the head of the Department to which the deposits pertain for designation of the proper appropriations, etc.

CHARLES S. HAMLIN,

Acting Secretary.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. The second part outlines the procedures for handling discrepancies between the books and the actual physical inventory. It states that any variance must be investigated immediately and reported to the management. The third part describes the process of reconciling the accounts at the end of each month. It requires that all bank statements be reviewed and compared against the cash book entries. The final part discusses the role of the auditor in verifying the accuracy of the financial statements and ensuring compliance with applicable laws and regulations.

GENERAL INSTRUCTIONS

1. All entries in the books must be made in ink and must be clearly legible. 2. The books must be kept in a safe and secure place. 3. The books must be balanced at the end of each month. 4. All receipts and invoices must be filed in chronological order. 5. The books must be audited annually by a qualified auditor. 6. Any change in the accounting system must be approved by the management. 7. The books must be kept for a minimum of seven years. 8. The books must be used as evidence in any legal proceedings. 9. The books must be kept up-to-date at all times. 10. The books must be used to prepare the financial statements.

These instructions are intended to provide a clear and concise guide for the proper use and maintenance of the accounting books. It is the responsibility of the user to ensure that all entries are accurate and complete. The management is responsible for ensuring that the books are kept in accordance with these instructions. The auditor is responsible for verifying the accuracy of the books and the financial statements. The books are a vital part of the accounting system and must be treated with the highest level of care and attention.

REGULATIONS FOR THE DEPOSIT OF PUBLIC MONEYS.

1896.

Department Circular No. 90.

Division of Public Moneys.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 12, 1896.

To Collectors and Surveyors of Customs, Collectors of Internal Revenue, Receivers of Public Moneys, Marshals, Clerks of Courts, and all other Officers or Agents of the United States engaged in Collecting, Depositing, or Transmitting Public Moneys:

The following regulations, based upon specific provisions of existing laws, for the violation of which penalties of a severe character are provided, are hereby prescribed, and a strict compliance therewith enjoined:

COLLECTIONS.

Collectors and surveyors of customs, collectors of internal revenue, and receivers of public moneys, living in the same city or town with the Treasurer or an assistant treasurer of the United States, or a national bank depository, must deposit their receipts at the close of each day. Officers at such a distance from a depository that daily deposits are impracticable must forward their receipts as often as they amount to \$1,000, and at the end of each month without regard to the amount then accumulated.

All collections must be deposited to the credit of the Treasurer of the United States, except moneys received by collectors of internal revenue from sales under section 3460, Revised Statutes of the United States, or from offers of compromise *when received prior to the acceptance of the offer*, which must be deposited to the credit of the Secretary of the Treasury.

District attorneys, marshals, and clerks of courts, who receive public moneys accruing to the United States from fines, penalties and forfeitures, fees, costs (including *costs* in civil and criminal suits for violation of the postal laws), forfeitures of recognizances, debts due the United States, interest on such debts, sales of public property, or from any other sources, except as stated below, will deposit the same in accordance with the foregoing paragraphs. Moneys accruing from customs (including navigation) should be paid to the collector or surveyor of customs of the district in which the case arose, a receipt accepted therefor to be sent to the Solicitor of the Treasury. Moneys accruing from internal revenue cases should be paid to the collector of internal revenue of the district in which the case arose, a receipt accepted therefor to be sent to the Commissioner of Internal Revenue. Moneys accruing from *civil* post-office suits, and *fines* in criminal cases for violation of the postal laws should be deposited to the credit of the Treasurer of the United States for the use of the Post-Office Department.

The Department encourages the practice of a deputy collector depositing directly with a depository in the name of his principal, believing that greater economy and dispatch will thereby be attained. In such cases the deputy will see that certificates are issued in the name of the collector for whom he is acting, to whom he should forward the portion of the set received by him from the depository.

DISBURSING FUNDS.

Disbursing officers or agents must deposit disbursing funds to their official credit and draw upon such funds in their official capacity only. Unless otherwise directed, they must deposit such moneys with the

Treasurer or an assistant treasurer of the United States, or a national bank depository if specially authorized by the Secretary of the Treasury for that purpose under the provisions of section 3620, Revised Statutes of the United States. In case no such special authority has been given to a convenient depository, application should be made to the Secretary of the Treasury for such authorization.

Reference is hereby made to Department's Circulars of March 12, 1889, relative to the transportation of public moneys by express; August 24, 1876, relative to disbursing funds; November 28, 1879, and June 2, 1882, relative to offers of compromise, and June 11, 1896, concerning the issuance and disposition of certificates of deposit; also, to Act of Congress of January 22, 1894, sections 3216, 3218, 3617, 3620, 3621, (as amended by act of May 28, 1896,) 3625, and 5481 to 5505, inclusive, of the Revised Statutes of the United States.

This circular supersedes circular regulations for the deposit of public moneys, dated January 12, 1888.

CHARLES S. HAMLIN,
Acting Secretary.

REVOCATION OF CIRCULAR REQUIRING CHARGES FOR TRANSPORTATION OF
NATIONAL BANK NOTES FOR REDEMPTION TO BE PAID BY SENDERS.

1896.
Department Circular No. 91.
Treasurer's Office, No. 65

Treasury Department,

OFFICE OF THE TREASURER,

Washington, D C., June 13, 1896.

Circular No. 174, of November 17, 1893, requiring the charges for the transportation of national-bank notes to the Treasurer of the United States for redemption, under the act of June 20, 1874, to be paid by the senders, is hereby revoked, to take effect on and after July 1, 1896.

D. N. MORGAN,
Treasurer U. S.

APPROVED:

J. G. CARLISLE,
Secretary of the Treasury.

CIVIL SERVICE CLASSIFICATION, TREASURY DEPARTMENT.

1896.

Department Circular No. 92.

Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 13, 1896.

By direction of the President of the United States, and in accordance with the third clause of section 6 of the Act entitled "An Act to regulate and improve the civil service of the United States," approved January 16, 1883:

It is ordered, That the officers and employees in or under this Department included within the provisions of the civil service law and rules be, and they are hereby, arranged in the following classes:

Class A, all persons receiving an annual salary of less than \$720, or a compensation at the rate of less than \$720 per annum.

Class B, all persons receiving an annual salary of \$720 or more, or a compensation at the rate of \$720 or more, but less than \$840 per annum.

Class C, all persons receiving an annual salary of \$840 or more, or a compensation at the rate of \$840 or more, but less than \$900 per annum.

Class D, all persons receiving an annual salary of \$900 or more, or a compensation at the rate of \$900 or more, but less than \$1,000 per annum.

Class E, all persons receiving an annual salary of \$1,000 or more, or a compensation at the rate of \$1,000 or more, but less than \$1,200 per annum.

Class 1, all persons receiving an annual salary of \$1,200 or more, or a compensation at the rate of \$1,200 or more, but less than \$1,400 per annum.

Class 2, all persons receiving an annual salary of \$1,400 or more, or a compensation at the rate of \$1,400 or more, but less than \$1,600 per annum.

Class 3, all persons receiving an annual salary of \$1,600 or more, or a compensation at the rate of \$1,600 or more, but less than \$1,800 per annum.

Class 4, all persons receiving an annual salary of \$1,800 or more, or a compensation at the rate of \$1,800 or more, but less than \$2,000 per annum.

Class 5, all persons receiving an annual salary of \$2,000 or more, or a compensation at the rate of \$2,000 or more, but less than \$2,500 per annum.

Class 6, all persons receiving an annual salary of \$2,500 or more, or a compensation at the rate of \$2,500 or more, per annum.

It is provided, That this classification shall not include persons appointed to an office by and with the advice and consent of the Senate, nor persons employed as mere laborers or workmen; but all positions whose occupants are designated as laborers or workmen, and who were, prior to May 6, 1896, and are now, regularly assigned to work of the same grade as that performed by classified employees, shall be included within this classification. Hereafter, no person who is appointed as a laborer or workman, without

examination under the civil service rules, shall be assigned to work of the same grade as that performed by classified employees.

It is also ordered, That no person shall be admitted into any place not excepted from examination by the civil service rules, in any of the classes above designated, until he shall have passed an appropriate examination prepared by the United States Civil Service Commission and his eligibility has been certified to this Department by said Commission.

J. G. CARLISLE,
Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 93.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 15, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending May 29, 1896.

CHARLES S. HAMLIN,
Acting Secretary.

REPORT ON REAPPRAISEMENTS FOR THE WEEK ENDING MAY 29, 1896.

Department Circular No. 97.

Division of Revenue Cutter Service, No. 66.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., June 22, 1896.

The following extract from the act of Congress approved June 11, 1896, making appropriations for the sundry civil expenses of the Government, for the fiscal year ending June 30, 1897, is published for the information and guidance of officers and others of the Revenue Cutter Service:

“That the Secretary of the Treasury be, and he is hereby, authorized to permit officers and others of the Revenue Cutter Service to make allotments from their pay, under such regulations as he may prescribe, for the support of their families or relatives, for their own savings, or for other proper purposes, during such time as they may be absent at sea, on distant duty, or under other circumstances warranting such action.”

Applications for allotments in cases where the officers or other persons are not “absent at sea” or “on distant duty” should show *all the circumstances* in order that the Department may determine whether they be such as to warrant favorable action. In no case will the amount of the allotment exceed 70 per cent of the monthly pay as provided for in paragraph 874 of the Regulations of the Revenue Cutter Service.

CHARLES S. HAMLIN,

Acting Secretary.

MEMORANDUM

TO: THE BOARD OF DIRECTORS

DATE: 11/15/54

From the end of 1953 through 1954, the Board of Directors of the Government for the fiscal year ending 1954, the Board of Directors and officers of the Government of the Territory have had the honor to receive and review the report of the Board of Directors of the Government of the Territory for the fiscal year ending 1954. The Board of Directors of the Government of the Territory has the honor to acknowledge the efforts of the Board of Directors of the Government of the Territory in the discharge of their duties and to express its appreciation for the excellent work done by the Board of Directors of the Government of the Territory during the year 1954. The Board of Directors of the Government of the Territory has the honor to commend the Board of Directors of the Government of the Territory for the excellent work done by the Board of Directors of the Government of the Territory during the year 1954. The Board of Directors of the Government of the Territory has the honor to commend the Board of Directors of the Government of the Territory for the excellent work done by the Board of Directors of the Government of the Territory during the year 1954.

CHIEF CLERK

11/15/54

IMPORTATION OF "FILLED CHEESE."

1896.
Department Circular No. 98.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 23, 1896.

To Collectors and other Officers of the Customs :

The attention of collectors and other officers of the customs is called to section 11 of the annexed act, approved June 6, 1896, entitled "An Act Defining cheese, and also imposing a tax upon and regulating the manufacture, sale, importation, and exportation of 'filled cheese,'" which is as follows :

"SEC. 11. That all filled cheese as herein defined imported from foreign countries, shall, in addition to any import duty imposed on the same, pay an internal-revenue tax of eight cents per pound, such tax to be represented by coupon stamps; and such imported filled cheese and the packages containing the same shall be stamped, marked, and branded, as in the case of filled cheese manufactured in the United States."

Paragraph 195 of the act of August 28, 1894, provides for a duty of four cents per pound on imported cheese; and provision is made in the foregoing section for the collection of an internal-revenue tax of eight cents per pound in addition to the import duty imposed by said paragraph 195. This additional tax must be paid before the removal of the goods from the custody of the Government.

The Commissioner of Internal Revenue will prepare regulations covering the manner of collecting this tax, the issuance of the requisite stamps, etc., printed copies of which in sufficient numbers for the use of customs officials may be had on requisition.

The act goes into effect ninety days after the date of its passage, to wit, September 4, 1896.

In addition to the marking of the packages of such goods, required by section 5 of the act of August 28, 1894, as to the quantity of contents, and indication of country of origin, each and every cheese, and each and every package if not, on importation, found to be duly marked in accordance with the provisions of said section, and section 6 of said act of June 6, 1896, must be marked, stamped, and branded in the manner provided, before delivery from the custody of the officers of the customs, the expense of unpacking, marking, and repacking in original packages to be borne by the importer; and it is the duty of officers of the customs to require the opening of a sufficient number of the packages, and inspection of the cheeses in any invoice to verify proper compliance with the above provisions of law.

CHARLES S. HAMLIN,

Acting Secretary.

AN ACT Defining cheese, and also imposing a tax upon and regulating the manufacture, sale, importation, and exportation of "filled cheese."

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That for the purposes of this Act, the word "cheese" shall be understood to mean the food product known as cheese, and which is made from milk or cream and without the addition of butter, or any

animal, vegetable, or other oils or fats foreign to such milk or cream, with or without additional coloring matter.

SEC. 2. That for the purposes of this Act certain substances and compounds shall be known and designated as "filled cheese," namely: All substances made of milk or skimmed milk, with the admixture of butter, animal oils or fats, vegetable or any other oils, or compounds foreign to such milk, and made in imitation or semblance of cheese.

SEC. 3. That special taxes are imposed as follows:

Manufacturers of filled cheese shall pay four hundred dollars for each and every factory per annum. Every person, firm, or corporation who manufactures filled cheese for sale shall be deemed a manufacturer of filled cheese. Wholesale dealers in filled cheese shall pay two hundred and fifty dollars per annum. Every person, firm, or corporation who sells or offers for sale filled cheese in the original manufacturer's packages for resale, or to retail dealers as hereinafter defined, shall be deemed a wholesale dealer in filled cheese. But any manufacturer of filled cheese who has given the required bond and paid the required special tax, and who sells only filled cheese of his own production, at the place of manufacture, in the original packages, to which the tax-paid stamps are affixed, shall not be required to pay the special tax of a wholesale dealer in filled cheese on account of such sales.

Retail dealers in filled cheese shall pay twelve dollars per annum. Every person who sells filled cheese at retail, not for resale, and for actual consumption, shall be regarded as a retail dealer in filled cheese, and sections thirty-two hundred and thirty-two, thirty-two hundred and thirty-three, thirty-two hundred and thirty-four, thirty-two hundred and thirty-five, thirty-two hundred and thirty-six, thirty-two hundred and thirty-seven, thirty-two hundred and thirty-eight, thirty-two hundred and thirty-nine, thirty-two hundred and forty, thirty-two hundred and forty-one, thirty-two hundred and forty-three of the Revised Statutes of the United States are, so far as applicable, made to extend to and include and apply to the special taxes imposed by this section and to the persons, firms, or corporations upon whom they are imposed: *Provided*, That all special taxes under this Act shall become due on the first day of July in every year, or on commencing any manufacture, trade, or business on which said tax is imposed. In the latter case the tax shall be reckoned proportionately from the first day of the month in which the liability to the special tax commences to the first day of July following.

SEC. 4. That every person, firm, or corporation who carries on the business of a manufacturer of filled cheese without having paid the special tax therefor, as required by law, shall, besides being liable to the payment of the tax, be fined not less than four hundred dollars and not more than three thousand dollars; and every person, firm, or corporation who carries on the business of a wholesale dealer in filled cheese without having paid the special tax therefor, as required by law, shall, besides being liable to the payment of the tax, be fined not less than two hundred and fifty dollars nor more than one thousand dollars; and every person, firm, or corporation who carries on the business of a retail dealer in filled cheese without having paid the special tax therefor, as required by law, shall, besides being liable for the payment of the tax, be fined not less than forty nor more than five hundred dollars for each and every offense.

SEC. 5. That every manufacturer of filled cheese shall file with the collector of internal revenue of the district in which his manufactory is located such notices, inventories, and bonds, shall keep such books and render such returns of materials and products. shall put up such signs and affix such number to his factory, and conduct his business under such surveillance of officers and agents as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may by regulation require. But the bond required of such manufacturer shall be with sureties satisfactory to the collector of internal revenue, and in a penal sum of not less than five thousand dollars; and the amount of said bond may be increased from time to time, and additional sureties required, at the discretion of the collector or under instructions of the Commissioner of Internal Revenue. Any manufacturer of filled cheese who fails to comply with the provisions of this section or with the regulations herein authorized, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not less than five hundred nor more than one thousand dollars.

SEC. 6. That filled cheese shall be packed by the manufacturers in wooden packages only, not before used for that purpose, and marked, stamped, and branded with the words "filled cheese" in black-faced letters not less than two inches in length, in a circle in the center of the top and bottom of the cheese; and in black-faced letters of not less than two inches in length in line from the top to the bottom of the cheese, on the side in four places equidistant from each other; and the package containing such cheese shall be marked in the same manner, and in the same number of places, and in the same description of letters as above provided for the marking of the cheese; and all sales or consignments made by manufacturers of filled cheese to wholesale dealers in filled cheese or to exporters of filled cheese shall be in original stamped packages. Retail dealers in filled cheese shall sell only from original stamped packages, and shall pack the filled cheese when sold in suitable wooden or paper packages, which shall be marked

and branded in accordance with rules and regulations to be prescribed by the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury. Every person who knowingly sells or offers to sell, or delivers or offers to deliver, filled cheese in any other form than in new wooden or paper packages, marked and branded as hereinbefore provided and as above described, or who packs in any package or packages filled cheese in any manner contrary to law, or who falsely brands any package or affixes a stamp on any package denoting a less amount of tax than that required by law, shall upon conviction thereof be fined for each and every offense not less than fifty dollars and not more than five hundred dollars or be imprisoned not less than thirty days nor more than one year.

SEC. 7. That all retail and wholesale dealers in filled cheese shall display in a conspicuous place in his or their sales room a sign bearing the words "Filled cheese sold here" in black-faced letters not less than six inches in length, upon a white ground, with the name and number of the revenue district in which his or their business is conducted; and any wholesale or retail dealer in filled cheese who fails or neglects to comply with the provisions of this section shall be deemed guilty of a misdemeanor, and shall on conviction thereof be fined for each and every offense not less than fifty dollars and not more than two hundred dollars.

SEC. 8. That every manufacturer of filled cheese shall securely affix, by pasting on each package containing filled cheese manufactured by him, a label on which shall be printed, besides the number of the manufactory and the district and state in which it is situated, these words: "Notice.—The manufacturer of the filled cheese herein contained has complied with all the requirements of the law. Every person is cautioned not to use either this package again or the stamp thereon again, nor to remove the contents of this package without destroying said stamp, under the penalty provided by law in such cases." Every manufacturer of filled cheese who neglects to affix such label to any package containing filled cheese made by him or sold or offered for sale by or for him, and every person who removes any such label so affixed from any such package, shall be fined fifty dollars for each package in respect to which such offense is committed.

SEC. 9. That upon all filled cheese which shall be manufactured there shall be assessed and collected a tax of one cent per pound, to be paid by the manufacturer thereof; and any fractional part of a pound in a package shall be taxed as a pound. The tax levied by this section shall be represented by coupon stamps; and the provisions of existing laws governing the engraving, issue, sale, accountability, effacement, and destruction of stamps relating to tobacco and snuff, as far as applicable, are hereby made to apply to stamps provided for by this section.

SEC. 10. That whenever any manufacturer of filled cheese sells or removes for sale or consumption any filled cheese upon which the tax is required to be paid by stamps, without paying such tax, it shall be the duty of the Commissioner of Internal Revenue, within a period of not more than two years after such sale or removal, upon satisfactory proof, to estimate the amount of tax which has been omitted to be paid and to make an assessment therefor and certify the same to the collector. The tax so assessed shall be in addition to the penalties imposed by law for such sale or removal.

SEC. 11. That all filled cheese as herein defined imported from foreign countries shall, in addition to any import duty imposed on the same, pay an internal-revenue tax of eight cents per pound, such tax to be represented by coupon stamps; and such imported filled cheese and the packages containing the same shall be stamped, marked, and branded, as in the case of filled cheese manufactured in the United States.

SEC. 12. That any person who knowingly purchases or receives for sale any filled cheese which has not been branded or stamped according to law, or which is contained in packages not branded or marked according to law, shall be liable to a penalty of fifty dollars for each such offense.

SEC. 13. That every person who knowingly purchases or receives for sale any filled cheese from any manufacturer or importer who has not paid the special tax herein provided for shall be liable, for each offense, to a penalty of one hundred dollars and to a forfeiture of all articles so purchased or received, or of the full value thereof.

SEC. 14. That whenever any stamped package containing filled cheese is emptied it shall be the duty of the person in whose hands the same is to destroy the stamps thereon; and any person who willfully neglects or refuses so to do shall, for each such offense, be fined not exceeding fifty dollars or imprisoned not less than ten days nor more than six months.

SEC. 15. That the Commissioner of Internal Revenue is authorized to have applied scientific tests, and to decide whether any substances used in the manufacture of filled cheese contain ingredients deleterious to health. But in case of doubt or contest his decision in this class of cases may be appealed from to a board hereby constituted for the purpose, and composed of the Surgeon-General of the Army, the Surgeon-General of the Navy, and the Secretary of Agriculture, and the decision of this board shall be final in the premises.

SEC. 16. That all packages of filled cheese subject to tax under this Act that shall be found without stamps or marks as herein provided, and all filled cheese intended for human consumption which contains

ingredients adjudged as hereinbefore provided to be deleterious to the public health, shall be forfeited to the United States.

SEC. 17. That all fines, penalties, and forfeitures imposed by this Act may be recovered in any court of competent jurisdiction.

SEC. 18. That the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall make all needful regulations for the carrying into effect the provisions of this Act.

SEC. 19. That this Act shall go into effect on the ninetieth day after its passage, and all wooden packages containing ten or more pounds of filled cheese found on the premises of any dealer on and after the ninetieth day succeeding the date of the passage of this Act, shall be deemed to be taxable under section nine of this Act, and shall be taxed, and shall have affixed thereto the stamps, marks, and brands required by this Act or by regulations made pursuant to this Act; and for the purpose of securing the affixing of the stamps, marks, and brands required by this Act, the filled cheese shall be regarded as having been manufactured and sold or removed from the manufactory for consumption or use on or after the day this Act takes effect; and such stock on hand at the time of the taking effect of this Act may be stamped, marked, and branded under special regulations of the Commissioner of Internal Revenue, approved by the Secretary of the Treasury; and the Commissioner of Internal Revenue may authorize the holder of such packages to mark and brand the same and to affix thereto the proper tax-paid stamps.

Approved, June 6, 1896.

NUMBERING OF ENTRIES OF IMPORTED GOODS.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 25, 1896.

To Collectors and other Officers of the Customs:

At all customs ports, except those at which there are naval officers, the numbering of entries in accordance with the Regulations, article 297, will be by the fiscal year, instead of the calendar year, commencing No. 1, July 1, 1896.

The above rule will be applied to I. T. entries at all ports, including those at which there are naval officers.

W. E. CURTIS,
Acting Secretary.

TENNESSEE CENTENNIAL EXPOSITION.

1896.
Department Circular No. 100.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 24, 1896.

To Collectors and other Officers of the Customs:

The following public resolution (No. 49) was approved by the President on May 18, 1896:

JOINT RESOLUTION Authorizing foreign exhibitors at the Tennessee Centennial Exposition, to be held in Nashville, Tennessee, in eighteen hundred and ninety-seven, to bring to this country foreign laborers from their respective countries for the purpose of preparing for and making their exhibits, and allowing articles imported from foreign countries for the sole purpose of exhibition at said exposition to be imported free of duty, under regulations prescribed by the Secretary of the Treasury.

Whereas the Tennessee Centennial Exposition Company of Nashville, Tennessee, have extended invitations which have been accepted by the several nations, and space for installing foreign exhibits has been applied for and duly apportioned, and concessions and privileges granted by the exposition management to the citizens and subjects of foreign nations; and

Whereas for the purpose of securing the production upon the exposition grounds of scenes illustrative of the architecture, dress, habits, and modes of life, occupation, industries, means of locomotion and transportation, amusements, entertainments, and so forth, of the natives of foreign countries, it has been necessary for the Tennessee Centennial Exposition Company to grant concessions and privileges to certain firms and corporations conceding the right to make such productions: Therefore,

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of Congress approved February twenty-sixth, eighteen hundred and eighty-five, prohibiting the importation of foreigners under contract to perform labor, and the Acts of Congress prohibiting the coming of Chinese persons into the United States, and the Acts amendatory of these Acts, shall not be so construed, nor shall anything therein operate to prevent, hinder, or in any wise restrict any foreign exhibitor, representative, or citizen of a foreign nation, or the holder, who is a citizen of a foreign nation, of any concession or privilege from the Tennessee Centennial Exposition Company of Nashville, Tennessee, from bringing into the United States, under contract, such mechanics, artisans, agents, or other employees, natives of their respective foreign countries, as they, or any of them, may deem necessary for the purpose of making preparations for installing or conducting their exhibits or of preparing or installing or conducting any business authorized or permitted under or by virtue of or pertaining to any concession or privilege which may have been granted by the Tennessee Centennial Exposition Company of Nashville, Tennessee, in connection with such exposition: *Provided, however,* that no alien shall by virtue of this Act enter the United States under contract to perform labor except by express permission, naming such alien, of the Secretary of the Treasury; and any such alien who may remain in the United States for more than one year, after the close of said exposition, shall thereafter be subject to all the processes and penalties applicable to aliens coming in violation of the alien-contract-labor law aforesaid.

SEC. 2. That all articles which shall be imported from foreign countries for the sole purpose of exhibition at said exposition, upon which there shall be a tariff or customs duty, shall be admitted free of payment of duty, customs fees, or charges, under such regulations as the Secretary of the Treasury shall prescribe; but it shall be lawful at any time during the exhibition to sell, for delivery at the close of the exposition, any goods or property imported for and actually on exhibition in the exposition buildings or on its grounds, subject to such regulations for the security of the revenue and for the collection of import duties as the Secretary of the Treasury shall prescribe: *Provided,* That all such articles, when sold or withdrawn for consumption in the United States, shall be subject to the duty, if any, imposed

upon such article by the revenue laws in force at the date of importation, and all penalties prescribed by law shall be applied and enforced against such articles and against the persons who may be guilty of any illegal sale or withdrawal.

Approved, May 18, 1896.

1. In order to secure the privileges of free entry above accorded, every package destined for the Exposition should have affixed to it by the foreign shipper one or more labels representing the flag of the country to which it belongs. This label should be about 8 by 12 inches in size, and should bear across the face, in plain black letters, the inscription: "Exposition at Nashville."

All packages should be plainly marked as follows:

- (1) "Surveyor of Customs, Nashville."
- (2) "Exhibits for Tennessee Centennial Exposition."
- (3) Name of consignee or agent at the port of first arrival in the United States.
- (4) The shipping marks and numbers.
- (5) Name and address of the exhibitor.

2. Every exhibit shall be accompanied by an invoice in duplicate, which shall show the name of the exhibitor, the marks and numbers of the packages, with a description of their contents, and a declaration of the quantity and the market value of each separate kind thereof in the country of production. This invoice must be signed by the exhibitor, but will require no further verification. One of the invoices will be transmitted by mail to the surveyor of customs at Nashville, and the other to the consignee of the goods at the port of first arrival.

3. As a matter of convenience, it is recommended that all packages intended for the Exposition shall be consigned to an agent, or forwarder, or commissioner, at the port of first arrival, who will attend to customs business incident to the transfer of packages from the importing vessel to a bonded route for transportation to Nashville.

4. The names of duly bonded companies will be furnished by collectors of customs at the ports of arrival. The goods may be transported to Nashville by companies duly bonded for the carriage of either appraised or unappraised merchandise. Examination and appraisal of exhibits at the port of original entry are hereby waived.

5. The consignee of the merchandise at the first port of arrival must present at the custom house the invoice above described, with a bill of lading and an entry in duplicate made out upon the special form to be prescribed for this purpose by the Treasury Department, which will show the name of the foreign shipper or owner, the name of the importing vessel, the marks and numbers of the packages, with a statement of the nature of their contents and of their foreign value, as declared in the invoice. The entry must also indicate the bonded route by which the goods are to be transported to Nashville, and must be signed by the consignee. No other declaration will be required. The consolidation of different shipments on one entry will not be allowed; such practice having obtained in regard to previous expositions has proved to be a fruitful source of confusion. Each entry will comprise, therefore, the consignment of a single exhibit only. The goods will be consigned, on the customs entry, to "Surveyor of Customs, Nashville," and there need be no computation of duties upon this entry, but the amount charged against the bond of the transportation company shall be double the invoice value.

6. The collector will thereupon issue a special permit bearing the words "Nashville Exposition," authorizing the transfer of the goods from the ship to the bonded railroad for transportation to Nashville, and will record and file one of the entries in his office, and send the other, by mail, with the invoice, to the surveyor at Nashville.

7. The permit will be taken by the agent or consignee to the inspector on board the importing vessel, who will thereupon send the goods, by a cartman duly licensed, to be delivered under the supervision of a customs officer to the transportation company.

8. The consignee will also prepare a manifest of the goods, which, after being duly certified, will be handed to the conductor of the car containing the same, and a duplicate copy must be sent by mail to the surveyor of customs at Nashville. Upon the arrival at Nashville of any car containing such articles, the conductor or agent of the railroad company will report such arrival by the presentation of the manifest to the customs officer designated to receive it, who shall compare the same with the copy received by mail, and superintend the opening of the car, taking care to identify the packages by marks and numbers, as described in the manifest.

9. These regulations will also apply to goods sent to the Exposition from foreign contiguous territory. All articles destined for the Exposition arriving from Canada or Mexico, on through cars, under consular seal, must be consigned by the foreign shipper to the "Surveyor of Customs" at Nashville.

10. The buildings and spaces set apart for the purposes of the Exposition are constituted "constructive bonded warehouses and yards," and all foreign articles placed therein under the supervision of the customs officers, and which have been specially imported for exhibition therein, will be treated the same as merchandise in bond. No warehouse entry will be required at Nashville in order to obtain entrance for such goods, but the latter will be kept under customs supervision, in accordance with the general regulations governing merchandise in bonded warehouses.

11. Under the special act of Congress establishing the Tennessee Centennial Exposition, sales are permitted during its continuance, but delivery of goods sold is to be withheld until the close of the Fair. The enforcement of this latter restriction devolves properly upon the Exposition authorities, who, being in control of the local police, are responsible for the protection of the exhibits. When the duties have been received by the surveyor upon the merchandise contained in any exhibit, he will regard such exhibit as released from customs control, except so far as concerns the supervision necessary to secure export with refund of duty.

12. At the close of the Exposition all goods intended for exportation will be transported in bond to the seaboard or exterior port, and exported therefrom under the general regulations for immediate export in bond, as modified by special regulations to be in due time provided.

13. Any merchandise imported by an exhibitor in excess of the articles duly installed as exhibits will be placed and retained in a storage warehouse at the expense of the importer until duly entered for payment of duty or exportation. Withdrawals of merchandise stored under these conditions, if made for the purpose of placing the same within the Exposition, will be treated under the provisions for entry on arrival at first port of entry, and no duty will be required to be paid. Such merchandise must be delivered at the Exposition in charge of a customs officer.

Goods which have been imported by exhibitors in excess of those used as exhibits, and stored on their account, may be withdrawn at any time for consumption on payment of duty and charges. Whenever duty-paid goods of this class shall be exported without having left the custody of the surveyor, the duty paid thereon, less 1 per cent, will be refunded, provided the duty paid on any such exported package shall have amounted to \$50. Exhibits entered for exportation without payment of duty are not subject to appraisement.

14. Articles brought by proprietors or managers of theatrical exhibitions for temporary use may be entered free of duty upon the filing of satisfactory bonds for their export within six months after such importation, as provided for in paragraph 596 of the tariff act.

15. It is to be distinctly understood that the United States is not liable for any loss, casualty, or injury to the merchandise imported as exhibits at the Exposition, nor for any debt, contract, or expense incident to the transportation, care, or treatment of such merchandise.

16. All entries, invoices, permits, abstracts, and reports relating to merchandise imported under the

act of May 18, 1896, must be separately made, and must be stamped with the words, "Tennessee Centennial Exposition."

17. Additional special regulations will be provided in due time covering the withdrawal of exhibits for consumption, transportation, or exportation at the close of the Exposition.

18. The privileges granted by virtue of these regulations are intended solely for the benefit of exhibitors at the Tennessee Centennial Exposition, and with the view of relieving them, so far as practicable, of delays and vexations in connection with the customs business pertaining to their importations.

Any attempt to take advantage of these regulations in order to evade the tariff laws of the United States will subject the offender to all the penalties prescribed by those laws, including confiscation of goods and fine and imprisonment.

W. E. CURTIS,
Acting Secretary.

○

INSPECTION OF MEATS EXPORTED.

1896.

Department Circular No. 101.

Bureau of Navigation.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 25, 1896.

To Collectors of Customs and others:

Attention is invited to the order of the Department of Agriculture, appended hereto, dated the 19th instant, relative to certificates of inspection of meats exported from the United States, and especially to that portion which revokes the order of February 25, 1896, embodied in the circular of the Treasury Department, dated February 28, 1896, and numbered 32.

W. E. CURTIS,
Acting Secretary.

Order Postponing the Certification of Export Beef to March 15, 1897.

U. S. DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,
Washington, D. C., June 19, 1896.

Whereas section 2 of the act of Congress, approved March 3, 1891, as amended in the act approved March 2, 1895, provides as follows:

"SEC. 2. That the Secretary of Agriculture shall also cause to be made a careful inspection of all live cattle, the meat of which, fresh, salted, canned, corned, packed, cured, or otherwise prepared, is intended for exportation to any foreign country, at such times and places, and in such manner as he may think proper, with a view to ascertain whether said cattle are free from disease, and their meat sound and wholesome, and may appoint inspectors who shall be authorized to give an official certificate clearly stating the condition in which such cattle and meat are found, and no clearance shall be given to any vessel having on board any fresh, salted, canned, corned, or packed beef being the meat of cattle killed after the passage of this act for exportation to and sale in a foreign country from any port in the United States until the owner or shipper shall obtain from an inspector appointed under the provision of this act a certificate that said cattle were free from disease, and that their meat is sound and wholesome."

And whereas it has been found impossible to establish inspection prior to July 1, 1896, at all points where beef is prepared and packed for the export trade, and

Whereas legislation is pending modifying the requirement for certificates with all exported beef, *It is ordered*, That the requirement of certificates shall be postponed until March 15, 1897. All orders and regulations of this Department inconsistent with this order are hereby revoked.

The greater part of the exported beef is now inspected and will be certified, and any Government desiring to secure inspected beef exclusively may do so by making the proper regulations. It is not, however, deemed practicable to exclude from exportation to countries which gladly accept it the beef which the retail butchers find unsalable because it is cut from inferior portions of the carcass. Much of this beef has been inspected, but there is no way of identifying it after the carcass has been cut. As a considerable number of firms collect these special cuts from the retailers and pack them for exportation, to enforce the statute as it stands would destroy their business. An amendment to the law which will avoid this undesirable result has been favorably reported from the proper committee in each branch of the Congress, and I deem it my duty to postpone the order requiring certificates until this bill has been duly considered and acted upon by the law-making power of the Government.

J. STERLING MORTON,
Secretary.

DRAWBACK ON SUGAR AND SIRUP.

1896.
Department Circular No. 102.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., June 25, 1896.

To Collectors and other Officers of the Customs:

On the exportation of refined sugars and sirups, made wholly from imported raw sugars, drawback will be allowed equal in amount to the duty paid on the material used, less the legal deduction of 1 per cent.

When the exported sugars are "hard refined," of standard test, commercially known as loaf, cut loaf, cube, granulated, crushed or powdered, and are made wholly from imported raw cane sugars, the amount of drawback shall be determined by allowing for each 100 pounds of the exported article, the duties paid on the respective grades and quantities of material used, as indicated in the following schedule:

Test of raw sugar used.	Allowance for 100 pounds hard refined.
<i>Degrees.</i>	<i>Pounds.</i>
99	101.87
98	103.73
97	105.60
96	107.47
95	109.34
94	111.20
93	113.07
92	114.94
91	116.81
90	118.67
89	120.54
88	122.41
87	124.27
86	126.14
85	128.01
84	129.88
83	131.74
82	133.61
81	135.48
80	137.35
79	139.21
78	141.08
77	142.95
76	144.82
75	146.68

When the "hard refined" sugars hereinbefore described are made wholly from imported raw beet sugars, the duty paid on the material used for each pound of the exported article may be determined by dividing the duty paid on 1 pound of the material by the decimal denoting the "net analysis" of such material, and then deducting from the amount so found, as an equivalent of the value of the material for

the sirup product, the percentage of that amount corresponding to the polariscope test of the raw sugar used, indicated in the following schedule :

Polariscope test of raw beet sugars used.	Percentages to be deducted to find duty paid on material for refined sugar.	Polariscope test of raw beet sugars used.	Percentages to be deducted to find duty paid on material for refined sugar.
"Firsts :"		"Seconds :"	
<i>Degrees.</i>	<i>Per cent.</i>	<i>Degrees.</i>	<i>Per cent.</i>
96	1.2	92	3.7
95	1.5	91	4.5
94	1.9	90	5.4
93	2.4	89	6.4
92	3	88	7.5

When "soft refined" sugars, made wholly from imported raw sugars, are exported with benefit of drawback, the drawback entry must show the respective values of such soft sugars and of standard granulated sugar on the same market; and the drawback per pound on the "soft refined" sugar shall be such part of the drawback per pound provided for "hard refined" sugar, made from the same kind and grade of material, as the value of such soft sugar is of the value of such granulated sugar.

The rate of drawback on the "soft refined" sugar may be fixed by use of the following proportion : As the value of 1 pound of standard granulated sugar is to the value of 1 pound of the "soft refined" sugar, so is the drawback provided for the pound of granulated sugar, to the drawback allowable on the pound of "soft refined" sugar, made from like material.

The required values of the refined sugars declared on the drawback entry, shall be verified by reference to standard market quotations on date of shipment.

The amount of drawback which may be allowed on the exported sirup products of raw sugars, shall be determined by allowing for each gallon of the exported article, valued at 5 cents in condition as "thrown" from the "centrifugal," the duties paid on the respective grades and quantities of material used, as indicated in the following schedule :

Test of raw sugar used.	Allowance for one gallon of sirup.
<i>Degrees.</i>	<i>Pounds.</i>
99	1.36
98	1.37
97	1.39
96	1.40
95	1.41
94	1.43
93	1.44
92	1.46
91	1.48
90	1.49
89	1.51
88	1.53
87	1.55
86	1.56
85	1.58
84	1.60
83	1.62
82	1.64
81	1.66
80	1.68
79	1.70
78	1.72
77	1.74
76	1.77
75	1.79

The value of the sirup, in condition as thrown from the centrifugal, shall be declared by the manufacturer on the drawback entry, which declaration shall be verified by the collector; and if the declaration so verified shows a value per gallon above or below 5 cents, the allowance shall be determined by increasing or reducing the schedule allowance in proportion to the increase or reduction above or below the 5 cents per gallon above specified; but in no case shall the allowance be based on a value of sirup exceeding 8 cents per gallon, without special authority from the Department.

When imported raw cane and beet sugars are "blended" or mixed in the process of manufacturing refined sugars and sirups, the manufacturer's declaration must show separately the respective quantities of the different kinds and grades of the sugars so mixed. In liquidating entries covering portions of the products of such mixtures, drawback shall be based on proportionate quantities of material corresponding to the quantities of the different kinds and grades of materials so mixed.

For a fraction of a degree of test of the raw sugar used in the manufacture of either refined sugar or sirup, the allowance of quantity of material shall be fixed by a proportionate division of the difference between the schedule allowances for the degrees next above and below such fraction.

The quantities of sugar and sirup exported shall be ascertained by United States weighers and gaugers, respectively; and samples shall be taken as ordered by the collector to be submitted to the appraiser, for report of polariscope test and such other expert inspection as may be requisite.

On requisition of collectors, appraising officers shall furnish polariscope tests, "net analyses," and other conditions of valuation of raw sugars, not found on the import invoice, for use in liquidation of drawback entries.

Department's Circular No. 20, of February 1, 1896 (Synopsis 16738), is hereby superseded.

Venezuela.....	Gold and silver	Bolivar	.193	Gold: 5, 10, 20, 50, and 100 bolivars. Silver: 5 bolivars.	

* Gold the nominal standard. Silver practically the standard.

† Coined since January 1, 1886. Old half-imperial = \$3.986.

‡ Silver the nominal standard. Paper the actual currency, the depreciation of which is measured by the gold standard.

§ The "British dollar" has the same legal value as the Mexican dollar in Hongkong, the Straits Settlements, and Labuan.

Respectfully, yours,

R. E. PRESTON,

Director of the Mint.

Financial Statement

FOR THE YEAR ENDING 1901

Page 1

Statement of Receipts and Expenditures for the year ending 1901. The total receipts were \$1,234,567.89 and the total expenditures were \$1,123,456.78, resulting in a surplus of \$111,111.11.

Item	Amount
Receipts from land sales	\$1,234,567.89
Receipts from taxes	\$567,890.12
Receipts from interest	\$123,456.78
Receipts from other sources	\$89,012.34
Total Receipts	\$1,904,927.03
Expenditures for salaries	\$345,678.90
Expenditures for maintenance	\$234,567.89
Expenditures for interest	\$123,456.78
Expenditures for other purposes	\$150,000.00
Total Expenditures	\$853,703.57
Surplus	\$1,051,223.46

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 1, 1896.

The foregoing estimate by the Director of the Mint, of the values of foreign coins, I hereby proclaim to be the values of such coins in terms of the money of account of the United States, to be followed in estimating the value of all foreign merchandise exported to the United States on or after July 1, 1896, expressed in any of such metallic currencies.

J. G. CARLISLE,

Secretary of the Treasury.

Treasury Department

OFFICE OF THE SECRETARY

Washington, D. C., July 1, 1914

Approved by the Director of the Mint, of the Bureau of Engraving and Printing, and the Director of the Bureau of the Public Debt, to be printed in the form of a book, to be sold at the rate of \$1.00 per copy, and all foreign publications exported to the United States on or after July 1, 1914, to be printed in the form of a book, to be sold at the rate of \$1.00 per copy.

J. G. CAMPBELL
Secretary of the Treasury

APPOINTMENTS IN THE CUSTOMS SERVICE.

1896.

Department Circular No. 106.
Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., June 29, 1896.

To the Principal Officers of the Customs:

IT IS HEREBY ORDERED that all appointments for temporary service, by the day, month, or portions of the year, shall be made probational or permanent, with pay only while actually on duty in aid of the customs, in order that the persons thus appointed may be reassigned to duty in cases of emergency. By thus creating an unassigned list of persons, from which selections for duty and pay may be made, the necessity for the issuance of certificates of reinstatement will be avoided.

In cases of temporary appointments, upon recommendation, authority will be granted for the employment and for the payment of the compensation of such employees for the specified period for which their services are requested, and no longer; but in cases of emergency, where immediate service is absolutely necessary, the oath of office may be administered, the officer put on duty, and the approval of the Department immediately requested.

Employment without authority, except as herein provided, will not be approved.

CHARLES S. HAMLIN,
Acting Secretary.

REGULATIONS UNDER THE ACT OF JUNE 8, 1896, TO EXPEDITE THE ENTRY AND DELIVERY OF PACKAGES IMPORTED IN VESSELS OF THE UNITED STATES.

1896.
Department Circular No. 107.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., June 30, 1896.

To Collectors and other Officers of the Customs:

The following is the act of Congress above referred to:

AN ACT To expedite the delivery of imported parcels and packages not exceeding five hundred dollars in value.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That articles, not merchandise intended for sale, not exceeding five hundred dollars in value, imported in packages not exceeding one hundred pounds in weight, in vessels of the United States, may be specially delivered to and appraised at the public stores, and the entry thereof liquidated by the collector under such regulations as the Secretary of the Treasury may prescribe, and after such appraisal and liquidation may be delivered, upon payment of the liquidated duties under the bond provided for in this Act, to express companies or other duly incorporated inland carriers bonded for the transportation of appraised or unappraised merchandise between the several ports in the United States: *Provided*, That not more than one such consignment to one ultimate consignee from the same consignor shall be imported in any one vessel: *And provided*, That the original appraisal and liquidation of duties on such importations shall be final against the owner, importer, agent, or consignee, except in the case of manifest clerical errors, as provided for in section twenty-four of the Act of June tenth, eighteen hundred and ninety: *Provided*, That nothing contained in this Act shall apply to explosives, or any article the importation of which is prohibited by law.

SEC. 2. That such express companies or other inland carriers shall be responsible to the United States under bond for the safe delivery of such articles to the ultimate consignee: *Provided*, That if any package shall not be delivered to the ultimate consignee by the express company or other inland carrier, and shall be returned to the collector of the port where such articles are entered under the provisions of this Act within ninety days from the date of importation intact, the collector shall take charge of such package and dispose of it as unclaimed merchandise, and the duties, including additional duties, if any, under section seven of the Act of June tenth, eighteen hundred and ninety, paid shall be refunded by the Secretary of the Treasury out of any moneys in the Treasury not otherwise appropriated; and the express company or other inland carriers shall be relieved of any liability therefor under its bond; and before any express company or other inland carrier shall be permitted to receive and transport any such articles they shall become bound to the United States in such bonds, in such form and amount, and with such conditions not inconsistent with law as the Secretary of the Treasury may require.

SEC. 3. That articles transported under the provisions of this Act shall be corded and sealed in such manner as shall from time to time be prescribed by the Secretary of the Treasury; and the collector of the port of first arrival shall retain in his office a permanent record of such merchandise so forwarded.

SEC. 4. That such packages may be consigned to and entered by the agents of the express company or other inland carrier or steamship company, who shall at the time of entry state the ultimate consignee, and in all cases where a certified or other invoice is now required by law such invoice may be attached to or inclosed in the package, under such regulations as the Secretary of the Treasury may prescribe; and the delivery of such articles to the express company or other inland carrier shall not be delayed because of the nonarrival of the triplicate invoice, but the ultimate consignee shall be liable for any increased duty found due on reliquidation, if any, after receipt of said merchandise from the express company or

other inland carrier or steamship company making entry under this Act; and the provisions of section twenty-eight hundred and fifty-seven, Revised Statutes, shall not apply to importations under this Act.

Approved, June 8, 1896.

In accordance with the provisions of the above act, the following regulations are hereby prescribed:

I. Application for special entry under the provisions of the above act shall be made in the following form:

Application to enter articles, not merchandise intended for sale, under the provisions of the act of June 8, 1896.

To the Collector of Customs, Port of _____:

I, _____, of the firm of _____, hereby make application to make special entry of _____ packages, containing articles, not merchandise intended for sale, and not exceeding five hundred dollars (\$500) in value, nor weighing more than one hundred (100) pounds per package, imported per steamship _____, a vessel of the United States, from _____ on _____ for _____, ultimate consignee, residing at _____.

And I do certify that there is but one consignment from any one consignor to said ultimate consignee, imported in the vessel above specified on the date above mentioned.

(Signed) _____.

Declared to before me this _____ day of _____, 189—.

_____, Deputy Collector.

On the back of this application will be printed the special order for appraisement to be made in these cases, the form for the return of the appraiser, and the form of subsequent entry. The application herein prescribed having been duly made, the collector shall issue the following order for appraisement:

SPECIAL ORDER FOR APPRAISEMENT.

Port of _____,
Collector's Office, _____, 189—.

To the Appraiser:

You will examine promptly and report the contents and value of _____ packages imported by _____ in the _____ from _____.

Marks and numbers.	Description of articles.

_____,
Deputy Collector.

II. Every package imported under the provisions of this act must be plainly marked "Special delivery package." Packages so marked may be landed on the dock immediately after the entry of the vessel, and the inspector in charge will forthwith forward such packages to the appraiser's stores, notifying the collector of customs of his action and stating the number and marks of the packages and the vessel by which imported. The contents of packages thus sent to public store shall, upon receipt of the collector's special order, be examined immediately and appraised, the appraiser's report to be in the following form:

APPRAISER'S REPORT.*

In pursuance of your special order, we have examined the following-described articles, and do certify the contents of the packages and the value thereof to be as follows, viz:

Marks and numbers.	Description of articles.	Value.	Suggested rate.

_____,
Examiner.

_____,
Appraiser.

III. Upon receipt by the collector of the appraiser's return, the entry shall be immediately liquidated, and upon payment of the ascertained duties the packages shall be delivered to the proper steamship company, express company, or other inland carrier.

IV. The following form of bond is prescribed under these regulations:

FORM No. 112½—*Bond upon entry under act of June 8, 1896.*

Know all men by these presents, That we, _____, as principals, and _____, as sureties, are held and firmly bound unto the United States of America in the sum of ten thousand dollars for the payment whereof, to the United States, we firmly bind ourselves, our heirs, executors, administrators, and assigns, jointly and severally, by these presents, as witness our hands and seals, at the port of _____, this _____ day of _____, eighteen hundred and _____.

Whereas, the undersigned, principals on this bond, propose to enter at the custom house and to transport merchandise imported under the provisions of the act entitled "An Act to expedite the delivery of imported parcels and packages not exceeding five hundred dollars in value," approved June 8, 1896.

Now, therefore, the condition of this obligation is such that if the herein-mentioned obligors shall duly observe and faithfully comply with all the requirements and provisions of the above-specified act, and with the regulations prescribed by the Secretary of the Treasury thereunder, then this obligation to be void; otherwise to remain in full force.

_____. [SEAL.]

_____. [SEAL.]

_____. [SEAL.]

Signed, sealed, and delivered in presence of

V. The liquidation herein provided for is, by the terms of the act, made final and conclusive against the owner, importer, agent, or consignee, except in the case of manifest clerical errors.

VI. If any package shall not be delivered to the ultimate consignee by the bonded carrier, and shall be returned intact within ninety days from date of importation to the collector of customs at the port of entry under this act, the collector at such port shall make the proper record thereof, and the duties.

* *To the Collector of Customs:* Where invoices mentioned in section 4 of the Act are found attached to or within the package, the appraiser will return the same with his report to the collector.

including additional duties, if any, under section 7 of the act of June 10, 1890, shall be refunded, and the common carrier relieved of any liability therefor.

VII. Inasmuch as section 1 requires that all liquidated duties shall be paid before delivery of the goods to the common carrier, only such packages will be corded and sealed which the common carrier may desire to reserve the right of returning to the customs authorities for refund of duties paid. The carrier must notify the collector of such desire before delivery of the goods from customs custody, so that the proper record can be made in the collector's office, and the packages duly corded and sealed under the supervision of a customs officer, as provided in section 2 of the act.

VIII. Whenever a package which has been sent to the appraiser's office, under the provisions of this act, shall be found to contain articles of more than five hundred dollars in value, or to weigh over one hundred pounds, a report of the facts shall be made to the collector, who shall cause the package to be treated as if unclaimed.

IX. Nothing contained in these regulations shall be held to relieve importers from the necessity of submitting duly certified invoices for any importation exceeding one hundred dollars in value. Whenever such invoices shall accompany the package, as provided in the act, they shall be transmitted to the collector with the appraiser's report.

CHARLES S. HAMLIN,
Acting Secretary.

*DRAWBACK ON DOMESTIC MANUFACTURES MADE WHOLLY OR IN PART FROM
IMPORTED MATERIALS AND EXPORTED.*

1896.

Department Circular No. 108.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 1, 1896.

To Officers of the Customs and others concerned:

Section 22 of the Tariff Act of August 28, 1894, provides:

That where imported materials on which duties have been paid are used in the manufacture of articles manufactured or produced in the United States, there shall be allowed on the exportation of such articles a drawback equal in amount to the duties paid on the materials used, less one per centum of such duties: *Provided*, That when the articles exported are made in part from domestic materials the imported materials, or the parts of the articles made from such materials, shall so appear in the completed articles that the quantity or measure thereof may be ascertained; *And provided further*, That the drawback on any article allowed under existing law shall be continued at the rate herein provided.

That the imported materials used in the manufacture or production of articles entitled to drawback of customs duties when exported shall, in all cases where drawback of duties paid on such materials is claimed, be identified, the quantity of such materials used and the amount of duties paid thereon shall be ascertained, the facts of the manufacture or production of such articles in the United States and their exportation therefrom shall be determined, and the drawback due thereon shall be paid to the manufacturer, producer or exporter, to the agent of either or to the person to whom such manufacturer, producer, exporter, or agent shall in writing order such drawback paid, under such regulations as the Secretary of the Treasury shall prescribe.

Articles manufactured from materials on which duties were paid under previous tariffs are entitled to a drawback of such duties under the provisions of section 22, act of August 28, 1894, whenever such articles are exported under proper entries.

In case material identified by a manufacturer was imported prior to August 28, 1894, and deposited in bonded warehouse, customs officers will be careful to ascertain the exact date and corresponding rate of duty under which such material was withdrawn for consumption.

Drawback allowance being based on quantities and kinds of the articles exported, customs officers must in all cases use due diligence to ascertain weight, gauge, measure, or count, as the case may require, of all merchandise entered for drawback; and in cases where expert official inspection or analysis is necessary, such officers will be careful to secure samples which will correctly represent the merchandise to be exported.

In some cases articles heretofore listed for drawback do not appear in the following schedule because of changes in tariff rates; in other cases such articles have been dropped because of changes in processes of manufacture, affecting quantities of material used, wastage, etc., and in still other cases rates have become obsolete from disuse.

Articles entitled to drawback so dropped from the schedule will be restored and new rates will be fixed, on application to the Secretary of the Treasury, under article 789, Customs Regulations, 1892.

CHARLES S. HAMLIN,

Acting Secretary.

DETAILS OF EMPLOYEES.

1896.

Department Circular No. 109.

Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 2, 1896.

*To Heads of Bureaus, Treasury Department,
and Chiefs of Divisions, Secretary's Office, Treasury Department:*

The legislative, executive, and judicial appropriation act for the fiscal year ending June 30, 1897, approved May 28, 1896, provides that all details of employees from one office to another in this Department must be made upon the written order of the head of the Department, and for periods not exceeding one hundred and twenty days.

Under the above provision of law, notice is hereby given that all details which have been made heretofore, except those made by written direction of the Secretary of the Treasury, must be canceled, and the employees so detailed returned to their respective offices.

Hereafter, when it becomes necessary for the detail of an employee from one office to another, a written request must be made therefor to the head of the Department by the head of bureau, or chief of division, Secretary's Office, desiring the detail. No verbal details will hereafter be allowed under any circumstances.

THE ANCHORAGE OF VESSELS IN THE PORT OF NEW YORK.

1896.

Department Circular No. 110.

Division Revenue-Cutter Service, No. 67.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 1, 1896.

The regulations governing the anchorage of vessels in the port of New York will be strictly enforced, and all officers of vessels of the Revenue-Cutter Service at the port of New York are hereby empowered and directed, in cases of necessity, or when a proper notice has been disregarded, to use the force at their command to remove from the channel ways any vessel found violating the rules, a copy of which is subjoined.

All vessels of the Revenue-Cutter Service assigned to the duty of enforcing the Anchorage Regulations will carry a distinctive flag at the bow. Said flag shall be a white field with a blue foul anchor in the center placed at an angle of 45 degrees.

Violations of the regulations that require immediate action shall be communicated to the Supervisor of Anchorages at the Barge Office, who, in the absence of the special patrol boat, is authorized to call upon any other revenue steamer available to perform the duty required.

All communications referring to the rules and limits of anchorage grounds at the port of New York will be addressed to the Supervisor of Anchorages, Barge Office, New York.

J. G. CARLISLE,

Secretary.

RULES AND REGULATIONS GOVERNING THE ANCHORAGE OF VESSELS IN THE PORT OF NEW YORK.

TREASURY DEPARTMENT, July 1, 1896.

The following-described anchorage grounds for vessels in the bay and harbor of New York, and in the Hudson and East Rivers, respectively, are hereby defined and established, and the following revised Rules and Regulations governing the same are published for the government of the owner, master, pilot, or other person in charge of or anchoring any vessel in the port of New York, pursuant to the act of Congress approved May 16, 1888, as follows:

AN ACT relating to the anchorage of vessels in the port of New York.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury is authorized, empowered, and directed to define and establish an anchorage ground for vessels in the bay and harbor of New York, and

in the Hudson and East Rivers, to adopt suitable rules and regulations in relation thereto, and to take all necessary measures for the proper enforcement of such rules and regulations.

SEC. 2. That in the event of the violation of any such rules or regulations by the owner, master, or person in charge of any vessel, such owner, master, or person in charge of such vessel shall be liable to a penalty of one hundred dollars; and the said vessel may be holden for the payment of such penalty, and may be seized and proceeded against summarily by libel for the recovery of the same in any United States district court for the district within which such vessel may be, and in the name of the officer designated by the Secretary of the Treasury.

SEC. 3. That this act shall take effect immediately.

Approved, May 16, 1888.

Vessels shall anchor only within the following specified limits:

EAST RIVER ANCHORAGES.

1. To the northward of a line from the south point of Hart Island to Wrights Point.
2. To the westward of a line from Wrights Point to Throgs Neck.
3. To the southward of a line from buoy off Sands Point to buoy off Gangway Rock.
4. To the southward of a line from buoy off Gangway Rock to center of Stepping Stones Light-House.
5. To the eastward of a line from the center of Stepping Stones Light-House to Willets Point.
6. On Hammond Flats, to the northward of a line from Throgs Neck to Old Ferry Point.
7. To the southward of a line from Willets Point to Whitestone Point.
8. On the north side of the channel, north of a line between Old Ferry Point and Hunts Point.
9. On the south side of the channel, south of a line between Whitestone Point and buoy (No. 1) off College Point, and to the eastward of a line running from said buoy to College Point.
10. In Flushing Bay, to the southward of a line from College Point to the north end of Rikers Island.
11. To the southward of a line from the north end of Rikers Island to the north end of South Brother Island, thence to Lawrences Point.
12. To the westward of a line from Stony Point to northeast end of Wards Island; and between Wards Island and Randalls Island, and between Randalls Island and Port Morris.
13. To the westward of a line from the foot of One hundred and sixteenth street, New York, to the north end of Avenue B, New York; but no vessel shall anchor on this anchorage within 150 feet of any wharf or pier, or so as to impede the movements of a ferry, or so as to prevent ready access to or from the piers.
14. To the eastward of a line from Hatters Dock to Gibbs Point (Halletts Cove, Astoria).
15. To the southward of Thirty-first street and northward of Twenty-first street piers, and to the westward of a line passing through buoy No. 1, off Thirty-fourth street, and danger buoy, off Twentieth street. Small vessels of the United States Government and vessels carrying a distinctive signal prescribed by the Secretary of the Navy may anchor anywhere within these limits, provided they do not obstruct the approach to any pier or impede the movements of any ferryboat; and the officer in charge of anchorage grounds may, whenever he deems it advisable, move or cause to move any vessel not, in his opinion, complying with this proviso.

HUDSON RIVER ANCHORAGES.

16. Vessels may anchor in the Hudson River to the westward of the center line of said river running NE. $\frac{1}{2}$ N. (correct magnetic) from Castle Point, and above Fourteenth street, Hoboken Ferry Landing; provided that in no case shall a vessel anchor within 200 yards of the shore or in such position as to impede the movements of a ferry or to prevent ready access to or from a pier. A line of three white buoys marks the east limit of this anchorage ground.

WESTERN ANCHORAGE, UPPER BAY.

17. To the southward of the range passing through Wall Street Ferry, Brooklyn, and the white buoy to the north and east of Ellis Island, to the westward of a line running SW. by S.

(nearly) from the said white buoy to the white buoy south of Bedloes Island and the white buoy $\frac{1}{2}$ mile east from Robbins Reef Light-House, and to the northward of a line from Constables Point, through Robbins Reef Light-House, to the last-mentioned white buoy; provided that no vessel anchors in Ellis Island Channel or so as to obstruct the approaches to any pier within these limits.

GOVERNORS ISLAND ANCHORAGE.

18. To the southward of Governors Island, within the triangular space included in lines running from Castle William to buoy No. 1, thence to buoy No. 3 in Buttermilk Channel.

EASTERN ANCHORAGES, UPPER AND LOWER BAYS.

19. To the southward of a line passing through the Statue of Liberty on Bedloes Island, the two white buoys marking north limit of anchorage ground and the southern point of the north entrance to the Erie Basin; to the eastward of a range passing through Produce Exchange Tower, the east edge of Castle William, the white buoy marking north limit of anchorage ground, and buoys No. 14 and bell buoy off Owls Head; and to the eastward of a range passing through bell buoy off Owls Head, the western edge of Long Island in the Narrows, and eastern side of Fort Lafayette as far south as the East Channel, between buoys Nos. 4 and 6; provided that no vessel shall anchor within 300 yards of the Erie Basin, and that no vessel shall anchor so as to impede the movements of a ferry or so as to prevent ready access to or from the piers.

20. Vessels may anchor on Dry Romer Shoal and Flynns Knoll.

STATEN ISLAND ANCHORAGE.

21. To the southward of a line from St. Georges Ferry Landing, Staten Island, to the white buoy off St. Georges Landing and the railroad terminal docks at Bay Ridge, Long Island, and to the westward of a line running S. $\frac{5}{8}$ W. (nearly) from the white buoy off St. Georges Landing, through the white buoys off Tompkinsville and Stapleton, Staten Island. To the westward of a line running SSE. $\frac{1}{4}$ S. (nearly) from Fort Tompkins to the buoy on Cravens Shoal, thence to buoys Nos. 11, 9, and 7, thence to Conovers Beacon; but in no case shall a vessel anchor so as to impede the movements of any ferry or prevent ready access to or from any pier.

The part of anchorage 21 lying between its northern boundary and the white buoy 800 yards south of said boundary is reserved for ships of war of all nations and vessels of the United States Government.

[NOTE.—Vessels detained at upper quarantine may anchor between Fort Tompkins Light and Quarantine Wharf at Clifton, Staten Island.]

SANDY HOOK BAY ANCHORAGE.

22. To the southward of a line extending from East Beacon to Bayside Beacon (Point Comfort), provided they do not impede the movements of vessels in getting to and from the piers. In order to prevent injury to the submarine cables, vessels are forbidden to anchor when the East Beacon Light-House bears anywhere between the compass bearings of WSW. $\frac{1}{2}$ W. and SW. by W. $\frac{3}{4}$ W. from the vessel, unless the said vessel is to the northward of the northern line of buoys of Gedneys Channel. No vessel shall anchor in any of the following channels: Gedneys Channel, Main Channel, Swash Channel, and East Channel, excepting in cases of great emergency, and then outside of the channels as marked by the buoys, and only until such time as they can procure assistance.

23. Vessels carrying gunpowder or other explosives may anchor only as follows:

First.—On the shoal ground to the eastward of Rickers Island, East River, from $\frac{1}{4}$ to $\frac{5}{8}$ of a mile from this island.

Second.—On Jersey Flats, to the westward of a line running NE. by N. from the outer end of the pier, east of Black Tom Island; provided that such vessels do not anchor within 800 yards of Ellis Island or within 500 yards of any pier.

Third.—On the flats to the south of a line drawn from Bedloes Island to Cavens Point, New Jersey, and to the westward of a line from Bedloes Island to Robbins Reef; provided that they do not anchor within 1,000 yards of either Bedloes Island or Robbins Reef Light or within 500 yards of any pier. Vessels (carrying explosives) of too great draft to use this anchorage may anchor only in Gravesend Bay, but not within 1,000 yards of the shore.

All vessels laden with explosives while within the port will display at all times a red flag of at least 16 square feet surface at the masthead. Vessels so laden and without masts will display the flag at least 10 feet above the uppermost deck. Points where cables and water pipes cross are clearly marked in red on the accompanying map, and all vessels are cautioned not to anchor so as to interfere with them.

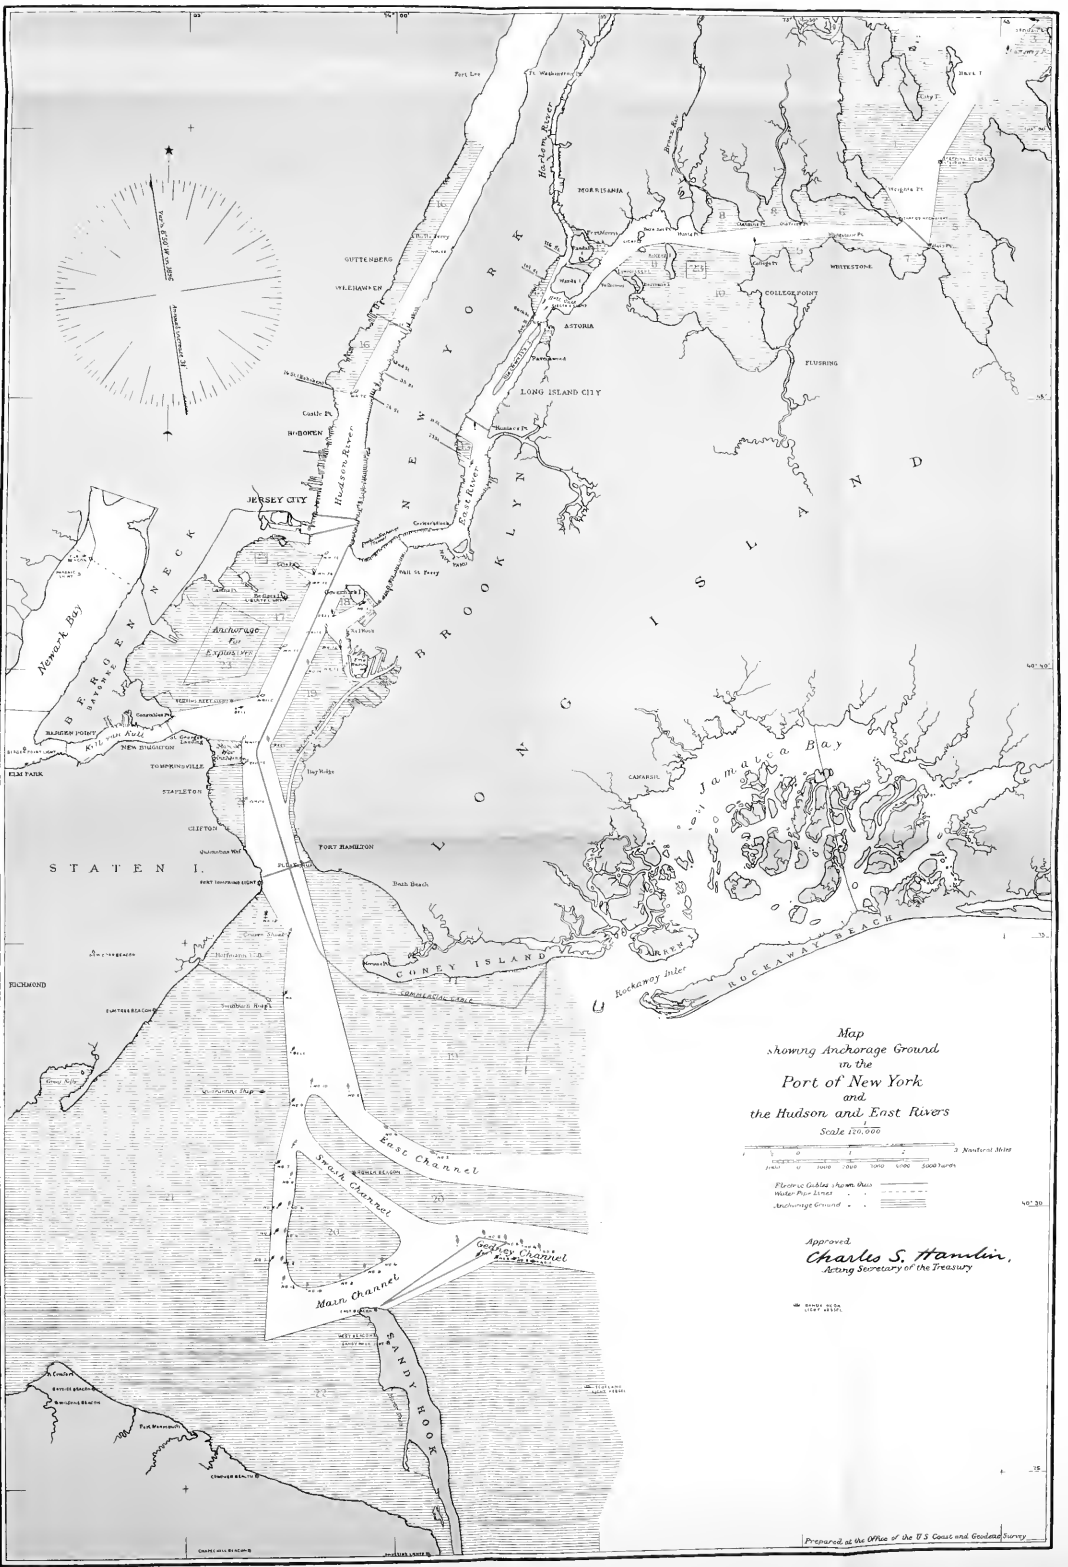

Ash scows, the property of the municipalities bordering on the waters of the port, may be anchored in such places as the supervisor of anchorages may designate.

The white mooring buoys off the upper Quarantine Station, in the Narrows, are exclusively for the use of vessels awaiting the first visit of the health officer, and are not to be occupied at any other time.

All officers of revenue vessels at the port of New York are charged with the enforcement of these rules and regulations, and are empowered to remove from her anchorage any vessel not anchored within the prescribed limits.

 Acting Secretary of the Treasury

REPORTS OF PASSENGER MOVEMENTS.

1896.

Department Circular No. III.

Bureau of Navigation.

Treasury Department,

Washington, D. C., July 3, 1896.

To Principal Officers of the Customs:

You are hereby directed to forward reports of the monthly and quarterly passenger movements, mentioned in circular 87, current series, to the Bureau of Navigation, Treasury Department. These reports were formerly included in the reports of immigration, which are now forwarded to the Bureau of Immigration.

Circular 87 is amended accordingly.

W. E. CURTIS,
Acting Secretary.

RELATING TO LIFEBOATS AND RAFTS.

1896.
Department Circular No. 112.

Treasury Department,

STEAMBOAT-INSPECTION SERVICE,

OFFICE OF

THE SUPERVISING INSPECTOR-GENERAL,

Washington, D. C., July 2, 1896.

*To Supervising and Local Inspectors of Steam Vessels,
Boat and Raft Manufacturers, and others:*

The Department having been informed that certain life rafts, not built according to the specifications presented to the Board of Supervising Inspectors at the time of the approval of such rafts, have been placed on steam vessels, all inspectors of steam vessels are hereby directed not to accept or pass hereafter any life raft or lifeboat unless there shall be furnished with each a written guarantee, over the signature of the builder, that such raft or boat is constructed in strict accordance with the specifications presented to the Board of Supervising Inspectors at the time of its approval.

It is further ordered, that on and after August 1, 1896, no life raft or lifeboat shall be accepted or passed by the inspectors of steam vessels unless it shall have permanently attached thereto a metallic plate having thereon, in raised letters and figures, the name of the maker of the raft or boat, the place where manufactured, the shop number, and date of manufacture; and, if built of metal, the thickness thereof, Birmingham gauge.

JAS. A. DUMONT,
Supervising Inspector-General.

APPROVED :

W. E. CURTIS,
Acting Secretary.

RULES AND REGULATIONS

RELATING TO THE

**ANCHORAGE AND MOVEMENT OF VESSELS IN
THE HARBORS OF CHICAGO.**

JULY, 1896.

THE ANCHORAGE AND MOVEMENT OF VESSELS IN THE PORT OF CHICAGO, ILL.

1896.

Department Circular No. 114.

Division of Revenue-Cutter Service, No. 68.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 9, 1896.

The Rules and Regulations relating to the Anchorage and Movement of Vessels in the harbors of Chicago will be strictly observed, and all officers of revenue cutters at the port of Chicago are hereby empowered and directed, in cases of necessity or when a proper notice has been disregarded, to use the force at their command to remove from the channel ways any vessel found violating the rules, a copy of which is subjoined.

Violations of the Regulations that require immediate action shall be reported to the Commanding Officer of the Revenue Steamer *Calumet*, and all communications referring to the rules and limits of Anchorage Grounds at the port of Chicago will be addressed to that officer.

J. G. CARLISLE,
Secretary.

RULES AND REGULATIONS RELATING TO THE ANCHORAGE OF VESSELS IN THE PORT OF CHICAGO.

The following-described Anchorage Grounds for vessels in the harbors of Chicago and the waters of Lake Michigan adjacent thereto are hereby defined and established, and the following Rules and Regulations in relation to the same are hereby adopted and published for the government of the owners, masters, or persons in charge of vessels in the port of Chicago, pursuant to the act of Congress approved February 6, 1893, as follows:

AN ACT relating to the anchorage and movement of vessels in the port of Chicago.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury be authorized and directed to define and establish anchorage grounds for vessels in the harbors of Chicago and waters of Lake Michigan adjacent thereto, to adopt suitable rules and regulations in relation to the same, and also to adopt suitable rules and regulations governing the use of marked inshore channels in Lake Michigan, in front of the city of Chicago, and to take all necessary measures for the proper enforcement of such rules and regulations.

SEC. 2. That in the event of the violation of any such rules or regulations by the owner, master, or person in charge of any vessel, such owner, master, or person in charge of such vessel shall be liable to a penalty of one hundred dollars, and the said vessel may be holden for the payment of such penalty and may be seized and proceeded against summarily by libel for the recovery of the same in any United States district court for the district within which such vessel may be, and in the name of the officer designated by the Secretary of the Treasury.

Vessels shall anchor within the following specified limits:

1. United States Exterior Breakwater Anchorage, within lines running from Chicago Pierhead Light on North Pier, Chicago River, to the easterly and westerly ends of Exterior Breakwater, and a line parallel to said Breakwater, 2,000 feet southwestly from the same.

2. Anchorage Grounds in the Harbor of Refuge: Yachts and small excursion vessels shall anchor west of a line drawn from Light House Slip south, to South entrance, south of the line of Washington street and north of the line of Jackson street. The intersecting points are marked by white spar buoys. This area contains 44.3 acres.

3. Other vessels anchoring in the Harbor of Refuge will take such position as will keep the channels and fairways clear for vessels entering either the North, South, or East entrance.

GENERAL REGULATIONS.

No vessel shall anchor within 100 feet of any United States Pier or Breakwater.

Nothing in these regulations shall be held to prevent any vessel in stress of weather, or in great emergency, from anchoring anywhere that may seem necessary for safety at the time, but the revenue-cutter officer charged with the enforcement of these regulations shall be the judge as to when such emergency shall have terminated.

The commanding officer of the Revenue Cutter at the port of Chicago is charged with the enforcement of these Rules and Regulations, and is empowered—

(1) To remove from her anchorage any vessel not anchored within the limits hereby prescribed.

(2) To require, when he may deem it advisable, vessels to moor head and stern.

(3) To assign vessels to such part of the Anchorage Grounds as is suitable to their draft.

(4) To assume such general direction of the movement of vessels in the inshore channels as shall least obstruct navigation of the same.

(5) To see that the acts of Congress prohibiting dumping of solids into navigable waters of the United States are complied with and enforced.

 9th Dist.—Maj. MILTON B. ADAMS, U. S. A., 18 Bagley Avenue, Detroit, Mich.
 10th Dist.—Lieut. Col. JARED A. SMITH, U. S. A., Hickok Building, 185 Euclid Avenue, corner of Erie Street, Cleveland, Ohio.
 11th Dist.—Maj. MILTON B. ADAMS, U. S. A., 18 Bagley Avenue, Detroit, Mich.
 12th Dist.—Maj. CHARLES E. L. B. DAVIS, U. S. A., Room 89, Flood Building, San Francisco, Cal.
 13th Dist.—Capt. WALTER L. FISK, U. S. A., 73 Fourth Street, Portland, Oreg.
 14th Dist.—Maj. WILLIAM H. HEUER, U. S. A., Custom House, Cincinnati, Ohio.
 15th Dist.—Lieut. Col. AMOS STICKNEY, U. S. A., 1515 Locust Street, St. Louis, Mo.
 16th Dist.—Lieut. Col. AMOS STICKNEY, U. S. A., 1515 Locust Street, St. Louis, Mo.

JOHN G. WALKER,
Rear Admiral, U. S. N., Chairman.

GEORGE F. F. WILDE,
Commander, U. S. N., Naval Secretary.

JOHN MILLIS,
Captain, Corps of Engineers, U. S. A., Engineer Secretary.

APPROVED :

JOHN G. CARLISLE,
Secretary.

PROOF OF LANDING ABROAD OF GOODS EXPORTED FROM BONDED MANUFACTURING
WAREHOUSES WAIVED.

1896.
Department Circular No. 117.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 14, 1896.

To Collectors and other Officers of the Customs:

Article 68 of the special regulations (Synopsis 15442) relating to the establishment of bonded manufacturing warehouses under the provisions of the tariff act of August 28, 1894, is hereby modified as follows:

The following words will be omitted from the form of bond as given in said article, viz:

“And if the certificates and other proofs required by the regulations of the Secretary of the Treasury, in pursuance of law, showing the delivery of the same at the said port of destination, or at any other port or place without the limits of the United States, shall be produced and deposited with the collector of the customs at the said port of withdrawal within _____ from the date hereof.”

The first clause of said article 68 is hereby amended so as to read as follows:

The collector may accept as proof of due exportation the bill of lading and entry of the merchandise on the outward manifest of the vessel of exportation and the usual certificates of shipment and clearance, the same as in the exportation of merchandise from bond.

The proof of landing abroad may hereafter be waived in the above-mentioned transactions.

LIFEBOATS AND LIFERAFTS ON OCEAN, LAKE, AND SOUND STEAM VESSELS.

1896.
Department Circular No. 118.
Steamboat Inspection Service.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 10, 1896.

To Supervising and Local Inspectors of Steam Vessels:

The act of Congress approved March 1, 1895, repealing the act creating the offices of Special Inspectors of Foreign Steam Vessels, also repealed section 3 of the same act authorizing the Secretary of the Treasury to make regulations for the government of said special inspectors. Therefore such regulations heretofore published in pages 11 to 15, inclusive, in Form 2180, ceased by limitation with the approval of the act repealing the authority to prescribe them.

Supervising and local inspectors were notified in Department Circular No. 55, dated March 19, 1895, that thereafter the inspection of foreign passenger steam vessels would be made by the local inspectors, "under the laws and rules and regulations for the inspection of such vessels (Form 2180)."

Supervising and local inspectors are now informed that so much of Circular No. 55, March 19, 1895, as contains the words above quoted is hereby rescinded, and foreign steam vessels will be inspected hereafter under the laws governing such vessels (Form 2100), and the rules and regulations contained in Form 2101.

The rules and regulations contained in Forms 2180 and 2101 being practically the same, except the rules for lifeboats and life rafts, Rule 9, Form 2180, and Rule III, Form 2101, sections 2, 12, and 14, General Rules and Regulations of the Board of Supervising Inspectors. For the information of agents of foreign steam vessels a table is attached hereto showing the number of boats and rafts required for ocean steamers of all tonnages from 100 to 12,500 gross tons.

Inspectors are further informed that where either steam vessels of the United States or foreign steam vessels are, at the date of this circular, fully equipped with boats alone of the full capacity of boats and rafts as determined by the rules of the Board of Supervising Inspectors, as given in the table, they shall be deemed to be in compliance with the rules; but where new outfits are to be supplied the proportionate cubical contents of the boats and rafts must be observed, subject, however, to the following proviso from section 12, Rule III, Rules and Regulations, namely: "That no steamer shall be required to have more

lifeboats than sufficient to carry the passengers she is allowed by her certificate of inspection, together with her officers and crew."

J. G. CARLISLE,

Secretary.

ADDITIONAL RULES TO GOVERN THE APPRAISEMENT AND CLASSIFICATION OF
IMPORTED RAW SUGARS.

1896.

Department Circular No. 119.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., July 14, 1896.

To Collectors and other Officers of the Customs:

The attention of chief officers of customs is hereby called to the following decision of the United States circuit court for the southern district of New York, January 7, 1896, in the trial of the appeal of the United States from the decision of the Board of General Appraisers, July 20, 1895, regarding the classification for duty of certain sugars imported per steamship *Yumuri* by the American Sugar Refining Company:

"This importation is of sugar, entered on the invoice as 'Basis 81°' with a memorandum attached, becoming a part of the invoice, stating it as 'Purchased at 1½ cents per Spanish pound net, basis 81° average, ⅓ cent per pound to be added for each degree above 81° test, or ⅓ cent per pound to be deducted for each degree below 81° test, fractional of a degree pro rata.'

"This meant, and was understood at the custom house to mean, a polariscopic test, such as is in use there; and that the price was to vary according to the quality as should be shown by the test agreeably to the memorandum. It tested considerably above 81°, and the appraised value was more than 10 per cent above the price of 1½ cents per pound and much less than that above the price according to the test and the memorandum. The Government claims that this is an undervaluation of more than 10 per cent and that an additional duty should be imposed for it as such under section 7 of the Administrative Customs Act of 1890. Invoices must show the actual cost of goods purchased for importation, which becomes the value declared in the entry, if not raised by the importer, and the additional duty is imposed only in cases of 10 per cent above this value. The act does not require that the actual cost be stated in any sums total, nor prohibit stating it by reference to prices of measurable quantities or qualities, but only that it shall somehow be stated. Now this actual cost, as stated in the body of this invoice, was not 1½ cents per pound in quantity only, but at 81° in quality, as a basis, also. The memorandum added the variation in price by the quality. The price by quality was as ascertainable and as well ascertained as that by quantity; and both together made the actual cost of the purchase, without question as to the correctness of either. This was the entered value below which the collector would have had no right to go if the appraised value had been less; and above which the appraised value must be reckoned to find the 10 per cent. As the appraised value did not reach 10 per cent above this entered value, no liability for any additional duty on that account arose.

"Judgment affirmed."

I.

Appraisement.

The above decision establishes the rule under which appraisements of raw sugars and liquidation of entries covering the same shall hereafter be made.

II.

In conformity with section 10 of the Administrative Act, the appraiser shall ascertain, estimate, and appraise the actual market value and wholesale price of the sugar, at the time of exportation to the

United States, in packed condition, in the principal markets of the country whence the same has been imported.

III.

The appraiser shall also describe the character of the sugar for the information of the collector, and shall report to him the degree of polariscope test actually found by him on appraisement, and the market value of the sugar on such test.

IV.

The regulations as to the sampling and appraisement of sugars are hereby extended to apply to all imported sugars on arrival. In case no entry is made of sugars thus sampled and appraised, careful record shall be kept of all the facts of each case, and the return of the appraisement shall be the basis of liquidation, should entry be made subsequently. Whenever any sugars shall have been entered for transportation to another port, either in bond or otherwise, a report of the facts found on appraisement shall be transmitted to the collector at the port of destination.

V.

The "additional sample" provided for in paragraph 33 of the regulations issued May 13, 1895 (Synopsis 16045), shall, without delay, be marked and kept in safe custody. In the case of sugars of low grade, or those containing sand, additional reserved samples should be kept, so as to provide for additional tests, should the appraiser find them desirable, in order to arrive at an average test by which to determine the true degree of saccharine strength. The appraiser shall informally report to the importer the degree of saccharine strength which he finds on examination of the first sample. Should the importer, within two official days after such notice has been mailed to him by the appraiser, claim an error in the reported test and request a report of test on the reserved samples, such test may be made, and the appraiser's return may then be made according to the result of such second test, and his return shall, in either case, be held to be the date of appraisement, and the test returned by the appraiser shall be held to be the true test, without regard to any other test made by unofficial persons.

VI.

In conformity with the decision of the United States circuit court, above quoted, the dutiable value of imported sugars may be controlled by the stipulations and conditions of purchase, or of value specified in said opinion whenever they shall be duly set forth in the invoice or entry; the court having held that "the price by quality was as ascertainable, and as well ascertained, as that by quantity."

For the purpose of determining whether the additional (penal) duty accrues under section 7, act of June 10, 1890, the entered value shall be adjusted to accord with the specification, as to the test basis of purchase set forth in the invoice or entry; and when the entered value thus adjusted shows that the appraised value does not exceed by more than 10 per cent the entered value thus adjusted, no additional (penal) duty accrues. When the appraised value exceeds the adjusted entered value by more than 10 per cent on the basis above mentioned, the appropriate additional (penal) duty shall be levied—that is to say, penal duties shall not accrue on imported sugars in case the advanced value on liquidation exceeds the entered value by more than 10 per cent, whenever such advanced value above 10 per cent is caused by a difference between the test as reported by the appraiser and the test basis of purchase named in the invoice or entry: *Provided*, That the test basis of invoice valuation shall appear in the invoice or entry, and that the terms of sale shall appear in the invoice or entry of purchased sugars.

VII.

The entered value, when adjusted to the conditions expressed in the invoice or entry, will be the minimum value for duty purposes, "below which the collector would have no right to go" (see court decision), even although the appraised value when similarly adjusted may show a lower value than such entered value.

VIII.

In the liquidation of invoices of sugar, in regard to which no polariscope test is set forth as the basis of value, and no terms of sale appear on the invoice or entry, the computation to establish dutiable value shall be made upon the appraiser's report of market value.

IX.

Whenever the appraiser shall report that, in his opinion, the value of any imported sugars has been advanced over 10 per cent by reason of the higher polariscope test, produced by unusual drainage or evaporation on the voyage of importation, no additional or penal duties shall be exacted, unless the aggregate appraised value of the quantity actually landed shall exceed the aggregate invoice or entered value by more than 10 per cent.

CHARLES S. HAMLIN,
Acting Secretary.

the first of these is the fact that the number of cases of influenza in the United States in 1914 was the highest since 1900. This is due to the fact that the influenza virus was first discovered in 1900, and it was not until 1914 that it was first identified in the United States. The second reason is that the influenza virus is highly contagious, and it is easily spread from person to person. The third reason is that the influenza virus is highly resistant to environmental conditions, and it can survive for long periods of time in the environment.

The influenza virus is a member of the Orthomyxoviridae family, and it is characterized by its unique structure. It consists of a central core of RNA, which is surrounded by a protein shell. The protein shell is composed of two types of proteins, the matrix and the envelope. The matrix is a layer of protein that surrounds the RNA core, and the envelope is a layer of lipid that surrounds the matrix. The influenza virus is highly contagious, and it is easily spread from person to person.

The influenza virus is highly resistant to environmental conditions, and it can survive for long periods of time in the environment. This is due to the fact that the influenza virus is highly resistant to heat, cold, and dryness. It can survive for up to 48 hours in the environment, and it can survive for up to 24 hours on a surface. This makes the influenza virus a major public health concern, as it is so easily spread and so resistant to environmental conditions.

The influenza virus is highly contagious, and it is easily spread from person to person. This is due to the fact that the influenza virus is highly resistant to environmental conditions, and it can survive for long periods of time in the environment. This makes the influenza virus a major public health concern, as it is so easily spread and so resistant to environmental conditions.

SCHEDULE OF ARTICLES ENTITLED TO DRAWBACK ON EXPORTATION UNDER THE PROVISIONS OF SECTION 22, ACT OF AUGUST 28, 1894, WITH RULES AND RATES FOR DETERMINING QUANTITIES OF IMPORTED MATERIALS USED IN THE MANUFACTURE OF SUCH ARTICLES, AND FOR ASCERTAINING THE AMOUNT OF DRAWBACK TO BE PAID THEREON.

1896.
Department Circular No. 120.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., August 1, 1896.

To Officers of the Customs and others concerned:

Section 22 of the Tariff Act of August 28, 1894, provides:

That where imported materials on which duties have been paid are used in the manufacture of articles manufactured or produced in the United States, there shall be allowed on the exportation of such articles a drawback equal in amount to the duties paid on the materials used, less one per centum of such duties: *Provided*, That when the articles exported are made in part from domestic materials the imported materials, or the parts of the articles made from such materials, shall so appear in the completed articles that the quantity or measure thereof may be ascertained; *And provided further*, That the drawback on any article allowed under existing law shall be continued at the rate herein provided.

That the imported materials used in the manufacture or production of articles entitled to drawback of customs duties when exported shall, in all cases where drawback of duties paid on such materials is claimed, be identified, the quantity of such materials used and the amount of duties paid thereon shall be ascertained, the facts of the manufacture or production of such articles in the United States and their exportation therefrom shall be determined, and the drawback due thereon shall be paid to the manufacturer, producer or exporter, to the agent of either or to the person to whom such manufacturer, producer, exporter, or agent shall in writing order such drawback paid, under such regulations as the Secretary of the Treasury shall prescribe.

Articles manufactured from materials on which duties were paid under previous tariffs are entitled to a drawback of such duties under the provisions of section 22, act of August 28, 1894, whenever such articles are exported under proper entries.

In case material identified by a manufacturer was imported prior to August 28, 1894, and deposited in bonded warehouse, customs officers will be careful to ascertain the exact date and corresponding rate of duty under which such material was withdrawn for consumption.

Drawback allowance being based on quantities and kinds of the articles exported, customs officers must in all cases use due diligence to ascertain weight, gauge, measure, or count, as the case may require, of all merchandise entered for drawback; and in cases where expert official inspection or analysis is necessary, such officers will be careful to secure samples which will correctly represent the merchandise to be exported.

In some cases articles heretofore listed for drawback do not appear in the following schedule because of changes in tariff rates; in other cases such articles have been dropped because of changes in processes of manufacture, affecting quantities of material used, wastage, etc., and in still other cases rates have become obsolete from disuse.

Articles entitled to drawback so dropped from the schedule will be restored and new rates will be fixed, on application to the Secretary of the Treasury, under article 789, Customs Regulations, 1892.

CHARLES S. HAMLIN,
Acting Secretary.

SCHEDULE.

Agate ironware, manufactured by the Lalance & Grosjean Manufacturing Company, of Woodhaven, N. Y., from imported sheet iron or steel; allow under Synopsis 9780 and letter July 6, 1892, to collector, New York.

Almondine, manufactured by the Chapman & Smith Company, of Chicago, Ill., from imported albumen and shelled almonds and from sugar refined from imported raw sugar; allow under Synopsis 10450.

Almond paste, manufactured by Henry Heide, of New York City, from imported albumen and almonds and from sugar refined from imported raw sugar; allow under letter November 28, 1885, to collector, New York.

Almonds, sugar-coated. (See Sugar-coated almonds.)

Aluminum bearing. (See Magnolia antifriction metal, etc.)

Ammonia, liquid anhydrous. (See Liquid anhydrous ammonia.)

Ammonia, aqua. (See Aqua ammonia.)

Angora goatskins, prepared for use as "rugs" or "mats" by processes of dressing, tanning, and finishing; allow under Synopsis 15921.

Anhydrous ammonia, liquid. (See Liquid anhydrous ammonia.)

Antifriction metal, Magnolia. (See Magnolia antifriction metal, etc.)

Antipyrine pills. (See Pills.)

Aqua ammonia, manufactured from imported sulphate of ammonia; base allowance on a quantity of material used, to be determined by dividing the percentage of ammonia gas contained in the exported article by the percentage of such gas contained in the imported sulphate, and multiplying the quotient so found by the weight of the exported article as ascertained by a United States weigher. The gross weight, the tare, and the net weight shall be marked by the manufacturer or exporter on each package.

The drawback entry must show the gross and net weights of the exported article and the percentage of ammonia gas contained therein, and the manufacturer's declaration must show the quantity of the imported material used and the percentage of ammonia gas therein, as shown by the certificate of analysis accompanying the import invoice, which certificate, or a sworn copy thereof made by the importers, must be filed with the drawback entry referring to such importation.

Whenever ordered by the collector, samples shall be taken by the inspecting officer and transmitted to the appraiser for verification of the statements of the manufacturer and exporter.

Asphaltum coated steel pipes. (See Steel pipes galvanized, asphaltum and tar coated.)

Atomizers, toilet. (See Toilet atomizers.)

Ayer's cherry pictoral and sarsaparilla, manufactured by the J. C. Ayer Company, of Lowell, Mass., in part from imported alcohol; allow under letter May 28, 1896, to collector, Boston.

Bags, manufactured from imported burlaps or other cloth suitable for bags, and exported either empty or filled; base allowance on quantity of such imported cloth used, to be determined either by weight of the

finished bags and proper allowance for any additions of twine or other material used in process of manufacture, or by measurement of the quantity of cloth appearing in the exported bags.

Band saws and "blanks," manufactured by Joshua Oldham, of New York City, from imported steel plates; allow under Synopsis 15067.

Barbed wire fencing. (See Wire fencing.)

Bar iron, fish-plate bolts, fish plates, railroad spikes, and railway car forgings, manufactured from imported old iron rails or old scrap iron, and *Fish-plate bolts, railroad spikes, and railway car forgings,* manufactured from imported bar iron; allow under Synopsis 15284, as follows:

The quantity of imported material used in the manufacture of fish plates and bar iron shall be determined by adding to the net weight of the exported articles, when made from old iron rails, 17 per cent, and when made from old scrap iron 25 per cent of such weight.

The quantity of bar iron used in the manufacture of railroad spikes, fish-plate bolts with nuts fitted, and miscellaneous railway car forgings shall be determined by adding to the net weight of the exported articles percentages as shown below—railroad spikes, 3 per cent; fish-plate bolts with nuts fitted, 8 per cent; and miscellaneous railway car forgings, 5 per cent, the quantity of imported material used in the manufacture of such bar iron being determined in manner as hereinbefore directed.

The manufacturer's statement on the drawback entry must show separately the weight of each kind of article exported, and the kind and quantity of imported material used in the manufacture of the same; and the weight of the articles as declared in such entry shall be verified by the return of a United States weigher.

The percentages herein prescribed to be added to the net weight of the exported articles to determine the quantity of bar iron used in the manufacture shall apply to such manufactures from imported bar iron, as well as to those manufactured in this country from imported old iron rails or old scrap iron.

Barrel hoops. (See Petroleum barrels.)

Barrel rivets. (See Petroleum barrels.)

Barrels, petroleum. (See Petroleum barrels.)

Barry's Florida water, manufactured by Barclay & Co., of New York City, in part from imported alcohol; allow under Synopsis 17227.

Barry's pain relief, manufactured by Barclay & Co., of New York City, in part from imported alcohol; allow under Synopsis 17227.

Barry's tricopherous, manufactured by Barclay & Co., of New York City, in part from imported alcohol and castor oil; allow under Synopsis 16931 and letter June 23, 1896, to collector, New York.

Bars, cross. (See Cross bars.)

Bars, steel. (See Steel bars.)

Bath and wash tubs, manufactured by the J. L. Mott Iron Works, of New York City, from imported unglazed fire-clay tubs and domestic fittings and attachments; allow under letter January 14, 1891, to collector, New York.

Bedsteads, brass. (See Brass bedsteads.)

Beer, manufactured wholly or in part from imported materials; allow under letters November 28, 1888, and March 26, 1890, to collector, New York.

Before allowance of drawback the brewer of the beer must file with the collector of the port from which exportation is to be made a formula verified by the sworn declarations of both the proprietor and foreman of the brewery showing specifically the materials and the proportions thereof used in brewing the beer to be exported.

The manufacturer's declaration on each drawback entry must show, in addition to the usual averments, that the beer covered by such entry was manufactured from the materials used in proportions as set forth in the formula filed. For verification of manufacturer's declaration on formulas and export entries, samples shall be taken as ordered by the collector for analysis and report by a Government chemist.

The declared quantities of beer exported either in bottles, kegs, or casks shall be verified by reference to bottlers' certificates and other official records of quantity, filed with collectors of internal revenue.

Bicycles, manufactured by the Sterling Cycle Works, of Chicago, Ill., in part from imported steel tubing; allow under Synopsis 15647.

Bicycles and frames, manufactured by Geo. S. McDonald, of New York City, the bicycles being made in part from wheels, handles, frames, and parts of frames imported "in the rough," and the frames being made from parts of frames imported "in the rough" and domestic materials; allow under Synopsis 14430 and letter February 4, 1895, to collector, New York.

Billiard tables, manufactured by the Brunswick-Balke-Collender Company, of New York City, the "coverings of which are made wholly from imported billiard cloth; allow under Synopsis 15913.

Bitters, Ramsay's Trinidad aromatic. (See Ramsay's Trinidad aromatic bitters.)

Blanks, band-saw. (See Band-saw blanks.)

Blanks, tin-can. (See Tin boxes, cans, etc.)

Blasting caps and electric exploders, manufactured in part from imported fulminate of mercury; allow under Synopsis 13465; and on *electric exploders*, manufactured by the Aetna Powder Company, of Indiana in part from imported percussion caps or detonators; allow under Synopsis 13286.

Blast pipes. (See Locomotives.)

Blue vitriol. (See Sulphate of copper.)

Boilers, locomotive. (See Locomotive and steam boilers.)

Boilers, steam. (See Locomotive and steam boilers.)

Boiler tubes. (See Locomotive and steam boilers.)

Bolts, carriage. (See Carriage and tire bolts.)

Bolts, fish-plate. (See Bar iron, fish-plate bolts, etc.)

Bolts, tire. (See Carriage and tire bolts.)

Borine, manufactured by the Borine Medical Company, of New York City, in part from imported alcohol; allow under Synopsis 16788.

Boxes, tin. (See Tin boxes, cans, etc.)

Boxes, wooden. (See Wooden boxes.)

Box shooks, manufactured from imported lumber; base allowance on quantity of imported lumber used, to be determined by adding to the board measure of the shooks $9\frac{1}{16}$ per cent of such measure.

Brakes, vacuum. (See Railway cars.)

Brass bedsteads, manufactured by H. L. Judd & Co., of New York City, in part from imported brass tubing; allow under Synopsis 11474.

Brass boiler tubes. (See Locomotive and steam boilers.)

Buffers, locomotive coupling. (See Locomotives.)

Bullets, manufactured from imported lead, or from imported lead and tin or antimony; base allowance on quantity of imported materials used, to be determined by weight of the exported bullets, together with the declaration of the manufacturer showing quantities and proportions of materials used, which declaration shall be verified by an analysis and report of weight by a Government chemist, of samples taken as ordered by the collector.

Burnett's extracts of lemon, almond, and cochineal, and essence of Jamaica ginger, manufactured by the Joseph Burnett Company, of Boston, Mass., in part from imported alcohol; allow under Synopsis 16151.

Butter, refined. (See Refined butter.)

Cables, electric-lighting. (See Electric-lighting cables.)

Cables, wire. (See Wire rope.)

Cables, wire and hemp. (See Wire rope.)

Cake, oil. (See Linseed oil cake.)

Cameras, photographic. (See Photographic cameras.)

Candy. (See Confectionery.)

Cans, tin. (See Tin boxes, cans, etc.)

Caps, blasting. (See Blasting caps and electric exploders.)

Caps, tin. (See Petroleum cans and parts.)

Car bodies. (See Railway cars.)

Car brakes. (See Railway cars.)

Car drawbars. (See Railway cars.)

Car forgings. (See Bar iron, fish-plate bolts, etc.)

Car gas equipments. (See Railway cars.)

Carpet sweepers, manufactured by the Bissell Carpet Sweeping Company, of Grand Rapids, Mich., in part from imported tin plate; allow under Synopsis 13831.

Carriage and tire bolts, manufactured by Townsend, Wilson & Hubbard Bolt Company, and by A. M. Hayden, all of Philadelphia, Pa.; allow under letter of October 1, 1891, to collector, New York, and Synopsis 13471, respectively.

Carriage bolts. (See Carriage and tire bolts.)

Carriages and wagons, manufactured by J. B. Brewster & Co., of New York City, linings, trimmings, and cushion covers being made wholly from imported cloth; allow under Synopsis 12603.

Cars, horse. (See Railway cars.)

Cars, railway. (See Railway cars.)

Cartridges, "loaded" with bullets manufactured from imported lead, or from imported lead and tin or antimony; allow as on "Bullets," which see.

Cartridges, shot. (See Shot cartridges.)

Car ventilators. (See Railway cars.)

Car wheels. (See Locomotive and railway car wheels.)

Car windows. (See Railway cars.)

Cases, packing. (See Wooden boxes.)

Cases, petroleum. (See Wooden boxes.)

Castor oil and castor pomace, manufactured wholly from imported castor beans or seeds; allow duty paid on 20½ pounds of the imported beans or seeds used for each gallon of oil exported, and duty paid on 13 pounds of such beans or seed for each 100 pounds of pomace exported, quantities to be determined by gauge or weight, as ordered by the collector.

Ceiling. (See Dressed lumber.)

Celery rock and rye cordial or celery tonic, manufactured by the Cook & Bernheimer Company, of New York City, in part from imported alcohol; allow under letter September 18, 1895, to collector, New York.

Celery tonic. (See Celery rock and rye cordial, etc.)

Centers, locomotive and railway car wheel. (See Locomotive and railway car wheels.)

Chairs, manufactured by Hale & Co., of New York City, from domestic wood and imported chair cane; allow under Synopsis 11783; and

on those manufactured by B. Souto, of New York City, from parts imported "in the rough," allow under Synopsis 15045.

Channel burs and fastenings, manufactured from imported materials; allow as on portable railway sections.

Cherry pectoral, Ayer's. (See Ayer's cherry pectoral and sarsaparilla.)

China goatskins, prepared by process of cleaning, dyeing, and resewing imported tanned China goatskins; base allowance on number of skins used equal to number exported.

Chocolate, sweetened. (See Sweetened chocolate.)

Cigarettes, manufactured by the American Tobacco Company, of New York City, and by Cameron & Cameron, of Richmond, Va., wrapped wholly with imported cigarette paper; allow under Synopsis 11103 and letter August 28, 1891, respectively.

Cleaned rice, manufactured wholly from imported uncleaned rice; base allowance on quantity of the imported rice used, to be determined by adding to the weight of the exported article ascertained by a United States weigher, 10 per centum of such weight.

Clocks, manufactured by the Ansonia Clock Company, of New York City, in part from imported porcelain and onyx cases, porcelain and zinc dials, and imported glass; allow under Synopsis 16675; if manufactured by the Seth Thomas Clock Company, of Thomastown, Conn., in part from imported glass, allow under Synopsis 14113; and if manufactured by the E. Ingraham Clock Company, of Bristol, Conn., in part from imported glass, allow under Synopsis 14256 and letter January 4, 1894, to collector, New York.

Clock-spring material, manufactured by R. H. Wolff & Co., limited, of New York City, from imported steel-wire rods; allow under Synopsis 14796.

Clock springs, manufactured by R. H. Wolff & Co., limited, of New York City, from imported steel-wire rods; allow under Synopsis 14474.

Clothed iron flats (parts of carding machines), manufactured by E. A. Leigh & Co., of Boston, Mass., wholly from imported "flats, card clothing and clips;" allow under Synopsis 16068.

Clothing, waterproof. (See Waterproof clothing.)

Cloths, printed and finished. (See Printed and finished cloths.)

Cocoanut, desiccated. (See Desiccated cocoanut.)

Cod-liver oil, Scott's emulsion of. (See Scott's emulsion of cod-liver oil.)

Cologne water. (See Toilet waters, etc.)

Colors, dry. (See Dry colors.)

Composition metal, manufactured by the Burnham Smelting and Refining Company, of Bridgeport, Conn., in part from imported old and scrap copper; allow under Synopsis 13280.

Compound, lard. (See Lard compound.)

Condensed milk, manufactured in part from imported refined sugar, or sugar refined from imported raw sugar; base allowance on quantity of such materials used, provided that no domestic sugar has been used in the manufacture of the article.

The entry under which the merchandise is to be inspected and laden must show the number and description of the cans contained in each shipping package, and the manufacturer's declaration on the drawback entry must show the weight of the condensed milk in each variety of can, and the kind and quantity or percentage of sugar used in the manufacture of the exported article, which declarations shall be verified by official weight and analysis of samples taken as ordered by the collector.

Where sugar refined from imported raw sugar is used, drawback shall be allowed as on the refined sugar if exported separately.

Confectionery, manufactured wholly or in part from imported refined sugar, or sugar refined from imported raw sugar; base allowance on quantity of such material used, provided that no domestic sugar has been used in the manufacture of the article.

The entry under which the merchandise is to be inspected and laden, must show separately the kinds and quantities of the varieties of confectionery contained in each shipping package; and the manufacturer's declaration on the drawback entry must show the kind and quantity or percentage of refined sugar used in each variety of confectionery exported. Declarations of manufacturers and exporters shall be verified by official analysis of samples taken as ordered by the collector, and by weights ascertained by a United States weigher.

Before liquidation of entries for drawback on confectionery, a sworn statement of the manufacturer, showing formula and processes of manufacture of each kind on which drawback is claimed, must be filed with the collector, and verified by official inspection of methods of manufacture and official analysis of samples.

The manufacturer's declaration on the drawback entry must show that the articles covered thereby were made as set forth in such statement.

Where the exported confectionery was made from sugar refined from imported raw sugar, drawback shall be allowed as on the refined sugar used, if exported as sugar.

Connecting rods, manufactured by the Abner Doble Company, of San Francisco, Cal., wholly from imported iron bars; allow under Synopsis 15944.

Copper boiler tubes. (See Locomotive and steam boilers.)

Copper plates for locomotives. (See Locomotives.)

Copper plates, perforated. (See Perforated copper plates.)

Copper, refined. (See Refined copper.)

Copper, sulphate of. (See Sulphate of copper.)

Cornets, manufactured in part from imported valves; base allowance on number and kind of such valves used, which must be described in the manufacturer's declaration on the drawback entry as they were described on the invoice under which they were imported.

Before lading for exportation the valves appearing in the cornets must be identified with the imported valves described in the manufacturer's declaration by expert official inspection.

Corrugated and galvanized iron roofing. (See Iron roofing.)

Corrugated and painted iron roofing. (See Iron roofing.)

Corsets, manufactured by Roth & Goldsmith, of South Norwalk, Conn., in part from imported materials; allow under Synopsis 11742.

Cotton gin saws, manufactured by J. F. Turner's Sons, of Sing Sing, N. Y., from imported steel plates; allow under letter January 3, 1891, to collector, New York; and on such saws manufactured by the Eagle Cotton Gin Company, of Bridgewater, Mass., from imported steel plates, allow under Synopsis 12402.

Coupling buffers. (See Locomotives.)

Crank pins. (See Locomotives.)

Creosoted lumber, manufactured by the Carolina Oil and Creosote Company, in part from imported dead oil of coal tar; allow under Synopsis 13283.

Cross bars, manufactured from imported material; allow as on portable railway sections.

Crystal fashion plates, manufactured by the Crystal Fashion Plate Company, of New York City, in part from imported sheet celluloid; allow under Synopsis 16924.

Crystallized tin plates, manufactured from imported tin plates; base allowance on quantity of material used equal to the quantity of the exported plates, to be determined by either weight or measurement and inspection of such exported articles.

Cups, tin. (See Tin boxes, cans, etc.)

Cuspidors, tin. (See Tin boxes, cans, etc.)

Decorated lamp shades, manufactured by Clark Brothers' Lamp, Brass, and Copper Company, of Trenton, N. J., from imported plain porcelain shades, and by Trenton Lamp Company, of Trenton, N. J., from imported plain glass shades; allow under Synopses 13479 and 14340, respectively.

Decorated tin plates, manufactured from plain tin plates; base allowance on quantity of the plain plates used equal to the quantity of such material in the exported plates, to be determined by weight or measurement and inspection of the finished plates, proper allowance being made for addition to such weight in process of manufacture.

Degreased sheepskins, manufactured by the United States and Canada Degreasing Company, of Brooklyn, N. Y., from imported skins; allow under Synopsis 16235.

Desiccated coconut, manufactured by L. Schepp & Co., of New York City, wholly from imported cocoanuts and refined granulated sugar, used in condition as imported, or refined from imported raw sugar; allow under Synopsis 16780.

Doors and moldings, manufactured from imported lumber; base allowance on quantity of lumber used, to be determined by "board measurement" of parts of doors and of finished moldings.

Drawbars, car. (See Railway cars.)

Dress binding, velveteen. (See Velveteen dress binding, etc.)

Dressed lumber, manufactured from imported rough lumber, if planed on two sides, or on one side and both edges; base allowance on quantity of rough lumber used, to be determined by "board measurement" of the exported dressed lumber.

Dress shields, manufactured by the I. B. Kleinert Rubber Company, of New York City, in part from imported cotton galloon binding and piece silk; allow under letter January 15, 1896, to collector, New York.

Drills, steel. (See Steel drills.)

Dry colors, manufactured by Pfeiffer & Lavanburg, of New York City, in part from imported quicksilver, orange mineral or red lead, and by the F. W. Devoe and C. T. Reynolds Company, of New York City, in part from imported quicksilver; allow under Synopses 11770 and 14010, respectively.

Dry plates, photographic. (See Photographic dry plates.)

Dyed silks. (See Silks, printed and dyed.)

Dynamite and other explosives, in the manufacture of which all the glycerin used was imported; base allowance on a quantity of glycerin so used, to be determined by allowing $46\frac{2}{10}$ pounds of the same for each 100 pounds of nitroglycerin contained in the exported articles.

The drawback entry must show the number and size of cartridges and other packages contained in each shipping case, the trade names or marks by which the several forms and grades of the explosives are designated, the quantity of each kind and grade, and the percentage of nitroglycerin contained in each grade, respectively.

The weights of the several kinds of uniform packages shown by the drawback entry shall be tested by a United States weigher when ordered by the collector, and on order of the collector, samples shall be taken

for analysis and verification of the statements contained in the entry as to the percentage of nitroglycerin contained in the several kinds and grades of the exported article.

The samples shall be taken by an officer specially designated by the collector for that purpose, who shall take the same under instructions from the Government chemist by whom such samples are to be analyzed, as to manner of taking the same and the quantities to be taken. Before the liquidation of any such drawback entry, there must be filed with the collector at the port of exportation, a sworn formula or statement by the proprietor and foreman of the factory where the explosives were made, showing the percentages of nitroglycerin used in the manufacture of the several brands or grades of explosives made in such factory for exportation, and no drawback shall be allowed on any excess over the quantity shown in the manufacturer's formula so filed, without special instructions from the Department.

When the glycerin used has been refined from imported crude glycerin, the quantity of crude glycerin so used shall be determined by adding to the allowance of $46\frac{2}{10}$ pounds of glycerin for each 100 pounds of nitroglycerin contained in the exported article, 22 per cent of such allowance.

Electric exploders. (See Blasting caps and electric exploders.)

Electric-lighting cables, manufactured by the Norwich Insulating Wire Company, of Brooklyn, N. Y., in part from imported lead; allow under Synopsis 11513.

Electric-light switches, manufactured by the Star Electric Company, of Philadelphia, Pa., in part from imported china ware; allow under Synopsis 12409.

Embossed leather, manufactured from imported plain leather; base allowance on a quantity of the imported material equal to the quantity of the exported article.

Embossed sheet iron. (See Painted and embossed sheet iron.)

Embossed tin plates, manufactured from imported tin plates, base allowance on a quantity of the material used, to be determined by either weight or measurement and inspection of the exported plates.

Embroidered silk handkerchiefs, manufactured from imported plain silk handkerchiefs, by embroidering thereon letters, monograms, or other ornamental designs; base allowance on number of plain handkerchiefs used equal to number of embroidered handkerchiefs exported.

The entry under which the merchandise is to be inspected and laden must show the number and size of each kind of embroidered handkerchief in each box or package and the number of such packages in each shipping case to be exported. The manufacturer's statement on the drawback entry must describe the plain handkerchiefs as they are described in the invoice under which they were imported.

When ordered by the collector, the inspecting officer shall take samples of the manufactured articles, to be submitted to the appraiser for verification of the manufacturer's statement as to the kind and quality of the imported plain handkerchiefs used.

Essence of Jamaica ginger, Burnett's. (See Burnett's extracts, etc.)

Exploders, electric. (See Blasting caps and electric exploders.)

Explosives, dynamite and other. (See Dynamite and other explosives.)

Extract of witchhazel, fluid. (See Fluid extract of witchhazel.)

Extracts, fluid. (See Fluid extracts.)

Extracts of lemon, almond, and cochineal, Burnett's. (See Burnett's extracts, etc.)

Eyeglasses. (See Lenses, spectacles, and eyeglasses.)

Fashion plates, crystal. (See Crystal fashion plates.)

Fellows' compound syrup of hypophosphites, manufactured by the Fellows Medical Manufacturing Company, of New York City, in part from imported glycerin and sugar; allow under Synopses 16741 and 17197.

Felt, hammer. (See Hammer felt.)

Fencing, barbed-wire. (See Wire fencing.)

Fencing, galvanized. (See Wire fencing.)

Fencing, wire. (See Wire fencing.)

Ferrotypes plates, manufactured in part from imported taggers iron; base allowance on quantity of imported iron used appearing in the exported article.

The entry under which the plates are to be inspected and laden must show, separately, the number and dimensions of each variety of plate exported, and the manufacturer's declaration must show the number, dimensions, gauge, and net weight of the imported plates used.

When ordered by the collector, samples shall be taken by the inspecting officer and submitted to the appraiser, who shall report the gauge of the plate appearing in the finished article.

The superficial quantity of the exported ferrotypes plates shall be determined by the count and measurement of such plates, as certified by the inspecting officer, and the weight of the imported taggers iron used shall be determined by ascertaining from the import entry the weight of a like superficial quantity of the material identified.

Filters. (See Pasteur's germ-proof filters.)

Finch gas equipments. (See Railway cars.)

Finished split leather, manufactured by J. C. Crane & Co., of Boston, Mass., from imported rough leather or dressing hides; allow under Synopsis 10610.

Fish nets, manufactured wholly from imported thread; base allowance on quantity of thread used, to be determined by adding to the net weight of the exported nets 2 per cent of such weight.

The entry under which the nets are to be inspected and laden must show the gross and net weight, the number of meshes from top to bottom, and the size of the meshes, and describe the thread used as it is described in the invoice under which it was imported. Declared weights shall be verified by a United States weigher.

Fish-plate bolts. (See Bar iron, fish-plate bolts, etc.)

Fish plates. (See Bar iron, fish-plate bolts, etc.)

Fish preserver, manufactured by Johnson & Shaw, of Boston, Mass., from imported boracic acid and domestic salt; allow under Synopsis 14207.

Flats, clothed iron. (See Clothed iron flats.)

Floor tiles, marble. (See Marble floor tiles, etc.)

Florida water. (See Toilet waters, etc.)

Florida water, Barry's. (See Barry's Florida water.)

Flour bags. (See Bags.)

Fluid extract of witchhazel, manufactured by W. Burton & Co., of New York City, in part from imported alcohol; allow under Synopsis 17211.

Fluid extracts, manufactured by Parke Davis & Co., of Detroit, Mich., in the manufacture of which no other than imported alcohol was used; allow under Synopsis 14977.

Forgings, railway car. (See Bar iron, fish-plate bolts, etc.)

Frames, bicycle. (See Bicycles and frames.)

Furs, imitation seal. (See Imitation seal furs.)

Galvanized fencing. (See Wire fencing.)

Galvanized-iron gutters. (See Iron roofing.)

Galvanized-iron roofing. (See Iron roofing.)

Galvanized-steel pipes. (See Steel pipes, galvanized or asphaltum and tar coated.)

Galvanized wire. (See Wire, round, plain, or galvanized.)

Gas equipments, Finch. (See Railway cars.)

Germ-proof filters. (See Pasteur's germ-proof filters.)

Glass, ornamental plate. (See Ornamental plate glass.)

Glasses, mirror. (See Mirror glasses.)

Glass signs, manufactured by Herrlein & Co., of New York City, from imported glass, by processes of embossing, gilding, and painting; allow under letter May 7, 1896, to collector, New York.

Gloves, leather. (See Leather gloves.)

Glue sizing, manufactured from glue imported in lumps; base allowance on quantity of material used equal to weight of exported article, to be ascertained by a United States weigher.

Glycerin, refined. (See Refined glycerin.)

Goatskins, China. (See China goatskins.)

Gold-dust washing powder, manufactured by the W. J. Wilcox Lard and Refining Company, of New York City, in part from "cotton seed oil foots" and imported soda ash; allow under Synopsis 15758.

Gold paint, manufactured by A. Sartorius & Co., of New York City, in part from imported bronze powder; allow under Synopsis 11482.

Grain bags. (See Bags.)

Gutters, galvanized-iron. (See Iron roofing.)

Hammer felt, manufactured by Alfred Dolge, of New York City, wholly from imported wools; allow under Synopses 7702 and 17232.

Hammers, piano. (See Piano hammers.)

Handkerchiefs, embroidered silk. (See Embroidered silk handkerchiefs.)

Handles, tin. (See Petroleum cans and parts.)

Hay knives, manufactured by the Hiram Holt Company, of East Willton, Me., in part from imported iron; allow under Synopsis 11793.

Hoops, barrel. (See Petroleum barrels.)

Horse cars. (See Railway cars.)

House-furnishing goods, tin. (See Tin boxes, cans, etc.)

Imitation seal furs, manufactured by the North American Electric Seal Unhairing Company, of New York City, from imported, dressed, dyed, and sheared rabbit skins; allow under Synopsis 15084.

Insulator, micanite. (See Micanite insulator.)

Iron, bar. (See Bar iron, fish-plate bolts, etc.)

Iron roofing:

Corrugated and galvanized roofing, manufactured from imported sheet iron and spelter; base allowance on quantity of materials used. Manufacturer's declaration on the drawback entry must show gauge, size, and number of sheets of iron used; also the weight of the same and the quantity of spelter added in process of galvanizing. Such declarations shall be verified by expert official examination of samples, to be taken as ordered by the collector. Quantities of materials used shall be determined by reference to such verified statements and the weight of the exported article, as ascertained by a United States weigher.

Corrugated and painted roofing, manufactured from imported sheet iron and domestic paint; base allowance on quantity of such sheet iron used, to be determined by deducting from the weight of the exported article, as determined by a United States weigher, not less than 4 per cent of such weight. Samples shall be taken, as ordered by the collector, for expert official examination, to determine if deduction should be made in excess of 4 per cent.

Iron roofing—Continued.

Corrugated gutters, leaders, ridging, sheets, and tiles, manufactured by the Mosely Iron Bridge and Roof Company, of Jersey City, N. J., from imported galvanized-iron sheets; allow under letter September 2, 1893, to collector, New York.

Ironware, agate. (See Agate ironware.)

Jewelry, manufactured in part from imported precious stones, requiring expert examination for purposes of "inspection" and "identification," no general regulation can be prescribed.

On application to the Secretary of the Treasury, relative to inspection, custody; and lading of the articles to be exported, special instructions will be issued in each case.

Kettles, patent cooking. (See Patent cooking kettles.)

Key chains, nickel-plated. (See Nickel-plated key chains.)

Knives, hay. (See Hay knives.)

Labels. (See Signs, labels, and show cards.)

Lamp shades, decorated. (See Decorated lamp shades.)

Lanterns, tin. (See Tin boxes, cans, etc.)

Lard compound, manufactured from imported oleostearin and domestic cotton seed oil, or from imported oleostearin and domestic cotton seed oil and lard; base allowance on quantity of such oleostearin used, to be determined under the following instructions:

Before allowance of drawback, the exporter must file with the collector of customs at the port from which the exportation is to be made, a sworn statement made by the manufacturer, showing the place, processes, and conditions of manufacture, and mode of packing for export, and also the formula, showing the materials and the proportions thereof entering into the manufacture of the compound, which statement shall be verified by the collector.

The collector with whom such manufacturer's statement was first filed shall furnish certified copies thereof on request of collectors at other ports from which exportations are made.

The entry for inspection and lading must show, separately, marks, numbers, and gross and net weights of packages, or must be accompanied by a certified invoice giving such particulars. Weights must be marked on packages and verified by a United States weigher by test of packages designated by the collector.

The quantity or percentage of oleostearin in the exported article must be shown by the manufacturer's declaration on the drawback entry, which declaration must be verified by official expert analysis of samples taken by the inspecting officer as ordered by the collector.

Quantity of oleostearin which may be taken as basis of liquidation shall in no case exceed quantity shown by formula filed, manufacturer's declaration on entry, or that found by official analysis. Manufacturer's declaration on entry must show that the exported article was made in accordance with sworn formula filed with collector.

Leaded black plates. (See Tin and terne plates.)

Lead, pig. (See Pig lead.)

Leaders, iron. (See Iron roofing.)

Lead pipe, manufactured wholly from imported lead; base allowance on quantity of imported lead used, equal to weight of the exported article, to be ascertained by a United States weigher.

Lead, red. (See Litharge and red lead.)

Lead seals, manufactured wholly from imported lead; base allowance on quantity of imported lead used, equal to weight of exported articles, to be ascertained by a United States weigher.

Lead, sheet. (See Sheet lead.)

Lead, white. (See White lead.)

Lead wire, manufactured wholly from imported lead; base allowance on quantity of imported lead used, equal to weight of exported article, to be ascertained by a United States weigher.

Leather, embossed. (See Embossed leather.)

Leather gloves, manufactured by Foster, Paul & Co., of New York City, from partly made imported gloves and the manufacturers' patent domestic fasteners; allow under letter July 24, 1894, to collector, New York, and Synopsis 15915.

Leather, sole. (See Sole leather.)

Leather, split. (See Finished split leather.)

Lenses, spectacles and eyeglasses, manufactured by T. A. Wilson & Co., of Reading, Pa., from imported lenses; allow under letter March 4, 1891, to collector, Philadelphia.

Linen netting, manufactured by H. & G. W. Lord, of Boston, Mass., wholly from imported linen gilling twine; allow under Synopsis 12267.

Linoleum, manufactured on an imported burlap "foundation;" base allowance on quantity of burlaps so used, equal to surface measurement of the exported article.

Linseed oil and linseed oil cake, the oil being expressed from seed imported under the tariff act of August 28, 1894, and the oil cake being composed of the solid substance of such seed, the refuse matter in the seed and a small percentage of oil not recoverable, the parts of the seed and the refuse being separated by the processes of crushing, steaming, and pressing; base allowance on quantities and values of materials used in the manufacture of the respective products, to be ascertained under the following instructions:

The manufacturer's and exporter's declarations on the drawback entry shall show the cost of the seed used per bushel of 56 pounds, and the wholesale market values of the oil per gallon of 7½ pounds, and of the oil cake per ton of 2,000 pounds, at the place of manufacture at the time of exportation; which declared cost and values shall be verified by the collector with whom the entry is lodged.

Nineteen and ninety-one hundredths pounds (2.654 gallons) of oil and 35.87 pounds of oil cake being the ascertained average product of 1 bushel (56 pounds) seed, such quantities, together with the cost and values above specified, shall be used as indicated in the following proportions, for the purpose of fixing the rate of drawback on each kind of product.

First, from the declared and verified values of oil and cake products and from the known quantities above noted, find the values of such products from 56 pounds seed.

To find rate of drawback on oil, per gallon, say—

$$\left. \begin{array}{l} \text{Value of oil and} \\ \text{cake from 56} \\ \text{pounds seed.} \end{array} \right\} :: \left\{ \begin{array}{l} \text{Value of oil from} \\ \text{56 pounds seed.} \end{array} \right\} :: \left\{ \begin{array}{l} \text{Value of 56} \\ \text{pounds seed.} \end{array} \right\} :: \left\{ \begin{array}{l} \text{Value of material} \\ \text{for oil in 56} \\ \text{pounds seed.} \end{array} \right\}$$

and

$$\left\{ \begin{array}{l} \text{Value of 56} \\ \text{pounds seed.} \end{array} \right\} :: \left\{ \begin{array}{l} \text{Value of material} \\ \text{for oil in 56} \\ \text{pounds seed.} \end{array} \right\} :: \left\{ \begin{array}{l} \text{Duty on 56 pounds} \\ \text{seed (20 cents).} \end{array} \right\} :: \left\{ \begin{array}{l} \text{Duty on material} \\ \text{for oil in 56} \\ \text{pounds seed.} \end{array} \right\}$$

Then

$$\left\{ \begin{array}{l} \text{Duty on material for} \\ \text{oil in 56 pounds seed,} \\ \text{divided by 2.654.} \end{array} \right\} = \left\{ \begin{array}{l} \text{Duty paid on material} \\ \text{for one gallon oil.} \end{array} \right\} = \left\{ \begin{array}{l} \text{Rate of drawback} \\ \text{per gallon.} \end{array} \right\}$$

To find rate of drawback on oil cake per 100 pounds, say—

$$\left. \begin{array}{l} \text{Value of oil and} \\ \text{cake from 56} \\ \text{pounds seed.} \end{array} \right\} : \left\{ \begin{array}{l} \text{Value of cake from} \\ \text{56 pounds seed.} \end{array} \right\} :: \left\{ \begin{array}{l} \text{Value of 56} \\ \text{pounds seed.} \end{array} \right\} : \left\{ \begin{array}{l} \text{Value of material} \\ \text{for cake in 56} \\ \text{pounds seed.} \end{array} \right\}$$

And

$$\left. \begin{array}{l} \text{Value of 56} \\ \text{pounds seed.} \end{array} \right\} : \left\{ \begin{array}{l} \text{Value of material} \\ \text{for cake in 56} \\ \text{pounds seed.} \end{array} \right\} :: \left\{ \begin{array}{l} \text{Duty on 56 pounds} \\ \text{seed (20 cents).} \end{array} \right\} : \left\{ \begin{array}{l} \text{Duty on material} \\ \text{for cake in 56} \\ \text{pounds seed.} \end{array} \right\}$$

Then

$$35.87 \text{ pounds.} \left\} : \left\{ \begin{array}{l} 100 \text{ pounds.} \end{array} \right\} :: \left\{ \begin{array}{l} \text{Duty on material} \\ \text{for 35.87 pounds} \\ \text{of oil cake.} \end{array} \right\} : \left\{ \begin{array}{l} \text{Rate of drawback} \\ \text{on 100 pounds} \\ \text{of oil cake.} \end{array} \right\}$$

In case the dutiable quantity of imported seed used was ascertained on liquidation of the import entry, by deducting from the weight of the seed in condition as imported, an allowance for "draff" on account of dirt or other refuse matter therein, the rate of duty paid on such seed per bushel of 56 pounds may be determined by deducting from the tariff rate of 20 cents per bushel a percentage thereof corresponding to the percentage of weight allowance for draff; and the rates of allowance of drawback on the oil and oil cake products of such seed used without previous winnowing or cleaning may be found by substituting and using the duty rate found by such deduction (per bushel of 56 pounds) in place of the 20-cent duty rate used in the foregoing proportions and formulas.

Samples shall be taken as ordered by the collector, and quantities shall be ascertained by official weighing or gauging, as the case may require.

When such oil is weighed, the number of gallons shall be determined by allowing $7\frac{1}{2}$ pounds of oil per gallon.

Liquid anhydrous ammonia, manufactured wholly from imported sulphate of ammonia; base allowance on quantity of such material used, to be determined by allowing 4 pounds of sulphate of ammonia for each pound of the exported article.

Litharge and red lead, manufactured from imported lead; base allowance on quantity of such material used. The entry under which the merchandise is to be inspected and laden must show, separately, the number and the gross and net weights of each of the various sizes or packages in which the articles are, respectively, packed for shipment; and the manufacturer's declaration on the drawback entry must show the quantities and percentages of metallic lead contained in the exported articles, which declaration shall be verified by the report of a United States weigher, and by analysis to be made by a Government chemist, of samples taken by the inspecting officer, as ordered by the collector.

Lithographic tin plates, manufactured by S. A. Illsley & Co., of Brooklyn, N. Y., from imported tin plates; allow under Synopsis 9782.

Locomotive and other steam boilers, manufactured wholly or in part from imported boiler plates, brass and copper boiler tubes, etc.; base allowance on quantities of imported materials used, under the following instructions:

The drawback entry under which the boilers are to be inspected and laden must show the kind and description of boiler, giving dimensions of the same; also the number, size, shape, and gauge of the various parts made from imported materials on which drawback of duties is claimed. Such entry must be accompanied by a draff or diagram of the boiler, illustrating the description given in the entry by showing the measure-

ments, number, and relative position of the different parts named in the entry, which description and measurements shall be verified by the inspecting officer.

The manufacturer's declaration shall show the quantity and kind of imported material used, describing the same by giving dimensions, gauge, and weight of plates and other parts in condition as imported, and indicating the parts of the completed boiler in which the same appear.

Such declaration shall also show, separately, the quantities and values of the different kinds of resultant scrap, and the value at the factory of the different kinds of imported material used in the manufacture.

In case it shall be found on liquidation of the drawback entry that the weights of the different materials identified are not separately shown in the entry under which the same were imported, reference may be had for verification of the manufacturer's statements to standard tables and rules for determining by measurement the weights of different kinds of boiler materials, which may be found in "Haswell's Engineers' and Mechanics' Pocket Book."

Locomotive and railway car wheels, manufactured wholly or in part from imported tires, centers, retaining bolts and retaining rings, and such imported wheels fitted and permanently attached to domestic axles; base allowance on quantity of imported materials used, under the following instructions:

The entry under which such wheels are to be inspected and laden must show, separately, the kinds of wheels, the dimensions of the same, and the dimensions and weights of the several parts on which drawback allowance must be made. The dimensions of tires given must include inside diameter, width on inside face, and thickness on "tread," and the given dimensions of centers must include outside diameter of rim, width of rim on face, and diameter and length of axle bore.

The entry must be accompanied by drawings of the wheels and parts, or refer to such drawings on file with the collector of the port from which exportation is to be made, illustrating the description given in such entry by showing the measurements of the wheels and parts, which description and measurements shall be verified by the inspecting officers. When practicable the weights given in the entry of the several parts of the wheels shall be verified by a United States weigher.

The manufacturer's declaration on the drawback entry must show, separately, the kinds, dimensions, and weights of the imported materials used in the manufacture of the wheels, describing the material for each part of the finished wheel as the same was described in the invoice under which it was imported and in the drawing accompanying such invoice or referred to therein. Such declarations shall also show, separately, the quantities and values of the different kinds of resultant scrap or "waste," and the values at the factory of the respective kinds of imported material from which such "waste" is produced.

In determining the weight of imported material which shall be made the basis of allowance of drawback on the finished article, the weight of the material in condition as imported shall be reduced by a number of pounds equal in value to the value of the "waste" resulting from manufacture, according to the values of material and waste shown in the manufacturer's declaration.

Locomotive coupling buffers. (See Locomotives.)

Locomotives, manufactured in part from imported materials; base

allowance on quantities of imported materials so used, under the following instructions:

Blast pipes, Copper plates, Coupling buffers, and Crank pins, in locomotives built by the Baldwin Locomotive Works, of Philadelphia, Pa., allow under Synopses 11168, 16878, and 11472, and letter July 15, 1896, to collector, New York, respectively.

Boilers. (See Locomotive and other steam boilers.)

Wheels. (See Locomotive and railway car wheels.)

Lubricating oils, manufactured wholly from imported rape-seed oil and the products of domestic petroleum; base allowance on quantity of the imported rape seed oil used, to be determined as follows:

The entry under which the merchandise is to be inspected and laden must show, separately, the number and kind of shipping packages, and the quantity and quality or kind of the manufactured article contained in each package.

In case the exported article is made under a standard formula the manufacturer must file with the collector, prior to the liquidation of the drawback entry, a sworn statement showing such formula, and the mode of manufacture and packing for shipment, and in all other cases the special formula of manufacture, together with a description of the mode of manufacture and packing, must accompany the drawback entry.

The drawback entry must show, separately, the quantity and quality or kind of the manufactured article contained in each package, and in the entire shipment; and the manufacturer's declaration on such entry must show the percentages and quantities of rape-seed oil appearing in each kind or quality, respectively.

Such declaration must further show, in addition to the usual averments, that the exported oils were manufactured and packed for shipment in manner as set forth in standard formulas and statements filed with the collector, referring thereto by date, or in special formulas and statements accompanying the drawback entry.

Samples shall be taken, as ordered by the collector, to be submitted to the appraiser for report of the percentage of rape-seed oil appearing therein.

In liquidating entries the quantity of rape-seed oil on which allowance of drawback may be based, shall be determined for each kind or quality of oil by use of the minimum quantity and percentage relating to each such kind or quality, respectively, as shown by the manufacturer's sworn formula and statement, the declaration on the drawback entry, or by the appraiser's report of percentages and a United States gauger's report of quantities.

Lumber, creosoted. (See Creosoted lumber.)

Lumber, dressed. (See Dressed lumber.)

Magnolia antifriction metal, and other antifriction metals known as *Aluminum bearing* and "No. 1 metal," manufactured by the Magnolia Antifriction Metal Company, of New York City, from imported lead, tin, and antimony, and "Mystic" and "Pyramid" metals, from lead and antimony; allow under Synopses 12772, 14901, and letters March 22, 1894, and August 15, 1894, to collector, New York.

Maltine and cod-liver oil, Maltine with coca wine, and Plain maltine, manufactured by the Maltine Manufacturing Company, of New York City, in part from imported alcohol, glycerine, and cod-liver oil; allow under letter July 30, 1896, to collector, New York.

Malt, screened. (See Screened malt.)

Marble floor tiles, posts, risers, slabs, tombstones, and treads, manufactured from marble imported in blocks rough, or squared; base allowance on quantity of imported material used, equal to quantity determined by measurements of exported articles.

Mattress fabric, woven-wire. (See Woven-wire mattress fabric.)

Metal, aluminum bearing. (See Magnolia antifriction metal, etc.)

Metal, composition. (See Composition metal.)

Metal, magnolia antifriction. (See Magnolia antifriction metal, etc.)

Metal, "Mystic," "No. 1," and "Pyramid." (See Magnolia antifriction metal, etc.)

Metal shingles, manufactured by Marchant & Co., Incorporated, of Philadelphia, Pa., from imported tin plates and black plates; allow under Synopsis 16161.

Metal, white. (See White metal.)

Micanite insulator, manufactured by the Mica Insulator Company, of Schenectady, N. Y., from shellac and imported mica; allow under Synopsis 14573.

Milk, condensed. (See Condensed milk.)

Mirror glasses, manufactured from imported plate glass by the processes of cutting, beveling, and polishing, either with or without the addition of "silver coating;" base allowance on quantity of material used, to be determined by count and measurement of the exported articles. The entry must show, separately, the number and dimensions of each size and variety of mirror glass exported.

Mixed paints, manufactured in part from imported linseed oil; base allowance on quantity of imported oil used, under the following instructions:

The manufacturer's declaration on the drawback entry must show, separately, the quantity of oil used in the manufacture of each kind and quality of paint. Samples shall be taken by the inspecting officer as ordered by the collector, and submitted to a Government chemist for analysis and determination of the percentages "by weight" of oil contained therein. The quantity of oil used shall be determined by reference to such chemist's reports, and weights of the exported articles returned by a United States weigher, which quantity shall be reduced to gallons on the basis of 7½ pounds for each gallon of oil.

Moldings. (See Doors and moldings.)

"Mystic" metal. (See Magnolia antifriction metal, etc.)

Nails, steel wire. (See Steel wire nails.)

Nets, fish. (See Fish nets.)

Netting, linen. (See Linen netting.)

Nickel-plated key chains, manufactured by the Lane Manufacturing Company, of Waterbury, Conn., from nickel and imported polished steel chains, by the process of nickel plating; allow under Synopsis 14343.

"No. 1" Metal. (See Magnolia antifriction metal, etc.)

Nozzles for petroleum cans, tin. (See Petroleum cans and parts.)

Nuts for bolts. (See Fish plate bolts, and Carriage and tire bolts.)

Oil cake, linseed. (See Linseed-oil cake.)

Oil, castor. (See Castor oil.)

Oil cloths, manufactured in part from imported burlaps or oilcloth foundations; base allowance on a quantity of such material used equal to the surface measurement of the exported article.

Oil, linseed. (See Linseed oil.)

Oil, lubricating. (See Lubricating oil.)

Ornamental plate glass, manufactured from imported plain plate glass by process of cutting or engraving ornamental designs on the same; base allowance on a quantity of the material used, to be determined by measurement of the exported articles.

Packing cases. (See Wooden boxes.)

Pails, tin. (See Tin boxes, cans, etc.)

Pain killer, Perry Davis'. (See Perry Davis' pain killer.)

Pain relief, Barry's. (See Barry's pain relief.)

Painted and embossed sheet iron, manufactured from imported plain sheet iron; base allowance on quantity of such iron used, to be determined by deducting from the weight of the exported article, as ascertained by a United States weigher, the weight of the paint on the finished sheets. The manufacturer's declaration on the drawback entry must show the quantity or percentage of paint adhering to the finished sheets, and such declaration shall be verified by expert official inspection of samples to be taken as ordered by the collector.

Painted iron roofing. (See Iron roofing.)

Painted tin shingles, manufactured by the Cortright Metal Roofing Company, of Philadelphia, Pa., from imported tin plates and domestic paint; allow under Synopsis 13642.

Paint, gold. (See Gold paint.)

Paints, mixed. (See Mixed paints.)

Pans, tin. (See Tin boxes, cans, etc.)

Paper wrappers, surface-coated. (See Surface-coated paper wrappers.)

Pasteur's germ-proof filters, manufactured by the Pasteur-Chamberland Filter Company, of Dayton, Ohio, in part from imported filtering tubes; allow under Synopsis 12087.

Patent cooking kettles, manufactured by A. W. Oberman, of Pittsburg, Pa., in part from imported enameled iron forms; allow under Synopsis 14337.

Patent metallic shingles, manufactured from imported tin plates or taggers iron; base allowance on quantity of imported material used equal to net weight of exported articles, as ascertained by a United States weigher.

Pearline, manufactured by James Pyle & Sons, of New York City, in part from imported soda ash and caustic soda; allow under Synopsis 12594.

Peas, split. (See Split peas.)

Pens, steel. (See Steel pens.)

Perforated copper plates, manufactured from imported copper plates; base allowance on quantity of material used, equal to weight of exported articles, ascertained by a United States weigher.

Perry Davis' pain killer, manufactured by Davis & Lawrence Company, of New York City, in part from imported alcohol; allow under letter January 10, 1896.

Petroleum barrels, manufactured in part from imported hoop steel or wire rods, if made by the Staudard Oil Company, of New York, or the Atlantic Refining Company, of Philadelphia, Pa., allow for wire rods used under letter December 9, 1891, and Synopsis 12277, respectively; if made by the Tide Water Oil Company, of New York City, allow for hoop steel under Synopsis 13475.

Petroleum cans and parts:

Cans. (See Tin boxes, cans, etc.)

Caps, handles, nozzles, screw rings, and screw tops, manufactured wholly or in part from imported tin plates and attached to petroleum cans; base allowance on quantity of such material used, to be determined by adding to the quantity of tin plate appearing in such articles a quantity equal to that actually destroyed or converted into worthless scrap in process of manufacture. In case the resultant scrap is not worthless, the quantity to be added to cover such wastage in manufacture shall be reduced by a number of pounds equal in value to the value of such scrap. Values of such tin plate and scrap shall be

Petroleum cans and parts—Continued.
declared by manufacturers on requisition of collectors. No drawback shall be allowed on attachments made from scrap tin.

Solder, made wholly from imported tin and lead, when used by the Tide Water Oil Company and the Standard Oil Company, of New York, in soldering petroleum cans, allow under Synopses 14592 and 14798; and when used by the Atlantic Refining Company, of Philadelphia, Pa., allow under Synopsis 14273.

Petroleum cases. (See Wooden boxes.)

Phenacetine pills. (See Pills.)

Photographic cameras, manufactured by W. H. Lewis, of Greenpoint, N. Y., in part from imported Dallmeyer lenses; allow under Synopsis 11735.

Photographic dry plates, manufactured from imported glass plates and gelatine; base allowance on quantity of glass, to be determined by adding to the net weight of the exported plates, ascertained by a United States weigher, 15 per cent of such weight, and on the quantity of gelatine used, not in excess of three-eighths of a grain for each square inch of the coated surface.

The manufacturer's declaration on the drawback entry must show the quantity of gelatine used, which declaration must be verified by tests made by a Government chemist, of samples taken as ordered by the collector.

Piano hammers, manufactured by Alfred Dolge, of New York City, in part from sheet felt made by him, wholly from imported wool; allow under Synopses 9586 and 17232.

Pickets, manufactured from imported lumber; base allowance on quantity of lumber used, equal to "board measure" of exported articles.

Pig lead, manufactured from imported lead ore; base allowance on quantities of pure lead contained in the exported article. Such quantity shall be determined by reference to the weight of the exported pig lead, ascertained by a United States weigher, and the percentage of pure lead therein, ascertained by a United States chemist's analysis of samples taken in each case by the lading officer.

The rate of allowance per pound of pure lead exported shall be determined by dividing the rate of duty paid on the imported ore by the per cent of pure lead found in such ore on importation.

On each entry of pig lead for drawback, under the provisions of section 22 of the act of August 28, 1894, the exporters shall be required to file, in addition to the usual declarations, a special declaration, verified by one general officer and the foreman of the smelting works producing such lead, setting forth specifically that the lead covered by the entry was produced wholly from imported ores, without any admixture of domestic ores containing lead.

Pills, manufactured by John Wyeth & Bro., of Philadelphia, Pa., in part from imported antipyrine, phenacetine, salol or sulphonal; allow under Synopses 13911 and 14041.

Pipe, lead. (See Lead pipe.)

Pipes, blast. (See Locomotives.)

Pipes, steel. (See Steel pipes, galvanized, etc.)

Planned rails. (See Dressed lumber.)

Plate glass, ornamental. (See Ornamental plate glass.)

Plates, ferrotype. (See Ferrotype plates.)

Plates, fish. (See Bar iron, fish-plate bolts, etc.)

Plates, perforated copper. (See Perforated copper plates.)

Plates, photographic, dry. (See Photographic dry plates.)

Plates, terne and tin. (See Tin and terne plates.)

Plug tobacco, manufactured in part from imported licorice paste; base allowance on quantity of such paste used, to be determined under the following instructions:

The entry under which the tobacco is laden must show, separately, the number and description of packages of each brand or quality laden, and the drawback entry must show, separately, the quantity of each kind and quality covered thereby and the quantity of licorice paste used in the manufacture of each. Before the liquidation of any such drawback entry, there must be filed with the collector at the port of exportation a sworn formula or statement of the proprietor and foreman of the factory where the tobacco was made, showing the percentages of licorice paste used in the manufacture of the several brands and grades of tobacco made in such factory for exportation.

Manufactured tobacco being exported under the supervision of the internal-revenue authorities, the weights reported by them shall be accepted by collectors of customs, and, on the request of the collector with whom a manufacturer's formula is filed, the internal-revenue officer in charge of the factory shall procure and transmit to such collector samples of the tobacco described in such formula, to be submitted to a Government chemist for analysis and verification of the percentages of licorice paste shown in the formula.

When ordered by the collector, the customs officer inspecting the tobacco shall take samples for use in verifying the manufacturer's statement on the drawback entry.

No drawback shall be allowed on any excess over the quantity shown in the manufacturer's formula submitted without special instructions of the Department.

Plumbers' traps, manufactured wholly from imported lead; base allowance on quantity of such lead used, equal to weight of exported articles, found by a United States weigher.

Plush, silk. (See Silk plush.)

Pomace, castor. (See Castor pomace.)

Portable railroad sections, manufactured wholly or in part from imported materials; base allowance on quantities of such materials used, equal to weight of exported parts made from such materials, to be determined by a United States weigher.

Posts, marble. (See Marble floor tiles, etc.)

"*Potash,*" manufactured by Leon Hirsh & Sons, and William Archibald, of New York City, and by the Philadelphia Lye and Chemical Company, Limited, of Philadelphia, from imported caustic soda; allow under Synopses 13716, 15891, and 17039, respectively.

Preserver, fish. (See Fish preserver.)

Printed and finished cloths, manufactured by Gilmore & Haigh, of Somerville, Mass., from imported plain cotton cloth; allow under Synopsis 16696.

Printed silks. (See Silks, printed and dyed.)

"*Pyramid*" metal. (See Magnolia antifriction metal, etc.)

Rackarock. (See Solid ingredient of rackarock.)

Railroad sections, portable. (See Portable railroad sections.)

Railroad spikes. (See Bar iron, fish-plate bolts, etc.)

Rails, planed. (See Dressed lumber.)

Rails, steel. (See Steel rails.)

Railway car forgings. (See Bar iron, fish-plate bolts, etc.)

Railway cars:

Car bodies, manufactured by the Gilbert Car Manufacturing Company, of Troy, N. Y., in part from imported glass; allow under Synopsis 10695.

Cars, manufactured by the Harlan & Hollingsworth Company, of Wilmington, Del., in part from imported drawbars, gas equipments, glass for windows, vacuum brakes, and ventilators; allow under Synopsis 11955.

Horse cars, manufactured by the John Stephenson Company, Limited, of New York City, in part from imported glass; allow under Synopsis 11927.

Wheels, car. (See Locomotive and railway car wheels.)

Ramsay's Trinidad aromatic bitters, manufactured by Tyrer & Mullarkey, of New York City, in part from imported rum; allow under Synopsis 14569.

Red lead. (See Litharge and red lead.)

Refined butter, manufactured by Lestrade Brothers and John Scheel, both of New York City, in part from imported "grease butter;" allow under letter October 13, 1891, to collector, New York, and Synopsis 12590. On that manufactured by Bartram Brothers and Kurzman Brothers, of New York City, in part from imported "grease butter," allow under Synopsis 14578.

Refined copper, manufactured from copper ore, blister, scrap or matte; base allowance on quantity of fine copper in the imported material used, equal to the quantity of fine copper in the exported article, to be determined by reference to the weight of the exported article, ascertained by a Government weigher, and to the per cent of pure copper found therein by a Government chemist on analysis of samples to be taken in each case by the inspecting officer.

Refined glycerin, manufactured wholly from imported crude glycerin; base allowance on quantity of imported glycerin used, to be determined by adding to the net weight of the exported article, ascertained by a United States weigher, 22 per cent of such weight; provided that the exported glycerin, if colorless, shall be of a density not less than 1.25 specific gravity (29° Baumé), and, if tinted, not less than 1.26 specific gravity (30° Baumé), at 60° Fahrenheit.

Samples of the crude material and of the refined product must, in all cases, be submitted to a Government chemist for his report relative to the requisite conditions noted.

Refined sirup. (See Sugars and sirups, refined, and Sirup.)

Refined sugar. (See Sugars and sirups, refined.)

Retaining bolts and rings. (See Locomotive and railway car wheels.)

Reuter's syrup, manufactured by Barclay & Co., of New York City, in part from imported alcohol; allow under Synopsis 17227.

Rice, cleaned. (See Cleaned rice.)

Ridging, iron. (See Iron roofing.)

Risers, marble. (See Marble floor tiles, etc.)

Rivets, manufactured from imported iron or steel wire rods, or rivet rods; base allowance on quantity of material used, to be determined by adding to the weight of the exported rivets, as ascertained by a United States weigher, 3 per cent of such weight.

Rods, connecting. (See Connecting rods.)

Roofing, iron. (See Iron roofing.)

Roofing sheets and tiles. (See Iron roofing.)

Rope, wire, and wire and hemp. (See Wire rope.)

Round wire, plain or galvanized. (See Wire, round, plain or galvanized.)

Rugs, Wilton. (See Wilton rugs.)

Rugs, Zanoni. (See Zanoni rugs and velvets.)

Salol pills. (See Pills.)

Sapolios. (See Soaps, soap powder, and sapolios.)

Sarsaparilla, Ayer's. (See Ayer's cherry pectoral and sarsaparilla.)

Saws and blanks, band. (See Band saws and blanks.)

Saws, cotton-gin. (See Cotton-gin saws.)

Saws, not specially provided for, manufactured wholly from imported materials; base allowance on a quantity of materials used, equal to net weight of exported articles, ascertained by a United States weigher.

Scott's Emulsion of Cod-Liver Oil, manufactured by Scott & Bowne, of New York City, in part from imported cod-liver oil, hypophosphites of lime and soda, and glycerin refined from imported crude glycerin; allow under Synopsis 14677, amended to allow 22 per cent for waste in refining crude glycerin.

Screened malt, manufactured wholly from imported barley; base allowance on quantity of such barley used, to be determined by allowing .905 of a bushel of barley weighing 48 pounds per bushel for each bushel of the exported malt weighing 34 pounds; but in no case shall allowance be based on a ratio of barley used, to the malt produced therefrom, in excess of that shown by the manufacturer's declaration on the drawback entry. Weight of exported article shall be ascertained by a United States weigher.

Screws, wood. (See Wood screws.)

Screw tops, tin. (See Petroleum cans and parts.)

Seal furs, imitation. (See Imitation seal furs.)

Seals, lead. (See Lead seals.)

Shades, decorated lamp. (See Decorated lamp shades.)

Sheepskins, degreased. (See Degreased sheepskins.)

Sheet iron, painted and embossed. (See Painted and embossed sheet iron.)

Sheet lead, manufactured wholly from imported lead; base allowance on quantity of imported lead used, equal to weight of exported article, ascertained by a United States weigher.

Sheets, roofing. (See Iron roofing.)

Shelving. (See Dressed lumber.)

Shields, dress. (See Dress shields.)

Shingles, metal (made by Marchant & Co.). (See Metal shingles, etc.)

Shingles, painted tin. (See Painted tin shingles.)

Shingles, patent metallic. (See Patent metallic shingles.)

Shirts, silk outing. (See Silk outing shirts.)

Shooks, box. (See Box shooks.)

Shot, manufactured wholly from imported lead and exported in bags or boxes; base allowance on quantity of such material used, equal to weight of exported article, ascertained by a United States weigher.

Shot cartridges, manufactured by the Union Metallic Cartridge Company, of Bridgeport, Conn., and loaded with shot made wholly from imported lead; allow under Synopsis 15928.

Show cards. (See Signs, labels, and show cards.)

Siding. (See Dressed lumber.)

Signs, glass. (See Glass signs.)

Signs, labels, and show cards, manufactured from imported tin plates or "black plates," by varied processes of shaping, painting, printing,

varnishing, enameling, and embossing; base allowance on quantity of imported plates used.

The entry under which the merchandise is to be inspected and laden must show, separately, the number, kind, size, and weight of articles, and must specify the articles in each package, or must be accompanied by a sworn invoice, separately describing the articles in each package.

Manufacturer's declaration on drawback entry must show number, size, gauge, and weight of imported plates used, and also the amount or per cent of increase of weight added to such plates by processes of manufacture. Samples shall be taken as ordered by the collector for expert official examination and verification of declared gauges and additions. Quantities of material used shall be determined by reference to such verifications and weight of exported articles ascertained by a United States weigher, provided that such quantities shall in no case exceed the weight of the plates "identified" as shown by the records of importation.

Silk handkerchiefs, embroidered. (See Embroidered silk handkerchiefs.)

Silk outing shirts, manufactured by Lewis Frauk & Sons, of New York City, from imported silk shirtings; allow under Synopsis 12191.

Silk plush, manufactured by the Peerless Plush Manufacturing Company, of Paterson, N. J., the back being made of cotton and the face or "pile" being made wholly from imported "spun" silk; allow under Synopsis 15491.

Silks, printed and dyed:

Printed silks, manufactured from pongee silks, imported "in the grey;" base allowance on quantity of imported silk used, to be determined by reference to the report of the inspecting officer showing number of yards exported, and the manufacturer's declaration on the drawback entry showing percentage of increase of yardage consequent on the stretching of the imported fabric in process of printing and finishing. Samples shall be taken as ordered by the collector, to be submitted to the appraiser for verification of the manufacturer's declaration relative to kind and quality of imported silk used.

Dyed silks, manufactured from pongee silks, imported "in the white" or "in the grey," or from imported "Habutai" silks; base allowance on quantity of imported silks used, equal to the number of yards of the exported article, to be determined by the inspecting officer, who shall take samples as ordered by the collector, for use as in case of printed silks, which see.

Sirup, manufactured wholly from imported raw sugars. (See Sugars and sirups, refined.)

Sirup, manufactured wholly from molasses imported under the tariff of August 28, 1894, subject to duty at 2 cents per gallon; base allowance on quantity of material used, to be determined under the following rules:

The manufacturer's declaration on the drawback entry must show, in addition to the usual averments, the number of gallons of the molasses "boiled" and used in producing the sirup exported, the number of gallons and value per gallon of such sirup, and also the weight and the value per pound of the sugar product of such molasses.

The declared values of such sugar and sirup products must be their values, exclusive of packages, at the refinery at the time of shipment for exportation; and such values and declared quantities must be verified by the collector before use in finding the duty paid on the material used in the manufacture of the sirup.

The amount of duty paid on such material shall be determined by use of such verified quantities and values as shown in the following proportion :

As the total value of the sugar and sirup products of a given quantity of molasses is to the value of the sirup product of such molasses, so is the duty paid on the molasses (the material for both products) to the duty paid on the material for the sirup.

The duty paid on the material "used" being so found, the proper rate of drawback per gallon of the exported sirup shall be determined by dividing such amount of duty paid by the number of gallons of the sirup product; but in no case shall drawback be allowed on any excess over 43 gallons of sirup for each 100 gallons of molasses "boiled" in the manufacture of the sirup, unless such allowance be specially authorized by the Secretary of the Treasury.

The quantity of the exported sirup shall be ascertained by a United States gauger, and samples shall be taken as ordered by the collector, to be submitted to the appraiser for expert official inspection and report.

Sizing, glue. (See Glue sizing.)

Skins, China goat. (See China goatskins.)

Skins, dressed. (See Dressed skins.)

Slabs, marble. (See Marble floor tiles, etc.)

Soaps, soap powders, and sapolios, manufactured in part from imported caustic soda and soda ash; base allowance on quantities of such caustic soda or soda ash, or both, used in the manufacture of the exported articles; provided always that no domestic material of the kind on which drawback is claimed shall have been used in the manufacture of the exported articles.

Before allowance of drawback the exporter must file with the collector, at port of exportation, a sworn statement showing place, processes, and conditions of manufacture, and mode of packing the article for export, and showing also the ingredients of the article to be exported, and the proportions thereof, which statement shall be verified by the collector.

The collector with whom such verified statement is filed shall, on application of collectors of other ports from which exportations are made, furnish certified copies thereof for use at such other ports.

The entry under which the merchandise is to be inspected and laden must show, separately, the quantities of the different kinds of merchandise, the marks, numbers, and sizes of the packages containing the same, and the gross and net weights of each package, or must be accompanied by a sworn copy of the invoice under which such merchandise was sold or consigned, giving such particulars. Statements of weights shall be verified by a United States weigher, who shall test weights of packages designated by the collector.

The quantities of caustic soda and of soda ash used, and on which claim for drawback is based, must be shown by the manufacturer's declaration on the drawback entry, which shall be verified by official analysis of samples taken as ordered by the collector. Such declaration must also show that the exported articles were made in accordance with the sworn statement and formula filed with the collector. Quantities used in liquidation of entries shall, in no case, exceed minimum quantities shown by sworn formula, declared on entry, or found by official analysis and weight.

Soap powder. (See Soaps, soap powders, and sapolios.)

Solder for petroleum cans. (See Petroleum cans and parts.)

Sole leather, manufactured from imported hides; base allowance on number of hides used, to be determined by inspection and count of exported "sides" of leather.

Solid ingredient of rackarock, manufactured by the Rand Drill Company, of New York City, from imported chlorate of potash, packed in sacks or cartridges; allow under Synopsis 9330.

Sozodont, manufactured by Hall & Ruckel, of New York City, in part from imported alcohol; allow under Synopsis 16910.

Spectacles. (See Lenses, spectacles, and eyeglasses.)

Spikes, railroad. (See Bar iron, fish-plate bolts, etc.)

Splice bars. (See Fish plates.)

Split leather. (See Finished split leather.)

Split peas, manufactured wholly from imported peas; base allowance on a quantity of the peas used, to be determined by adding to the weight of the exported article ascertained by a United States weigher, 16 per cent of such weight.

Spokes, wooden. (See Wooden spokes.)

Spring material, clock. (See Clock-spring material.)

Springs, clock. (See Clock springs.)

Staples, wire. (See Wire fencing.)

Steam boilers. (See Locomotive and other steam boilers.)

Steel bars, manufactured by G. W. Pennington & Sons, of San Francisco, Cal., wholly from imported steel billets; allow under Synopsis 15943.

Steel drills, manufactured by the Standard Tool Company, of Cleveland, Ohio, wholly from imported tool steel; allow under Synopsis 12598.

Steel pens, manufactured by the Esterbrook Steel Pen Manufacturing Company, of Camden, N. J., from imported sheet steel; allow under Synopsis 13476.

Steel pipes, galvanized or asphaltum and tar coated, manufactured by Francis Smith & Co., of San Francisco, Cal., from imported steel sheets; allow under Synopsis 12477.

Steel rails, manufactured by the Maryland Steel Company, of Sparrow Point, Md., wholly from imported iron ore and spiegeleisen; allow under Synopsis 13934. When manufactured by the Bethlehem Iron Company, of South Bethlehem, Pa., wholly from imported iron ore, spiegeleisen, and ferro-manganese; allow under Synopsis 13937.

Steel-wire nails, manufactured from imported steel-wire rods; base allowance on quantity of material used, to be determined by adding to the weight of the exported nails, as ascertained by a United States weigher, 6½ per cent of such weight.

Sugar-coated almonds, manufactured by Ph. Wunderle, of Philadelphia, Pa., from imported shelled almonds; allow under Synopsis 14801.

Sugars and sirups, refined, made wholly from imported raw sugars; base allowance on quantities of material used in the manufacture of each, respectively, as indicated in the following schedules and specifications:

When the exported sugars are "hard refined," of standard test, commercially known as loaf, cut loaf, cube, granulated, crushed or powdered, and are made wholly from imported raw cane sugars, the amount of drawback shall be determined by allowing for each 100 pounds of the

exported article, the duties paid on the respective grades and quantities of material used, as indicated in the following schedule :

Test of raw sugar used.	Allowance for 100 pounds hard refined.
<i>Degrees.</i>	<i>Pounds.</i>
99	101.87
98	103.73
97	105.60
96	107.47
95	109.34
94	111.20
93	113.07
92	114.94
91	116.81
90	118.67
89	120.54
88	122.41
87	124.27
86	126.14
85	128.01
84	129.88
83	131.74
82	133.61
81	135.48
80	137.35
79	139.21
78	141.08
77	142.95
76	144.82
75	146.68

When the "hard refined" sugars hereinbefore described are made wholly from imported raw beet sugars, the duty paid on the material used for each pound of the exported article may be determined by dividing the duty paid on 1 pound of the material by the decimal denoting the "net analysis" of such material, and then deducting from the amount so found, as an equivalent of the value of the material for the sirup product, the percentage of that amount corresponding to the polariscope test of the raw sugar used, indicated in the following schedule :

Polariscope test of raw beet sugars used.	Percentages to be deducted to find duty paid on material for refined sugar.
"Firsts:"	
<i>Degrees.</i>	<i>Per cent.</i>
96	1.2
95	1.5
94	1.9
93	2.4
92	3
"Seconds:"	
92	3.7
91	4.5
90	5.4
89	6.4
88	7.5

When "soft refined" sugars, made wholly from imported raw sugars, are exported with benefit of drawback, the drawback entry must show the respective values of such soft sugars and of standard granulated

sugar on the same market; and the drawback per pound on the "soft refined" sugar shall be such part of the drawback per pound provided for "hard refined" sugar, made from the same kind and grade of material, as the value of such soft sugar is of the value of such granulated sugar.

The rate of drawback on the "soft refined" sugar may be fixed by use of the following proportion: As the value of 1 pound of standard granulated sugar is to the value of 1 pound of the "soft refined" sugar, so is the drawback provided for the pound of granulated sugar to the drawback allowable on the pound of "soft refined" sugar, made from like material.

The required values of the refined sugars declared on the drawback entry, shall be verified by reference to standard market quotations on date of shipment.

The amount of drawback which may be allowed on the exported sirup products of raw sugars, shall be determined by allowing for each gallon of the exported article, valued at 5 cents in condition as "thrown" from the "centrifugal," the duties paid on the respective grades and quantities of material used, as indicated in the following schedule:

Test of raw sugar used.	Allowance for one gallon of sirup.
<i>Degrees.</i>	<i>Pounds.</i>
99	1.36
98	1.37
97	1.39
96	1.40
95	1.41
94	1.43
93	1.44
92	1.46
91	1.48
90	1.49
89	1.51
88	1.53
87	1.55
86	1.56
85	1.58
84	1.60
83	1.62
82	1.64
81	1.66
80	1.68
79	1.70
78	1.72
77	1.74
76	1.77
75	1.79

The value of the sirup, in condition as thrown from the centrifugal, shall be declared by the manufacturer on the drawback entry, which declaration shall be verified by the collector; and if the declaration so verified shows a value per gallon above or below 5 cents, the allowance shall be determined by increasing or reducing the schedule allowance in proportion to the increase or reduction above or below the 5 cents per gallon above specified; but in no case shall the allowance be based on a value of sirup exceeding 8 cents per gallon, without special authority from the Department.

When imported raw cane and beet sugars are "blended" or mixed in the process of manufacturing refined sugars and sirups, the manufacturer's declaration must show, separately, the respective quantities of the different kinds and grades of the sugars so mixed. In liquidating entries covering portions of the products of such mixtures, drawback shall be based on proportionate quantities of material, corresponding to the quantities of the different kinds and grades of materials so mixed.

For a fraction of a degree of test of the raw sugar used in the manufacture of either refined sugar or sirup, the allowance of quantity of material shall be fixed by a proportionate division of the difference between the schedule allowances for the degrees next above and below such fraction.

The quantities of sugar and sirup exported shall be ascertained by United States weighers and gaugers, respectively; and samples shall be taken as ordered by the collector to be submitted to the appraiser, for report of polariscope test and such other expert inspection as may be requisite.

On requisition of collectors, appraising officers shall furnish polariscope tests, "net analyses," and other conditions of valuation of raw sugars, not found on the import invoice, for use in liquidation of drawback entries.

Sulphate of copper, manufactured from imported copper ore; base allowance on quantity of fine copper in the imported ore used, equal to the quantity of fine copper in the exported article.

The manufacturer's declaration on the drawback entry must show the quantity or percentage of fine copper contained in the exported article, which declaration shall be verified by expert official analysis of samples to be taken from each lot exported. The quantity of copper which may be taken as the basis of liquidation of the entry may be determined by reference to such verified percentage and the weight of the exported article, as ascertained by a United States weigher.

Sulphonal pills. (See Pills.)

Surface-coated paper wrappers, manufactured by Enoch Morgan's Sons' Company, of New York City, from imported surface-coated paper, and exported as coverings for sapolios; allow under letter March 21, 1891, to collector, New York.

Sweepers, carpet. (See Carpet sweepers.)

Sweetened chocolate, manufactured by D. Ghiradella & Son, of San Francisco, Cal., in part from imported refined sugar; allow under Synopsis 12388.

Switches, electric-light. (See Electric-light switches.)

Syrup, Reuter's. (See Reuter's syrup.)

Tables, billiard. (See Billiard tables.)

Tapestry goods, manufactured by Geo. Brooks & Son, of Philadelphia, Pa., in part from imported undyed spun silk, and linen and jute yarns; allow under Synopsis 16129.

Tar-coated steel pipes. (See Steel pipes, galvanized, or asphaltum and tar coated.)

Terneplates. (See Tin and terne plates.)

Tiles, marble. (See Marble floor tiles, etc.)

Tiles, roofing. (See Iron roofing.)

Tin and terne plates, manufactured from imported "black plates" by the application of a tin or terne coating; base allowance on quantity of imported plates used.

The entry under which the merchandise is to be inspected and laden

must show the number, brand, size, gauge, and weight of the finished plates in each package to be exported.

The manufacturer's declaration on the drawback entry must show the number, size, gauge, and weight of the imported black plates used in the manufacture of the exported tin or terne plates, and must also show the amount or percentage of increase in weight of the plates by reason of the addition of the tin or terne coating, which declaration, relative to gauge of black plates and increase of weight, shall be verified by expert official examination of samples to be taken as ordered by the collector.

The quantity of imported black plates used may be determined by deducting such verified weight of coating from the weight of the exported article ascertained by a United States weigher.

Tin boxes, cans, and "blanks" for cans, cups, cuspidors, lanterns, pails, pans, toilet sets, trays and all house-furnishing goods, and tinware, manufactured wholly or in part from imported tin or terne plates, and not otherwise specially provided for; base allowance on quantity of imported plates used, to be determined under the following instructions:

When five-gallon rectangular cans are made from a combination of two plates 14 by 19½, with one plate 10 by 20 inches, the number of boxes of plates used shall be determined by allowing for each 100 cans exported, 1,664 boxes of 14 by 19½ plates, 120 sheets per box, and .4432 of a box 10 by 20 plates, 225 sheets per box; and when cans of like size and form are made from a combination of two plates 14 by 18½, with one plate 10 by 20 inches, the number of plates used shall be determined by allowing for each 100 cans exported, 1,6117 boxes 14 by 18½ plates (52,460 square inches), 124 sheets per box, and .4432 of a box 10 by 20 plates (19,944 square inches), 225 sheets per box. The weight of plates used shall be determined by reference to number of boxes found as above and ascertained weight per box on importation.

The superficial quantity of tin or terne plates used in the manufacture of boxes or cans, other than the five-gallon cans above noted, or of other articles made from such plates, may be determined by measurement of the blanks or parts of which the box, can, or article is composed, and by the addition to surface quantity of the respective parts, to cover wastage in manufacture, of the following percentages:

	Per cent.
For rectangular blanks.....	3
For body pieces of frustum-shaped cans.....	7
For circular and oval blanks.....	15

The number of square inches of plate used being so found, the weight thereof may be determined by dividing such number of square inches by the number of square inches of plate in a box of the size identified by the manufacturer and multiplying the weight per box, on which duty was paid on importation, by the number of boxes so found.

In case blanks for cans, boxes, or other manufactures of tin or terne plate are in such form that the superficial quantity of plate therein can not be readily determined by measurement, such superficial quantity may be found by weighing a measurable section cut from such blank, and comparing its weight with the weight of the blank. When a sample of the scrap resulting from the cutting of such blank is furnished with the sample blanks required for the use of the collector, the amount of plate used in the manufacture of the articles or parts in which such blanks appear may be determined by adding to the blanks, to cover wastage in manufacture, a quantity of plate equal to that part of the scrap resulting from cutting such blanks, which is rendered worthless for the ordinary uses of tin or terne plate, provided that such

allowance shall in no case exceed 25 per cent of the weight of such blanks, except under special instruction from the Department.

Where articles are made from uncut plates, or rectangular blanks cut from plates from which the rough edges have not been trimmed in process of manufacture, no allowance shall be made for wastage.

In case samples of cans or boxes and blanks (when blanks do not so appear in the finished articles that they may be measured) are not furnished by the exporter, the quantity of the material used may be determined by adding 5 per cent to the surface measurement of the finished article to cover seams and wastage in manufacture.

When articles entitled to drawback on exportation, made wholly from imported tin or terne plates, and on which no allowance for wastage is to be made, are exported in such condition that their weight may be determined by a United States weigher at the time of exportation, such weight shall be accepted as the basis for the liquidation of the drawback entry.

The foregoing instructions will apply to articles made from tin or terne plate manufactured in the United States, from imported "black plates," and also to articles manufactured from imported black plates and subsequently tinned.

In case drawback is claimed on articles made from "black plates" so coated, the manufacturer's declaration on certificate of delivery (Form 128 C. R., 1892) or on the drawback entry, must show the particulars of manufacture, subject to verification as in case of exportation of tin and terne plates made from such "black plates," which see.

Samples of articles shall be taken as ordered by the collector, for use in verification of manufacturer's and exporter's declarations.

Tin can "blanks." (See Tin boxes, cans, etc.)

Tin cans. (See Tin boxes, cans, etc.)

Tin caps for petroleum cans. (See Petroleum cans and parts.)

Tin cuspidors. (See Tin boxes, cans, etc.)

Tin handles for petroleum cans. (See Petroleum cans and parts.)

Tin house-furnishing goods. (See Tin boxes, cans, etc.)

Tin lanterns. (See Tin boxes, cans, etc.)

Tinned or "terned" black plates. (See Tin or terne plates.)

Tinned wire, manufactured by the Washburn & Moen Manufacturing Company, of Worcester, Mass., and H. Lamb & Co., of Northampton, Mass., from imported steel or iron and tin; allow under letter February 18, 1889, to collector, New York, and Synopsis 11290.

Tin nozzles for petroleum cans. (See Petroleum cans and parts.)

Tin plates—

Crystallized. (See Crystallized tin plates.)

Decorated. (See Decorated tin plates.)

Embossed. (See Embossed tin plates.)

Lithographic. (See Lithographic tin plates.)

Tin screw rings for petroleum cans. (See Petroleum cans and parts.)

Tin screw tops for petroleum cans. (See Petroleum cans and parts.)

Tin shingles, painted. (See Painted tin shingles.)

Tin signs. (See Signs, labels, and show cards.)

Tinware. (See Tin boxes, cans, etc.)

Tire bolts. (See Carriage and tire bolts.)

Tires, locomotive and car wheel. (See Locomotive and railway car wheels.)

Tobacco, plug. (See Plug tobacco.)

Toilet atomizers, manufactured by Ellis & Golterman, of New York

City, in part from imported glass or china bottles and rubber bulbs; allow under letter July 2, 1895, to collector, New York.

Toilet sets, tin. (See Tin boxes, cans, etc.)

Toilet waters, Cologne, Florida, and other, manufactured wholly from essential oils or other perfumes and imported alcohol; base allowance on quantity of imported alcohol used.

The entry under which the merchandise is to be inspected and laden must show, separately, the number and description of each kind of shipping case, the number and size of bottles, and the mode of packing in each case, the average quantity contained in each size and variety of bottles, and the quantity of the exported articles contained in each case and in the entire shipment.

In case the exported article is made under a fixed formula, the manufacturer must file with the collector, prior to the liquidation of the drawback entry, a sworn statement showing such formula and the mode of manufacture and of packing for shipment; and in all other cases the special formula of manufacture, together with a description of the mode of manufacture and packing, must accompany the drawback entry.

The manufacturer's declaration on the drawback entry must show, separately, the quantity of the manufactured article contained in each style of package, and the percentage of alcohol appearing in such article. Such declaration must show, in addition to the usual averments, that the exported article was manufactured and packed for shipment in manner as set forth in the fixed formula and statement filed with the collector, referring thereto by date, or as in the special formula and statement accompanying the drawback entry.

Samples shall be taken as ordered by the collector, to be submitted to the appraiser for report of the percentage of alcohol contained in the exported article, and for verification and report of the quantity of such article in the sample bottles, when the merchandise is packed in bottles. When the merchandise is exported in gaugeable packages, the quantity shall be determined by a United States gauger.

In the liquidation of entries the quantity of alcohol on which allowance of drawback may be based shall be determined by use of the minimum quantity and percentage shown by either the manufacturer's sworn formula and statement, the declaration on the drawback entry, or the official finding of the quantity and test.

Tombstones, marble. (See Marble floor tiles, etc.)

Tops, tin screw. (See Petroleum cans and parts.)

Traps, plumber's. (See Plumber's traps.)

Trays, tin. (See Tin boxes, cans, etc.)

Treads, marble. (See Marble floor tiles etc.)

Tricopherous, Barry's. (See Barry's tricopherous.)

Tubs, bath and wash. (See Bath and wash tubs.)

Umbrellas, manufactured by Rose Bros. & Hartman, of Lancaster, Pa., wholly or in part from imported materials; allow under Synopsis 9983.

Vacuum brakes. (See Railway cars.)

Valves, cornet. (See Cornets.)

Varnish, manufactured wholly from imported alcohol and shellac; base allowance on quantity of such alcohol used, to be determined by official weight or measure of the exported article, and ascertainment of percentage of alcohol contained therein, from samples taken as ordered by the collector, and submitted to a Government chemist for analysis.

When the quantity of exported varnish is found by a United States gauger, the chemist shall report percentage of alcohol by volume, and

if quantity is found by a United States weigher, such percentage shall be reported by weight.

The quantity of alcohol found by reference to weigher's returns and chemist's reports of percentages by weight, may be reduced to gallons of absolute alcohol by dividing the number of pounds of such alcohol found by 6.62.

Manufacturer's declaration on drawback entry must show quantity or percentage by volume of alcohol in exported varnish.

Velveteen dress binding, manufactured by the Kursheedt Manufacturing Company, of New York City, in part from velveteen imported in the piece; allow under Synopsis 16596.

Velvets, Zanoni. (See Zanoni rugs and velvets.)

Ventilator, car. (See Railway cars.)

Vermillion colors, dry. (See Dry colors.)

Vitriol, blue. (See Sulphate of copper.)

Wagons. (See Carriages and wagons.)

Washing powder, gold dust. (See Gold dust washing powder.)

Wash tubs. (See Bath and wash tubs.)

Watches, Waterbury. (See Waterbury watches.)

Waterbury watches, manufactured by the Waterbury Watch Company, of Waterbury, Conn., in part from imported balances, crystals, dials, hair springs, and sheet steel; allow under Synopsis 12265.

Water, Florida. (See Toilet waters, etc., and Barry's Florida water.)

Waterproof clothing, manufactured by A. J. Tower, of Boston, Mass., in part from imported linseed oil; allow under Synopsis 12051.

Wheels, locomotive and railway car. (See Locomotive and railway car wheels.)

White lead (dry or in oil), manufactured by the National Lead Company, of New York City, and the Chadwick Lead Works, of Boston, Mass., from imported pig lead or pig lead and oil; allow under Synopses 10692, 11782, and 15108.

White metal, manufactured by Holmes, Booth & Hayden, of Waterbury, Conn., in part from imported nickel; allow under Synopsis 11734.

Wilton rugs, manufactured by Harrison, Townsend & Co., of Norristown, Pa., in part from imported Botany worsted yarns; allow under Synopsis 16610.

Windows, railway car. (See Railway cars.)

Windsor ties, manufactured by Mendelsohn Bros., of New York City, wholly from "Habutai" and other Japanese silks imported in the piece; allow under Synopsis 16903.

Wire and hemp cable. (See Wire rope.)

Wire cables. (See Wire rope.)

Wire fencing (barbed), manufactured by the Consolidated Steel and Wire Company (Iowa Barbed Wire Department), of Allentown, Pa., from steel billets made by the Maryland Steel Company, of Sparrow Point, Md., from imported iron ore and ferro-manganese, and delivered to said Consolidated Steel and Wire Company between dates July, 1892, and December, 1893; allow under Synopsis 15057.

Wire fencing, composed of round wire, galvanized or ungalvanized, entitled to drawback when exported as wire; base allowance on quantity of such wire appearing in the exported fencing.

The manufacturer's declaration on the drawback entry must show, separately, the quantity and gauge of the wire appearing in the strands, barbs, and staples of the fencing, and give the particulars of the manufacture of such wire, as required in case of "Wire, round, plain or galvanized."

In liquidating entries for drawback on wire fencing, allowance for wastage of materials for the strands, barbs, and staples shall be made as on the different kinds and sizes of wire used, if exported separately.

The quantity of the exported fencing shall be determined by a United States weigher and samples shall be taken as ordered by the collector, for expert official verification of the declarations of the manufacturer and exporter as to sizes and relative quantities of wire used and percentages of spelter adhering thereto.

Wire, lead. (See Lead wire.)

Wire mattress fabric, woven. (See Woven-wire mattress fabric.)

Wire nails, steel. (See Steel wire nails.)

Wire, plain or galvanized. (See Wire, round, etc.)

Wire rope, manufactured from imported iron or steel wire, or from wire entitled to drawback under this schedule, as "Wire, round, plain or galvanized," such wire rope being made with or without a vegetable fiber core; base allowance on quantities of imported materials used.

The manufacturer's declaration on the drawback entry must show, separately, the weight, length, and diameter of each rope, the number of wires of each kind and size or gauge of which the rope is composed, with the weight of each such kind and size, the kind and weight of the fiber core, if any, and the weight or percentage of paint or other coating added to the rope in process of manufacture.

Where the wire used in the manufacture of the rope was made in the United States, the declaration of the manufacturer of the rope must further show the particulars of the manufacture of the wire used, required in the case of "Wire, round, plain or galvanized."

The declarations of manufacturer and exporter as to weight of the exported article shall be verified by a United States weigher, and such declarations concerning relative quantities of the different kinds and sizes of wire used, and of core, coating, etc., shall be verified by expert official inspection of the exported article, or of samples to be taken when practicable, as ordered by the collector.

Where the wire used in the manufacture of the rope is made from imported materials, the quantities of such materials used in the manufacture of the rope, on which drawback may be based, shall be determined by ascertaining the sum of the quantities used in the manufacture of the several kinds and sizes of the wire used, under provisions for "Wire, round, plain or galvanized."

Wire, round, plain or galvanized, manufactured wholly or in part from imported materials; base allowance on quantities of imported materials used, to be determined as indicated in the following schedules and specifications.

When such wire is made wholly from imported iron or steel blooms, billets, or bars, or from imported wire rods, the quantities of material used on which allowance of drawback may be based, may not exceed the quantity found by adding to the weight of the exported wire, to cover wastage in manufacture, the percentages of such weight indicated in the following schedule, unless a greater percentage of allowance shall have been specially authorized by the Secretary of the Treasury.

Gauge of wire.	Percentages to be added to weight of wire made from imported wire rods.	Percentages to be added to weight of wire made from imported blooms, billets, and bars.

No. 30 and coarser.....	6	8.9

When the exported wire is drawn from imported wire, allowance for wastage in drawing from size to size may be made for each such drawing, as indicated in the foregoing schedule, and to the weight of material so found there may be added eight-tenths of 1 per cent of such weight to cover waste incurred in the first annealing and pickling process.

When the exported wire is galvanized, the manufacturer's declaration on the drawback entry must show the quantity or percentage of spelter adhering to the different sizes or gauges of the wire, respectively, and in case the wire is coated wholly with imported spelter on which drawback is claimed, the declaration on the drawback entry must also show the quantity and value of the spelter necessarily "worked" and exhausted in the process of galvanizing, the quantities and values of the resultant "dross" and "skimmings," and the quantity of total waste of spelter incident to such process of galvanizing.

Samples of the exported wire shall be taken as ordered by the collector, for expert official verification of the declarations of the manufacturer and exporter relative to kind and size of wire and quantity or percentage of spelter adhering thereto.

In liquidating entries for drawback on galvanized wire, the quantity of iron or steel wire used in the production of such galvanized wire may be determined by deducting the verified weight of the spelter coating from the weight of the exported article, as determined by a United States weigher, and adding to the quantity so found 1 per cent of such quantity to cover wastage in galvanizing.

In case the wire is coated wholly with imported spelter on which drawback is claimed, the quantity of spelter used and on which allowance of drawback may be based may be determined by deducting from the quantity of spelter identified as having been "worked" and "exhausted," a quantity equal in value to the resultant "dross" and "skimmings" expressed in terms of the spelter in condition as

imported ; provided that in no case shall the quantity of spelter taken as such basis of allowance exceed the quantity adhering to the wire by more than 46 per cent of such quantity, without special instructions from the Secretary of the Treasury.

Wire staples. (See Wire fencing.)

Wire, tinned. (See Tinned wire.)

Witchhazel, fluid extract of. (See Fluid extract of witchhazel.)

Wooden boxes or packing cases, manufactured from imported lumber ; base allowance on quantity of such lumber, to be determined by adding to the "board measure" of the lumber in the boxes 9.6 per cent of such measure.

When petroleum cases, covering two 5-gallon tin cans each, are fastened with nails made from imported wire rods ; allow under Synopsis 15290 or 16914.

Wooden spokes, manufactured from imported spoke bolts ; base allowance on number of bolts used, equal to the number of the exported spokes.

Wood screws, manufactured from imported steel or iron ; base allowance on quantity of imported material used, to be determined by adding to the weight of the exported article, ascertained by a United States weigher, 50 per cent of such weight.

Woven-wire mattress fabric, manufactured from wire made from imported materials ; base allowance on a quantity of such material used, to be determined by adding to the weight, ascertained by a United States weigher, of the wire in the fabric the allowance for wastage provided for wire of like gauge and material.

Manufacturer's declaration on certificate of delivery (Form 128 C. R., 1892) or on drawback entry must show particulars of manufacture, as in case of "Wire, round, plain or galvanized," which see.

Zanoni rugs and velvets, manufactured by Harrison, Townsend & Co., of Norristown, Pa., in part from imported Botany worsted yarns ; allow under Synopsis 16606.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.

Department Circular No. 121.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., July 20, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending July 4, 1896.

W. E. CURTIS,
Acting Secretary.

REPORT ON REAPPRAISEMENTS FOR THE WEEK ENDING JULY 4, 1896.

N. B.—In corresponding with the Board of General Appraisers relative to any of the items in this report, reference should always be made to the number of Reappraisal.

No. of reappraise-
ment.

- 12500.....*Sugar not above No. 16 D. S.*, from J. B. Vicini, Macoris, May 25/96.
Centrifugal sugar, entered, on basis of 94° test, at \$.02347, advanced to \$.02514 per lb. pkd., on basis of 96.45 test.
- 12493.....*Sugar not above No. 16 D. S.*, from J. Freeland Foot, Antigua, May 22/96.
Sugar, entered on basis of 87.50 test, at \$.02227, reappraised at \$.0221 per lb. pkd. on basis of 87.25 test.
- 12492.....*Sugar not above No. 16 D. S.*, from J. A. Somerville, St. Kitts, May 28/96.
Muscavado sugar, entered, on basis of 89°, at \$.02278, advanced to \$.02296 per lb. pkd. on basis of 90.85 test.
- 12502.....*Sugar not above No. 16 D. S.*, from S. L. Horsford & Co., Nevis, May 28/96.
Sugar entered, on basis of 89° test, at \$.02235, reappraised at \$.02112 per lb. pkd., on basis of 86.95 test.
- 12455.....*Sugar not above No. 16 D. S.*, from Chas. Morrison & Co., Montego Bay, May 18/96.
Muscavado sugar, entered, on basis of 85° test, at £9/17/6, advanced to £11/5/3.065 per ton pkd., on basis of 89.85 test.
- 12480.....*Sugar not above No. 16 D. S.*, from J. Bueno & Co., Guantanamo, April 29/96.
Sugar entered, on basis of 89° test, at \$.0247, reappraised at \$.0214 per lb. pkd. on basis of 85.85 test.
- 12514.....*Mfs. Flax (flax lace etc.)*, from Ed. Pouxel, Paris, June 4/96.
No. 601 square size 46 x 46 in., entered at 8.25, advanced to 14.25 francs per piece.
No. 601 square size 20 x 60 in., entered at 5.50, advanced to 10.00 francs per piece.
No. 601 square size 18 x 46 in., entered at 4.15, advanced to 7.00 francs per piece.

- 12383..... } Colored *Col. velvet &c.*, from Hithersay & Ramm, Manchester, May 15, May 7, 1896.
 12400..... }
 24 in. blk. twill Vts., 128, entered at 11 $\frac{1}{2}$, advanced to 12 $\frac{1}{2}$ d. per yard.
 23 in. blk. twill, Vts. 30, entered at 9 $\frac{1}{2}$, advanced to 10 $\frac{1}{2}$ d. per yard.
 22 in. blk. velvets, 50, entered at 5 $\frac{1}{2}$ d. per yard; no advance.
 Picker cords MB, entered at 5 $\frac{1}{2}$ d. per yard; no advance.
 23/24 in. ends, blk. velourita Vts., 29, entered at 9 $\frac{1}{2}$, advanced to 10 $\frac{1}{2}$ d. per yard.
 Similar goods, similar advances.
 Less $\frac{1}{7}$ th.
 Less 2 $\frac{1}{2}$ per cent discount.
 Add making up, boxing and cases.
- 12231..... } Cotton lace curtains &c, from Otto G. Wolfers & Co., St. Gall, May 5, April 29/96.
 12102..... }
 12/4 3 $\frac{1}{2}$ yds. tumb'd lace curtains No. 869, entered at 9.75, advanced to 10.50 francs
 per pair.
 Less 5 per cent.
 Add cases and boxes.
- 12515..... *Sulphate Ammonia*, from Peter R. McQuie & Son, Liverpool, May 28/96.
 25 per cent grey color, entered at £8.2.1 $\frac{1}{2}$ per ton pkd.; no advance.
- 12543..... *Wool knit wearing fabrics*, from Jacques Schusser, Radolfzell, May 13/96.
 Tricot, 455, roth, entered at 5.35, advanced to 5.51 marks per kilo.
 Tricot 640 roth, entered at 5.50, advanced to 5.70 marks per kilo.
 Tricot, 885 a schwarz, entered at 5.20 marks per kilo; no advance.
 Tricot 1074 schwarz, entered at 5.20 marks per kilo; no advance.
 Tricot, 1078, entered at 4.95 marks per kilo; no advance.
- 3055 OP } Scissors &c., from Rud Theis, Solingen, Dec. 13/95.
 Toledo..... }
 560 T 4 $\frac{1}{2}$ in. scissors, entered at 4.80, advanced to 5.00 marks per dozen.
 150 4 $\frac{1}{2}$ in. scissors, entered at 2.50, advanced to 3.25 marks per dozen.
 1766 4 $\frac{1}{2}$ in. scissors, entered at 5.00, advanced to 5.45 marks per dozen.
 562 scissors, entered at 4.00, advanced to 4.25 marks per dozen.
 150 4 in. scissors, entered at 2.40, advanced to 3.05 marks per dozen.
 Similar goods, similar advances.
 Add cases.

REAPPRAISEMENTS BY BOARDS.

- 2116 OP..... }
 783..... } Sugar above No. 16 D. S., from Matthes & Burmester, Amsterdam, April 25/96.

*RULES AND REGULATIONS FIXING SALARIES OF INSPECTORS OF STEAM VESSELS,
UNDER ACT OF CONGRESS APPROVED MARCH 1, 1895, CONCERNING THE REGULA-
TION OF STEAM VESSELS.*

1895.

Department Circular No. 122.

Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 24, 1896.

To Supervising and Local Inspectors of Steam Vessels:

Under the provisions of Section 4414 of the Revised Statutes of the United States, as amended by the act of Congress approved March 1, 1895, it is provided that the salaries of the local inspectors of steam vessels shall be regulated in proportion to the number of steamers inspected in each of the various districts, as follows:

In districts inspecting 100 steamers and less, to a salary of \$1,200 per year each.

In districts inspecting over 100 and less than 150 steamers, to a salary of \$1,500 per year each.

In districts inspecting 150 and less than 200 steamers, to a salary of \$1,800 per year each.

In districts inspecting 200 and less than 300 steamers, to a salary of \$2,000 per year each.

In districts inspecting 300 and less than 500 steamers, to a salary of \$2,250 per year each.

In districts inspecting 500 steamers and upward, to a salary of \$2,500 per year each.

The act further provides that the basis of salaries from the date of approval of the act, March 1, 1895, shall be on the report of inspections for the preceding year, and thereafter according to number of steamers reported inspected at the end of each fiscal year, which shall regulate the salaries for the following year, for each local board, as reported by the Supervising Inspector-General.

Therefore, in accordance with the report of that officer for the fiscal year ended June 30, 1896, the salaries of local inspectors of hulls and local inspectors of boilers from July 1, 1896, to June 30, 1897, inclusive, are hereby established, as follows:

For the districts of Evansville, Ind.; Louisville, Ky.; Memphis, Tenn.; Nashville, Tenn.; Cincinnati, Ohio; Gallipolis, Ohio; Wheeling, W. Va.; Burlington, Vt.; Bangor, Me.; Galveston, Tex.; and Apalachicola, Fla., at the rate of \$1,200 per year for each local inspector.

For the districts of New Haven, Conn.; Savannah, Ga.; Charleston, S. C.; Dubuque, Iowa; Superior (Marquette, Mich.); Mobile, Ala.; Jacksonville, Fla.; and Oswego, N. Y., at the rate of \$1,500 per year for each local inspector.

For the districts of Portland, Oreg.; St. Louis, Mo.; Providence, R. I.; New London, Conn.; Portland, Me.; Detroit, Mich.; Pittsburg, Pa.; and Norfolk, Va., at the rate of \$1,800 per year for each local inspector.

For the districts of San Francisco, Cal.; Puget Sound (Seattle, Wash.); Albany, N. Y.; Michigan (Grand Haven, Mich.); Port Huron, Mich.; Milwaukee, Wis.; Chicago, Ill.; and Duluth, Minn., at the rate of \$2,000 per year for each local inspector.

For the districts of Philadelphia, Pa.; Boston, Mass.; Baltimore, Md.; Buffalo, N. Y.; New Orleans, La.; and Cleveland, Ohio., at the rate of \$2,250 per year for each local inspector.

For the district of New York, N. Y., at the rate of \$2,500 per year for each local inspector.

J. G. CARLISLE,

Secretary.

UNITED STATES BONDS, PAPER CURRENCY, COIN, PRODUCTION OF PRECIOUS METALS, ETC.

1896.

Department Circular No. 123.

Division of Loans and Currency.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 1, 1896.

Mr. A. T. HUNTINGTON,

Chief Division Loans and Currency, Treasury Department.

SIR: In view of the great number of requests for information respecting United States bonds, the currency, coinage, production of the precious metals, and kindred subjects, and the impracticability of responding to each request separately, you are hereby directed to cause a circular of information to be prepared, which shall cover the questions most frequently asked.

The text of the circular should state, as briefly and clearly as possible without comment, the historical facts relating to the subjects in question, to be followed by tables reproducing, in compact form, the periodical and other official statements relating thereto, published by this Department. The necessary assistance in this work will be given by the Bureau officers of the Department.

Respectfully, yours,

J. G. CARLISLE,
Secretary.

INFORMATION RESPECTING UNITED STATES BONDS,
PAPER CURRENCY, COIN, PRODUCTION OF PRECIOUS
METALS, ETC.

UNITED STATES BONDS.

The United States bonds now outstanding were issued either for the purpose of refunding other forms of national indebtedness, or to supply gold for the redemption of United States notes.

The refunding acts, so called, were approved July 14, 1870, and January 20, 1871. Under these acts about \$1,400,000,000 of bonds were issued, of which \$500,000,000 were 5 per cent ten-year bonds, redeemable after May 1, 1881; \$185,000,000 were 4½ per cent fifteen-year bonds, redeemable after September 1, 1891, and the remainder were thirty-year 4 per cent bonds, redeemable after July 1, 1907.

The resumption act was approved January 14, 1875; it directed the Secretary of the Treasury to prepare and provide for the redemption of United States notes in coin, on and after January 1, 1879, and it authorized him to use the surplus revenues for that purpose, from time to time, and to sell and dispose of, at not less than par in coin, either of the descriptions of bonds described in the refunding acts above mentioned. In pursuance of this authority, \$95,500,000 of the 4½ and 4 per cent bonds were sold for redemption purposes, and the proceeds (\$96,000,000 in gold) were placed in the Treasury as a fund for such redemption. In time this fund became known as the "gold reserve," and in the bank act, approved July 12, 1882, in a section providing for the issue of gold certificates, the sum of \$100,000,000 was prescribed by Congress as the limit to which the gold reserve might be reduced without affecting the issue of gold certificates.

The presentation of United States notes for redemption prior to 1893 was not great enough to reduce the reserve fund below \$100,000,000; in April of that year, however, the minimum was reached, and the fund became so low that in February, 1894, an issue of bonds became necessary to enable the Government to restore the gold reserve and redeem the obligations of the United States. Accordingly, popular subscriptions were invited for an issue of \$50,000,000 of ten-year 5 per cent

bonds, which were dated February 1, 1894, and realized to the Government \$58,633,295 in gold. In November, 1894, another issue of \$50,000,000 of the same class of bonds was necessary, the sum realized being \$58,538,500. In February, 1895, the Government was again obliged to replenish the gold reserve, which it did by the purchase, under contract, of 3,500,000 ounces of gold coin, which were paid for with United States 4 per cent thirty-year bonds, amounting to \$62,315,400. Another sale of \$100,000,000 of 4 per cent thirty-year bonds was made through popular subscriptions, invited in January, 1896. The total amount of bonds thus issued since 1893 to protect the gold reserve was \$262,315,400, and the total proceeds thereof, in gold coin, was \$293,454,286.74.

The amount of United States bonds outstanding July 1, 1896, was as follows:

4½ per cent bonds continued at 2 per cent	\$25,364,500
4 per cent bonds of 1907	559,636,850
5 per cent bonds of 1904	100,000,000
4 per cent bonds of 1925	162,315,400
<hr/>	
Total	847,316,750

All these bonds were sold at not less than par for gold coin, or its equivalent; they are all redeemable in coin of the standard value of July 14, 1870, which was the date of the first of the refunding acts. The standard weights and fineness for coins at that date were the same as at present, the gold unit being a dollar of the standard weight of 25.8 grains and the silver unit being the silver dollar of the standard weight of 412½ grains. The interest on all these bonds is payable quarterly in coin of the same standard.

The Government has never issued any bonds payable, by their terms, either principal or interest, in gold coin or in silver coin. Before the war, the obligations of the Government contained no statement as to the kind of money in which they should be paid, and none of the war obligations contained any such provision, except the certificates of temporary loan and the 7-30 notes of 1864 and 1865, which were all payable, by their terms, in lawful money.

Copies of the regulations of this Department for the issue, exchange, transfer, and redemption of United States bonds may be had upon application to the Secretary of the Treasury.

COINS AND PAPER CURRENCY.

There are ten different kinds of money in circulation in the United States, namely, gold coins, standard silver dollars, subsidiary silver, gold certificates, silver certificates, Treasury notes issued under the act of July 14, 1890, United States notes (also called greenbacks and legal tenders), national-bank notes, and nickel and bronze coins. These forms of money are all available as circulation. While they do not all

possess the full legal-tender quality, each kind has such attributes as to give it currency. The status of each kind is as follows:

Gold coin is legal tender at its nominal or face value for all debts, public and private, when not below the standard weight and limit of tolerance prescribed by law; and when below such standard and limit of tolerance, it is legal tender in proportion to its weight.

Standard silver dollars are legal tender at their nominal or face value in payment of all debts, public and private, without regard to the amount, except where otherwise expressly stipulated in the contract.

Subsidiary silver is legal tender for amounts not exceeding \$10 in any one payment.

Treasury notes of the act of July 14, 1890, are legal tender for all debts, public and private, except where otherwise expressly stipulated in the contract.

United States notes are legal tender for all debts, public and private, except duties on imports and interest on the public debt.

Gold certificates, silver certificates, and national-bank notes are not legal tender, but both classes of certificates are receivable for all public dues, while national-bank notes are receivable for all public dues, except duties on imports, and may be paid out by the Government for all salaries, and other debts and demands owing by the United States to individuals, corporations, and associations within the United States, except interest on the public debt, and in redemption of the national currency. All national banks are required by law to receive the notes of other national banks at par.

The minor coins of nickel and copper are legal tender to the extent of 25 cents.

GOLD COINS.

The coinage of legal-tender gold was authorized by the first coinage act passed by Congress, April 2, 1792.

The gold unit of value is the dollar which contains 25.8 grains of standard gold 900 fine. The amount of fine gold in the dollar is 23.22 grains, and the remainder of the weight is an alloy of copper. While the gold dollar is the unit and standard of value, the actual coinage of the \$1 piece was discontinued under authority of the act of September 26, 1890. Gold is now coined in denominations of \$2.50, \$5, \$10, and \$20, called respectively quarter eagles, half eagles, eagles, and double eagles.

The total coinage of gold by the mints of the United States from 1792 to June 30, 1896, is \$1,814,692,253, of which it is estimated that \$567,931,823 is still in existence as coin in the United States, while the remainder, \$1,246,760,430, has been exported or consumed in the arts. The gold bullion now in the United States amounts to \$32,268,955.

The basis for the estimate of the amount of gold coin in the United States was established in 1873, when the amount in the vaults of the

national banks and in the Treasury was ascertained from reports to be \$98,389,864. To this was added \$20,000,000 as an estimate of the amount of gold in use on the Pacific Coast, and \$10,000,000 as the amount held by all other banks, and by the people. The amount thus ascertained was \$128,389,864, to which have been added from year to year the new coinage reported by the Director of the Mint, and the imports as shown by the custom-house reports; and from which have been deducted the exports and the amounts consumed in the arts. It will be seen that more than two-thirds of the gold coins struck at the mints of the United States have disappeared from circulation.

SILVER COINS.

The silver unit is the dollar which contains $412\frac{1}{2}$ grains of standard silver 900 fine. The amount of fine silver in the dollar is $371\frac{1}{4}$ grains, and there are $41\frac{1}{4}$ grains of copper alloy. The standard silver dollar was first authorized by the act of April 2, 1792. Its weight was 416 grains 892.4 fine. It contained the same quantity of fine silver as the present dollar, whose weight and fineness were established by the act of January 18, 1837. The coinage of the standard silver dollar was discontinued by the act of February 12, 1873, and it was restored by the act of February 28, 1878. The total amount coined from 1792 to 1873 was \$8,031,238, and the amount coined from 1878 to June 30, 1896, was \$430,790,041. The coinage ratio between gold and silver under the act of 1792 was 15 to 1, but by the act of 1837 it was changed to 15.988 to 1 (commonly called 16 to 1). This is the present ratio.

Of the \$430,790,041 standard silver dollars coined since February 1878, there were held in the Treasury June 30, 1896, \$378,614,043, and the amount outside the Treasury was \$52,175,998. Silver certificates to the amount of \$342,619,504 have been issued against that amount of the standard silver dollars held in the Treasury. The commercial value of an ounce of fine silver June 30, 1896, was \$0.6924, and the commercial value of the silver in the silver dollar on that date was 53.55 cents.

SUBSIDIARY SILVER.

The silver coins of smaller denominations than one dollar, authorized by the act of April 2, 1792, were half dollars, quarter dollars, dimes, and half dimes. They were the equivalent in value of the fractional parts of a dollar which they represented—that is, two half dollars were equal in weight to one silver dollar, and so on. These coins were full legal tender, when of standard weight, and those of less than full weight were legal tender at values proportional to their respective weights.

By the act of February 21, 1853, the weight of the fractional silver coins was reduced so that the half dollar weighed only 192 grains, and all the smaller denominations were reduced in proportion. Their legal tender quality was at the same time limited to \$5, and they thus became subsidiary coins. The present subsidiary coins are half dollars, quarter

dollars, and dimes. Their weight is slightly different from that prescribed by the act of 1853; but the limit of their legal-tender quality has been raised to \$10, and \$86,096,860.40 have been coined since 1873.

The amount of full-weight fractional silver coined prior to 1853 was \$76,734,964.50, and the amount of subsidiary silver coined since that year is \$144,942,175.50.

There was a period, from 1862 to 1876, when there was no fractional silver coin in circulation in the United States except on the Pacific Coast. During this period the small change of the country consisted of fractional paper currency, which will be described in its place.

ISSUE OF STANDARD SILVER DOLLARS AND FRACTIONAL SILVER COIN.

Standard silver dollars are issued by the Treasurer and assistant treasurers in redemption of silver certificates and Treasury notes of 1890, and are sent by express, at the expense of the Government, in sums or multiples of \$500, for silver certificates or Treasury notes of 1890 deposited with the Treasurer or any assistant treasurer.

Upon the deposit of an equivalent sum in United States currency or national-bank notes with the Treasurer or any assistant treasurer or national-bank depository, fractional silver coin will be paid in any amount by the Treasurer or assistant treasurers in the cities where their several offices are, or will be sent by express, in sums of \$200 or more, at the expense of the Government, or by registered mail, at the risk of the consignee, in packages of \$50, registration free, from the most convenient Treasury office, to the order of the depositor. For this purpose drafts may be sent to the Treasurer or the assistant treasurer in New York, payable in their respective cities to the order of the officer to whom sent.

PAPER MONEY.

The first paper money ever issued by the Government of the United States was authorized by the acts of July 17 and August 5, 1861. The notes issued were called "demand notes," because they were payable on demand at certain designated subtreasuries. They were receivable for all public dues, and the Secretary was authorized to reissue them when received; but the time within which such reissues might be made was limited to December 31, 1862. The amount authorized by these acts was \$50,000,000. An additional issue of \$10,000,000 was authorized by the act of February 12, 1862, and there were reissues amounting to \$30,000. The demand notes were paid in gold when presented for redemption and they were received for all public dues, and these two qualities prevented their depreciation. All other United States notes were depreciated in value from 1862 until the resumption of specie payments, as shown by the table hereinafter following. The act of February 25, 1862, provided for the substitution of United States notes in place of the demand notes, and they were, therefore, canceled when received. By July 1, 1863, all except \$3,770,000

had been retired, and nearly three millions of this small remainder were canceled during the next fiscal year. These notes were not legal tender when first issued, but they were afterwards made so by the act of March 17, 1862.

UNITED STATES NOTES.

The principal issue of United States paper money was officially called United States notes. These were the well-known "greenbacks" or "legal tenders." The act of February 25, 1862, authorized the issue of \$150,000,000, of which \$50,000,000 were in lieu of an equal amount of demand notes, and could be issued only as the demand notes were canceled. A second issue of \$150,000,000 was authorized by the act of July 11, 1862, of which, however, \$50,000,000 was to be a temporary issue for the redemption of a debt known as the temporary loan. A third issue of \$150,000,000 was authorized by the act of March 3, 1863. The total amount authorized, including the temporary issue, was \$450,000,000, and the highest amount outstanding at any time was \$449,338,902 on January 30, 1864. There are still outstanding \$346,681,016.

The reduction from the original permanent issue of \$400,000,000 to \$346,681,016 was caused as follows: The act of April 12, 1866, provided that United States notes might be retired to the extent of \$10,000,000 during the ensuing six months, and that thereafter they might be retired at the rate of not more than \$4,000,000 per month. This authority remained in force until it was suspended by the act of February 4, 1868. The authorized amount of reduction during this period was about \$70,000,000, but the actual reduction was only about \$44,000,000. No change was made in the volume of United States notes outstanding until after the panic of 1873, when, in response to popular demand, the Government reissued \$26,000,000 of the canceled notes.

This brought the amount outstanding to \$382,000,000, and it so remained until the resumption act of January 14, 1875, provided for its reduction to \$300,000,000. The process was, however, again stopped by the act of May 31, 1878, which required the notes to be reissued when redeemed. At that time the amount outstanding was \$346,681,016, which is the present amount. The amount of United States notes redeemed from the fund raised for resumption purposes since January 1, 1879, to June 30, 1896, was \$426,190,220; but the volume outstanding is undiminished because of the provisions of the act of May 31, 1878, which require the notes so redeemed to be paid out again and kept in circulation.

GOLD CERTIFICATES.

The act of March 3, 1863, authorized the Secretary of the Treasury to receive deposits of gold coin and bullion in sums not less than \$20, and to issue certificates therefor in denominations not less than \$20,

said certificates to be receivable for duties on imports. Under this act deposits of gold were received and certificates issued until January 1, 1879, when the practice was discontinued by order of the Secretary of the Treasury. The purpose of the order was to prevent the holders of United States notes from presenting them for redemption in gold, and repositing the gold in exchange for gold certificates. No certificates were issued after January 1, 1879, until the passage of the bank act of July 12, 1882, which authorized and directed the Secretary of the Treasury to receive gold coin and bullion and issue certificates.

This act, however, provided that "the Secretary of the Treasury shall suspend the issue of gold certificates whenever the amount of gold coin and gold bullion in the Treasury, reserved for the redemption of United States notes, falls below one hundred millions of dollars." The highest amount of gold certificates outstanding at the close of any fiscal year was \$157,542,979, on July 1, 1890, and the amount now outside the Treasury is \$42,320,759. The act of July 12, 1882, made them receivable for customs, taxes, and all public dues.

SILVER CERTIFICATES.

The act of February 28, 1878, authorizing the issue of the standard silver dollar, provided that any holder of such dollars might deposit them in sums not less than \$10 with the Treasurer or any assistant treasurer of the United States, and receive certificates therefor, in denominations not less than \$10, said certificates to be receivable for customs, taxes, and all public dues. The act of August 4, 1886, authorized the issue of the smaller denominations of \$1, \$2, and \$5. Silver certificates have practically taken the place in circulation of the standard silver dollars which they represent. The amount outside the Treasury July 1, 1896, was \$331,259,509, while the amount of standard silver dollars outside the Treasury was only \$52,175,998. Neither silver certificates nor silver dollars are redeemed in gold.

TREASURY NOTES, ACT OF JULY 14, 1890.

These notes were authorized by the act of July 14, 1890, commonly called the "Sherman Act." The Secretary of the Treasury was directed to purchase each month 4,500,000 ounces of fine silver at the market price, and to pay for the same with Treasury notes redeemable on demand in coin, and legal tender for all debts, public and private, except where otherwise expressly stipulated in the contract. It was provided in the act that when the notes should be redeemed or received for dues they might be reissued; but that no greater or less amount of such notes should be "outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom, then held in the Treasury, purchased by such notes."

The authority for the purchase of silver bullion under this act was repealed by the act of November 1, 1893, up to which date the

Government had purchased 168,674,682.53 fine ounces, at a cost of \$155,931,002, for which Treasury notes were issued. The amount of silver bullion purchased under said act, and now held in the Treasury, is 131,838,199.46 fine ounces, which cost \$118,903,909.23. When coined it will produce \$170,457,470, of which \$51,553,560.77 will be gain or seigniorage. The amount of Treasury notes redeemed in gold up to the close of the fiscal year 1896 was \$80,073,325, and the amount redeemed in standard silver dollars was \$26,247,722. Treasury notes redeemed in standard silver dollars are canceled and retired in accordance with the requirements of the act of 1890. Those redeemed in gold are reissued as required in the course of business.

Copies of the Treasury regulations governing the issue and redemption of currency can be procured by application to the Department.

FRACTIONAL CURRENCY.

When specie payments were suspended, about January 1, 1862, both gold and silver coins disappeared from circulation. The place of the subsidiary silver coins was for a time supplied by the use of tickets, duebills, and other forms of private obligations, which were issued by merchants, manufacturers, and others whose business required them to "make change." Congress soon interfered and authorized, first, the use of postage stamps for change; second, a modified form of postage stamp called postal currency, and finally fractional paper currency in denominations corresponding to the subsidiary silver coins. The highest amount authorized was \$50,000,000. The highest amount outstanding at any time was \$49,102,660.27, and the amount still outstanding, though not in use as money, is \$15,267,122.47, of which \$8,375,934 is officially estimated to have been destroyed.

REDEMPTION.

Gold coins and *standard silver dollars* being standard coins of the United States are not "redeemable."

Subsidiary coins and *minor coins* may be presented in sums or multiples of twenty dollars to the Treasurer of the United States or to an assistant treasurer for redemption or exchange into lawful money.

United States notes are redeemable in "coin," in sums not less than \$50, by the assistant treasurers in New York and San Francisco.

Treasury notes of 1890 are redeemable in "coin," in sums not less than \$50, by the Treasurer and all assistant treasurers of the United States.

National-bank notes are redeemable in lawful money of the United States by the Treasurer, but not by the assistant treasurers. They are also redeemable at the bank of issue. In order to provide for the redemption of its notes when presented, every national bank is required by law to keep on deposit with the Treasurer a sum equal to 5 per cent of its circulation.

Gold certificates being receipts for gold coin, are redeemable in such coin by the Treasurer and all assistant treasurers of the United States.

Silver certificates are receipts for standard silver dollars deposited, and are redeemable in such dollars only.

"*Coin*" obligations of the Government are redeemed in gold coin when gold is demanded, and in silver when silver is demanded.

Coinage executed at the mints of the United States during the six months ended June 30, 1896.

Prior to the act of February 21, 1853, all silver coins were legal tender in all payments whatsoever. The act of February 21, 1853, reduced the weight of all silver coins of less denomination than the silver dollar about 7 per cent, to be coined on Government account only, and made them legal tender in payment of debts for all sums not exceeding \$5.

Coins of the United States—Continued.

* Seventy-five per cent copper, 25 per cent nickel.

† Ninety-five per cent copper, 5 per cent tin and zinc.

Troy weights are used, and while metric weights are by law assigned to the half and quarter dollar and dime, troy weights still continue to be employed, 15.432 grains being considered as the equivalent of a gram, agreeably to the act of July 28, 1866.

The weight of \$1,000 in United States gold coin is 53.75 troy ounces, equivalent to 3.68 pounds avoirdupois. The weight of \$1,000 in standard silver dollars is 859.375 troy ounces, equivalent to 58.92 pounds avoirdupois, and the weight of \$1,000 in subsidiary silver is 803.75 troy ounces, equivalent to 55.11 pounds avoirdupois.

COINAGE OF THE UNITED STATES.

The following table exhibits the number of fine ounces and value of gold and silver coinage of the United States by calendar years, from 1873 to 1895:

Coinage of gold and silver by the mints of the United States, 1873-1895.

SUMMARY OF MONETARY EVENTS SINCE 1786.

1786.—Establishment of the double standard in the United States with a ratio of 1 to 15.25; that is, on the basis of 123.134 grains of fine gold for the half eagle, or \$5 piece, and 375.64 grains of fine silver for the dollar, without any actual coinage.

1792.—Adoption of the ratio of 1 to 15 and establishment of a mint with free and gratuitous coinage in the United States; the silver dollar equal to $371\frac{1}{4}$ grains fine, the eagle to $247\frac{1}{2}$ grains fine.

1803.—Establishment of the double standard in France on the basis of the ratio of 1 to $15\frac{1}{2}$, notwithstanding the fact that the market ratio was then about 1 to 15.

1810.—Introduction of the silver standard in Russia on the basis of the rouble of 17.99 grams of fine silver, followed in 1871 by the coinage of imperials, or gold pieces of 5 rubles, of 5.998 grams; therefore, with a ratio of 1 to 15. This ratio was changed by the increase of the imperial to 5 rubles 15 copecks, and later to 1 to 15.45.

1815.—Great depreciation of paper money in England, reaching $26\frac{1}{2}$ per cent in May. Course of gold, £5 6s., and of silver, $71\frac{1}{2}$ d. per ounce standard. In December the loss was only 6 per cent; gold at this period was quoted at £4 3s., and silver at 64d.

1816.—Abolition of the double standard in England, which had had as its basis the ratio of 1 to 15.21, and adoption of the gold standard on the basis of the pound sterling at 7.322 grams fine in weight.

Coinage of divisional money at the rate of 66d. per ounce. Extreme prices, £4 2s. for gold and 64d. for silver; in January, £3 18s. 6d., and $59\frac{1}{2}$ d. in December.

1816.—Substitution for the ratio of 1 to 15.5 in Holland, established by a rather confused coinage, of the ratio of 1 to $15\frac{1}{2}$.

1819.—Abolition of forced currency in England. Price of gold, £3 17s. $10\frac{1}{2}$ d., and of silver, 62d.* per ounce in October, against £4 1s. 6d. and 67d. in February.

1832.—Introduction of the monetary system of France in Belgium, with a decree providing for the coinage of pieces of 20 and 40 francs, which, however, were not stamped. Silver, $59\frac{1}{2}$ d.

1834.—Substitution of the ratio of 1 to 16 for that of 1 to 15 in the United States by reducing the weight of the eagle, ten-dollar gold piece, from 270 grains to 258 grains.

In 1837 the fineness of the United States gold coins was raised from .899225 to 900, and the silver coins from .8924 to .900, giving a ratio of 1 to 15.988 and fixing the standard weight of the silver dollar at $412\frac{1}{2}$ grains. Silver, $59.15/16$ d.

1835.—Introduction of the company rupee, a piece of silver weighing 165 grains fine, in India in place of the sicca rupee. Creation of a trade coin—the mohur, or piece of 15 rupees—containing 165 grains of fine gold. Silver, $59\frac{1}{16}$ d.

* The price of silver given hereafter represents the average rate per ounce standard—that is, the mean between the highest price and the lowest price quoted during the year.

1844.—Introduction of the double standard in Turkey, with the ratio of 1 to 15.10. Silver, $59\frac{1}{2}$ d.

1847.—Abolition of the double standard in Holland by the introduction of the silver standard on the basis of a 1-florin piece 0.945 grams fine, the coinage of which had already been decreed in 1839. Silver, $59\frac{1}{4}$ d.

1847.—Discovery of the gold mines of California.

1848.—Coinage in Belgium of pieces of 10 and 25 francs in gold, a shade too light. These pieces were demonetized and withdrawn from circulation in 1884. Silver, $59\frac{1}{2}$ d.

1848.—Replacing the ratio of 1 to 16 in Spain, which had been in force since 1786, by that of 1 to 15.77.

1850.—Introduction of the French monetary system in Switzerland without any actual coinage of gold pieces. Silver, $60\frac{1}{16}$ d.

1851.—Discovery of the gold mines of Australia.

1853.—Lowering of the weight of silver pieces of less value than \$1 to the extent of 7 per cent in the United States, and limitation of their legal-tender power to \$5. Silver, $61\frac{1}{2}$ d.

1853.—Maximum of the production of gold reached in California, when it amounted to \$65,000,000.

1854.—Introduction of the gold standard in Portugal on the basis of the crown of 16.257 grams fine. Before this period the country had the silver standard, with a rather large circulation of gold coins stamped on the basis of 1 to $15\frac{1}{2}$ in 1835 and 1 to $16\frac{1}{2}$ in 1847. Silver, $61\frac{1}{2}$ d.

1854.—Modification of the ratio of 1 to 15.77 in Spain by raising it to 1 to 15.48, and by lowering the piaster from 23.49 grams to 23.36 grams fine.

1854.—Introduction of the silver standard, as it existed in the mother country, in Java, in place of the ideal Javanese money, and coinage of colonial silver pieces.

1857.—Conclusion of a monetary treaty between Austria and the German States, in accordance with which 1 pound of fine silver (one-half a kilogram) was stamped into 30 thalers or $52\frac{1}{2}$ florins of south Germany, or 45 Austrian florins, resulting in 1 thaler equaling $1\frac{3}{4}$ German florins or $1\frac{1}{2}$ Austrian florins. Silver, $61\frac{3}{4}$ d.

1861.—Law decreeing the coinage of gold pieces of 10 and 20 francs exactly equal to French coins of the same denomination in Belgium. Silver, $61\frac{3}{4}$ d.

1862.—Adoption of the French monetary system by Italy. Silver, $61\frac{7}{16}$ d.

1865.—Formation of the Latin Union between France, Belgium, Switzerland, and Italy on the basis of a ratio of 1 to $15\frac{1}{2}$. Silver, $61\frac{1}{16}$ d.

1868.—Adoption of the French monetary system by Roumania, with the exclusion of the 5-franc silver piece, which was, however, stamped in 1881 and 1883. Silver, $60\frac{1}{2}$ d.

1868.—Admission of Greece into the Latin Union. The definite and universal introduction of the French monetary system into the country was effected only in 1883.

1868.—Adoption of the French monetary system, with the peseta or franc as the unit, by Spain. The coinage of gold alphonsoes d'or of 25 pesetas was made only in 1876.

1871.—Replacing of the silver standard in Germany by the gold standard. Coinage in 1873 of gold pieces of 5, 10, and 20 mark pieces, the latter weighing 7.168 grams fine. Silver, 60½d.

1871.—Establishment of the double standard in Japan with the ratio of 1 to 16.17 by the coinage of the gold yen of 1.667 grams and of the silver yen of 26.956 grams, both with a fineness of 0.900.

1873.—Increase of the intrinsic value of the divisional coins of the United States. Replacing of the double standard by the gold standard. Reduction of the cost of coinage of gold to one-fifth per cent, the total abolition of which charge was decreed in 1875. Creation of a trade dollar of 420 grains with a fineness of 0.900. Silver, 59½d.

1873.—Suspension of the coinage of 5-franc pieces in Belgium.

1873.—Limitation of the coinage of 5-francs on individual account in France.

1873.—Suspension of the coinage of silver in Holland.

1873.—Formation of the Scandinavian Monetary Union. Replacing of the silver standard in Denmark, Sweden, and Norway by that of gold on the basis of the krone. Coinage of pieces of 10 and 20 kroner, the latter weighing 8.961 grams, with a fineness of 0.900.

1874.—Introduction of the system of contingents for the coinage of 5-franc silver pieces in the Latin Union. Silver, 58⅞d.

1875.—Suspension of the coinage of silver on individual account in Italy. Silver, 56⅞d.

1875.—Suspension of the coinage of silver on account of the Dutch colonies.

1875.—Introduction of the double standard in Holland on the basis of the ratio of 1 to 15.62 by the creation of a gold piece of 10 florins, weighing 5.048 grams fine, with the maintenance of the suspension of the coinage of silver.

1876.—Great fluctuations in the price of silver, which declined to 46¾d., representing the ratio of 1 to 20.172, in July. Recovery, in December, to 53½d. Average price, 52¾d.

1877.—Coinage of 5-franc silver pieces by Spain continued later, notwithstanding the decline of silver in the market. Silver, 54¾d.

1877.—Replacing of the double standard in Finland by that of gold on the basis of the mark or franc.

1878.—Act of United States Congress providing for the purchase, from time to time, of silver bullion, at the market price thereof, of not less than \$2,000,000 worth per month as a minimum, nor more than \$4,000,000 worth per month as a maximum, and its coinage as fast as purchased into silver dollars of 412½ grains. The coinage of silver on private account prohibited. Silver, 52⅞d.

1878.—Meeting of the first international monetary conference in Paris. Prolongation of the Latin Union to January 1, 1886.

1879.—Suspension of the sales of silver by Germany. Silver, 51½d.

1881.—Second international monetary conference in Paris. Silver, 51½d.

1885.—Introduction of the double standard in Egypt. Silver, 48½d.

1885.—Prolongation of the Latin Union to January 1, 1891.

1886.—Great decline in the price of silver, which fell in August to 42d., representing a ratio of 1 to 22.5, and recovery, in December, to 46d. Modification of the coinage of gold and silver pieces in Russia. Silver, 45½d.

1887.—Retirement of the trade dollars by the Government of the United States in March. Demonetization of the Spanish piasters, known as Ferdinand Carolus, whose reimbursement at the rate of 5 pesetas ended on March 11. New decline of silver in March to 44d., representing the ratio of 1 to 21.43. Silver, 44½d.

1890.—United States—Repeal of the act of February 28, 1878, commonly known as Bland-Allison law, and substitution of authority for purchase of 4,500,000 fine ounces of silver each month to be paid for by issue of Treasury notes payable in coin. (Act of July 14, 1890.) Demonetization of 25,000,000 lei in pieces of 5 lei in Roumania in consequence of the introduction of the gold standard by the law of October 27. Silver, 47½d.

1891.—Introduction of the French monetary system in Tunis on the basis of the gold standard. Coinage of national gold coins and billon. Silver, 45½d.

1892.—Replacing of the silver standard in Austria-Hungary by that of gold by the law of August 2. Coinage of pieces of 20 crowns, containing 6.098 grams fine. The crown equals one-half florin. Meeting of the third international monetary conference at Brussels. Production of gold reaches its maximum, varying between 675,000,000 and 734,000,000 francs. Silver, 39½d.

1893.—Suspension of the coinage of silver in British India and of French trade dollars on individual account. Panic in the silver market in July in London, when the price fell below 30d., representing the ratio of 1 to 31.43. Repeal of the purchasing clause of the act of July 14, 1890, by the Congress of the United States.

1895.—Adoption of the gold standard by Chile.

1895.—Russia decides to coin 100,000,000 gold rubles in 1896.

MONETARY SYSTEM OF THE UNITED STATES.

In 1786 the Congress of the Confederation chose as the monetary unit of the United States the dollar of 375.64 grains of pure silver. This unit had its origin in the Spanish piaster or milled dollar, which constituted the basis of the metallic circulation of the English colonies in America. It was never coined, there being at that time no mint in the United States.

The act of April 2, 1792, established the first monetary system of the United States. The bases of the system were: The gold dollar or unit, containing 24.75 grains of pure gold, and stamped in pieces of \$10, \$5, and \$2½, denominated, respectively, eagles, half eagles, and quarter eagles; the silver dollar or unit, containing 371.25 grains of pure silver. A mint was established. The coinage was unlimited and there was no mint charge. The ratio of gold to silver in coinage was 1:15. Both gold and silver were legal tender. The standard was double.

The act of 1792 undervalued gold, which was therefore exported. The act of June 28, 1834, was passed to remedy this, by changing the mint ratio between the metals to 1:16.002. This latter act fixed the weight of the gold dollar at 25.8 grains, but lowered the fineness from 0.916⅔ to 0.899225. The fine weight of the gold dollar was thus reduced to 23.2 grains. The act of 1834 undervalued silver as that of 1792 had undervalued gold, and silver was attracted to Europe by the more favorable ratio of 1:15½. The act of January 18, 1837, was passed to make the fineness of the gold and silver coins uniform. The legal weight of the gold dollar was fixed at 25.8 grains, and its fine weight at 23.22 grains. The fineness was, therefore, changed by this act to 0.900 and the ratio to 1:15.988+.

Silver continued to be exported. The act of February 21, 1853, reduced the weight of the silver coins of a denomination less than \$1, which the acts of 1792 and 1837 had made exactly proportional to the weight of the silver dollar, and provided that they should be legal tender to the amount of only \$5. Under the acts of 1792 and 1837 they had been full legal tender. By the act of 1853 the legal weight of the half dollar was reduced to 192 grains and that of the other fractions of the dollar in proportion. The coinage of the fractional parts of the dollar was reserved to the Government.

The act of February 12, 1873, provided that the unit of value of the United States should be the gold dollar of the standard weight of 25.8 grains, and that there should be coined besides the following gold coins: A quarter eagle, or 2½-dollar piece; a 3-dollar piece; a half eagle, or 5-dollar piece; an eagle, or 10-dollar piece, and a double eagle, or 20-dollar piece, all of a standard weight proportional to that of the dollar piece. These coins were made legal tender in all payments at their nominal value when not below the standard weight and limit of tolerance provided in the act for the single piece, and when reduced in weight they should be legal tender at a valuation in proportion to their actual weight. The silver coins provided for by the act were a trade dollar, a half dollar, or 50-cent piece, a quarter dollar, and a 10-cent piece; the weight of the trade dollar to be 420 grains Troy; the half dollar 12½ grams; the quarter dollar and the dime, respectively, one-half and one-fifth of the weight of the half dollar. These silver coins were made legal tender at their nominal value for any amount not exceeding \$5 in any one payment. The charge for converting standard gold bullion into coin was fixed at one-fifth of 1 per cent. Owners

of silver bullion were allowed to deposit it at any mint of the United States to be formed into bars or into trade dollars, and no deposit of silver for other coinage was to be received.

Trade Section II of the joint resolution of July 22, 1876, recited that the trade dollar should not thereafter be legal tender, and that the Secretary of the Treasury should be authorized to limit the coinage of the same to an amount sufficient to meet the export demand for it. The act of March 3, 1887, retired the ~~standard silver~~ dollar and prohibited its coinage. That of September 26, 1890, discontinued the coinage of the 1-dollar and 3-dollar gold pieces.

The act of February 28, 1878, directed the coinage of silver dollars of the weight of 412½ grains troy, of standard silver, as provided in the act of January 18, 1837, and that such coins, with all standard silver dollars theretofore coined, should be legal tender at their nominal value for all debts and dues, public and private, except where otherwise expressly stipulated in the contract.

The Secretary of the Treasury was authorized and directed by the first section of the act to purchase from time to time silver bullion at the market price thereof, not less than \$2,000,000 worth nor more than \$4,000,000 worth per month, and to cause the same to be coined monthly, as fast as purchased, into such dollars. A subsequent act, that of July 14, 1890, enacted that the Secretary of the Treasury should purchase silver bullion to the aggregate amount of 4,500,000 ounces, or so much thereof as might be offered, each month, at the market price thereof, not exceeding \$1 for 371.25 grains of pure silver, and to issue in payment thereof Treasury notes of the United States, such notes to be redeemable by the Government, on demand, in coin, and to be legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract. The act directed the Secretary of the Treasury to coin each month 2,000,000 ounces of the silver bullion purchased under the provisions of the act into standard silver dollars until the 1st day of July, 1891, and thereafter as much as might be necessary, to provide for the redemption of the Treasury notes issued under the act. The purchasing clause of the act of July 14, 1890, was repealed by the act of November 1, 1893.

The act of June 9, 1879, made the subsidiary silver coins of the United States legal tender to the amount of \$10. The minor coins are legal tender to the amount of 25 cents.

COINS OF THE UNITED STATES, AUTHORITY FOR COINING, AND CHANGES IN WEIGHT AND FINENESS AND AMOUNT COINED.

GOLD COINS.

DOUBLE EAGLE.

Authorized to be coined, act of March 3, 1849.

Weight, 516 grains; fineness, .900.

Total amount coined to June 30, 1896, \$1,277,693,220.

EAGLE.

Authorized to be coined, act of April 2, 1792.
 Weight; 270 grains; fineness, .916 $\frac{2}{3}$.
 Weight changed, act of June 28, 1834, to 258 grains.
 Fineness changed, act of June 28, 1834, to .899,225.
 Fineness changed, act of January 18, 1837, to .900.
 Total amount coined to June 30, 1896, \$266,538,270.

HALF EAGLE.

Authorized to be coined, act of April 2, 1792.
 Weight, 135 grains; fineness, .916 $\frac{2}{3}$.
 Weight changed, act of June 28, 1834, to 129 grains.
 Fineness changed, act of June 28, 1834, to .899,225.
 Fineness changed, act of January 18, 1837, to .900.
 Total amount coined to June 30, 1896, \$220,631,035.

QUARTER EAGLE.

Authorized to be coined, act of April 2, 1792.
 Weight, 67.5 grains; fineness, .916 $\frac{2}{3}$.
 Weight changed, act of June 28, 1834, to 64.5 grains.
 Fineness changed, act of June 28, 1834, to .899,225.
 Fineness changed, act of January 18, 1837, to .900.
 Total amount coined to June 30, 1896, \$28,711,015.

THREE-DOLLAR PIECE.

Authorized to be coined, act of February 21, 1853.
 Weight, 77.4 grains; fineness, .900.
 Total amount coined to September 26, 1890, \$1,619,376.
 Coinage discontinued, act of September 26, 1890.

ONE DOLLAR.

Authorized to be coined, act of March 3, 1849.
 Weight, 25.8 grains; fineness, .900.
 Total amount coined to September 26, 1890, \$19,499,337.
 Coinage discontinued, act of September 26, 1890.

SILVER COINS.

DOLLAR.

Authorized to be coined, act of April 2, 1792.
 Weight, 416 grains; fineness, .892,4.
 Weight changed, act of January 18, 1837, to 412 $\frac{1}{2}$ grains.
 Fineness changed, act of January 18, 1837, to .900.
 Coinage discontinued, act of February 12, 1873.
 Total amount coined to February 12, 1873, \$8,031,238.
 Coinage reauthorized, act of February 28, 1878.
 Amount coined from March 1, 1878, to June 30, 1896, \$430,790,041.
 Total amount coined to June 30, 1896, \$438,821,279.

TRADE DOLLAR.

Authorized to be coined, act of February 12, 1873.
 Weight, 420 grains; fineness, .900.
 Coinage limited to export demand, joint resolution July 22, 1876.
 Coinage discontinued, act of March 3, 1887.
 Total amount coined, \$35,965,924.

HALF DOLLAR.

Authorized to be coined, act of April 2, 1792.
 Weight, 208 grains; fineness, .892,4.
 Weight changed, act of January 18, 1837, to $206\frac{1}{2}$ grains.
 Fineness changed, act of January 18, 1837, to .900.
 Weight changed, act of February 21, 1853, to 192 grains.
 Weight changed, act of February 12, 1873, to $12\frac{1}{2}$ grams, or 192.9 grains.
 Total amount coined to June 30, 1896, \$132,662,308.00.

COLUMBIAN HALF DOLLAR.

Authorized to be coined, act of August 5, 1892.
 Weight, 192.9 grains; fineness, .900.
 Total amount coined, \$2,501,052.50.

QUARTER DOLLAR.

Authorized to be coined, act of April 2, 1792.
 Weight, 104 grains; fineness, .892,4.
 Weight changed, act of January 18, 1837, to $103\frac{1}{2}$ grains.
 Fineness changed, act of January 18, 1837, to .900.
 Weight changed, act of February 21, 1853, to 96 grains.
 Weight changed, act of February 12, 1873, to $6\frac{1}{2}$ grams, or 96.45 grains.
 Total amount coined to June 30, 1896, \$51,166,166.75.

COLUMBIAN QUARTER DOLLAR.

Authorized to be coined, act of March 3, 1893.
 Weight, 96.45 grains; fineness, .900.
 Total amount coined, \$10,005.75.

TWENTY-CENT PIECE.

Authorized to be coined, act of March 3, 1875.
 Weight, 5 grams, or 77.16 grains; fineness, .900.
 Coinage discontinued, act of May 2, 1878.
 Total amount coined, \$271,000.

DIME.

Authorized to be coined, act of April 2, 1792.
 Weight, 41.6 grains; fineness, .892,4.
 Weight changed, act of January 18, 1837, to $41\frac{1}{4}$ grains.
 Fineness changed, act of January 18, 1837, to .900.

Weight changed, act of February 21, 1853, to 38.4 grains.

Weight changed, act of February 12, 1873, to $2\frac{1}{2}$ grams, or 38.58 grains.

Total amount coined to June 30, 1896, \$28,904,300.50.

HALF DIME.

Authorized to be coined, act of April 2, 1792.

Weight, 20.8 grains; fineness, .892,4.

Weight changed, act of January 18, 1837, to $20\frac{1}{8}$ grains.

Fineness changed, act of January 18, 1837, to .900.

Weight changed, act of February 21, 1853, to 19.2 grains.

Coinage discontinued, act of February 12, 1873.

Total amount coined, \$4,880,219.40.

THREE-CENT PIECE.

Authorized to be coined, act of March 3, 1851.

Weight, $12\frac{3}{8}$ grains; fineness, .750.

Weight changed, act of March 3, 1853, to 11.52 grains.

Fineness changed, act of March 3, 1853, to .900.

Coinage discontinued, act of February 12, 1873.

Total amount coined, \$1,282,087.20.

MINOR COINS.

FIVE CENT (NICKEL).

Authorized to be coined, act of May 16, 1866.

Weight, 77.16 grains; composed of 75 per cent copper and 25 per cent nickel.

Total amount coined to June 30, 1896, \$14,292,235.30.

THREE CENT (NICKEL).

Authorized to be coined, act of March 3, 1865.

Weight, 30 grains; composed of 75 per cent copper and 25 per cent nickel.

Coinage discontinued, act of September 26, 1890.

Total amount coined, \$941,349.48.

TWO CENT (BRONZE).

Authorized to be coined, act of April 22, 1864.

Weight, 96 grains; composed of 95 per cent copper and 5 per cent tin and zinc.

Coinage discontinued, act of February 12, 1873.

Total amount coined, \$912,020.

CENT (COPPER).

Authorized to be coined, act of April 2, 1792.

Weight, 264 grains.

Weight changed, act of January 14, 1793, to 208 grains.

Weight changed by proclamation of the President, January 26, 1796,
in conformity with act of March 3, 1795, to 168 grains.

Coinage discontinued, act of February 21, 1857.

Total amount coined, \$1,562,887.44.

CENT (NICKEL).

Authorized to be coined, act of February 21, 1857.

Weight, 72 grains; composed of 88 per cent copper and 12 per cent
nickel.

Coinage discontinued, act of April 22, 1864.

Total amount coined, \$2,007,720.

CENT (BRONZE).

Coinage authorized, act of April 22, 1864.

Weight, 48 grains; composed of 95 per cent copper and 5 per cent
tin and zinc.

Total amount coined to June 30, 1896, \$8,073,910.34.

HALF CENT (COPPER).

Authorized to be coined, act of April 2, 1792.

Weight, 132 grains.

Weight changed, act of January 14, 1793, 104 grains.

Weight changed by proclamation of the President, January 26, 1796,
in conformity with act of March 3, 1795, to 84 grains.

Coinage discontinued, act of February 21, 1857.

Total amount coined, \$39,926.11.

NOTE 1.—Specie payments were suspended from January 1, 1862 to January 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific Coast, where, it is estimated, the specie circulation was generally about \$25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1879, inclusive.

NOTE 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

NOTE 3.—The coinage of standard silver dollars began in 1878 under the act of February 28, 1878.

NOTE 4.—Specie payments were resumed January 1, 1879, and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

NOTE 5.—This table represents the circulation of the United States as shown by the revised statements of the Treasury Department for June 30 of each of the years specified.

NATIONAL-BANK CURRENCY.

AUTHORIZING ACTS.

The issue of circulating notes by national banking associations was first authorized by an act entitled "An act to provide a national currency secured by a pledge of United States stocks, and to provide for the circulation and redemption thereof," approved February 25, 1863, which act was repealed by an act entitled "An act to provide a national currency secured by a pledge of United States bonds, and to provide for the circulation and redemption thereof," approved June 3, 1864. The act approved June 3, 1864, with subsequent amendments thereof, was embodied in the Revised Statutes of the United States in 1873. The law as embodied in the Revised Statutes has been amended from time to time, and is now contained in what is known as the National-Bank Act, with amendments thereof.

SECURITY.

Under the provisions of existing law a national bank is required to deposit interest-bearing bonds of the United States with the United States Treasurer as security for its circulating notes in the following minimum amounts:

- (1) Banks with a capital not exceeding \$150,000 must deposit bonds, par value, to an amount not less than one-fourth of their capital stock.
- (2) Banks with a capital exceeding \$150,000 must deposit bonds to the amount of at least \$50,000, par value.

The maximum amount of bonds, at their par value, which may be deposited by a national bank must not exceed the amount of the bank's capital stock.

The proportion of circulating notes issued against bonds deposited as security therefor is 90 per cent of the par value of said bonds, or of the market value of said bonds if the bonds are below par.

PROFITS ON CIRCULATION.

Figures given on page 355, volume 1, Comptroller's Report for 1895, show that in 1895 a bank would make from one-half to 1 per cent per annum more by investing in 2 and 4 per cent bonds and taking out circulation than by investing the same amount at 6 per cent per annum. Wherever the current rate of interest is above 7 per cent it is, therefore, unprofitable to a bank to take out circulation.

OWNERSHIP OF STOCK.

An official investigation made by the Comptroller in 1895 shows that on October 31, 1895, the stock of 3,715 national banks, with a capital of \$664,136,915, was owned by 285,190 shareholders.

PROFITS ON CAPITAL INVESTED.

On page 428, volume 1, Comptroller's Report for 1895, is a table showing annual profits made by national banks for twenty-six years, based upon sworn reports made by the banks. The annual average percentage of profit for this period was 8 per cent, while the profit for the year 1895 was but 5 per cent.

SUPERVISION.

Every national bank is required by law to make to the Comptroller not less than five sworn reports every year, showing in detail its resources and liabilities, and it is required to publish same in a local newspaper; also, to make a sworn report of every dividend declared, which also shows gross earnings, losses, expenses, and net profits.

The affairs of every bank are also examined about twice a year by an examiner who verifies its assets and audits its accounts, and the examiner is empowered by law to examine every officer and employee of the bank under oath, if necessary to find out its true condition.

CAPITAL BASED ON POPULATION.

A national bank may be organized by not less than five shareholders anywhere in the United States, subject to the following-mentioned requirements as to capital and population:

- (1) With not less than \$50,000 capital in any place having 6,000 inhabitants or less.
- (2) With not less than \$100,000 capital in any city having over 6,000 but not more than 50,000 inhabitants.
- (3) With not less than \$200,000 capital in any city having over 50,000 inhabitants.

O

[REVISED EDITION.]

UNITED STATES BONDS, PAPER CURRENCY, COIN, PRODUCTION OF PRECIOUS METALS, ETC.

1896.

Department Circular No. 123.

Division of Loans and Currency.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 1, 1896.

Mr. A. T. HUNTINGTON,

Chief Division Loans and Currency, Treasury Department.

SIR: In view of the great number of requests for information respecting United States bonds, the currency, coinage, production of the precious metals, and kindred subjects, and the impracticability of responding to each request separately, you are hereby directed to cause a circular of information to be prepared, which shall cover the questions most frequently asked.

The text of the circular should state, as briefly and clearly as possible, without comment, the historical facts relating to the subjects in question, to be followed by tables reproducing, in compact form, the periodical and other official statements relating thereto, published by this Department. The necessary assistance in this work will be given by the Bureau officers of the Department.

Respectfully, yours,

J. G. CARLISLE,

Secretary.

REPORT OF THE

COMMISSIONERS OF THE LAND OFFICE

IN RESPONSE TO A RESOLUTION PASSED BY THE HOUSE OF REPRESENTATIVES

ON FEBRUARY 28, 1890

RELATIVE TO THE LANDS BELONGING TO THE STATE

AND TO THE LANDS BELONGING TO THE FEDERAL GOVERNMENT

IN THE STATE OF CALIFORNIA

INFORMATION RESPECTING UNITED STATES BONDS,
PAPER CURRENCY, COIN, PRODUCTION OF PRECIOUS
METALS, ETC.

UNITED STATES BONDS.

The United States bonds now outstanding were issued either for the purpose of refunding other forms of national indebtedness, or to supply gold for the redemption of United States notes.

The refunding acts, so called, were approved July 14, 1870, and January 20, 1871. Under these acts about \$1,400,000,000 of bonds were issued, of which \$500,000,000 were 5 per cent ten-year bonds, redeemable after May 1, 1881; \$185,000,000 were 4½ per cent fifteen-year bonds, redeemable after September 1, 1891, and the remainder were thirty-year 4 per cent bonds, redeemable after July 1, 1907.

The resumption act was approved January 14, 1875; it directed the Secretary of the Treasury to prepare and provide for the redemption of United States notes in coin, on and after January 1, 1879, and it authorized him to use the surplus revenues for that purpose, from time to time, and to sell and dispose of, at not less than par in coin, either of the descriptions of bonds described in the refunding acts above mentioned. In pursuance of this authority, \$95,500,000 of the 4½ and 4 per cent bonds were sold for redemption purposes, and the proceeds (\$96,000,000 in gold) were placed in the Treasury as a fund for such redemption. In time this fund became known as the "gold reserve," and in the bank act, approved July 12, 1882, in a section providing for the issue of gold certificates, the sum of \$100,000,000 was prescribed by Congress as the limit to which the gold reserve might be reduced without affecting the issue of gold certificates.

The presentation of United States notes for redemption prior to 1893 was not great enough to reduce the reserve fund below \$100,000,000; in April of that year, however, the minimum was reached, and the fund became so low that in February, 1894, an issue of bonds became necessary to enable the Government to restore the gold reserve and redeem the obligations of the United States. Accordingly, popular subscriptions were invited for an issue of \$50,000,000 of ten-year 5 per cent

bonds, which were dated February 1, 1894, and realized to the Government \$58,633,295 in gold. In November, 1894, another issue of \$50,000,000 of the same class of bonds was necessary, the sum realized being \$58,538,500. In February, 1895, the Government was again obliged to replenish the gold reserve, which it did by the purchase, under contract, of 3,500,000 ounces of gold coin, which were paid for with United States 4 per cent thirty-year bonds, amounting to \$62,315,400. Another sale of \$100,000,000 of 4 per cent thirty-year bonds was made through popular subscriptions, invited in January, 1896. The total amount of bonds thus issued since 1893 to protect the gold reserve was \$262,315,400, and the total proceeds thereof, in gold coin, was \$293,454,286.74.

The amount of United States bonds outstanding July 1, 1896, was as follows:

4½ per cent bonds continued at 2 per cent	\$25,364,500
4 per cent bonds of 1907	559,636,850
5 per cent bonds of 1904	100,000,000
4 per cent bonds of 1925	162,315,400
Total	847,316,750

All these bonds were sold at not less than par for gold coin, or its equivalent; they are all redeemable in coin of the standard value of July 14, 1870, which was the date of the first of the refunding acts. The standard weights and fineness for coins at that date were the same as at present, the gold unit being a dollar of the standard weight of 25.8 grains and the silver unit being the silver dollar of the standard weight of 412½ grains. The interest on all these bonds is payable quarterly in coin of the same standard.

The Government has never issued any bonds payable, by their terms, either principal or interest, in gold coin or in silver coin. Before the war, the obligations of the Government contained no statement as to the kind of money in which they should be paid, and none of the war obligations contained any such provision, except the certificates of temporary loan and the 7-30 notes of 1864 and 1865, which were all payable, by their terms, in lawful money.

Copies of the regulations of this Department for the issue, exchange, transfer, and redemption of United States bonds may be had upon application to the Secretary of the Treasury.

COINS AND PAPER CURRENCY.

There are ten different kinds of money in circulation in the United States, namely, gold coins, standard silver dollars, subsidiary silver, gold certificates, silver certificates, Treasury notes issued under the act of July 14, 1890, United States notes (also called greenbacks and legal tenders), national-bank notes, and nickel and bronze coins. These forms of money are all available as circulation. While they do not all

possess the full legal-tender quality, each kind has such attributes as to give it currency. The status of each kind is as follows:

Gold coin is legal tender at its nominal or face value for all debts, public and private, when not below the standard weight and limit of tolerance prescribed by law; and when below such standard and limit of tolerance, it is legal tender in proportion to its weight.

Standard silver dollars are legal tender at their nominal or face value in payment of all debts, public and private, without regard to the amount, except where otherwise expressly stipulated in the contract.

Subsidiary silver is legal tender for amounts not exceeding \$10 in any one payment.

Treasury notes of the act of July 14, 1890, are legal tender for all debts, public and private, except where otherwise expressly stipulated in the contract.

United States notes are legal tender for all debts, public and private, except duties on imports and interest on the public debt.

Gold certificates, silver certificates, and national-bank notes are not legal tender, but both classes of certificates are receivable for all public dues, while national-bank notes are receivable for all public dues, except duties on imports, and may be paid out by the Government for all salaries, and other debts and demands owing by the United States to individuals, corporations, and associations within the United States, except interest on the public debt, and in redemption of the national currency. All national banks are required by law to receive the notes of other national banks at par.

The minor coins of nickel and copper are legal tender to the extent of 25 cents.

GOLD COINS.

The coinage of legal-tender gold was authorized by the first coinage act passed by Congress, April 2, 1792.

The gold unit of value is the dollar which contains 25.8 grains of standard gold 900 fine. The amount of fine gold in the dollar is 23.22 grains, and the remainder of the weight is an alloy of copper. While the gold dollar is the unit and standard of value, the actual coinage of the \$1 piece was discontinued under authority of the act of September 26, 1890. Gold is now coined in denominations of \$2.50, \$5, \$10, and \$20, called respectively quarter eagles, half eagles, eagles, and double eagles.

The total coinage of gold by the mints of the United States from 1792 to June 30, 1896, is \$1,814,692,253, of which it is estimated that \$567,931,823 is still in existence as coin in the United States, while the remainder, \$1,246,760,430, has been exported or consumed in the arts. The gold bullion now in the United States amounts to \$32,268,955.

The basis for the estimate of the amount of gold coin in the United States was established in 1873, when the amount in the vaults of the

national banks and in the Treasury was ascertained from reports to be \$98,389,864. To this was added \$20,000,000 as an estimate of the amount of gold in use on the Pacific Coast, and \$10,000,000 as the amount held by all other banks, and by the people. The amount thus ascertained was \$128,389,864, to which have been added from year to year the new coinage reported by the Director of the Mint, and the imports as shown by the custom-house reports; and from which have been deducted the exports and the amounts consumed in the arts. It will be seen that more than two-thirds of the gold coins struck at the mints of the United States have disappeared from circulation.

SILVER COINS.

The silver unit is the dollar which contains $412\frac{1}{2}$ grains of standard silver 900 fine. The amount of fine silver in the dollar is $371\frac{1}{4}$ grains, and there are $41\frac{1}{4}$ grains of copper alloy. The standard silver dollar was first authorized by the act of April 2, 1792. Its weight was 416 grains $\$92.4$ fine. It contained the same quantity of fine silver as the present dollar, whose weight and fineness were established by the act of January 18, 1837. The coinage of the standard silver dollar was discontinued by the act of February 12, 1873, and it was restored by the act of February 28, 1878. The total amount coined from 1792 to 1873 was \$8,031,238, and the amount coined from 1878 to June 30, 1896, was \$430,790,041. The coinage ratio between gold and silver under the act of 1792 was 15 to 1, but by the acts of 1834 and 1837 it was changed first to 16.002 to 1 and finally to 15.988 to 1 (commonly called 16 to 1). This is the present ratio.

Of the \$430,790,041 standard silver dollars coined since February 1878, there were held in the Treasury June 30, 1896, \$378,614,043, and the amount outside the Treasury was \$52,175,998. Silver certificates to the amount of \$342,619,504 have been issued against that amount of the standard silver dollars held in the Treasury. The commercial value of an ounce of fine silver June 30, 1896, was \$0.6924, and the commercial value of the silver in the silver dollar on that date was 53.55 cents.

SUBSIDIARY SILVER.

The silver coins of smaller denominations than one dollar, authorized by the act of April 2, 1792, were half dollars, quarter dollars, dimes, and half dimes. They were the equivalent in value of the fractional parts of a dollar which they represented—that is, two half dollars were equal in weight to one silver dollar, and so on. These coins were full legal tender, when of standard weight, and those of less than full weight were legal tender at values proportional to their respective weights.

By the act of February 21, 1853, the weight of the fractional silver coins was reduced so that the half dollar weighed only 192 grains, and all the smaller denominations were reduced in proportion. Their legal tender quality was at the same time limited to \$5, and they thus became sub-

subsidiary coins. The present subsidiary coins are half dollars, quarter dollars, and dimes. Their weight is slightly different from that prescribed by the act of 1853; but the limit of their legal-tender quality has been raised to \$10, and \$86,096,860.40 have been coined since 1873.

The amount of full-weight fractional silver coined prior to 1853 was \$76,734,964.50, and the amount of subsidiary silver coined since that year is \$144,942,175.50.

There was a period, from 1862 to 1876, when there was no fractional silver coin in circulation in the United States except on the Pacific Coast. During this period the small change of the country consisted of fractional paper currency, which will be described in its place.

ISSUE OF STANDARD SILVER DOLLARS AND FRACTIONAL SILVER COIN.

Standard silver dollars are issued by the Treasurer and assistant treasurers in redemption of silver certificates and Treasury notes of 1890, and are sent by express, at the expense of the Government, in sums or multiples of \$500, for silver certificates or Treasury notes of 1890 deposited with the Treasurer or any assistant treasurer.

Upon the deposit of an equivalent sum in United States currency or national-bank notes with the Treasurer or any assistant treasurer or national-bank depository, fractional silver coin will be paid in any amount by the Treasurer or assistant treasurers in the cities where their several offices are, or will be sent by express, in sums of \$200 or more, at the expense of the Government, or by registered mail, at the risk of the consignee, in packages of \$50, registration free, from the most convenient Treasury office, to the order of the depositor. For this purpose drafts may be sent to the Treasurer or the assistant treasurer in New York, payable in their respective cities to the order of the officer to whom sent.

PAPER MONEY.

The first paper money ever issued by the Government of the United States was authorized by the acts of July 17 and August 5, 1861. The notes issued were called "demand notes," because they were payable on demand at certain designated subtreasuries. They were receivable for all public dues, and the Secretary was authorized to reissue them when received; but the time within which such reissues might be made was limited to December 31, 1862. The amount authorized by these acts was \$50,000,000. An additional issue of \$10,000,000 was authorized by the act of February 12, 1862, and there were reissues amounting to \$30,000. The demand notes were paid in gold when presented for redemption and they were received for all public dues, and these two qualities prevented their depreciation. All other United States notes were depreciated in value from 1862 until the resumption of specie payments, as shown by the table hereinafter following. The act of February 25, 1862, provided for the substitution of United States notes in place of the demand notes, and they were,

therefore, canceled when received. By July 1, 1863, all except \$3,770,000 had been retired, and nearly three millions of this small remainder were canceled during the next fiscal year. These notes were not legal tender when first issued, but they were afterwards made so by the act of March 17, 1862.

UNITED STATES NOTES.

The principal issue of United States paper money was officially called United States notes. These were the well known "greenbacks" or "legal tenders." The act of February 25, 1862, authorized the issue of \$150,000,000, of which \$50,000,000 were in lieu of an equal amount of demand notes, and could be issued only as the demand notes were canceled. A second issue of \$150,000,000 was authorized by the act of July 11, 1862, of which, however, \$50,000,000 was to be a temporary issue for the redemption of a debt known as the temporary loan. A third issue of \$150,000,000 was authorized by the act of March 3, 1863. The total amount authorized, including the temporary issue, was \$450,000,000, and the highest amount outstanding at any time was \$449,338,902 on January 30, 1864. There are still outstanding \$346,681,016.

The reduction from the original permanent issue of \$400,000,000 to \$346,681,016 was caused as follows: The act of April 12, 1866, provided that United States notes might be retired to the extent of \$10,000,000 during the ensuing six months, and that thereafter they might be retired at the rate of not more than \$4,000,000 per month. This authority remained in force until it was suspended by the act of February 4, 1868. The authorized amount of reduction during this period was about \$70,000,000, but the actual reduction was only about \$44,000,000. No change was made in the volume of United States notes outstanding until after the panic of 1873, when, in response to popular demand, the Government reissued \$26,000,000 of the canceled notes.

This brought the amount outstanding to \$382,000,000, and it so remained until the resumption act of January 14, 1875, provided for its reduction to \$300,000,000. The process was, however, again stopped by the act of May 31, 1878, which required the notes to be reissued when redeemed. At that time the amount outstanding was \$346,681,016, which is the present amount. The amount of United States notes redeemed from the fund raised for resumption purposes since January 1, 1879, to June 30, 1896, was \$426,190,220; but the volume outstanding is undiminished because of the provisions of the act of May 31, 1878, which require the notes so redeemed to be paid out again and kept in circulation.

GOLD CERTIFICATES.

The act of March 3, 1863, authorized the Secretary of the Treasury to receive deposits of gold coin and bullion in sums not less than \$20, and to issue certificates therefor in denominations not less than \$20,

said certificates to be receivable for duties on imports. Under this act deposits of gold were received and certificates issued until January 1, 1879, when the practice was discontinued by order of the Secretary of the Treasury. The purpose of the order was to prevent the holders of United States notes from presenting them for redemption in gold, and repositing the gold in exchange for gold certificates. No certificates were issued after January 1, 1879, until the passage of the bank act of July 12, 1882, which authorized and directed the Secretary of the Treasury to receive gold coin and bullion and issue certificates.

This act, however, provided that "the Secretary of the Treasury shall suspend the issue of gold certificates whenever the amount of gold coin and gold bullion in the Treasury, reserved for the redemption of United States notes, falls below one hundred millions of dollars." The highest amount of gold certificates outstanding at the close of any fiscal year was \$157,542,979, on July 1, 1890, and the amount now outside the Treasury is \$42,320,759. The act of July 12, 1882, made them receivable for customs, taxes, and all public dues.

SILVER CERTIFICATES.

The act of February 28, 1878, authorizing the issue of the standard silver dollar, provided that any holder of such dollars might deposit them in sums not less than \$10 with the Treasurer or any assistant treasurer of the United States, and receive certificates therefor, in denominations not less than \$10, said certificates to be receivable for customs, taxes, and all public dues. The act of August 4, 1886, authorized the issue of the smaller denominations of \$1, \$2, and \$5. Silver certificates have practically taken the place in circulation of the standard silver dollars which they represent. The amount outside the Treasury July 1, 1896, was \$331,259,509, while the amount of standard silver dollars outside the Treasury was only \$52,175,998. Neither silver certificates nor silver dollars are redeemed in gold.

TREASURY NOTES, ACT OF JULY 14, 1890.*

These notes were authorized by the act of July 14, 1890, commonly called the "Sherman Act." The Secretary of the Treasury was directed to purchase each month 4,500,000 ounces of fine silver at the market price, and to pay for the same with Treasury notes redeemable on demand in coin, and legal tender for all debts, public and private, except where otherwise expressly stipulated in the contract. It was provided in the act that when the notes should be redeemed or received for dues they might be reissued; but that no greater or less amount of such notes should be "outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom, then held in the Treasury, purchased by such notes."

The authority for the purchase of silver bullion under this act was repealed by the act of November 1, 1893, up to which date the

* See sections 1, 2, and 3 of the Sherman act on page 57.

Government had purchased 168,674,682.53 fine ounces, at a cost of \$155,931,002, for which Treasury notes were issued. The amount of silver bullion purchased under said act, and now held in the Treasury, is 131,838,199.46 fine ounces, which cost \$118,903,909.23. When coined it will produce \$170,457,470, of which \$51,553,560.77 will be gain or seigniorage. The amount of Treasury notes redeemed in gold up to the close of the fiscal year 1896 was \$80,073,325, and the amount redeemed in standard silver dollars was \$26,247,722. Treasury notes redeemed in standard silver dollars are canceled and retired in accordance with the requirements of the act of 1890. Those redeemed in gold are reissued as required in the course of business.

Copies of the Treasury regulations governing the issue and redemption of currency can be procured by application to the Department.

FRACTIONAL CURRENCY.

When specie payments were suspended, about January 1, 1862, both gold and silver coins disappeared from circulation. The place of the subsidiary silver coins was for a time supplied by the use of tickets, duebills, and other forms of private obligations, which were issued by merchants, manufacturers, and others whose business required them to "make change." Congress soon interfered and authorized, first, the use of postage stamps for change; second, a modified form of postage stamp called postal currency, and finally fractional paper currency in denominations corresponding to the subsidiary silver coins. The highest amount authorized was \$50,000,000. The highest amount outstanding at any time was \$49,102,660.27, and the amount still outstanding, though not in use as money, is \$15,267,122.47, of which \$8,375,934 is officially estimated to have been destroyed.

REDEMPTION.

Gold coins and standard silver dollars being standard coins of the United States are not "redeemable."

Subsidiary coins and minor coins may be presented in sums or multiples of twenty dollars to the Treasurer of the United States or to an assistant treasurer for redemption or exchange into lawful money.

United States notes are redeemable in "coin," in sums not less than \$50, by the assistant treasurers in New York and San Francisco.

Treasury notes of 1890 are redeemable in "coin," in sums not less than \$50, by the Treasurer and all assistant treasurers of the United States.

National-bank notes are redeemable in lawful money of the United States by the Treasurer, but not by the assistant treasurers. They are also redeemable at the bank of issue. In order to provide for the redemption of its notes when presented, every national bank is required by law to keep on deposit with the Treasurer a sum equal to 5 per cent of its circulation.

Gold certificates being receipts for gold coin, are redeemable in such coin by the Treasurer and all assistant treasurers of the United States.

Silver certificates are receipts for standard silver dollars deposited, and are redeemable in such dollars only.

"*Coin*" obligations of the Government are redeemed in gold coin when gold is demanded, and in silver when silver is demanded.

DENOMINATIONS, WEIGHT AND FINENESS OF THE COINS OF THE UNITED STATES.

GOLD.

Denomination.	Fine gold contained.	Alloy contained.*	Weight.
	<i>Grains.</i>	<i>Grains.</i>	<i>Grains.</i>
One dollar (\$1).....	23.22	2.58	25.80
Quarter eagle (\$2.50).....	58.05	6.45	64.50
Three dollars (\$3).....	69.66	7.74	77.40
Half eagle (\$5).....	116.10	12.90	129.00
Eagle (\$10).....	232.20	25.80	258.00
Double eagle (\$20).....	464.40	51.60	516.00

* The alloy neither adds to nor detracts from the value of the coin.

SILVER.

Denomination.	Fine silver contained.	Alloy contained.	Weight.
	<i>Grains.</i>	<i>Grains.</i>	<i>Grains.</i>
Standard dollar.....	371.25	41.25	412.50
Half dollar.....	173.61	19.29	192.90
Quarter dollar.....	86.805	9.645	96.45
Dime.....	34.722	3.858	38.58

Prior to the act of February 21, 1853, all silver coins were legal tender in all payments whatsoever. The act of February 21, 1853, reduced the weight of all silver coins of less denomination than the silver dollar about 7 per cent, to be coined on Government account only, and made them legal tender in payment of debts for all sums not exceeding \$5.

MINOR.

Denomination.	Fine copper contained.	Alloy contained.	Weight.
	<i>Grains.</i>	<i>Grains.</i>	<i>Grains.</i>
Five cents*.....	57.87	19.29	77.16
One cent†.....	45.60	2.40	48

* Seventy-five per cent copper, 25 per cent nickel.

† Ninety-five per cent copper, 5 per cent tin and zinc.

Troy weights are used, and while metric weights are by law assigned to the half and quarter dollar and dime, troy weights still continue to be employed, 15.432 grains being considered as the equivalent of a gram, agreeably to the act of July 28, 1866.

The weight of \$1,000 in United States gold coin is 53.75 troy ounces,

equivalent to 3.68 pounds avoirdupois. The weight of \$1,000 in standard silver dollars is 859.375 troy ounces, equivalent to 58.92 pounds avoirdupois, and the weight of \$1,000 in subsidiary silver is 803.75 troy ounces, equivalent to 55.11 pounds avoirdupois.

COINAGE OF THE UNITED STATES.

The following table exhibits the number of fine ounces and value of gold and silver coinage of the United States by calendar years, from 1873 to 1895:

Coinage of gold and silver by the mints of the United States, 1873-1895.

Calendar years.	Gold.		Silver.	
	Fine ounces.	Value.	Fine ounces.	Coining value.

Commercial ratio of silver to gold each year since 1687.

[NOTE.—From 1687 to 1832 the ratios are taken from Dr. A. Soetbeer; from 1833 to 1878 from Pixley and Abell's tables, and from 1879 to 1894 from daily cablegrams from London to the Bureau of the Mint.]

NOTE.—This table includes recoinnages. The amount of recoinage of gold coins in the United States during the above period is \$45,354,422 and of silver coins \$36,616,971.14. It is not practicable to state the recoinage of other nations, as the reports received do not state it separately. The recoinage of gold in the United States is much smaller, in proportion to our total coinage of gold, than in most foreign countries, because in the United States coin is represented in circulation principally by paper money.

The following table shows the production of the precious metals in the world for the calendar years 1873-1895:

Production of gold and silver in the world for the calendar years 1873-1895.

Year.	Gold.		Silver.		
	Fine ounces.	Value.	Fine ounces.	Commercial value.	Coining value.
1873.....	4,653,675	\$96,204,000	63,267,187	\$82,120,800	\$81,800,000

* Estimated.

The silver product is given at its commercial value, reckoned at the average market price of silver each year, as well as its coining value in United States dollars.

Product of gold and silver from mines in the United States, 1873-1895.

Calendar year.	Gold.		Silver.		
	Fine ounces.	Value.	Fine ounces.	Commercial value.	Coining value.

SUMMARY OF MONETARY EVENTS SINCE 1786.

1786.—Establishment of the double standard in the United States with a ratio of 1 to 15.25; that is, on the basis of 123.134 grains of fine gold for the half eagle, or \$5 piece, and 375.64 grains of fine silver for the dollar, without any actual coinage.

1792.—Adoption of the ratio of 1 to 15 and establishment of a mint with free and gratuitous coinage in the United States; the silver dollar equal to $371\frac{1}{4}$ grains fine, the eagle to $247\frac{1}{2}$ grains fine.

1803.—Establishment of the double standard in France on the basis of the ratio of 1 to $15\frac{1}{2}$, notwithstanding the fact that the market ratio was then about 1 to 15.

1810.—Introduction of the silver standard in Russia on the basis of the ruble of 17.99 grams of fine silver, followed in 1871 by the coinage of imperials, or gold pieces of 5 rubles, of 5.998 grams; therefore, with a ratio of 1 to 15. This ratio was changed by the increase of the imperial to 5 rubles 15 copecks, and later to 1 to 15.45.

1815.—Great depreciation of paper money in England, reaching $26\frac{1}{2}$ per cent in May. Course of gold, £5 6s., and of silver, $71\frac{1}{2}$ d. per ounce standard. In December the loss was only 6 per cent; gold at this period was quoted at £4 3s., and silver at 64d.

1816.—Abolition of the double standard in England, which had had as its basis the ratio of 1 to 15.21, and adoption of the gold standard on the basis of the pound sterling at 7.322 grams fine in weight.

Coinage of divisional money at the rate of 66d. per ounce. Extreme prices, £4 2s. for gold and 64d. for silver; in January, £3 18s. 6d., and $59\frac{1}{4}$ d. in December.

1816.—Substitution for the ratio of 1 to 15.5 in Holland, established by a rather confused coinage, of the ratio of 1 to $15\frac{1}{8}$.

1819.—Abolition of forced currency in England. Price of gold, £3 17s. $10\frac{1}{2}$ d., and of silver, 62d.* per ounce in October, against £4 1s. 6d. and 67d. in February.

1832.—Introduction of the monetary system of France in Belgium, with a decree providing for the coinage of pieces of 20 and 40 francs, which, however, were not stamped. Silver, $59\frac{3}{4}$ d.

1834.—Substitution of the ratio of 1 to 16 for that of 1 to 15 in the United States by reducing the weight of the eagle, ten-dollar gold piece, from 270 grains to 258 grains.

In 1837 the fineness of the United States gold coins was raised from .899225 to 900, and the silver coins from .8924 to .900, giving a ratio of 1 to 15.988 and fixing the standard weight of the silver dollar at $412\frac{1}{2}$ grains. Silver .59-15/16d.

1835.—Introduction of the company rupee, a piece of silver weighing 165 grains fine, in India in place of the sicca rupee. Creation of a trade coin—the mohur, or piece of 15 rupees—containing 165 grains of fine gold. Silver, $59\frac{1}{4}$ d.

*The price of silver given hereafter represents the average rate per ounce standard—that is, the mean between the highest price and the lowest price quoted during the year.

1844.—Introduction of the double standard in Turkey, with the ratio of 1 to 15.10. Silver, $59\frac{1}{2}$ d.

1847.—Abolition of the double standard in Holland by the introduction of the silver standard on the basis of a 1-florin piece 0.945 grams fine, the coinage of which had already been decreed in 1839. Silver, $59\frac{1}{2}$ d.

1847.—Discovery of the gold mines of California.

1848. Coinage in Belgium of pieces of 10 and 25 francs in gold, a shade too light. These pieces were demonetized and withdrawn from circulation in 1884. Silver, $59\frac{1}{2}$ d.

1848.—Replacing the ratio of 1 to 16 in Spain, which had been in force since 1786, by that of 1 to 15.77.

1850.—Introduction of the French monetary system in Switzerland without any actual coinage of gold pieces. Silver, $60\frac{1}{8}$ d.

1851.—Discovery of the gold mines of Australia.

1853.—Lowering of the weight of silver pieces of less value than \$1 to the extent of 7 per cent in the United States, and limitation of their legal-tender power to \$5. Silver, $61\frac{1}{2}$ d.

1853.—Maximum of the production of gold reached in California, when it amounted to \$65,000,000.

1854.—Introduction of the gold standard in Portugal on the basis of the crown of 16.257 grams fine. Before this period the country had the silver standard, with a rather large circulation of gold coins stamped on the basis of 1 to $15\frac{1}{2}$ in 1835 and 1 to $16\frac{1}{2}$ in 1847. Silver, $61\frac{1}{2}$ d.

1854.—Modification of the ratio of 1 to 15.77 in Spain by raising it to 1 to 15.48, and by lowering the piaster from 23.49 grams to 23.36 grams fine.

1854.—Introduction of the silver standard, as it existed in the mother country, in Java, in place of the ideal Javanese money, and coinage of colonial silver pieces.

1857.—Conclusion of a monetary treaty between Austria and the German States, in accordance with which 1 pound of fine silver (one-half a kilogram) was stamped into 30 thalers or $52\frac{1}{2}$ florins of south Germany, or 45 Austrian florins, resulting in 1 thaler equaling $1\frac{3}{4}$ German florins or $1\frac{1}{2}$ Austrian florins. Silver, $61\frac{3}{4}$ d.

1861.—Law decreeing the coinage of gold pieces of 10 and 20 francs exactly equal to French coins of the same denomination in Belgium. Silver, $61\frac{3}{4}$ d.

1862.—Adoption of the French monetary system by Italy. Silver, $61\frac{7}{8}$ d.

1865.—Formation of the Latin Union between France, Belgium, Switzerland, and Italy on the basis of a ratio of 1 to $15\frac{1}{2}$. Silver, $61\frac{7}{8}$ d.

1868.—Adoption of the French monetary system by Roumania, with the exclusion of the 5-franc silver piece, which was, however, stamped in 1881 and 1883. Silver, $60\frac{1}{2}$ d.

1868.—Admission of Greece into the Latin Union. The definite and universal introduction of the French monetary system into the country was effected only in 1883.

1868.—Adoption of the French monetary system, with the peseta or franc as the unit, by Spain. The coinage of gold alphonsoes d'or of 25 pesetas was made only in 1876.

1871.—Replacing of the silver standard in Germany by the gold standard. Coinage in 1873 of gold pieces of 5, 10, and 20 mark pieces, the latter weighing 7.168 grams fine. Silver, 60½d.

1871.—Establishment of the double standard in Japan with the ratio of 1 to 16.17 by the coinage of the gold yen of 1.667 grams and of the silver yen of 26.956 grams, both with a fineness of 0.900.

1873.—Increase of the intrinsic value of the subsidiary coins of the United States. Replacing of the double standard by the gold standard. Reduction of the cost of coinage of gold to one-fifth per cent, the total abolition of which charge was decreed in 1875. Creation of a trade dollar of 420 grains with a fineness of 0.900. Silver, 59¼d.

1873.—Suspension of the coinage of 5-franc pieces in Belgium.

1873.—Limitation of the coinage of 5-francs on individual account in France.

1873.—Suspension of the coinage of silver in Holland.

1873.—Formation of the Scandinavian Monetary Union. Replacing of the silver standard in Denmark, Sweden, and Norway by that of gold on the basis of the krone. Coinage of pieces of 10 and 20 kroner, the latter weighing 8.961 grams, with a fineness of 0.900.

1874.—Introduction of the system of contingents for the coinage of 5-franc silver pieces in the Latin Union. Silver, 58⅝d.

1875.—Suspension of the coinage of silver on individual account in Italy. Silver, 56¾d.

1875.—Suspension of the coinage of silver on account of the Dutch colonies.

1875.—Introduction of the double standard in Holland on the basis of the ratio of 1 to 15.62 by the creation of a gold piece of 10 florins, weighing 5.048 grams fine, with the maintenance of the suspension of the coinage of silver.

1876.—Great fluctuations in the price of silver, which declined to 46¾d., representing the ratio of 1 to 20.172, in July. Recovery, in December, to 58½d. Average price, 52¾d.

1877.—Coinage of 5-franc silver pieces by Spain continued later, notwithstanding the decline of silver in the market. Silver, 54¾d.

1877.—Replacing of the double standard in Finland by that of gold on the basis of the mark or franc.

1878.—Act of United States Congress providing for the purchase, from time to time, of silver bullion, at the market price thereof, of not less than \$2,000,000 worth per month as a minimum, nor more than \$4,000,000 worth per month as a maximum, and its coinage as fast as purchased into silver dollars of 412½ grains. The coinage of silver on private account prohibited. Silver, 52⅞d.

1878.—Meeting of the first international monetary conference in Paris. Prolongation of the Latin Union to January 1, 1886.

1879.—Suspension of the sales of silver by Germany. Silver, 51½d.

1881.—Second international monetary conference in Paris. Silver, 51½d.

1885.—Introduction of the double standard in Egypt. Silver, 48¾d.

1885.—Prolongation of the Latin Union to January 1, 1891.

1886.—Great decline in the price of silver, which fell in August to 42d., representing a ratio of 1 to 22.5, and recovery, in December, to 46d. Modification of the coinage of gold and silver pieces in Russia. Silver, 45¾d.

1887.—Retirement of the trade dollars by the Government of the United States in February. Demonetization of the Spanish piasters, known as Ferdinand Carolus, whose reimbursement at the rate of 5 pesetas ended on March 11. New decline of silver in March to 44d., representing the ratio of 1 to 21.43. Silver, 44¾d.

1890.—United States—Repeal of the act of February 28, 1878, commonly known as Bland-Allison law, and substitution of authority for purchase of 4,500,000 fine ounces of silver each month to be paid for by issue of Treasury notes payable in coin. (Act of July 14, 1890.) Demonetization of 25,000,000 lei in pieces of 5 lei in Roumania in consequence of the introduction of the gold standard by the law of October 27. Silver, 47¼d.

1891.—Introduction of the French monetary system in Tunis on the basis of the gold standard. Coinage of national gold coins and billon. Silver, 45⅞d.

1892.—Replacing of the silver standard in Austria-Hungary by that of gold by the law of August 2. Coinage of pieces of 20 crowns, containing 6.098 grams fine. The crown equals one-half florin. Meeting of the third international monetary conference at Brussels. Production of gold reaches its maximum, varying between 675,000,000 and 734,000,000 francs. Silver, 39¼d.

1893.—Suspension of the coinage of silver in British India and of French trade dollars on individual account. Panic in the silver market in July in London, when the price fell below 30d., representing the ratio of 1 to 31.43. Repeal of the purchasing clause of the act of July 14, 1890, by the Congress of the United States.

1895.—Adoption of the gold standard by Chile.

1895.—Russia decides to coin 100,000,000 gold rubles in 1896.

MONETARY SYSTEM OF THE UNITED STATES.

In 1786 the Congress of the Confederation chose as the monetary unit of the United States the dollar of 375.64 grains of pure silver. This unit had its origin in the Spanish piaster or milled dollar, which constituted the basis of the metallic circulation of the English colonies in America. It was never coined, there being at that time no mint in the United States.

The act of April 2, 1792, established the first monetary system of the United States. The bases of the system were: The gold dollar or unit, containing 24.75 grains of pure gold, and stamped in pieces of \$10, \$5, and \$2½, denominated, respectively, eagles, half eagles, and quarter eagles; the silver dollar or unit, containing 371.25 grains of pure silver. A mint was established. The coinage was unlimited and there was no mint charge. The ratio of gold to silver in coinage was 1:15. Both gold and silver were legal tender. The standard was double.

The act of 1792 undervalued gold, which was therefore exported. The act of June 28, 1834, was passed to remedy this, by changing the mint ratio between the metals to 1:16.002. This latter act fixed the weight of the gold dollar at 25.8 grains, but lowered the fineness from 0.916⅔ to 0.899225. The fine weight of the gold dollar was thus reduced to 23.2 grains. The act of 1834 undervalued silver as that of 1792 had undervalued gold, and silver was attracted to Europe by the more favorable ratio of 1:15½. The act of January 18, 1837, was passed to make the fineness of the gold and silver coins uniform. The legal weight of the gold dollar was fixed at 25.8 grains, and its fine weight at 23.22 grains. The fineness was, therefore, changed by this act to 0.900 and the ratio to 1:15.988+.

Silver continued to be exported. The act of February 21, 1853, reduced the weight of the silver coins of a denomination less than \$1, which the acts of 1792 and 1837 had made exactly proportional to the weight of the silver dollar, and provided that they should be legal tender to the amount of only \$5. Under the acts of 1792 and 1837 they had been full legal tender. By the act of 1853 the legal weight of the half dollar was reduced to 192 grains and that of the other fractions of the dollar in proportion. The coinage of the fractional parts of the dollar was reserved to the Government.

The act of February 12, 1873, provided that the unit of value of the United States should be the gold dollar of the standard weight of 25.8 grains, and that there should be coined besides the following gold coins: A quarter eagle, or 2½-dollar piece; a 3-dollar piece; a half eagle, or 5-dollar piece; an eagle, or 10-dollar piece, and a double eagle, or 20-dollar piece, all of a standard weight proportional to that of the dollar piece. These coins were made legal tender in all payments at their nominal value when not below the standard weight and limit of tolerance provided in the act for the single piece, and when reduced in weight they should be legal tender at a valuation in proportion to their actual weight. The silver coins provided for by the act were a trade dollar, a half dollar, or 50-cent piece, a quarter dollar, and a 10-cent piece; the weight of the trade dollar to be 420 grains Troy; the half dollar 12½ grains; the quarter dollar and the dime, respectively, one-half and one-fifth of the weight of the half dollar. These silver coins were made legal tender at their nominal value for any amount not exceeding \$5 in any one payment. The charge for converting standard gold bullion into coin was fixed at one-fifth of 1 per cent. Owners

of silver bullion were allowed to deposit it at any mint of the United States to be formed into bars or into trade dollars, and no deposit of silver for other coinage was to be received.

Section II of the joint resolution of July 22, 1876, recited that the trade dollar should not thereafter be legal tender, and that the Secretary of the Treasury should be authorized to limit the coinage of the same to an amount sufficient to meet the export demand for it. The act of February 19, 1887, retired the trade dollar and prohibited its coinage. That of September 26, 1890, discontinued the coinage of the 1-dollar and 3-dollar gold pieces.

The act of February 28, 1878, directed the coinage of silver dollars of the weight of 412½ grains troy, of standard silver, as provided in the act of January 18, 1837, and that such coins, with all standard silver dollars theretofore coined, should be legal tender at their nominal value for all debts and dues, public and private, except where otherwise expressly stipulated in the contract.

The Secretary of the Treasury was authorized and directed by the first section of the act to purchase from time to time silver bullion at the market price thereof, not less than \$2,000,000 worth nor more than \$4,000,000 worth per month, and to cause the same to be coined monthly, as fast as purchased, into such dollars. A subsequent act, that of July 14, 1890, enacted that the Secretary of the Treasury should purchase silver bullion to the aggregate amount of 4,500,000 ounces, or so much thereof as might be offered, each month, at the market price thereof, not exceeding \$1 for 371.25 grains of pure silver, and to issue in payment thereof Treasury notes of the United States, such notes to be redeemable by the Government, on demand, in coin, and to be legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract. The act directed the Secretary of the Treasury to coin each month 2,000,000 ounces of the silver bullion purchased under the provisions of the act into standard silver dollars until the 1st day of July, 1891, and thereafter as much as might be necessary, to provide for the redemption of the Treasury notes issued under the act. The purchasing clause of the act of July 14, 1890, was repealed by the act of November 1, 1893.

The act of June 9, 1879, made the subsidiary silver coins of the United States legal tender to the amount of \$10. The minor coins are legal tender to the amount of 25 cents.

COINS OF THE UNITED STATES, AUTHORITY FOR COINING, AND
CHANGES IN WEIGHT AND FINENESS AND AMOUNT COINED.

GOLD COINS.

DOUBLE EAGLE.

Authorized to be coined, act of March 3, 1849.

Weight, 516 grains; fineness, .900.

Total amount coined to June 30, 1896, \$1,277,693,220.

EAGLE.

Authorized to be coined, act of April 2, 1792.
 Weight, 270 grains; fineness, .916 $\frac{2}{3}$.
 Weight changed, act of June 28, 1834, to 258 grains
 Fineness changed, act of June 28, 1834, to .899,225.
 Fineness changed, act of January 18, 1837, to .900.
 Total amount coined to June 30, 1896, \$266,538,270.

HALF EAGLE.

Authorized to be coined, act of April 2, 1792.
 Weight, 135 grains; fineness, .916 $\frac{2}{3}$.
 Weight changed, act of June 28, 1834, to 129 grains.
 Fineness changed, act of June 28, 1834, to .899,225.
 Fineness changed, act of January 18, 1837, to .900.
 Total amount coined to June 30, 1896, \$220,631,035.

QUARTER EAGLE.

Authorized to be coined, act of April 2, 1792.
 Weight, 67.5 grains; fineness, .916 $\frac{2}{3}$.
 Weight changed, act of June 28, 1834, to 64.5 grains.
 Fineness changed, act of June 28, 1834, to .899,225.
 Fineness changed, act of January 18, 1837, to .900.
 Total amount coined to June 30, 1896, \$28,711,015.

THREE-DOLLAR PIECE.

Authorized to be coined, act of February 21, 1853.
 Weight, 77.4 grains; fineness, .900.
 Total amount coined to September 26, 1890, \$1,619,376.
 Coinage discontinued, act of September 26, 1890.

ONE DOLLAR.

Authorized to be coined, act of March 3, 1849.
 Weight, 25.8 grains; fineness, .900.
 Total amount coined to September 26, 1890, \$19,499,337.
 Coinage discontinued, act of September 26, 1890.

SILVER COINS.

DOLLAR.

Authorized to be coined, act of April 2, 1792.
 Weight, 416 grains; fineness, .892,4.
 Weight changed, act of January 18, 1837, to 412 $\frac{1}{2}$ grains.
 Fineness changed, act of January 18, 1837, to .900.
 Coinage discontinued, act of February 12, 1873.
 Total amount coined to February 12, 1873, \$8,031,238.
 Coinage reauthorized, act of February 28, 1878.
 Amount coined from March 1, 1878, to June 30, 1896, \$430,790,041.
 Total amount coined to June 30, 1896, \$438,821,279.

TRADE DOLLAR.

Authorized to be coined, act of February 12, 1873.
 Weight, 420 grains; fineness, .900.
 Coinage limited to export demand, joint resolution July 22, 1876.
 Coinage discontinued, act of February 19, 1887.
 Total amount coined, \$35,965,924.

HALF DOLLAR.

Authorized to be coined, act of April 2, 1792.
 Weight, 208 grains; fineness, .892,4.
 Weight changed, act of January 18, 1837, to 206½ grains.
 Fineness changed, act of January 18, 1837, to .900.
 Weight changed, act of February 21, 1853, to 192 grains.
 Weight changed, act of February 12, 1873, to 12½ grams, or 192.9 grains.
 Total amount coined to June 30, 1896, \$132,662,308.00.

COLUMBIAN HALF DOLLAR.

Authorized to be coined, act of August 5, 1892.
 Weight, 192.9 grains; fineness, .900.
 Total amount coined, \$2,501,052.50.

QUARTER DOLLAR.

Authorized to be coined, act of April 2, 1792.
 Weight, 104 grains; fineness, .892,4.
 Weight changed, act of January 18, 1837, to 103½ grains.
 Fineness changed, act of January 18, 1837, to .900.
 Weight changed, act of February 21, 1853, to 96 grains.
 Weight changed, act of February 12, 1873, to 6½ grams, or 96.45 grains.
 Total amount coined to June 30, 1896, \$51,166,166.75.

COLUMBIAN QUARTER DOLLAR.

Authorized to be coined, act of March 3, 1893.
 Weight, 96.45 grains; fineness, .900.
 Total amount coined, \$10,005.75.

TWENTY-CENT PIECE.

Authorized to be coined, act of March 3, 1875.
 Weight, 5 grams, or 77.16 grains; fineness, .900.
 Coinage discontinued, act of May 2, 1878.
 Total amount coined, \$271,000.

DIME.

Authorized to be coined, act of April 2, 1792.
 Weight, 41.6 grains; fineness, .892,4.
 Weight changed, act of January 18, 1837, to 41½ grains.
 Fineness changed, act of January 18, 1837, to .900.

Weight changed, act of February 21, 1853, to 38.4 grains.
 Weight changed, act of February 12, 1873, to $2\frac{1}{2}$ grams, or 38.58 grains.

Total amount coined to June 30, 1896, \$28,904,300.50.

HALF DIME.

Authorized to be coined, act of April 2, 1792.
 Weight, 20.8 grains; fineness, .892.4.
 Weight changed, act of January 18, 1837, to $20\frac{5}{8}$ grains.
 Fineness changed, act of January 18, 1837, to .900.
 Weight changed, act of February 21, 1853, to 19.2 grains.
 Coinage discontinued, act of February 12, 1873.
 Total amount coined, \$4,880,219.40.

THREE-CENT PIECE.

Authorized to be coined, act of March 3, 1851.
 Weight, $12\frac{3}{8}$ grains; fineness, .750.
 Weight changed, act of March 3, 1853, to 11.52 grains.
 Fineness changed, act of March 3, 1853, to .900.
 Coinage discontinued, act of February 12, 1873.
 Total amount coined, \$1,282,087.20.

MINOR COINS.

FIVE CENT (NICKEL).

Authorized to be coined, act of May 16, 1866.
 Weight, 77.16 grains; composed of 75 per cent copper and 25 per cent nickel.
 Total amount coined to June 30, 1896, \$14,292,235.30.

THREE CENT (NICKEL).

Authorized to be coined, act of March 3, 1865.
 Weight, 30 grains; composed of 75 per cent copper and 25 per cent nickel.
 Coinage discontinued, act of September 26, 1890.
 Total amount coined, \$941,349.48.

TWO CENT (BRONZE).

Authorized to be coined, act of April 22, 1864.
 Weight, 96 grains; composed of 95 per cent copper and 5 per cent tin and zinc.
 Coinage discontinued, act of February 12, 1873.
 Total amount coined, \$912,020.

CENT (COPPER).

Authorized to be coined, act of April 2, 1792.
 Weight, 264 grains.
 Weight changed, act of January 14, 1793, to 208 grains.
 Weight changed by proclamation of the President, January 26, 1796,
 in conformity with act of March 3, 1795, to 168 grains.
 Coinage discontinued, act of February 21, 1857.
 Total amount coined, \$1,562,887.44.

CENT (NICKEL).

Authorized to be coined, act of February 21, 1857.
 Weight, 72 grains; composed of 88 per cent copper and 12 per cent
 nickel.
 Coinage discontinued, act of April 22, 1864.
 Total amount coined, \$2,007,720.

CENT (BRONZE).

Coinage authorized, act of April 22, 1864.
 Weight, 48 grains; composed of 95 per cent copper and 5 per cent
 tin and zinc.
 Total amount coined to June 30, 1896, \$8,073,910.34.

HALF CENT (COPPER).

Authorized to be coined, act of April 2, 1792.
 Weight, 132 grains.
 Weight changed, act of January 14, 1793, 104 grains.
 Weight changed by proclamation of the President, January 26, 1796,
 in conformity with act of March 3, 1795, to 84 grains.
 Coinage discontinued, act of February 21, 1857.
 Total amount coined, \$39,926.11.

NOTE 1.—Specie payments were suspended from January 1, 1862 to January 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific Coast, where, it is estimated, the specie circulation was generally about \$25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1875, inclusive.

NOTE 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

NOTE 3.—The coinage of standard silver dollars began in 1878 under the act of February 28, 1878.

NOTE 4.—Specie payments were resumed January 1, 1879, and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

NOTE 5.—This table represents the circulation of the United States as shown by the revised statements of the Treasury Department for June 30 of each of the years specified.

The amount of gold coin and gold bullion remaining in the Treasury at the end of each fiscal year since 1879 and included in the above column of coin bullion, etc., was as follows:

1879.	\$135,236,475	1888.	\$314,704,822
1880.	126,145,427	1889.	303,581,937
1881.	163,171,651	1890.	321,304,106
1882.	148,506,390	1891.	289,263,689
1883.	198,078,568	1892.	255,706,511
1884.	204,876,534	1893.	189,102,022
1885.	247,023,625	1894.	131,316,471
1886.	232,554,836	1895.	158,618,062
1887.	277,976,654	1896.	144,715,615

NATIONAL-BANK CURRENCY.

AUTHORIZING ACTS.

The issue of circulating notes by national banking associations was first authorized by an act entitled "An act to provide a national currency secured by a pledge of United States stocks, and to provide for the circulation and redemption thereof," approved February 25, 1863, which act was repealed by an act entitled "An act to provide a national currency secured by a pledge of United States bonds, and to provide for the circulation and redemption thereof," approved June 3, 1864. The act approved June 3, 1864, with subsequent amendments thereof, was embodied in the Revised Statutes of the United States in 1873. The law as embodied in the Revised Statutes has been amended from time to time, and is now contained in what is known as the National-Bank Act, with amendments thereof.

SECURITY.

Under the provisions of existing law a national bank is required to deposit interest-bearing bonds of the United States with the United States Treasurer as security for its circulating notes in the following minimum amounts:

- (1) Banks with a capital not exceeding \$150,000 must deposit bonds, par value, to an amount not less than one-fourth of their capital stock.
- (2) Banks with a capital exceeding \$150,000 must deposit bonds to the amount of at least \$50,000, par value.

The maximum amount of bonds, at their par value, which may be deposited by a national bank must not exceed the amount of the bank's capital stock.

The proportion of circulating notes issued against bonds deposited as security therefor is 90 per cent of the par value of said bonds, or of the market value of said bonds if the bonds are below par.

PROFITS ON CIRCULATION.

Figures given on page 355, volume 1, Comptroller's Report for 1895, show that in 1895 a bank would make from one-half to 1 per cent per annum more by investing in 2 and 4 per cent bonds and taking out circulation than by investing the same amount at 6 per cent per annum. Wherever the current rate of interest is above 7 per cent it is, therefore, unprofitable to a bank to take out circulation.

OWNERSHIP OF STOCK.

An official investigation made by the Comptroller in 1895 shows that on October 31, 1895, the stock of 3,715 national banks, with a capital of \$664,136,915, was owned by 285,190 shareholders.

PROFITS ON CAPITAL INVESTED.

On page 428, volume 1, Comptroller's Report for 1895, is a table showing annual profits made by national banks for twenty-six years, based upon sworn reports made by the banks. The annual average percentage of profit for this period was 8 per cent, while the profit for the year 1895 was but 5 per cent.

SUPERVISION.

Every national bank is required by law to make to the Comptroller not less than five sworn reports every year, showing in detail its resources and liabilities, and it is required to publish same in a local newspaper; also, to make a sworn report of every dividend declared, which also shows gross earnings, losses, expenses, and net profits.

The affairs of every bank are also examined about twice a year by an examiner who verifies its assets and audits its accounts, and the examiner is empowered by law to examine every officer and employee of the bank under oath, if necessary to find out its true condition.

CAPITAL BASED ON POPULATION.

A national bank may be organized by not less than five shareholders anywhere in the United States, subject to the following-mentioned requirements as to capital and population:

- (1) With not less than \$50,000 capital in any place having 6,000 inhabitants or less.
- (2) With not less than \$100,000 capital in any city having over 6,000 but not more than 50,000 inhabitants.
- (3) With not less than \$200,000 capital in any city having over 50,000 inhabitants.

AMOUNT OF NATIONAL-BANK CIRCULATION.

The aggregate capital of national banks October 31, 1895, was \$664,136,915. Under the law the banks were entitled to issue circulation to the amount of \$597,720,000. The actual amount of circulation outstanding on that date was \$213,887,630, including \$23,706,669, notes of banks which have failed, gone into liquidation, or have reduced their circulation.

Kinds of money received on account of miscellaneous by assistant treasurers of the United States.

Period.	National bank notes.	United States notes.	Treasury notes of 1890.	Gold certificates.	Silver certificates.	Gold coin.	Standard dollars.	Subsidiary silver.	Minor coin.	Totals.

Aggregate.....	3, 110, 981	193, 639, 619	40, 243, 989	2, 439, 947	204, 285, 269	44, 899, 381	6, 578, 031	235, 038	7, 307	491, 930, 562

NOTE.—This statement shows only the revenues deposited in *subtreasuries*. There is no means of ascertaining the kinds of money in which the remaining revenue were paid, as no account is kept by national bank depositaries of the kind of funds deposited with them by collectors of internal revenue and other United States officers.

AN ACT DIRECTING THE PURCHASE OF SILVER BULLION AND THE
ISSUE OF TREASURY NOTES THEREON, AND FOR OTHER PURPOSES.

[PUBLIC—No. 214. 1890.]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury is hereby directed to purchase, from time to time, silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered in each month, at the market price thereof, not exceeding one dollar for three hundred and seventy-one and twenty-five hundredths grains of pure silver, and to issue in payment for such purchases of silver bullion Treasury notes of the United States to be prepared by the Secretary of the Treasury, in such form and of such denominations, not less than one dollar nor more than one thousand dollars, as he may prescribe, and a sum sufficient to carry into effect the provisions of this act is hereby appropriated out of any money in the Treasury not otherwise appropriated.

SEC. 2. That the Treasury notes issued in accordance with the provisions of this act shall be redeemable on demand, in coin, at the Treasury of the United States, or at the office of any assistant treasurer of the United States, and when so redeemed may be reissued; but no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom, then held in the Treasury purchased by such notes; and such Treasury notes shall be a legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract, and shall be receivable for customs, taxes, and all public dues, and when so received may be reissued; and such notes, when held by any national banking association, may be counted as a part of its lawful reserve. That upon demand of the holder of any of the Treasury notes herein provided for the Secretary of the Treasury shall, under such regulations as he may prescribe, redeem such notes in gold or silver coin, at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law.

SEC. 3. That the Secretary of the Treasury shall each month coin two million ounces of the silver bullion purchased under the provisions of this act into standard silver dollars until the first day of July eighteen hundred and ninety-one, and after that time he shall coin of the silver

bullion purchased under the provisions of this act as much as may be necessary to provide for the redemption of the Treasury notes herein provided for, and any gain or seigniorage arising from such coinage shall be accounted for and paid into the Treasury.

* * * * *
Approved, July 14, 1890.

MEANING OF 16 TO 1.

The phrase "16 to 1," as applied to coinage, means that the mint value of sixteen ounces of silver shall be equal to the mint value of one ounce of gold; that is, that sixteen ounces of silver shall be coinable into as many standard silver dollars as one ounce of gold is coinable into standard gold dollars.

STANDARD BULLION.

Standard bullion contains 900 parts of pure gold or pure silver and 100 parts of copper alloy.

The coining value of an ounce of pure gold is \$20.67183, and the coining value of an ounce of standard gold is \$18.60465.

The coining value in standard silver dollars of an ounce of pure silver is \$1.2929, and the coining value of an ounce of standard silver is \$1.1636.

WHAT IS SEIGNIORAGE.

This term, as used in the United States, means the profit arising from the coinage of bullion. The Government does not purchase gold bullion, but coins it on private account. There is no profit from the coinage of gold bullion, the face value of gold coins being the same as their bullion value; but, at the present ratio of 16 to 1, the face value of the silver dollar is greater than its bullion value; therefore, when silver bullion is purchased and coined into dollars there is a profit arising from such coinage, the amount of which depends upon the price paid for the bullion. For example, there are $371\frac{1}{2}$ grains of pure silver in a dollar, and there are 480 grains of pure silver in a fine ounce. The coining value of a fine ounce is therefore \$1.2929—. If the fine ounce can be purchased for 70 cents, the profit of its coinage (the seigniorage) is \$0.5929—, and the profit on the $371\frac{1}{2}$ grains of pure silver in the single dollar is \$0.4586—, which is the difference between the actual cost of the bullion in the dollar and the nominal value of the coin.

The silver purchased by the Government is carried on the books of the Treasury at its actual cost, and the seigniorage is declared on the coinage of each month and paid into the Treasury.

COINAGE OF GOLD.

In the United States there is free and unlimited coinage of gold; that is, standard gold bullion may be deposited at the mints in any

amount, to be coined for the benefit of the depositor, without charge for coinage; but when other than standard bullion is received for coinage a charge is made for parting, or for refining, or for copper alloy, as the case may be. Refining is the elimination from the bullion of all base metals. Parting is the separation of any silver which may be contained in the bullion. The charges for these operations vary according to the actual expenses. When copper is added for alloy a charge of 2 cents per ounce is made for the amount actually added. The depositor receives in gold coin the full value of the gold in his bullion, less such charges as are indicated above.

The mints may lawfully refuse to receive gold bullion of less value than one hundred dollars, or when it is too base for coinage; but in practice deposits of gold bullion are accepted without regard to amounts, and rejected only when too base for coinage.

COINAGE OF SILVER.

Under existing law in the United States subsidiary silver and standard silver dollars are coined only on Government account. They are coined from bullion purchased by the Government and the profits of such coinage belong to the Government. There is at present no authority for the purchase of bullion for the coinage of standard silver dollars, but, if necessary, sufficient bullion may be purchased to maintain the stock of subsidiary silver.

The Government is still coining standard silver dollars from the bullion purchased under the act of July 14, 1890. The amount of bullion on hand November 1, 1893, when the purchasing clause of that act was repealed, was 140,699,852.67 fine ounces, costing \$126,758,280, the coining value of which was \$181,914,961. Between November 1, 1893, and September 1, 1896, there were coined from this bullion 15,169,491 standard silver dollars, of which \$10,410,528 represent the cost of the bullion coined and are held in the Treasury for the redemption of Treasury notes of 1890, while the remainder, \$4,758,433, constitute the gain or seigniorage, and, being the property of the United States, have been paid into the Treasury to be used like other available funds.

The seigniorage is an addition to the volume of money in the country, while the silver dollars representing the cost of the bullion are not, since they are only paid out in redemption of the Treasury notes of 1890, whereupon the latter are canceled and retired, as prescribed by the act of July 14, 1890.

For other particulars respecting silver dollars and subsidiary silver see pages 8, 9, and 11 and the coinage tables herein contained.

TRADE DOLLARS.

The trade dollar of 420 grains troy was authorized by the act of February 12, 1873. It was intended for circulation in oriental countries

as a substitute for the Mexican dollar, which it slightly exceeded in weight; but by the terms of the authorizing act it was made legal tender in the United States in sums not exceeding \$5.

This legal-tender quality was withdrawn by the joint resolution approved July 22, 1876, and the coinage was limited to such amount as the Secretary of the Treasury should consider sufficient to meet the export demand. The act of February 19, 1887, provided for the retirement of the trade dollar and its recoinage into standard silver dollars or subsidiary silver. For six months after the passage of the act it could be exchanged at the Treasury or any subtreasury, dollar for dollar, for standard silver dollars or subsidiary coin.

The total number of trade dollars coined was 35,965,924. The number redeemed under the act of 1887 was 7,689,036, and from the bullion resulting from the melting of these dollars there were coined in subsidiary silver \$2,668,674.30, and into standard silver dollars \$5,078,472. Since the expiration of the period of redemption above mentioned, trade dollars have been purchased as bullion when presented at the mints.

FREE AND UNLIMITED COINAGE OF SILVER.

This term, as used at present in the discussion of the coinage question, means the right of any person to deposit standard silver bullion in any amount at the mints of the United States and have it coined at the expense of the Government, such depositor to receive in return for his bullion silver coins containing in the aggregate the same weight of fine silver as brought to the mint.

Any coinage under a future law would depend upon the terms of that law. (See "Coinage of gold.")

UNLIMITED COINAGE.

Coinage may be unlimited, without being entirely free. It would be unlimited if any owner of bullion had the right to deposit it at the mint and have it converted into coins without any restrictions as to the amount.

FOREIGN COINS NOT LEGAL TENDER.

Section 3584 of the Revised Statutes of the United States provides that no foreign coins shall be a legal tender in the United States.

WORLD'S STOCK OF GOLD AND SILVER COIN IN 1873 AND 1895.

The stock of gold and silver in the world in 1873 and 1895 is estimated to have been as follows:

	1873.	1895.
Gold.....	\$3, 045, 000, 000	\$4, 200, 000, 000
Silver.....	1, 817, 000, 000	4, 100, 000, 000

SUSPENSION OF THE COINAGE OF SILVER DOLLARS FROM 1806 TO 1836.

No silver dollars were coined by the mints of the United States from 1804 until 1835, their coinage having been suspended by order of President Jefferson in the following letter, addressed by James Madison, then Secretary of State, to the Director of the Mint at Philadelphia:

DEPARTMENT OF STATE, *May 1, 1806.*

SIR: In consequence of a representation from the director of the Bank of the United States that considerable purchases have been made of dollars coined at the mint for the purpose of exporting them, and as it is probable further purchases and exportations will be made, the President directs that all the silver to be coined at the mint shall be of small denominations, so that the value of the largest pieces shall not exceed half a dollar.

I am, etc.,

JAMES MADISON.

ROBERT PATTERSON, Esq.,

Director of the Mint.

MEMORANDA FROM THE RECORDS OF THE TREASURY DEPARTMENT.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., September 1, 1896.

During the fiscal year 1888—ended June 30, 1888—the revenues of the Government were \$111,341,273 in excess of its expenditures.

During the fiscal year 1889—ended June 30, 1889—the revenues were \$87,761,080 in excess of the expenditures.

During the fiscal year 1890—ended June 30, 1890—the revenues were \$85,040,271 in excess of the expenditures.

The so-called McKinley tariff act took effect on the 6th day of October, 1890, and during the fiscal year 1891—ended June 30, 1891—the revenues were \$26,838,541 in excess of the expenditures.

During the fiscal year 1892—ended June 30, 1892—the revenues were \$9,914,453 in excess of the expenditures.

During the fiscal year 1893—ended June 30, 1893—the revenues were \$2,341,674 in excess of the expenditures.

During the fiscal year 1894—ended June 30, 1894—the expenditures exceeded the revenues to the amount of \$69,803,260.58, notwithstanding the fact that the expenditures of the Government were \$15,952,674 less than in the preceding year. The McKinley bill was in force during the whole of the fiscal year 1894.

The so-called Wilson tariff act took effect on the 28th day of August, 1894, and the revenues for the fiscal year 1895—ended June 30, 1895—were \$42,805,223.18 less than the expenditures; and during the fiscal year 1896—ended June 30, 1896—the revenues were \$25,203,245.70 less than the expenditures.

Receipts from customs and total receipts from all sources under McKinley Act.

	Customs.	All sources.
Twelve months ending September 30, 1891.....	\$196,794,357.89	\$371,932,536.81
Twelve months ending September 30, 1892.....	185,838,850.19	364,847,601.72
Twelve months ending September 30, 1893.....	180,182,905.46	365,534,609.55
Eleven months ending August 31, 1894.....	112,560,930.77	292,078,842.91

Receipts from customs and total receipts from all sources under Wilson Act.

	Customs.	All sources.
Twelve months ending August 31, 1895.....	\$161,201,169.35	\$295,061,022.16
Twelve months ending August 31, 1896.....	154,218,813.94	321,726,319.37

CONDITION OF THE TREASURY MARCH 1, 1889, AND MARCH 1, 1893.

On the 1st day of March, 1889, the beginning of President Harrison's Administration, the available funds in the Treasury, exclusive of the \$100,000,000 gold reserve, were as follows:

Agency account.....	\$64,502,445.02
Net balance in Treasury.....	165,846,471.10
Total	230,348,916.12

On the 1st day of March, 1893, the beginning of the present Administration, the available funds in the Treasury, exclusive of the \$100,000,000 gold reserve, were as follows:

Agency account.....	\$38,365,832.90
Net balance in Treasury.....	24,084,742.28
Total	62,450,575.18

In addition to the ordinary revenues received during President Harrison's Administration, there was covered into the Treasury \$54,207,975.75, which had been held in trust under the law as a fund for the redemption of national-bank notes. This proceeding was authorized by the act of July 14, 1890, commonly known as the Sherman Act.

PUBLIC DEBT PAID BY THE TWO ADMINISTRATIONS.

From the 1st day of March, 1885, the beginning of Mr. Cleveland's first Administration, to March 1, 1889, the public debt was reduced \$341,448,449.20; and from March 1, 1889, the beginning of Mr. Harrison's Administration, to March 1, 1893, the reduction of the public debt was \$236,527,666.10.

The amount of free gold in the Treasury on the 7th day of March, 1893, when the present Secretary took charge of the Department, was \$100,982,410.

Values of imports and exports of merchandise under the McKinley tariff act.

	Imports.	Exports, domestic and foreign.
October 1, 1890, to September 30, 1891.....	\$824, 716, 842	\$923, 362, 015
October 1, 1891, to September 30, 1892.....	837, 250, 798	996, 226, 775
October 1, 1892, to September 30, 1893.....	830, 150, 318	876, 332, 454
October 1, 1893, to August 31, 1894.....	603, 865, 896	790, 706, 509

a Eleven months.

Values of imports and exports of merchandise under the Wilson tariff act.

September 1, 1894, to August 31, 1895.....	\$759, 108, 416	\$806, 670, 050
September 1, 1895, to July 31, 1896.....	687, 095, 637	837, 802, 519

Excess of exports of merchandise alone and of merchandise and silver under McKinley Act.

	Merchandise.	Merchandise and silver.
October 1, 1890, to September 30, 1891.....	\$98, 645, 173	\$103, 537, 310
October 1, 1891, to September 30, 1892.....	160, 945, 977	175, 091, 707
October 1, 1892, to September 30, 1893.....	45, 132, 116	63, 072, 311
October 1, 1893, to August 31, 1894.....	186, 840, 613	219, 546, 927

Excess of exports of merchandise alone and of merchandise and silver under Wilson Act.

September 1, 1894, to August 31, 1895.....	\$47, 561, 694	\$86, 960, 538
September 1, 1895, to July 31, 1896.....	150, 106, 882	194, 435, 730

Annual average excess of exports of merchandise alone.

Under McKinley Act of 1890.....	\$123, 153, 470
Under Wilson Act of 1894.....	98, 834, 258

Annual average excess of exports of merchandise and silver.

Under McKinley Act of 1890.....	\$141, 712, 189
Under Wilson Act of 1894.....	140, 698, 134

SALES OF GOLD.

During the period of the suspension of specie payments—January 1, 1862, to January 1, 1879—the customs revenues of the Government were collected in gold. A sufficient amount of this gold was reserved to meet that portion of the interest on the public debt which was payable in coin, and the remainder was sold from time to time for currency at the market price by the several assistant treasurers of the United States, under instructions from the Secretary of the Treasury. The currency so obtained, with the currency collected from internal revenue and from other sources, was used to defray the ordinary expenses of the Government. The surplus, if any, was applied, as far as it would go, to the redemption of lawful-money obligations as they fell due, and after their maturity to the purchase of bonds at the market price.

The total amount of gold sold was \$526,506,273.81, and the currency received therefor amounted to \$633,334,089.67.

The average premium obtained was 20.3 per cent.

THE WAR DEBT.

According to the statement of the public debt published October 31, 1865, the interest-bearing debt of the United States was as follows:

Debt bearing interest in coin.

Authorizing acts.	Character of issue.	Amount outstanding.
Authorized before the war.....	6 per cent bonds.....	\$37,754,591.80
Do.....	5 per cent bonds.....	27,022,000.00
July 17 and August 5, 1861.....	6 per cent bonds.....	159,831,400.00
February 25, 1862.....	do.....	514,733,500.00
June 30, 1864.....	do.....	100,000,000.00
March 3, 1865.....	do.....	44,479,100.00
March 3, 1864.....	5 per cent bonds.....	172,770,100.00
March 3, 1863.....	6 per cent bonds.....	75,000,000.00
Aggregate of debt bearing coin interest.....		1,161,137,691.00

Debt bearing interest in lawful money.

Authorizing acts.	Character of issue.	Amount outstanding.
July 11, 1862.....	4 per cent temporary loan.....	\$612,727.93
Do.....	5 per cent temporary loan.....	31,309,710.65
March 1, 1862.....	6 per cent temporary loan.....	67,185,306.33
March 3, 1863.....	6 per cent certificates of indebtedness.....	55,905,000.00
March 3, 1863.....	5 per cent 1 and 2 year notes.....	32,536,901.00
March 3, 1863, and June 30, 1864.....	6 per cent 3-year compound-interest notes.....	173,012,141.00
June 30, 1864.....	7-30 notes (3-year).....	234,400,000.00
March 3, 1865.....	7-30 notes (3-year).....	595,600,000.00
Aggregate of debt bearing lawful-money interest.....		1,190,561,787.46

All of the war debt authorized after January 1, 1862, was sold at not less than par for United States notes.

The debt bearing interest in lawful money (United States notes) was redeemed in currency or converted into 5-20 bonds authorized by the act of March 3, 1865. These transactions were completed by May 1, 1869. The Government then began using the surplus revenues in the purchase of its bonds at the market price in currency. The average price paid in May, 1869, was 115.84, which was equivalent to 82.72 in gold, or a discount of 17.28. These purchases were continued until September, 1873. The total amount purchased was \$323,253,800; the net cost in currency was \$362,981,483.79 and the net cost in gold was \$307,702,207.64. The average price in currency was 112.27 and the average price in gold was 95.19.

REFUNDING.

The refunding act of July 14, 1870, authorized the sale, at not less than par in coin, of 5 per cent ten-year bonds, $4\frac{1}{2}$ per cent fifteen-year bonds, and 4 per cent thirty-year bonds, the proceeds to be applied to the redemption of the war debt. The refunding operations under this act began in 1871 and continued until the summer of 1879. At first the sales were confined to the 5 per cent bonds. In 1876, when the credit of the United States had sufficiently improved, the $4\frac{1}{2}$ per cent bonds were offered for sale, and in 1877 they were withdrawn and the 4 percents of 1907 substituted. All these classes of bonds were sold at not less than par for gold or its equivalent, and the proceeds were used in redeeming, in gold, an equal amount of the bonds representing the war debt.

The classes of bonds sold for refunding and the bonds redeemed with the proceeds are shown in the following tables:

Five per cent loan of 1881	\$500,000,000
Four and one-half per cent loan of 1891	185,000,000
Four per cent loan of 1907	710,345,950
Total	1,395,345,950

BONDS REDEEMED.

Six per cent five-twenties of 1862	\$401,143,750
Six per cent five-twenties of March, 1864	1,327,100
Six per cent five-twenties of June, 1864	59,185,450
Six per cent five-twenties of 1865	160,144,500
Six per cent consols of 1865	211,337,050
Six per cent consols of 1867	316,423,800
Six per cent consols of 1868	37,677,050
Five per cent loan of 1858	14,217,000
Five per cent ten-forties of 1864	193,890,250
Total	1,395,345,950

A considerable amount of 5 per cent bonds (about sixty-five millions) was exchanged at the beginning of the refunding operations, bond for

bond, for 6 percents. These exchanges are included in the above tables.

The annual saving of interest to the Government by the refunding operations was \$19,900,846.50.

The greater part of the war debt was sold for currency. Bonds amounting to \$1,395,345,950 were redeemed in gold, and the gold with which they were redeemed was obtained from the purchasers of other bonds bearing lower rates of interest.

The refunding operations included all the bonds which up to 1879 had become redeemable. As the remaining war debt matured it was either continued at a lower rate of interest or redeemed in gold. The continued bonds were also redeemed from time to time, as the surplus revenues permitted, until no bonds remained outstanding except those authorized by the refunding acts. These last-mentioned bonds and all the bonds now outstanding are payable in "coin."

The foregoing statement does not include the bonds, payable in lawful money, which were issued in aid of Pacific railroads.

GOVERNMENT RATES FOR TELEGRAPHING.

1896.

Department Circular No. 124.

Division of S., P., and B.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., July 25, 1896.

The following communication from the Postmaster-General, prescribing rates to be paid by the Government for telegraphing for the fiscal year ending June 30, 1897, is hereby published for the information of officers of the Treasury Department and others whom it may concern. Officers of this Department are specially informed that no charge in excess of these rates will be allowed by the accounting officers.

The Department and office should be designated upon all official telegrams sent.

W. E. CURTIS,

Acting Secretary.

RATES OF PAY FOR COMMUNICATIONS BY TELEGRAPH.

POST-OFFICE DEPARTMENT,

Washington, D. C., June 26, 1896.

ORDER No. 407.

Pursuant to the authority vested in the Postmaster-General by the Act of Congress entitled "An Act to aid in the construction of telegraph lines, and to secure to the Government the use of the same for postal, military, and other purposes," approved July 24, 1866, and by the Revised Statutes of the United States, Title LXV, I hereby fix the rates at which such communications as the said statutes prescribe (not including those passing over circuits established by the Chief of the Weather Bureau, Department of Agriculture) shall be sent during the fiscal year beginning July 1, 1896, and terminating June 30, 1897, by the several companies within the effect of said statutes, as follows:

For day messages containing not more than twenty (20) words, exclusive of place from and date, twenty (20) cents, not exceeding one thousand (1,000) miles, and one cent for each additional word. One quarter of this rate to be added for each five hundred (500) miles, or fraction thereof, but no rate on a message of twenty (20) words to be more than forty (40) cents, nor on an additional word more than two (2) cents. The rate between all points in any State, Territory, or the District of Columbia shall be twenty (20) cents for twenty (20) words, and one cent for each additional word.

In cases where the price of a message, determined as herein provided, shall include a fraction of a cent, such fraction, if less than one half, is to be disregarded; if one half or more, it is to be counted as one cent.

For night messages not exceeding twenty (20) words, exclusive of place from and date, fifteen (15) cents for any distance within two thousand (2,000) miles, and for greater distances twenty-five (25) cents; in each case one cent for each additional word.

Instead of computing the actual distances of transmission, the distance for payment shall in all cases

be taken absolutely to be the number of miles between the capital of the State or Territory, or from the city of Washington, if from within the District of Columbia, from within which (whatever the place) the message is sent, and the capital of the State or Territory, or the city of Washington, if within the District of Columbia, within which (whatever the place) the message is received, as shown in the accompanying table, wherein such distances are given as computed upon the shortest practicable route between such capitals, and which is to be taken as part of this order.

But it is provided that if, on the 1st day of July, 1896, or at any time during the ensuing year, any such company shall charge the public for a message of ten words or less, exclusive of the date, address, and signature, a less rate than is herein fixed for twenty words, exclusive of place from and date, the rates here prescribed shall, as to such company, thenceforth during the year be reduced to the rates so charged to the public.

The statutes provide that telegrams between the several Departments of the Government and their officers and agents, in their transmission over the lines of any such company, shall have priority over all other business. All officers of the United States sending such telegrams should indorse thereon the words "Official Business," and should report to the Postmaster-General any failure to transmit them in such priority, and any charge made in excess of the rates above prescribed.

Each company will be allowed to charge for messages received from another line at the same rate as if received from the Government direct, at the point of transfer for transmission over its own line.

WM. L. WILSON,
Postmaster-General.

Telegraph companies which have accepted the conditions of the act of July 24, 1866, and which are subject to the provisions of the order of the Postmaster-General fixing Government rates.

The following is a list of telegraph companies that have filed acceptance of the provisions of the act of July 24, 1866, up to the present date:

1. The American Submarine Telegraph Company of New York, N. Y. Received and filed July 24, 1866.
2. The National Telegraph Company of New York, N. Y. Received and filed July 30, 1866.

DUTIES OF CLASSIFIED AND UNCLASSIFIED EMPLOYEES.

1896.

Department Circular No. 126.

Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 27, 1896.

To Principal Officers in and under the Treasury Department:

You are hereby ordered not to permit employees under your control and direction, who under the law are not in the classified service, to perform the duties of offices or places which are in the classified service, and not to permit employees under your control and direction, who are in the classified service, to perform the duties of offices or places which are not in the classified service.

A violation of these instructions will result in the abolishment of offices not in the classified service.

J. G. CARLISLE,

Secretary.

UNIVERSITY OF CHICAGO

1968

REGULAR ACCOUNT FOR FEES, MILEAGE, SUBSISTENCE, OR OTHER ALLOWANCES TO
INCLUDE ALL CLAIMS FOR PERIOD COVERED BY IT.

1896.
Department Circular No. 127.

Treasury Department,

OFFICE OF COMPTROLLER OF THE TREASURY,

Washington, D. C., July 30, 1896.

All officers or employees of the Government whose compensation is derived from fees, allowances, or in anywise other than by a fixed salary, or who are entitled to receive, as appertaining to their respective offices or positions, any emoluments or perquisites, as mileage, subsistence, or other allowances, and who are required by law, or regulation of the accounting officers or of the heads of their respective departments or establishments, to render their accounts quarterly or at other definitely fixed periods, must comply strictly with the law or regulation in order to have their claims or accounts for such compensation or allowances adjusted by the accounting officers of the Treasury. All items constituting claims by these officers or employees for compensation or other emoluments or perquisites accruing to them during the period for which they are to present their account must be presented in the account for the period in question, and hereafter the accounting officers will not entertain any supplemental accounts for compensation or emoluments or perquisites of such officers or employees for the same periods covered by any accounts previously rendered.

Provided, however, That this regulation may be waived by the Comptroller of the Treasury in any particular case upon the special request of the Auditor having jurisdiction of any account where manifest justice requires such action in order to correct clerical or other inadvertent omissions by the officer or employee presenting the account; *provided, further,* that no such supplemental account shall be entertained for a period earlier than one year from the filing of said supplemental account with the department or establishment in cases where an administrative examination of such account is required, or with the proper accounting officer of the Treasury in cases where there is no such administrative examination.

R. B. BOWLER,
Comptroller.

APPROVED:

J. G. CARLISLE,
Secretary.

Department of the Treasury

Office of the Comptroller of the Treasury

July 20, 1938

Dear Sir: This communication is being sent to you for information. It is to advise you that the Department of the Treasury has received from the Office of the Comptroller of the Treasury a report of the results of an audit of the accounts of the Department of the Treasury for the year ending June 30, 1938. The report shows that the accounts are in accordance with the law and regulations governing the Department of the Treasury. It also shows that the accounts are properly maintained and that the Department of the Treasury is in a position to meet its obligations. The report is being sent to you for your information and for your use in the conduct of your duties.

This report is being sent to you for your information and for your use in the conduct of your duties. It is not intended to be a final determination of the Department of the Treasury's liability. The Department of the Treasury reserves the right to conduct further audits and to make such other determinations as it may deem necessary. The Department of the Treasury is not responsible for the accuracy or completeness of the information contained in this report. The Department of the Treasury is not liable for any damages or losses resulting from the use of this report. The Department of the Treasury is not responsible for the actions of any individual or organization that may rely on the information contained in this report.

H. H. ROSS

1896.
Department Circular No. 128.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., July 30, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending July 18, 1896.

W. E. CURTIS,
Acting Secretary.

REPORT ON REAPPRAISEMENTS FOR THE WEEK ENDING JULY 18, 1896.

N. B.—In corresponding with the Board of General Appraisers relative to any of the items in this report, reference should always be made to the number of Reappraisement.

Officers will make the corrections indicated above in each copy of the catalogue (including the index) in use in their respective offices, and use such corrected catalogues in making requisitions until otherwise directed.

Officers should also see that their catalogues contain the changes enumerated in Department Circulars No. 97 of 1893 and No. 119 of 1894, copies of which will be furnished upon application.

S. WIKE,
Assistant Secretary.

FREE ENTRIES FOR CONSUMPTION OF MERCHANDISE INTENDED FOR IMMEDIATE EXPORTATION.

1896.

Department Circular No. 131.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., August 11, 1896.

To Collectors and other Officers of the Customs on the Northern Frontier:

In order to facilitate the transit and exportation of small packages sent from contiguous foreign territory through the United States for immediate exportation, it is hereby directed that whenever the contents of such packages consist of merchandise which is not subject to duty under the laws of the United States, entry for consumption may be made at the port of arrival, without the exaction of consular certificate, but a bond will be taken in double the value of the goods, conditioned upon the production within three months of satisfactory evidence of the exportation of the goods.

S. WIKE,
Assistant Secretary.

DUTIES OF CLASSIFIED AND UNCLASSIFIED EMPLOYEES.

1896.
Department Circular No. 132.
Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., August 19, 1896.

To Principal Officers in and under the Treasury Department:

Department Circular No. 126, July 27, 1896, is amended so as to read as follows:

You are hereby directed not to permit employees under your control and direction who under the law are not in the classified service to perform the duties of offices or places which are in the classified service, nor to permit employees under your control and direction who are in the classified service to perform the duties of offices or places which are not in the classified service, except in addition to, but not in lieu of, their regular duties.

Provided, however, that persons who prior to May 6, 1896, were not included in the classified service, but prior to that date, and also on June 13, 1896, were regularly assigned to work of the same grade as that performed by classified employees, may be continued upon such work.

If these instructions are not rigidly observed, it may become necessary to discontinue all offices not in the classified service.

Respectfully, yours,

W. E. CURTIS,
Acting Secretary.

Financial Department

1918
No. 123
Department

OFFICE OF THE DIRECTOR

Washington, D. C., February 1, 1918

Respected Officers in and under the Treasury Department:

Reference is made to the circular of the Director of the Treasury Department, dated January 15, 1918, and to the instructions thereto, which are hereby directed to be observed by all persons in the Treasury Department and in the classified service thereof, in the performance of their duties, to permit employees to be engaged in the performance of their duties in the office of the Director of the Treasury Department, and to the duties of officers of the Treasury Department, and to the duties of their respective offices.

It is hereby directed that persons engaged in the performance of their duties in the Treasury Department, and in the classified service thereof, shall be permitted to be engaged in the performance of their duties in the office of the Director of the Treasury Department, and to the duties of officers of the Treasury Department, and to the duties of their respective offices, in accordance with the instructions herein set forth.

Very truly yours,
Director

*RONDOUT, IN THE DISTRICT OF NEW YORK, DESIGNATED AS A POINT FOR DISCHARGE
OF BULKY CARGOES UNDER SECTION 29 OF ACT OF JUNE 26, 1884.*

1896.

Department Circular No. 133.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., August 21, 1896.

To Collectors and other Officers of the Customs:

Under the authority conferred by Section 29 of the Shipping Act of June 26, 1884, I hereby designate Rondout, in the collection district of New York, as a place to which vessels, arriving at the port of entry in that district laden with coal, salt, railroad iron, and other like articles in bulk, may proceed, under the superintendence of customs officers, at the expense of the parties interested, for the purpose of unloading cargoes of the character before mentioned.

CHARLES S. HAMLIN,

Acting Secretary.

INFORMATION RESPECTING NATIONAL BANKS, STATE BANKS, SAVINGS
BANKS, LOAN AND TRUST COMPANIES, AND PRIVATE BANKS OF THE
UNITED STATES.

1896.
Department Circular No. 136.

Comptroller of the Currency.

Treasury Department,

OFFICE OF THE

COMPTROLLER OF THE CURRENCY,

Washington, D. C., September 10, 1896.

The requests for information relative to the national banking system and banking in general having exhausted the supply of reports of the Comptroller of the Currency for recent years, it has been found necessary, in order to supply a still further demand, to embody in the accompanying circular such extracts from former reports as will, in a limited space, furnish the data and information desired.

JAMES H. ECKELS,
Comptroller of the Currency.

APPROVED:

CHARLES S. HAMLIN,
Acting Secretary.

NOTE 1.—Specie payments were suspended from January 1, 1862, to January 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific Coast, where, it is estimated, the specie circulation was generally about \$25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1875, inclusive.

NOTE 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

NOTE 3.—The coinage of standard silver dollars began in 1878 under the act of February 28, 1878.

NOTE 4.—Specie payments were resumed January 1, 1879, and all gold and silver coins as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

KINDS AND AMOUNTS OF UNITED STATES BONDS HELD TO SECURE CIRCULATING NOTES OF NATIONAL BANKS ON JUNE 30 OF EACH YEAR FROM 1865 TO 1895, AND THE AMOUNT OWNED AND HELD BY THE BANKS FOR OTHER PURPOSES, INCLUDING THOSE DEPOSITED WITH THE TREASURER TO SECURE PUBLIC DEPOSITS.

[Extract from Comptroller's report for 1892.]

LAWFUL-MONEY RESERVE.

Not less attention has been attracted during the present year, and particularly during the closing months of the year, to the subject of lawful-money reserve to be held by the banks, than to that of clearing-house loan certificates, and the discussion provoked has been quite as widespread.

As the law now stands, all national banks, outside of certain designated "reserve cities," are required to maintain a reserve fund equal to 15 per cent of the net deposits made with such banks by individuals and by other banks and bankers. They are permitted by law to deposit not over three-fifths of this 15 per cent (or 9 per cent) with such national banks located in the "reserve cities" as the outside banks may with the Comptroller's approval select. The remaining two-fifths (or 6 per cent) must be kept in bank in lawful money, or more, if less than three-fifths is kept with reserve agents. The national banks located in reserve cities are divided into two classes: (1) Those in the "central" reserve cities of New York, Chicago, and St. Louis being required to keep 25 per cent of their net deposits in bank in *lawful money*, with the privilege of acting as the reserve agents of any national banks located outside of these three cities. (2) Those located in the reserve cities, other than New York, Chicago, and St. Louis, being required to keep 25 per cent of their net deposits on hand, not over one-half of which may be deposited with any national bank or banks located in any of the three central reserve cities, while the remainder must be actually on hand in lawful money. The banks in the reserve cities of this class have the privilege of holding a part of the reserve of any bank or banks located outside of all reserve cities, viz, banks of the 15 per cent class.

In effect these requirements are not as onerous as they appear, for a national bank in New York City holding \$100,000 of the reserve of any other bank or banks on deposit must keep only \$25,000 of the amount on hand in money, while it is at liberty to lend or otherwise invest the remaining \$75,000. So a bank in a reserve city of the second class holding \$100,000 on deposit for other national banks may loan out or invest \$75,000 of the amount, and of the remaining \$25,000 must keep \$12,500 in bank in money and may deposit \$12,500 with its reserve agents, receiving a low rate of interest (usually 2 per cent) on the same. A bank of the 15 per cent class must keep only 6 per cent of its depositors' money actually on hand in bank, and is at liberty to deposit not over 9 per cent with its reserve agents, on which it usually receives a low rate of interest. To illustrate the operation of the law it will be found that with normal conditions of business the banks in reserve cities (not central) held on December 9, 1892, net deposits amounting to \$495,196,952, against which they held \$77,869,593 cash in bank, or about 16 per cent, and the 15 per cent banks held net deposits of \$975,622,088, and against these \$108,012,546 cash in bank, or about 11 per cent. Again, a large portion of the reserve actually held by the banks can not be considered as taken out of circulation, or as hoarded through operation of the law, for much of it is paid out during each business day, other money coming in through deposits to take the place of that paid out.

In any view of the matter, however, the intent of the law is to compel a bank to retain always on hand a very moderate proportion of the

money deposited with it for safe-keeping by the depositor, who practically makes a loan to the bank payable on demand, for the use of which he ordinarily receives no interest. The entire effect is to exercise a wholesome restraint upon a tendency to an undue extension of business by a bank, and that this intent is recognized as an underlying principle of safe and conservative commercial banking is evidenced by the fact that those banks which are compelled by law to maintain but 15 per cent reserve have voluntarily for years past held an average of over 25 per cent, the proportion required for banks located in reserve cities.

The evident theory of the law is that a bank shall always have on hand such an amount of lawful money as will enable it under normal conditions of business to meet the current demands of its depositors. A careful examination of section 5191, United States Revised Statutes, as amended, will show that it is expected that emergencies will arise under which this fund will fall below the legal requirements. This contingency is distinctly recognized by the plain provisions contained in the section named, prescribing what shall be done "whenever the lawful money reserve of any association shall be below the amount" of the required percentage of its deposits. The provisions referred to are that the bank shall make no new loans or discounts, except the discount of bills of exchange payable at sight, nor make any dividend of its profits until the required amount of reserve has been again accumulated. The reason for this is obvious. The depletion of a bank's reserve occurs either because the bank has loaned out or otherwise invested too great a proportion of the funds it has received on deposit, or that its depositors have withdrawn their money to an extent which produces a similar result. In either case the only safe and prudent course for the bank to pursue is to cease paying out money in any direction except to depositors until either through the collection of demand or maturing loans on the one hand, or the receipt of deposits on the other, the required proportion has been restored. The discount of sight bills of exchange is excepted because money invested in this way will be repaid immediately, and in this branch of its business the bank's customers will be caused no inconvenience and the commercial interests of the country be thus protected from loss which otherwise might ensue.

The provision of law governing the time allowed a bank to make good a depleted reserve is most lenient. It provides that the Comptroller *may* notify the bank to make good its reserve, and further that if it fails for thirty days thereafter to do this the Comptroller, with the concurrence of the Secretary of the Treasury, *may* appoint a receiver for the bank. However, before the Comptroller can send notice to any bank he must have reliable information that its reserve is deficient, and as the source of such information is either the report of its examination heretofore made once a year, but hereinafter to be made twice, or its sworn report of condition made five times a year, some time *may* intervene before such condition becomes known to him. Again, when he is officially informed, the use of the word *may* both as to his sending notice and as to his appointing a receiver in a case of noncompliance with such notice, plainly leaves the enforcement of the law to the discretion of the Comptroller in either or both of these particulars. This power thus conferred upon the Comptroller is one that ought to be used with great prudence and caution. It would be not only unwise but would work great injury to the business interests of individual communities and the general public to exercise the authority thus vested in him at a time when arbitrary action must necessarily result in general disaster, and therefore in the interest of the public the discretion given

to the Comptroller has always been used with moderation. It is this moderation which in an emergency has in numerous instances contributed in no small degree to averting widespread financial ruin. In this view there can be no question as to the legality and propriety of a bank's exhausting its entire reserve, if necessary, in an emergency, to pay its depositors, but for no other purpose, except to discount or buy sight bills of exchange, and where the withdrawal of deposits continues or is likely to continue no careful bank manager needs to be informed that not only must he cease to make new loans and discounts, but must replenish his exhausted stock of lawful money by converting his resources into cash through collections of loans and discounts or selling securities, or, where this is not possible, by using these assets to borrow the money needed to enable him to meet his liabilities.

[Extract from Comptroller's report for 1892.]

SUBSTITUTES FOR MONEY.

The subject of the currency of the country, always one of interest and importance, is especially so at the present time, because of the differences which obtain in the minds of the people in regard to what the currency should be and under what authority it should be created.

It will appear from the statistics given in this report to what extent the use of money is minimized by means of clearing-house organizations in our principal cities, and for the purpose of showing to what a limited extent actual money enters into the business transactions of the country, I have followed the precedent set by my predecessors in office in 1881 and 1890, and asked all the banks under the supervision of this Bureau to report all receipts for the 15th day of September, 1892, separately stated and classified.

My object in this report has been to furnish reliable data from which the public could see and realize how small a percentage of business transactions are represented by actual money, and how impossible it is for the Government to furnish a volume of currency sufficient to meet the wants of the people at all times—that is, in time of general distrust or quasi panic.

Over 90 per cent of all business transactions are done by means of credit. When the public lose confidence and credit is impaired and refused, over 90 per cent of all business transactions are directly affected. It is easy to realize how impossible it is for the remaining 10 per cent of money to carry on the business of the country without monetary stringency and financial distress.

The refusal to extend or continue credit, the demand for payment in money, leaves the actual money or currency of the country, be it \$24 per capita or \$50 per capita, utterly powerless to supply business needs.

Out of the 3,759 banks reporting their condition on July 12, reports were received from only 3,473 in time for insertion in this report. Those failing to report were the newer and less important institutions, hence the data received may be taken as fairly representing the business of the country.

The total receipts of the 3,473 banks on September 15, 1892, were \$331,205,213. September 17, 1890, 3,474 banks reported total receipts of \$327,278,251. The classification is the same and the percentage slightly varies.

The following table shows the character, amount, and percentage of receipts of national banks on September 15, 1892:

Character of receipts.	September 15, 1892.	
	3,473 banks.	Percentage of total receipts.
Gold coin	\$2,907,017	0.88
Silver coin	1,372,054	.41
Gold Treasury certificates	3,407,340	1.03
Silver Treasury certificates	6,537,015	1.97
Legal tenders	8,531,514	2.58
Treasury notes	2,675,269	.81
National bank notes	3,454,483	1.04
United States certificates of deposit for legal tenders	2,210,000	.67
Checks, etc.	154,959,059	46.79
Clearing-house certificates	2,691,829	.81
Exchanges for clearing house	141,873,266	42.33
Miscellaneous	586,367	.18
Total	331,205,213	100.00

From the preceding table it appears that 9.39 per cent of the transactions were represented by actual cash, the balance by checks, drafts, exchanges, and other substitutes for money.

The following table shows the character, amount, and percentage of receipts of national banks in the central reserve cities, etc., on September 15, 1892:

Character of receipts.	New York.	Chicago.	St. Louis.	Other reserve cities.	Country.	Total.	Percent- age of total re- ceipts.
	48 banks.	21 banks.	8 banks.	252 banks.	3,144 banks.	3,473 banks.	
Gold coin.....	\$87,636	\$76,681	\$10,507	\$567,447	\$2,224,740	\$2,907,017	0.88

Silver Treasury certificates.	.65	1.78	6.12	2.03	3.87	1.97
Legal tenders.....	2.22	1.58	2.64	2.33	3.69	2.58
Treasury notes.....	1.18	.74	.36	.40	.69	.81
National-bank notes.....	.24	.70	1.89	.75	2.69	1.04
United States certificates of deposit for legal tenders..	1.05			.85	.08	.67
Checks, etc.....	28.43	52.12	42.26	46.87	73.93	46.79
Clearing-house certificates.			10.11	2.64	.12	.81
Exchange for clearing house.	63.93	42.40	35.46	42.71	10.30	42.83
Miscellaneous.....				.14	.56	.18
Total.....	100.00	100.00	100.00	100.00	100.00	100.00

It will be noted from the above table that the percentage of cash received was, in the city of New York 7.64+, in Chicago 5.48+, in St. Louis 12.17+. In the other reserve cities 7.64+, in the country banks 15.09+, and the cash percentage of the total receipts 9.39+.

The next table exhibits the total receipts of all reporting banks on five dates, classified as follows:

United States.	June 30, 1881.		September 17, 1881.		July 1, 1890.	
	1,966 banks.		2,182 banks.		3,364 banks.	
		<i>Per ct.</i>		<i>Per ct.</i>		<i>Per ct.</i>
Gold coin	\$1,864,105	0.65	\$4,078,044	1.38	\$3,726,605	0.89
Silver coin	440,988	.16	500,302	.17	1,352,647	.32
Paper currency	11,554,747	4.46	13,821,571	4.36	26,517,364	6.29

Total	284,714,016	100.00	295,233,779	100.00	421,824,726	100.00

United States.	September 17, 1890.		September 15, 1892.	
	3,474 banks.		3,473 banks.	
		<i>Per ct.</i>		<i>Per ct.</i>
Gold coin	\$3,702,772	1.13	\$2,907,017	0.88
Silver coin	1,399,991	.43	1,372,054	.41
Paper currency	24,210,463	7.40	26,815,621	8.10
Checks, drafts, etc	297,965,025	91.04	300,110,521	90.61
Total	327,278,251	100.00	331,205,213	100.00

In order to exhibit the comparative importance of the transactions taking place in four principal cities, a table is added showing the total receipts by banks located in New York City, Boston, Philadelphia, and Chicago, separately stated for the five days, to which is added like information in respect to the other reserve cities and all other banks.

RECEIPTS.

Banks in four principal cities and elsewhere.	June 30, 1881.	September 17, 1881.	July 1, 1890.	September 17, 1890.	September 15, 1892.
New York	\$187,437,759	\$165,193,347	\$165,923,382	\$129,451,472	\$130,978,903
Boston	33,088,089	24,094,061	43,463,559	26,531,841	27,339,245
Philadelphia	18,061,565	17,890,648	38,094,099	23,273,886	23,369,882
Chicago	8,141,189	19,026,895	24,367,551	22,654,923	25,078,114
Total	226,728,593	220,144,891	271,848,591	192,912,122	206,764,204
Other reserve cities	17,809,881	22,970,703	57,930,567	48,198,214	40,727,083
Total reserve cities	244,538,474	243,115,594	329,779,148	241,110,336	247,491,287
All other localities	40,175,542	52,118,185	92,045,578	85,167,915	83,713,926
United States	284,714,016	295,233,779	421,824,726	327,278,251	331,205,213

PERCENTAGE OF TOTAL RECEIPTS BY ALL BANKS.

Banks in four principal cities and elsewhere.	June 30, 1881.	September 17, 1881.	July 1, 1890.	September 17, 1890.	September 15, 1892.
New York	58.81	55.95	39.34	36.80	39.55
Boston	11.62	8.16	10.80	8.11	8.23
Philadelphia	6.34	6.04	9.03	7.11	7.07
Chicago	2.86	4.11	5.78	6.92	7.57
Average of four cities	19.91	18.64	16.11	14.74	15.60
Other reserve cities	6.26	7.78	13.73	14.73	12.30
Average of all reserve cities	5.37	5.15	3.55	3.35	3.35
All other banks	14.11	17.66	21.82	26.39	25.28

The most conspicuous change to be noted in the above table is the increase in the percentage of country banks from 14.11, June 30, 1881, to 25.28 on September 15, 1892.

The variation in the percentage of the different kinds of money, checks, and drafts received, as shown in the statistics for September 15, 1892, do not essentially vary from those of 1890 and 1881. They fully confirm the general character of the banks' transactions. There has been a noted decrease in the amount of national-bank notes received and a corresponding increase in silver certificates and Treasury notes, caused by the retirement of national-bank circulation and its supplanting by money issued directly by the Government. The percentage of checks and drafts in New York in September, 1881, was 98.80; in September, 1890, 95.64, and in September, 1892, it was 92.36, showing a decrease for each of the three years reported, and a corresponding increase in the amount of cash received by the banks over their counters, which brings the cash receipts of the banks in the city of New York very near to the average of the whole country. The average percentage for all other reserve cities shows no material change.

[Extract from Comptroller's report for 1891.]

CLEARING-HOUSE LOAN CERTIFICATES.

The effect of a general monetary stringency is felt first and most seriously by banks located in the larger of the reserve cities. Whenever financial affairs are in a normal condition the surplus funds of the local banks find their way to the vaults of their correspondent banks located in the great centers of business activity. This is undoubtedly due in part to the fact that these deposits may be made available for lawful money reserve and that a small rate of interest is, as a rule, paid upon bank balances by associations in the larger cities, and to the further fact that the maintenance of a good balance with their city correspondents strengthens the claim of the interior banks upon the former for rediscounts when the temporary condition of redundancy passes away and the increased demand for money is greater than the interior banks from their resources can conveniently supply.

Thus it results that the wants of a continent in case of general depression are at last brought through various channels of business activity, by way of withdrawals or loans, to the bankers of the great metropolitan cities for relief, and they are presented in such a form, in many cases, as to preclude the possibility of refusal, if general bankruptcy is to be avoided.

During the period of the stringency above discussed the cities of New York, Philadelphia, and Boston were subjected to the most pressing demands, and after very careful consideration it was decided by the associated banks that the exigency made necessary a resort to the issuing of clearing-house loan certificates, for the purpose of settling clearing-house balances. This expedient had been successfully resorted to during the panics of 1873 and 1874.

At a meeting of the New York Clearing-House Association on the 11th day of November, 1890, the following resolution was unanimously adopted:

Resolved, That a committee of five be appointed by the chair, of which the chairman shall be one, to receive from banks, members of the association, bills receivable and other securities, to be approved by said committee, who shall be authorized to issue therefor, to such depositing banks, loan certificates bearing interest at 6 per cent per annum, and in addition thereto a commission of one-quarter of 1 cent for every thirty days such certificates shall remain unpaid, and such loan certificates shall not be in excess of 75 per cent of the market value of the securities of bills receivable so deposited, and such certificates shall be received and paid in settlement of balances at the clearing house.

Under this resolution a committee of five was appointed, and they proceeded, upon deposit of proper securities, to issue to applying banks loan certificates in the following form:

No. _____ \$20,000
 Loan committee of the New York Clearing-House Association, New York, _____,
 1890.

This certifies that the _____ has deposited with this committee securities in accordance with the proceedings of a meeting of the association held November 11, 1890, upon which this certificate is issued. This certificate will be received in payment of balances at the clearing house for the sum of twenty thousand dollars from any member of the Clearing-House Association.

On the surrender of this certificate by the depositing bank above named the committee will indorse the amount as a payment on the obligation of said bank held by them, and surrender a proportionate share of the collateral securities held therefor. \$20,000.

_____,
 _____,
 Committee.

These certificates were, by unanimous agreement upon the part of the clearing house banks, accepted in lieu of money in the settlement of clearing-house balances.

In order to provide for the retirement of these securities in case the collaterals pledged were found insufficient, the several boards of directors of the associated banks were requested to, and did, pass a resolution in the following form:

Resolved, That any loss resulting from the issue of loan certificates shall be borne by the banks comprising the Clearing-House Association pro rata of capital and surplus, and this resolution shall be ratified by the boards of the respective banks, members of the association, and a certified copy of such consent delivered to the chairman of the loan committee.

This committee, acting under the authority granted by the above resolution, issued to the associated banks loan certificates aggregating \$16,645,000. The first issue was made November 12, 1890, and the entire issue was retired on February 7, 1891. The largest amount outstanding at any one time was \$15,205,000, on the 13th of December, 1890.

On the 17th of November, 1890, similar proceedings were had by the Boston Clearing-House Association. On that day, at a meeting of the association, the following resolution was unanimously adopted:

Resolved, That a committee of five be appointed by the chair, of which committee the chairman shall also be a member, to receive from banks, members of the association, bills receivable and other securities, to be approved by said committee, who shall be authorized to issue therefor to such depositing banks, loan certificates bearing interest at 7.3 per cent per annum, and such loan certificate shall not be in excess of 75 per cent of the market value of the securities or bills receivable so deposited, and such certificates shall be received and paid in settlement of balances at the clearing house.

It is observed also that the ultimate payment of the certificates, in case the pledged collaterals proved to be insufficient, was provided for through the ratification, by the boards of directors of the respective banks, of the following resolution passed by the Boston Clearing-House Association at the meeting above noted:

Resolved, That any loss arising from the issue of loan certificates shall be borne by the banks comprising the Clearing-House Association pro rata, according to the average daily amount which each bank shall have sent to the clearing house during the preceding year. It was also voted that this resolution shall be ratified by the boards of directors of the respective banks, members of the association, and a certified copy of such consent delivered to the chairman of the loan committee.

The form of the loan certificates issued under the resolution alluded to is as follows:

No. ———, \$5,000.
 Loan committee of the Boston Clearing-House Association. Boston, ———, 189—.

This certifies that the ——— has deposited with this committee securities in accordance with the proceedings of a meeting of the association held November 17, 1890, upon which this certificate is issued.

This certificate will be received in payment of balances at the clearing house for the sum of five thousand dollars from any member of the Clearing-House Association.

On surrender of this certificate by the depositing bank above named, the committee will indorse the amount as a payment on the obligation of said bank held by them, and surrender a proportionate share of the collateral securities held therefor.

Five Thousand Dollars. \$5,000.

—————,
 —————,
 Committee.

When a bank applied for and received loan certificates it was required to deposit the necessary securities, and to also execute and deliver an obligation, of which the following is a copy:

The ——— Bank has this day received of ———, loan committee of the Boston Clearing-House Association, loan certificates issued by said committee in pursuance of a vote of said association, passed November 17, 1890, to the amount of ——— thousand dollars, and has deposited with said committee the securities, a statement whereof is hereto annexed, and said ——— Bank receives said loan certificates on the terms set forth in said vote, and agrees to pay the amount of said certificates, with interest thereon, as provided in said vote.

Under the operation of the resolution of authority granted by the clearing-house committee, as above noted, loan certificates were first issued on November 19, 1890, and the last were issued on December 6, 1890. On the latter date the issue reached its maximum of \$5,065,000. The last of the issue was retired on January 6, 1891.

The Clearing-House Association of Philadelphia took action on November 18, 1890, at which time, at a meeting of the Clearing-House Association, the following resolution was adopted:

Resolved, That in accordance with resolution of September 24, 1873, as amended October 18, 1873, the clearing-house committee will issue loan certificates to banks applying and receive them in payment of balances.

The resolution of September 24, 1873, as amended October 18, 1873, reads as follows:

For the purpose of enabling the banks, members of the Philadelphia Clearing-House Association, to afford proper assistance to the mercantile and manufacturing community, and also to facilitate the interbank settlements resulting from their daily exchanges, we, the undersigned, do bind ourselves by the following agreement on the part of our respective banks, *viz*:

First. That the clearing-house committee be, and they are hereby, authorized to issue to any bank, member of the association, loan certificates bearing 6 per cent interest on the deposits of bills receivable and other securities to such an amount and to such percentage thereof as may in their judgment be advisable.

These certificates may be used in settlement of balances at the clearing house, and they shall be received by creditor banks in the same proportion as they bear to the aggregate amount of the debtor balances paid at the clearing house. The interest that may accrue upon these certificates shall be apportioned monthly among the banks which shall have held them during that time.

Second. The securities deposited with the said committee shall be held by them in trust as a special deposit, pledged for the redemption of the certificates issued thereupon, the same being accepted by the committee as collateral security, with the express condition that neither the Clearing-House Association, the clearing-house committee, nor any member thereof shall be responsible for any loss on said collaterals arising from failure to make demand and protest, or from any other

neglect or omission, other than the refusal to take some reasonable step which the said depositing bank may have previously required in writing.

Third. On the surrender of such certificates, or any of them, by the depositing banks, the committee will indorse the amount as a payment on the obligation of said bank held by them, and will surrender a proportionate amount of securities, except in case of default of the bank in any of its transactions through the clearing house; in which case the securities will be applied by the committee, first, to the payment of outstanding certificates, with interest; next, to the liquidation of any indebtedness of such bank to the other banks, members of the Clearing-House Association.

Fourth. The committee shall be authorized to exchange any portion of said securities for others, to be approved by them, and shall have power to demand additional security, at their own discretion.

Fifth. That the clearing-house committee be authorized to carry into full effect this agreement, with power to establish such rules and regulations for the practical working thereof as they may deem necessary; and any loss caused by the nonpayment of loan certificates shall be assessed by the committee upon all the banks in the ratio of capital.

Sixth. The expenses incurred in carrying out this agreement shall be assessed upon the banks in equal proportion to their respective capital.

Seventh. That the clearing-house committee be, and they are hereby, authorized to terminate this agreement upon giving thirty days' notice thereof at any stated meeting of the Clearing-House Association.

PHILADELPHIA, November 18, 1890.

At a meeting of the clearing-house committee, held this day, it was, on motion:

Resolved, That in accordance with resolutions of September 24, 1873, as amended October 18, 1873, the clearing-house committee will issue loan certificates to banks applying, and receive them in payment of balances.

The form of loan certificate issued by the Clearing-House Association of Philadelphia is here given:

No. ———. \$5,000.

Clearing-house committee of the Philadelphia banks, Philadelphia, ———, 1891.

This certifies that the ——— Bank has deposited with this committee securities in accordance with the agreement of a meeting of bank officers held September 24, 1873. This certificate will be received during the continuance of said agreement and of any renewals of the same, in payment of balances at the clearing house, for the sum of five thousand dollars, only from a member of the Clearing-House Association to whom the same may have been issued, or to whom it may be indorsed by the manager of the clearing house.

On the surrender of this certificate by the depositing bank above named the committee will indorse the amount as a payment on the obligation of said bank held by them, and surrender a proportionate amount of the collateral securities except in case of default on the part of said bank in its transactions through the Clearing-House Association of Philadelphia.

Committee.

It will be observed that the original agreement under which the committee proceeded in this case was adopted during the panic of 1873, and after that subsided no further action was had under it until November, 1890, but the machinery was kept standing during the whole intervening period ready for immediate use whenever required.

The clearing-house committee having, by the agreement aforesaid, been authorized to issue loan certificates, resolved, on November 5, 1890, to exercise this power, whereupon the banks desiring to take out loan certificates were required to adopt a resolution empowering the hypothecation of securities, under which the issue of loan certificates, signed by not less than three members of the committee, was commenced on November 19, 1890, and ceased on May 22, 1891, the total issue being \$9,655,000. The maximum issue, \$8,870,000, was reached on January 9. The certificates have all been retired excepting \$170,000 issued to the Keystone and Spring Garden National Banks.

Loan certificate.

[Extract from Comptroller's report for 1893.]

CLEARING-HOUSE LOAN CERTIFICATES.

The unprecedented condition of the money market from June to September called for extraordinary remedies, not only to avert general disaster to the banks but to prevent commercial ruin. This remedy was the issuing of clearing-house loan certificates, which were brought into use as in 1873, 1884, 1890-91, by the associated banks of New York, Boston, Philadelphia, Baltimore, and other cities where needed. The service rendered by them was invaluable, and to their timely issuance by the associated banks of the cities named is due the fact that the year's record of suspensions and failures is not greatly augmented.

The form of these certificates, with the conditions under which they were issued in 1890-91 (the form and conditions being the same during the late issuance of them as then), is described at length in the Comptroller's annual report for 1891. The subject is alluded to again only because it constitutes a very important part of the year's banking history, and for the additional reason that here and there are to be found those who entertain an entirely erroneous idea of the purpose for which these certificates were issued and what was accomplished by their issuance. Briefly stated, they were temporary loans made by the banks associated together as a clearing-house association, to the members of such association, and were available to such banks only for the purpose of settling balances due from and to each other, these balances under normal conditions of business being always settled in coin or currency. Each clearing-house association selected a committee charged with the issuing of the certificates to each bank desiring the same, such bank being required before receiving them to deposit with the committee its bills receivable, or other securities, as collateral for the loan. The amount of certificates issued to each bank was limited to 75 per cent of the value of the securities deposited. They bore interest at rates varying from 6 to 7 $\frac{3}{4}$ per cent. Immediately upon their surrender to the committee they were canceled and the securities held as collateral were returned to the bank depositing the same.

At a time when vast sums of coin and currency were being withdrawn from the banks, to be hoarded, these loan certificates, by performing the functions of the currency or coin customarily required for settling daily balances at the clearing house, released so much currency or coin to the legitimate and current demands of business and unquestionably placed it within the power of the banks in the cities named to extend to outside banks the aid needed on the one hand and liberally granted on the other. In no instance were these certificates designed to nor did they circulate as money. They were but due bills and their sole function consisted in discharging the single obligation at the clearing house. An attempt on the part of a bank in any of the associations issuing these certificates to use them otherwise would have incurred a fine and other penalties provided in the rules governing such associations. Their issuance at so early a date in the financial derangement of the country was most opportune in not only preventing an acute panic, but in tending to restore public confidence, such action demonstrating that by mutual agreement of all, the weak banks of the association would be, so far as depositors and other creditors were concerned, as strong as the strongest.

In inaugurating the issuing of certificates so promptly and in issuing them to so large an amount the Clearing-House Association of New York, in particular, rendered the country great service, and the associated banks of that city are entitled to the credit which the public generally accords them.

The following figures, showing the movement and amount of the issue of loan certificates in 1893 in the cities named, will indicate the measure of relief afforded by them:

	Date of issue of first certificate.	Date of largest amount outstanding.	Largest amount outstanding.	Date of surrender of last certificate.	Amount outstanding Oct. 31.
New York.....	June 21	Aug. 29 to Sept. 6	\$38,280,000	Nov. 1
Philadelphia.....	June 16	Aug. 15	10,965,000	\$3,825,000
Boston.....	June 27	Aug. 23 to Sept. 1	11,445,000	Oct. 20
Baltimore.....do	Aug. 24 to Sept. 9	1,475,000	845,000
Pittsburg.....	Aug. 11	Sept. 15	957,000	352,000
Total.....	63,152,000

In 1890-91 they were issued in New York, Boston, and Philadelphia, the largest amounts outstanding at any time being as follows:

	Date of first issue.	Largest amount outstanding at any one time, and date of same.
New York.....	Nov. 12, 1890	\$15,205,000, Dec. 13, 1890.
Boston.....	Nov. 18, 1890	5,965,000, Dec. 6, 1890.
Philadelphia.....do	8,870,000, Jan. 9, 1891.
Total.....	29,140,000.

[Extract from Comptroller's report for 1894.]

THE NUMBER OF DEPOSITORS IN THE NATIONAL BANKS.

The office having obtained such information as it could relative to the subject just treated of, it seemed that facts showing the use of the national banks by the general public as banks of deposit would be of interest. Such facts would not only show the great numbers of the people who were making use of them as a means of safe-keeping for their cash assets and the importance to them of having them properly dealt with, but would further tend to show why so many credit instruments, such as checks, were in daily use.

It is fair to presume that as a person becomes a depositor in a bank he is more given to the use of checks upon his bank of deposit in making payment of indebtedness than to the use of actual money. As the number of depositors in banks increases, such method of payment will correspondingly increase, and the need of the enlargement of the volume of the circulating medium of the country fall away. The depositing of money in bank and the checking against it makes every dollar of the currency an efficient one, in that each dollar is made to support many transactions each day instead of but a single one, as is the case where each transaction is carried on by the payment of actual cash.

In the appendix will be found the statement showing in detail the number of depositors in national banks on July 18, 1894, together with their aggregate amounts to their credit. It is so arranged as to show—

- Depositors having less than \$1,000 to their credit;
- Depositors having more than \$1,000 and less than \$2,000;
- Depositors having \$2,000 and less than \$10,000, and
- Depositors having \$10,000 and over.

The statement is made up by geographical divisions, giving the number of banks and the number of depositors in each class and aggregate of deposits to the credit of each class, together with a grand aggregate of the number of depositors and the total amount of their deposits, as follows.

States, reserve cities, and Territories.	Total number of banks.	Number of reports.	Under \$1,000.		\$1,000 and less than \$2,000.		\$2,000 and less than \$10,000.		\$10,000 and over.		Total.	
			Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.
Division 1: Maine, New Hampshire, Vermont, Massachusetts (Boston), Rhode Island, Connecticut.	593	588	175,916	\$55,975,041	14,585	\$20,324,691	14,433	\$64,050,653	4,571	\$154,550,628	210,005	\$274,844,013
Division 2: New York (New York City, Albany, Brooklyn), New Jersey, Pennsylvania (Philadelphia, Pittsburg).	837	805	576,030	102,252,901	33,901	47,181,891	31,420	132,064,045	9,777	438,189,190	651,628	739,688,036

Division 5: Ohio (Cincinnati, Cleveland), Indiana, Illinois (Chicago), Michigan (Detroit), Wisconsin (Milwaukee), Minnesota (St. Paul, Minneapolis), Missouri (St. Louis, St. Joseph, Kansas City), Kansas, Nebraska (Lincoln, Omaha).	682	557	215,255	33,515,935	10,655	12,801,114	7,541	30,090,622	1,683	47,324,807	235,114	123,732,478
Division 7: Colorado, Nevada, California (San Francisco), Oregon, Arizona.	128	123	68,900	10,278,863	3,806	5,164,511	2,727	10,318,089	523	15,430,267	75,956	41,300,753
Division 8: North Dakota, South Dakota, Idaho, Montana, New Mexico, Wyoming, Wyoming, Oklahoma, Indian Territory.	213	199	56,894	9,018,990	2,686	3,524,023	1,890	7,254,599	326	7,550,309	61,090	27,351,981
United States	3,770	3,650	1,724,077	293,200,861	97,439	132,598,970	85,089	\$46,878,145	23,738	\$74,347,263	1,028,340	1,647,017,129

The information above set forth was procured from the banks reporting at the same date as their report of condition made to the Comptroller for July 18, 1894, and is complete as to all the 3,770 doing business on the date named, except as to 120, which failed to make any report. The failure of these 120 banks to furnish this information, taken in connection with the fact that some of the banks reporting failed to include certificates of deposit, which are included in the item of individual deposits shown in the aggregate of their liabilities, will account for the difference of \$30,784,071 between the aggregate of individual deposits shown by this statement, and the aggregate of this item shown in the statement of resources and liabilities of the banks on July 18, 1894.

Considering the aggregates shown by this statement, it is found that 3,650 banks held deposits to the amount of \$1,647,017,129, deposited by 1,929,340 depositors, or an average of 528.5 depositors to each bank.

The following table indicates by geographical divisions the average number of depositors, and the average amount for each depositor of each class:

Geographical divisions.	Under \$1,000.		\$1,000 and less than \$2,000.		\$2,000 and less than \$10,000.		\$10,000 and over.		Total.	
	Average number of depositors.	Average amount for each depositor.	Average number of depositors.	Average amount for each depositor.	Average number of depositors.	Average amount for each depositor.	Average number of depositors.	Average amount for each depositor.	Average number of depositors.	Average amount for each depositor.
Division 1	299.2	\$205	24.8	\$1,394	25.1	\$4,291	7.7	\$33,813	357.1	\$1,399
Division 2	715.6	178	42.1	1,392	39.9	4,137	12.1	46,864	809.4	1,135
Division 3	705.2	152	34.2	1,385	24.4	3,822	4.9	26,144	772.7	506
Division 4	280.6	135	11.7	1,368	10.1	3,869	1.7	29,478	304.1	471
Division 5	320.2	175	28.2	1,354	22.6	4,014	5.8	34,434	376.3	727
Division 6	386.5	156	19.1	1,204	13.5	3,990	3	28,119	422.1	526
Division 7	560.2	149	30.9	1,357	23.2	3,784	4.2	29,521	617.5	542
Division 8	285.9	158	13	1,363	9.5	3,838	1.6	23,188	310	443
United States	472.3	170	26.7	1,360	23.3	4,077	6.2	38,453	528.5	853

An analysis of the table shows that in the class under \$1,000 the average amount for each depositor varied in different sections of the country from \$135 to \$205; in the class \$1,000 and less than \$2,000, from \$1,204 to \$1,395; in the class \$2,000 and less than \$10,000, from \$3,784 to \$4,291; in the class \$10,000 and over, from \$23,188 to \$46,864.

It will be seen from these figures that, with the exception of the class of \$10,000 and over, which has the smallest number of depositors, the variation as to the average amount for each depositor in the different sections of the country is but slight. A comparison of the average number of depositors in the different geographical divisions shows the variations to be much greater. The average of the total number of depositors is lowest in division No. 4, viz, 304.1, and highest in division No. 2, where it was 809.4. These wide variations are largely accounted for by the extensive banking facilities furnished by banking institutions outside of the national system.

For instance, in division No. 1, comprising six Eastern States, the average number of depositors in 588 national banks is only 357.1, but from tables appearing elsewhere in this report it will be seen that there are also in this division 540 State banks, loan and trust companies, and savings banks.

Taking divisions Nos. 2 and 3 together, having the highest average total number of depositors in 1,003 national banks, viz, 809.4 and 772.7, respectively, it is found that in the States comprising these two divisions there also are 811 State banks, loan and trust companies, savings and private banks. In division No. 4, comprising 1. Southern States, we find the lowest average total number of depositors in 497 national banks, viz, 304.1, there being also in these 11 States 606 State, etc., banks. In division No. 5 the average total number of depositors in 754 national banks is 576.8, there being also in this division 966 State, etc., banks. In division No. 6 the average total number of depositors in 582 national banks is 422.1, there being also 2,155 State, etc., banks. In division No. 7 the average total number of depositors in 128 national banks is 617.5, there being also 313 State, etc, banks. In division No. 8 the average total number of depositors in 213 national banks is 310, there being also 347 State and other banks.

In conclusion, it is shown by the table referred to that 3,650 national banks held \$1,647,017,129, deposited by 1,929,340 depositors, or an average of 528.5 depositors to each bank. Applying this average to \$1,225,452,821 of deposits held by the banking institutions other than savings banks operating outside of the national system, it is found that such banking institutions held deposits made by 1,436,638 depositors. The latest returns to this office made by savings banks show that they held \$1,747,961,280, deposited by 4,777,687 depositors.

A tabulation of this information is shown herewith:

	Deposits.	Number of depositors.
National banks	\$1,647,017,129	1,929,340
State and private banks, loan and trust companies	1,225,452,821	1,436,638
Saving banks	1,747,961,280	4,777,687
Total	4,620,431,230	8,143,665

It is found that all the banks and banking institutions in the country, from which figures were obtainable at the latest dates, held deposits to the enormous sum of \$4,620,431,230 deposited by no less than 8,143,665 depositors. After making due allowance for the fact that the same person may have deposits in more than one bank; further, that 120 national banks doing business on July 18, 1894, failed to make any report; that the number of depositors in State and private banks and loan and trust companies was estimated from the average number of those in national banks, it is not unreasonable to conclude that the banking institutions of the country are patronized and used by no less than about 9,000,000 depositors, or about 1 person out of every 7 or 8 persons in the total population of the United States.

No better evidence of the valuable and generally diffused service rendered to the public by banks in general can be deduced than that shown by the figures here presented, and no stronger argument could be adduced to warrant the most careful and statesmanlike consideration of any measure affecting them. The facts as they are demonstrate how many people have a material interest in them and how many branches of trade and commerce are touched by any banking legislation which is placed upon the statute books.

REVENUE TO THE GOVERNMENT.

The interest awakened by a discussion of a general revision of the present national banking system makes it proper to consider in this

report how far the national banks have been a source of revenue to the Government. Congress has considered the capital, deposits, and circulation of these banks as legitimate subjects of taxation. The act of March 3, 1883, relieved the banks of further taxes on the first two items, but left the 1 per cent annual duty on circulation undisturbed. No subsequent changes have been made affecting this law.

The total tax collected on capital amounted to \$7,885,887.74. The banks have paid taxes on their deposits to the amount of \$60,940,067.16. Up to June 30, 1894, the end of the last fiscal year, the national-bank circulation had yielded a revenue amounting to \$75,834,997.17. Estimated at the same rate as for the year prior, the taxes on circulation from June 30 to October 31 would yield an additional revenue of \$573,698.39.

National banks are also assessed for a sufficient amount to cover the redemption of their circulating notes by the United States Treasurer, the preparation of the plates from which these notes are printed, and the fees of the national-bank examiners. These items amounted to \$367,836.93 during the past fiscal year, but they should not be regarded in this calculation, as no part of this amount is retained in the public Treasury.

Whatever amount of bank notes remain eventually unredeemed will be an additional source of profit, as the banks are required to pay into the Treasury lawful money to the full amount of their circulation before they are allowed to withdraw their deposits of United States bonds. From the best obtainable figures it appears reasonable to suppose that a small amount of notes will not be presented for redemption. Although some of the national banks ceased doing business over thirty years ago, each bank still has currency that has not been presented. Something like 2 per cent of the old State-bank circulation was not redeemed.

A careful examination of the currency accounts of the liquidated national banks shows that the percentage of national-bank currency probable to be unredeemed will be very much smaller. From present indications, it seems probable that about two-fifths of 1 per cent of the national-bank notes that have been in actual circulation will remain unredeemed. On October 31, 1894, this amount was \$691,706,231. At the average rate of redemption there will remain as profit to the Government from this source \$2,766,824.92. The average cost of redemption has been about \$1.37 per thousand.

On October 31, 1894, the amount in the Treasury to the credit of the national-bank redemption account was \$35,883,967.73. Hence it will be seen that the profits from unredeemed circulation are already available.

The revenue from these banks was as follows:

From taxation	\$145, 234, 650. 46
From unredeemed circulation	2, 770, 615. 47
Total	148, 005, 265. 93

From this should be deducted the Government expense of this office, including the additional expense, which has been carefully estimated on the basis established by former Comptrollers, and the total brought down to the close of the report year, amounting to \$15,365,963.75. This leaves the net profit derived from the national banks at \$132,639,302.19.

As Government depositories, the national banks have received, stored in their vaults, and accounted for \$5,356,625,891, without expense to the Government. Allowing the rate of three-eighths of 1 per cent as a reasonable compensation for such services, which is the same as that

fixed by the act of March 3, 1875, as the compensation of disbursing officers for public buildings, it would amount to \$20,087,347.

No attempt has been made to compute the expense for transportation charges during the thirty years, had it been necessary to transfer the moneys to the various subtreasuries instead of depositing them in these national banks, owing to the impossibility of obtaining the necessary information upon which to base an estimate. A casual investigation shows that this item would have amounted to a very large sum. The saving in expense, irrespective of transportation charges, added to the net profits detailed above, makes a total of \$168,092,616 as the measure of the direct benefit the United States Treasury has actually received from the national banks.

SERVICE TO THE PUBLIC.

The amount of revenue received directly by the Government from the tax imposed by it upon the banks, and the savings to it, as stated, have been but a part of the benefits conferred upon the people through a well-organized, uniform, and carefully conducted banking system. The aid rendered the individual in the carrying on of his business undertakings has been far greater than any revenue paid to the Government or service given it. The indisputable facts are that since the inauguration of the present system four great points of advantage and saving have been gained to the general public.

First. The saving in heavy discounts on the bank currency prevalent before the establishing of the national-bank system.

Second. The saving in rates of interest on loans and discounts.

Third. The saving in the making of exchange.

Fourth. The saving to customers in charges for making collections.

It is unnecessary to elaborate at any great length either of the above enumerated propositions, and yet something pertinent to each may be said that will give a clearer understanding of just what has been gained by a system under the general supervision and control of the Government.

It is not impossible, and it may be not improbable, that the same results might have followed, with improved business methods and keener watchfulness, the conduct of systems of note issue and banking not uniform and not under the same supervision, but the facts are that, so far as the experiment has been tried, the one system has been wholly successful in its operation, and the other, at the best, was but partially so, and at its worst highly disastrous to all concerned.

The saving of loss from discounts on circulating notes of banks not uniform was quickly realized by the public at large. Prior to the issuing of national-bank notes there were as a part of our circulating medium approximately \$200,000,000 of State-bank notes. The loss in discount upon these varied in different sections of the country, and was in a large measure controlled by what was known of the financial standing of the issuing bank. The loss to the note holder, however, was from 1 to 5 per cent, and not infrequently 10 per cent. In many cases it was an entire loss. Whatever may be the defects of the present note issue of the national banks, it is at least uniform in appearance and value, and by law the note issued by every bank in the system is receivable at par by every other bank in it, and redeemable in lawful money at the bank of issue or at its designated redemption agency.

The saving in rates of interest on loans and discounts has been

brought especially to the South, the West, and the Northwest, where the necessary capital for banking purposes was very scarce and at the same time very greatly needed to develop the great natural resources of these sections of the country. The provisions for the same governmental supervision of the national banks and uniformity of method with which the capitalists in the East and North were familiar undoubtedly was an important factor in engaging their capital, which, owing to its plentifulness at home, was bringing to them either no interest or very low rates in banking enterprises in the sections named.

The evidence of the extent of this investment is found in the fact that in 1889 nearly one-third of the capital stock of 520 national banks in Iowa, Minnesota, Missouri, Kansas, and Nebraska was contributed by Northern and Eastern shareholders, while in Dakota, Idaho, Montana, New Mexico, Utah, Washington, Wyoming, and Arizona more than one-half of the capital stock of 144 national banks was held by non-resident shareholders. In the States of Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, Kentucky, and Tennessee, of the shares of 410 national banks a little more than one-sixth of the total was held by nonresident shareholders. The investments of this character made by nonresidents since the dates given has been at least as large, if not larger, than prior thereto, but the figures are not now at hand to state with accuracy the proportion. The facts gathered, however, form of themselves such data upon the point made as to make it worthy of consideration.

The increase in the supply of loanable funds thus furnished necessarily had the effect of lowering the rates of interest on loans and discounts below the level of those previously prevailing. The general confidence inspired by a central and uniform governmental supervision and examination, the frequent publication of sworn reports of condition, the double liability of shareholders, the percentage of reserve to be held against deposits required, and the necessity of having the bank's funds invested in quick assets, rather than tied up in real-estate investments, operated to attract all over the country to these banks the deposit of funds in large and small amounts, upon the greater portion of which no interest is paid for temporary safe-keeping. To the extent that these deposits were made was the loaning capacity of the banks added to and the idle capital in each community brought into use. It can be easily calculated what the effect of rendering available so much imported and home capital was toward lowering rates of interest, when it is known that on October 2 last the individual deposits held by national banks amounted to \$1,728,418,819.

As banking methods have improved and safety made more certain, under the effects of uniformity and general supervision, the lessening of the rates of exchange has steadily gone on, thus giving business interests the benefit of saving in an item in the transfer of funds that prior to 1860 assumed very large proportions. At present, to transmit \$1,000 from New Orleans to New York it is but necessary to purchase from the bank at New Orleans its check payable to the purchaser's order on its correspondent bank in the latter city, and this may with perfect safety be transmitted to New York or any other point in the Union. At certain seasons of the year the purchaser will procure the draft at par; at others at a slight premium of one-tenth or one-eighth of 1 per cent.

In 1859 the average rate of exchange on New York from points in the South and West is reported as from 1 to 1½ per cent, while the current

rate in the State of New York in 1860 was one-half of 1 per cent. The exact figures which represent the grand total of exchange between national banks alone are not to be secured, but figures obtained by the Comptroller in the year 1878 showed an estimate at that time of nearly \$3,000,000,000 as the amount of exchange drawn annually upon New York alone by Southern and Western States, and not less than \$4,000,000,000 as the amount drawn annually by the same States upon points in the East, including New York.

The volume of business done by the national banks has greatly increased since 1878, and a corresponding increase must be made in the estimate then given for the purpose of approximating the measure of saving to the public effected merely through exchanges. As a very large proportion of clearing-house exchanges consist of checks drawn by banks located at a distance from the clearing houses, an examination of the volume of these clearing-house transactions will convey some idea of the great volume of exchange effected between banks at distant points. The clearings in New York City alone for the thirty years ended in 1894 aggregated the sum of \$949,000,000,000, while the clearings for all the clearing houses in the United States for the single year 1894, and that a year far below the average, were \$45,000,000,000.

It is impossible to ascertain in exact figures the saving to bank customers in the collections made for them free of charge, of notes, drafts, and other evidences of indebtedness. No statistics showing the money value of these services have ever been gathered, but the continual presence of these collection items in the files of every bank in the country furnishes abundant proof upon this point.

NATIONAL-BANK CURRENCY.

AUTHORIZING ACTS.

The issue of circulating notes by national banking associations was first authorized by an act entitled "An act to provide a national currency secured by a pledge of United States stocks, and to provide for the circulation and redemption thereof," approved February 25, 1863, which act was repealed by an act entitled "An act to provide a national currency secured by a pledge of United States bonds, and to provide for the circulation and redemption thereof," approved June 3, 1864. The act approved June 3, 1864, with subsequent amendments thereof, was embodied in the Revised Statutes of the United States in 1873. The law as embodied in the Revised Statutes has been amended from time to time, and is now contained in what is known as the National Bank Act, with amendments thereof.

SECURITY.

Under the provisions of existing law a national bank is required to deposit interest-bearing bonds of the United States with the United States Treasurer as security for its circulating notes in the following minimum amounts:

- (1) Banks with a capital not exceeding \$150,000 must deposit bonds, par value, to an amount not less than one-fourth of their capital stock.
- (2) Banks with a capital exceeding \$150,000 must deposit bonds to the amount of at least \$50,000, par value.

The maximum amount of bonds, at their par value, which may be deposited by a national bank must not exceed the amount of the bank's capital stock.

The proportion of circulating notes issued against bonds deposited as security therefor is 90 per cent of the par value of said bonds, or of the market value of said bonds if the bonds are below par.

OWNERSHIP OF STOCK.

An official investigation made by the Comptroller in 1895 shows that on October 31, 1895, the stock of 3,715 national banks, with a capital of \$664,136,915, was owned by 285,190 shareholders.

SUPERVISION.

Every national bank is required by law to make to the Comptroller not less than five sworn reports every year, showing in detail its resources and liabilities, and it is required to publish same in a local newspaper; also, to make a sworn report of every dividend declared, which also shows gross earnings, losses, expenses, and net profits.

The affairs of every bank are also examined about twice a year by an examiner who verifies its assets and audits its accounts, and the examiner is empowered by law to examine every officer and employee of the bank under oath, if necessary to find out its true condition.

CAPITAL BASED ON POPULATION.

A national bank may be organized by not less than five shareholders anywhere in the United States, subject to the following-mentioned requirements as to capital and population:

- (1) With not less than \$50,000 capital in any place having 6,000 inhabitants or less.
- (2) With not less than \$100,000 capital in any city having over 6,000 but not more than 50,000 inhabitants.
- (3) With not less than \$200,000 capital in any city having over 50,000 inhabitants.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 137.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., September 9, 1896.

To Collectors and other Officers of the Customs:

The following reappraisements of merchandise have been made by the United States General Appraisers during the week ending August 15, 1896.

CHARLES S. HAMLIN,
Acting Secretary.

REPORT OF REAPPRAISEMENTS FOR THE WEEK ENDING AUGUST 15, 1896.

N. B.—*In corresponding with the Board of General Appraisers relative to any of the items in this report, reference should always be made to the number of Reappraisement.*

No. of Reappraisement.

- 12630.....*Hair pencils*, from Gebr. Zierlein, Nurnberg, May 30/96.
No. 2083, entered at 1.25, advanced to 1.35 marks per gross.
No. 1408, No. 2, entered at 2.00, advanced to 3.00 marks per gross.
Discount 10 per cent.
Add packing.
- 12477.....*Blank books*, from W. Lowenthal, Brieg, May 2/96.
1045/18, entered at 1.50 ; 4186/2282, entered at 6.00 marks per gross, discounts 2 per cent and 5 per cent ; advanced by disallowance of second discount.
Add case and packing.
- 12858.....*Surface coated paper*, from Leonard Biermans, Turnhout, July 9/96.
Red flint, No. 4978, 20 x 25, entered at 5s. 1d., advanced to 5s. 5d. per ream of 500 sheets.
Red flint, No. 7952, 24 in., entered at 4s. 10d., advanced to 5s. 2d. per ream of 500 sheets.
Red flint No. 7949, 24 in., entered at 4s. 10d., advanced to 5s. 2d. per ream of 500 sheets.
Bronze watered No. 7329, 24 in., entered at 10s., advanced to 10s. 8d. per ream of 500 sheets.
Pink flint No. 7933, Green flint No. 1743, 20 x 24, entered at 4s. 8d., advanced to 4s. 11d. per ream of 500 sheets.
Discount 5 per cent.
Less inland freight.

- 12529.....*Cooks' Knives*, from Theile & Quaek, Elberfeld, May 28/96.
 Sabatier knives No. 2423/10, entered at 7.20, advanced to 8.20 marks per dozen.
 Sabatier knives, No. 2423/4, entered at 2.60, advanced to 2.85 marks per dozen.
 Sabatier knives, No. 2423/5, entered at 3.40, advanced to 3.70 marks per dozen.
 Sabatier knives No. 2423/6, entered at 4.00, advanced to 4.40 marks per dozen.
 Discount 2 per cent.
 Similar goods, similar advances.
- 12928.....*Macaroni*, from Alfonso Garofalo, Gagnano, June 9/96.
 Loose, entered at 4.20, advanced to 4.40 lire per box pkd.
 Packages, entered at 5.20, advanced to 5.28 lire per box pkd.
- 12851.....*Hyposulphate of soda*, from Julius Hülsen & Co., Newcastle, June 26/96.
 Hyposulphate of soda, entered at £4/17/0, advanced to £5/0/0 per ton pkd.
- 12004*Paint*, from British Anti-Fouling Composition & Paint Co., Ltd., London, April 14/96.
 Painters' colors in paste, BA- BAO & BAOO entered at 20/-, 31/- and 35/- per cwt.
 pkd. respectively; no advance.
- 12933.....*Dec. Earthenware*, from Samuel Buckley & Co., Birmingham, July 11/96
 Only pot colored, 1134, entered at 9.00 florins, advanced by disallowance of 50 per
 cent for breakage deducted on entry.
 Less 5 per cent discount.
 Add commission 5 per cent; case and packing.
- 12637.....*Dec. Glassware &c.* from Salviati & Co., Venezia, May 16/96.
 Glassware entered at discounts of 45 per cent and 50 per cent; no advance.
 Add cases and packing.
- 12890.....*Dec. China, parts of clocks, etc.*, from P. H. Leonard, June 18/96.
 China entered at discounts of 2 per cent and 25 per cent; advanced by disallowance
 of second discount.
- 12902.....*Gelatine*, from Fischer & Schmitt, Hochst, a.M., July 8/96.
 Gelatine entered at 135.10 marks per 100 kilos; no advance.
 Cases included in price.
- 3238 OP } *Laundry soap*, from Lever Bros., Ltd., Liverpool, Aug. 8/96.
 Boston }
 Sunlight Laundry soap in tinfoil, entered at 13/-, advanced to 14/3 per box.
- 12768.....*Cut Glassware*, from Geo. Borgfeldt & Co., Stoke on Trent, June 26/96.
 Glassware entered at discount of 10 per cent; no advance.
 Add casks.
- 12900.....*Mf. Silk & cotton*, from Bretthal & Co., Crefeld, July 20/96.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., October 2, 1896.

To Collectors and other Officers of the Customs:

The following act of Congress, approved May 21, 1896, is published for the information of all concerned:

AN ACT To amend section twenty-nine hundred and eighty-one of the Revised Statutes, as amended by the Act of June tenth, eighteen hundred and eighty.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section twenty-nine hundred and eighty-one of the Revised Statutes be amended so as to read as follows:

"SEC. 2961. That whenever the collector of the port of entry of the vessel, or other proper officer of the customs, shall be duly notified in writing of the existence of a lien for freight, charges, or contribution in general average upon imported goods, wares, or merchandise in his custody, he shall, before delivering such goods, wares, or merchandise to the importer, owner, or consignee thereof for consumption, or to any vessel or vehicle for transportation or exportation, give reasonable notice to the party or parties claiming the lien; and the possession by the officers of customs shall not affect the discharge of such lien. Under such regulations as the Secretary of the Treasury may prescribe; and such officers shall refuse the delivery of such merchandise from any public or bonded warehouse or other place in which the same shall be deposited until proof to his satisfaction shall be produced that the freight, charges or contribution in general average thereon has been paid or secured; but the rights of the United States shall not be prejudiced thereby, nor shall the United States or its officers be in any manner liable for losses consequent upon such refusal to deliver. If merchandise so subject to a lien, regarding which notice has been filed, shall be forfeited to the United States and sold, the freight, charges, or contribution in general average due thereon shall be paid from the proceeds of such sale in the same manner as other charges and expenses authorized by law to be paid therefrom are paid."

NOTE.—The above act applies solely to goods, wares, and merchandise which are actually in the custody of "the collector or other proper officer of the customs," and, in order that there may be uniformity in the proceedings, the Department deems it proper to set forth the nature of the "custody" which is specified in the act. Imported goods arrive in this country in the immediate custody of the owner or agent of the vessel or vehicle of importation, and are continued in such custody until the chief officer of customs takes possession of the goods, or until the owner or agent of the vessel has made lawful delivery of them to the consignee under a permit from the collector. The collector or other chief officer takes such possession under the provisions of section 2880 of the Revised Statutes by some appropriate order, such as a "general order" or a special order to send unclaimed goods to a bonded warehouse,

or an order to send bonded goods to the designated warehouse, or an order to deliver bonded goods to the surveyor for transportation or exportation.

In order to maintain due restraint over the disposition of the cargo, an inspector of customs is assigned to the vessel or vehicle of importation, who remains on board until the cargo has been lawfully discharged, but the agent or owner of the vessel or vehicle of importation is not relieved of the responsibility for the safe keeping of the goods until such discharge has been made. The supervision and restraint by the customs inspectors is relinquished whenever they are directed by the collector to permit the delivery of the goods to the lawful representative of the consignee. Whatever may be the meaning of the words "customs custody," used independently, a reasonable construction of the act in question would seem to limit these words as indicated above. Actual customs custody in the meaning of this act, begins, therefore, whenever the goods are removed from the possession of the owner or agent of the importing vessel by customs officers by virtue of an order of the collector.

The Department construes the act of May 21, 1896, as having no reference to goods for which entries for consumption have been made, because such goods (except packages ordered for examination) are delivered directly to the consignee by the owner or agent of the vessel. It applies solely to goods landed under an order of the collector and surrendered to his custody for the purposes above set forth.

Proceedings under the above act will be governed by the following regulations :

I.

Notice of any lien under this act shall be filed, by the owner or consignee of any vessel or vehicle arriving from a foreign port, with the chief officer of customs, or other person designated by him, and (unless otherwise provided) shall specify in detail the goods, packages, marks, numbers, or brands, the public or bonded warehouse or other place in which the same are stored or deposited, the name of the owner, importer, or consignee, and of the vessel of importation (or, if brought by land, of the common carrier or route), the date of arrival and the amount claimed, and whether for freight or for charges, or for contribution in general average.

This notice must be signed by the claimant or his duly authorized agent, and verified by affidavit as follows :

Affidavit on filing lien.

I, _____, claimant, or agent of _____, claimant in this case, do solemnly swear (or affirm) that the matters and things set forth in the annexed notice are true, and that the sum claimed therein is due and unpaid and was a subsisting lien upon the goods described, at the time the same passed into the custody of the customs officers. PORT OF _____

Sworn to and subscribed to before me this _____ day of _____, 189 .

Collector.

II.

Every such notice shall be numbered, filed and entered forthwith in a record book or docket, to be provided for that purpose, having an alphabetical index in which to enter the name of the person claiming the lien, the owners, consignees or importers, marks and description of goods, amount and character of lien, where stored, date of discharge of lien and the names of the vessels or common carriers.

III.

No notice of lien shall interfere with the due unloading of the cargo of any vessel or of the contents of any vehicle, but shall be held to apply to such goods only as have been removed from the custody and

control of the common carrier by customs officers under an order of the collector, including goods entered for warehousing or for warehouse and transportation, or for warehouse and exportation, or for immediate transportation without appraisement, and unclaimed goods sent to a general order store, and goods ordered to the appraiser's stores.

IV.

Whenever a lien has been duly filed at the custom house in accordance with these regulations, the chief officer of customs shall decline to deliver to the importer, owner, or consignee thereof any of the merchandise specified in such lien then held in customs custody, as defined in these regulations, until such lien shall have been satisfied, and he shall also notify the claimants whenever delivery permits have been issued prior to the filing of the lien. If, without fault of the claimant, notice of lien shall not be filed until after the lading of the goods for transportation, the collector shall send information to the chief officer of customs at the port of destination, of the filing of the lien and the latter officer shall be governed accordingly.

V.

When the cargo of a vessel is subject to a contribution in general average, and in order to afford reasonable time for the making and filing of individual notices of lien, as provided in Article I of these regulations, a preliminary notice thereof may be filed with the collector, who, thereupon, shall withhold delivery of any merchandise imported in said vessel which shall be taken into customs custody as defined in these regulations, for a period of two official days from and after the date of taking such custody; unless proof that the claim under such contribution for general average has been paid or secured, be submitted in the manner provided in Article VII of these regulations.

VI.

Whenever a lien has been duly filed as to goods entered for immediate transportation without appraisement, the filing of said lien shall not prevent the forwarding of the goods under such entry, provided the entry is made within the ten days allowed by the act of June 10, 1880. In such case the collector at the port of arrival shall at once notify the chief officer of customs at the port of destination of the filing of the lien, and the goods, on arrival at said port, shall be subject to the provisions of these regulations, and shall be treated thereunder at the port of destination in the same manner as if originally imported there.

VII.

Proof that the claim under the lien has been paid or secured shall consist of a discharge of the lien in writing signed by the person claiming such lien and served by the owner of the goods upon the chief officer of the customs. When such evidence shall have been deposited with the collector, the permit covering the goods shall be stamped "Lien discharged," and no further delay of delivery shall be made on account of such lien. This notice of discharge will be entered in the record book against the lien, and filed.

VIII.

The freight which is specified in the above-quoted act is held to be the freight charged for the ocean transportation of the goods and the inland freight charged for delivering to an interior port goods covered by through bills of lading for such ports; the "charges" specified therein are the charges incident to the shipment of the goods abroad, together with any charges assumed by the claimant of the lien in

forwarding the same to port of destination, and are not other charges accruing after the arrival of the goods in this country.

IX.

Customs officers have no authority to adjudicate disputes respecting the validity of any lien, except that whenever the amount of such lien depends upon the quantity or weight of merchandise actually landed, the collector may hold that the lien may be satisfied upon the payment of an amount computed upon the basis of the return made by the United States appraiser, weigher, or gauger.

X.

All existing regulations which conflict with the above are hereby revoked.

CHARLES S. HAMLIN,
Acting Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

ADDITIONAL RULE FOR THE EXAMINATION AND APPRAISEMENT OF RAW SUGAR.

1896.

Department Circular No. 146.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., October 16, 1896.

To Collectors and other Officers of the Customs:

The regulations governing the sampling, classification, and appraisement of imported sugars, etc., prescribed by this Department under date of May 13, 1895 (Synopsis 16045), are hereby supplemented as follows:

The appraiser may require the importer, under section 16 of the Administrative Act, to report to him for his consideration, the polariscopic degree upon any settlement test, obtained by such importer for the purpose of purchase or sale, and may also require a sample which shall be identical with the sugar which was the subject of such settlement test.

The following form of affidavit shall be used for the above purpose:

I, _____, of the firm of _____, do solemnly swear that the settlement test obtained upon the sugar imported by _____, on the _____ of _____, 18—, per _____, was as follows: _____ degrees of the polariscope, and that the sugar, contained in the sample submitted by me to the appraiser, is identical with the sugar from which the sample was taken upon which such settlement test was obtained.

This affidavit may be administered by any officer duly authorized to administer oaths in customs cases.

CHARLES S. HAMLIN,

Acting Secretary.

Monthly Statement of Receipts and Disbursements

DEPARTURE FROM AND RETURN TO THIS COUNTRY OF REGISTERED CHINESE
LABORERS.

1896.
Department Circular No. 147.
Division of Special Agents.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., October 17, 1896.

To Collectors and other Officers of the Customs:

The following opinion of the Attorney-General, dated October 14, 1896, in relation to the return to this country of registered Chinese laborers who failed to obtain the certificate prescribed by Article II of the treaty between the United States and China of March 17, 1894, and also as to the filing of certificates and other papers by such laborers prior to their departure from the United States, is published for the information and guidance of all concerned:

DEPARTMENT OF JUSTICE,

Washington, D. C., October 14, 1896.

SIR: I have the honor to acknowledge the receipt of your letter of October 10, 1896, in which you ask whether or not your Department can direct the admission of returning Chinese laborers who failed to obtain, before departure from this country, the certificate prescribed by Article II of the treaty between the United States and China of March 17, 1894, it appearing that such persons, before leaving this country, complied with all of the requirements affecting Chinese laborers who leave the United States with the purpose of returning; except that of procuring, from the Collector of Customs of the district from which they departed, certificates of their right to return.

The only provision for the return of Chinese laborers to the United States is under said article, which is as follows:

The preceding Article shall not apply to the return to the United States of any registered Chinese laborer who has a lawful wife, child, or parent in the United States, or property therein of the value of one thousand dollars, or debts of like amount due him and pending settlement. Nevertheless every such Chinese laborer shall, before leaving the United States, deposit, as a condition of his return, with the collector of customs of the district from which he departs, a full description in writing of his family, or property, or debts, as aforesaid and shall be furnished by said collector with such certificate of his right to return under this Treaty as the laws of the United States may now or hereafter prescribe and not inconsistent with the provisions of this Treaty; and should the written description aforesaid be proved to be false, the right of return thereunder, or of continued residence after return, shall in each case be forfeited. And such right of return to the United States shall be exercised within one year from the date of leaving the United States; but such right of return to the United States may be extended for an additional period, not to exceed one year, in cases where by reason of sickness or other cause of disability beyond his control, such Chinese laborer shall be rendered unable sooner to return—which facts shall be fully reported to the Chinese consul at the port of departure, and by him certified, to the satisfaction of the collector of the port at which such Chinese subject shall land in the United States. And no such Chinese laborer shall be permitted to enter the United States by land or sea without producing to the proper officer of the custom the return certificate herein required.

It has for a long time been the policy of Congress to exclude Chinese laborers from the United States.

Section 4 of the act approved July 5, 1884 (23 Stat., 115), provided for the return of Chinese laborers under certain stringent conditions.

By section 2 of the act approved October 1, 1888, the right of return given to Chinese laborers was entirely taken away.

The policy of the Government being against the admission of Chinese laborers, treaty provisions making exceptions should not be extended by construction to cases not falling within the plain scope of the language used.

I am of the opinion that the words "before leaving the United States" qualify the words "shall be furnished by said collector with such certificate of his right to return," and that it was the intent that each Chinaman should, before leaving, receive such certificate in order to entitle him to return.

If it be held that departing Chinese laborers can do what is affirmatively imposed upon them and leave the country with the right to have certificates forwarded, it is manifest that great confusion may arise, the certificates may not get to proper hands, and the burden of enforcing the exclusion acts may be thereby rendered much more onerous.

The rule promulgated by your Department, and which was in force when the case now present arose, provides that the collector of customs, "if he is satisfied that the person presenting the same is the Chinese laborer therein described, he shall issue to him, on his departure from said port, a certificate in the following form." (Synopsis, rulings and decisions, 1896, page 31.)

This rule, which is consistent with the provisions of the treaty, would, in effect, be destroyed if personal delivery be dispensed with.

I answer the question in the negative.

You also call attention to a regulation of your Department, which requires that Chinese laborers, who propose to leave the United States and return, shall file application, statement, etc., with the collector for the district within which the laborer resides, which collector is to certify the papers and forward the same to the collector of customs at the port of exit, and you ask whether or not such papers may be filed properly in the office of the collector of customs at the port where the Chinese laborer resides, in view of the requirement of Article II of the treaty, that such papers shall be placed by the laborer in the possession of the collector of customs for the district from which he is to depart.

I understand your question to be, in substance, whether or not your Department can require such papers to be filed by the laborer with the collector for the district within which he resides.

I am of the opinion that the departing laborer complies with the conditions necessary to demand a certificate, if he files the required papers "with the collector of customs of the district from which he departs," and that any rule directing him to file such papers with the collector of any other district imposes a condition not warranted by the treaty.

Respectfully,

JUDSON HARMON,
Attorney-General.

The SECRETARY OF THE TREASURY.

Collectors of customs are informed that hereafter returning Chinese laborers should not be admitted to this country except upon presentation of the certificate prescribed by Article II of the treaty between the United States and China, dated March 17, 1894, copy of which is embodied in Circular No. 206, dated December 28, 1894.

The regulations issued on December 28, 1894, for the departure from and return to this country of Chinese laborers are modified hereby in such manner as to require such laborers to file their applications, registration certificates, and other papers described in said regulations with the collector of customs at the port from which the laborers are to depart from this country. In all other respects the regulations referred to remain in force.

CHARLES S. HAMLIN,
Acting Secretary.

FASTENINGS FOR PACKAGES, BONDED CARS, VESSELS, AND WAREHOUSES.

1896.
Department Circular No. 148.
Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., October 21, 1896.

To Collectors and other Officers of the Customs:

From and after January 1, 1897, lead seals used in securing cars transporting appraised merchandise in bond and merchandise in transit through Canada will be furnished by Messrs. E. J. Brooks & Co., No. 51 Dey Street, New York, N. Y. The seal selected for the purpose indicated is known as the "Horse Shoe Seal." The price of said seal, which is to be furnished to the bonded common carriers by Brooks & Co., is \$2.50 per 1,000.

The lock heretofore used on cars transporting unappraised merchandise and known as the "Beasley Registering Lock," will continue to be used and may be obtained by bonded carriers requiring them from William F. Beasley, No. 509 West Baltimore Street, Baltimore, Md., at the price heretofore paid, \$2.50 each. The Department has no objection to the use of this lock for securing cars laden with appraised goods in bond or goods passing in transit through Canada between American ports, if bonded common carriers so elect.

Seals for use in securing packages and known as the "Button Seal" will also be furnished by Messrs. E. J. Brooks & Co., at \$5 per 1,000, and customs officers will be supplied through the Department with such seals upon their requisition for the same. Presses for use with the car and package seals will be furnished by order of the Department upon requisition as heretofore.

This circular is not to be construed by customs officers as prohibiting the use of the seals furnished by the Buffalo Seal and Press Company now in possession of bonded common carriers, as such seals are to be used to the exclusion of all others until the 1st of January next, on and after which date the "Horse Shoe Seal" only will be used for securing bonded cars and vessels.

Customs officers are hereby instructed to advise representatives in their respective districts of bonded common carriers of the requirements of this circular.

The customs cards required to be placed upon vehicles transporting merchandise will continue to be used.

Collectors are directed to advise the Department as soon as practicable after the receipt of this circular of the number of presses for use in securing cars and packages required in their districts.

Locks for bonded warehouses will be furnished by the Ames Manufacturing Company of Chicopee, Massachusetts, at the rate of \$7.50 per dozen.

This circular is to be regarded as superseding Circular No. 40, dated June 20, 1890.

S. WIKE,
Acting Secretary.

REQUISITIONS FOR PRINTING AND BINDING.

1896.

Department Circular No. 151.
Division of S., P., and B.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., October 31, 1896.

To Heads of Bureaus, Treasury Department,
and Chiefs of Divisions, Secretary's Office:

Your attention is specially called to the appended circular of the Public Printer, the objects of which are to facilitate the prompt, orderly, and satisfactory execution of work at the Government Printing Office, and to advance the interests of economy in the expenditure of appropriations for public printing and binding. The persons in the several bureaus of the Department and divisions of the Secretary's Office who have been designated under the provisions of Department Circular No. 95, of 1894, to make requisitions and see to the proper preparation of printer's copy, are hereby directed to observe and carefully carry out these instructions of the Public Printer.

W. E. CURTIS,
Acting Secretary.

OFFICE OF THE PUBLIC PRINTER,
Washington, D. C., October 24, 1896.

To enable the mechanical divisions of this office to do their work economically and promptly, to prevent costly corrections, and to facilitate the best typographical results, the officers having charge of requisitions for printing and binding in the different Departments are requested to give careful attention to the filling out of requisition blanks.

This office will, hereafter, require instructions to be given on the requisition (not on copy or proof), and details should be explicit and free from misconstruction.

You are requested to read carefully the following paragraphs, which are embodied in requisition blanks, and see that the requisition contains the necessary instructions for the particular class of work for which it is drawn :

BLANKS.

Kind of type.—Roman, script, etc.

Proof.—Yes or no.

Electrotyped.—Yes or no. (All permanent forms should be electrotyped.)

Paper.—White or colored (light or dark).

Size, in inches.—All blanks should conform to standard sizes of paper or multiples thereof, as—

* Cap.....	14 by 17 inches.	Double folio.....	22 by 34 inches.
* Double cap.....	17 by 28 inches.	Medium	18 by 23 inches.
* Demy.....	16 by 21 inches.	Royal.....	19 by 24 inches.
* Double demy.....	21 by 32 inches.	Super royal	20 by 28 inches.
Folio.....	17 by 22 inches.	Imperial.....	23 by 31 inches.

[* NOTE.—Treasury Department Circular No. 95, dated August 15, 1894, adopted cap (14 by 17) and demy (16 by 21), or their multiples, as the standard sizes for blank forms going into the files, and these sizes must be used as far as practicable.]

Ink.—Black, blue, red, green, etc.; if copying, color must always be stated.

Ruling.—Yes or no.

Perforated.—Yes or no.

Numbered.—Yes or no, from — to —.

Tablets.—Yes or no. (State number sheets each, strawboard or manila-board backs.)

Gummed.—Yes or no; if jacket form—seal—yes or no.

Fold.—Yes or no, once, twice, etc., to certain size, in 3's, 4's, 5's, 6's, etc., jacket form.

Stitched.—Yes or no.

Sewed.—Yes or no.

Deliver.—where.

BOOKS AND PAMPHLETS.

Kind of type.—Long primer, brevier, nonpareil.

Size of page covered by type.

Size of book.—4°, 8°, 12°, 16°.

Proof.—Yes or no.

Electrotyped.—Yes or no.

Paper.

Stitched or sewed.

Trimmed.—Yes or no.

Cover.—Yes or no. If yes, state color—dark blue, light blue, brown, tea, granite, terra cotta, quaker drab, robin's egg, or assorted.

Binding.—Cloth (black, red, green, blue, brown, etc., light or dark), sheep, roau, morocco; full, half; black, blue, red, maroon, etc.; sides—cloth, comb paper, etc.

Lettered.—Side or back.

Illustrations.

Deliver—where.

RECORD BOOKS.

Size of leaf (in inches).

Number of leaves.

Paper.—White, blue; light or dark, etc.; heavy or light.

Paged.—Yes or no.

Canvas cover.—Yes or no.

Style of binding.—Russia ends and bands, half russia, or half russia plain, full russia extra, full russia plain.

Patent back.—Yes or no.

Philadelphia patent back.—Yes or no.

Index.—Yes or no.

Tags.—Yes or no; loose or inserted.

Back title.—Yes or no.

Side title.—Yes or no; morocco or paper.

Deliver—where.

If, after work is under way, changes from original instructions are desired to be made, they should be stated in writing and addressed to the Public Printer. Instructions given verbally or by telephone will not be entertained.

Where uniformity with issues of previous volumes, pamphlets, or blank books is desired, a sample copy must accompany the requisition.

The act providing for the public printing and binding gives the Public Printer authority to determine the "forms and style in which the printing or binding ordered by any of the Departments shall be executed," as well as the "materials, size and kind of type to be used."

Due regard will be given, however, to the wishes of the proper representatives of Departments ordering work **WHEN THEY DO NOT CONFLICT WITH PROPER ECONOMY AND WORKMANSHIP.**

A separate requisition must be made with each order. This will save time, trouble, etc., as well as diminish the chances of making errors. It is not necessary, however, to make separate requisition for printing and binding when books are ordered. This office is not authorized to furnish blank paper, and all requisitions must be for printing or binding.

Under the law all books must be bound in plain sheep or cloth, except that record and account books may be bound in russia leather, sheep feshers, and skivers, when authorized by the head of a Department. The libraries of the several Departments, the Library of Congress, the libraries of the Surgeon General's Office, the Patent Office, and the Naval Observatory may have books for the exclusive use of said libraries bound in half turkey, or material no more expensive.

Copy must invariably accompany the requisition and should be attached thereto—requisition on top. Making a requisition for a certain form of book, and referring to an order for work of a similar style made weeks or months previously, is liable to lead to mistakes and delays, and such requests will not be entertained by this office. Material accompanying a requisition must always have the number of the requisition on the outside of the wrapper.

Requisitions requesting a messenger for instructions concerning binding must state name of officer upon whom the messenger should call, number of room, etc.

Proof of new forms will always be sent, unless otherwise requested. The original copy must be returned with the proof, else the work is delayed and errors are liable to occur.

All inquiries in regard to the progress of work should be made by the officer having charge of the printing and binding for each Department, and be addressed to Chief Clerk, Government Printing Office, by letter or telegram. Always give the number of requisition.

Requisitions for work containing illustrations should state whether or not it is desired that this office should furnish illustrations. Give number of illustrations, and if it is necessary to reduce, give the necessary instructions on the margin of each illustration. In ordering illustrations, make size as near uniform as possible, so as to accommodate size of paper, etc.

Work is made "special" by the indorsement of the Chief Clerk, and **REQUESTS OF THIS CHARACTER SHOULD ONLY BE MADE WHEN ACTUALLY NECESSARY.** All "special" requests should be by letter or Government telegraph line, giving date when wanted and name of officer making the request, and **the reason for desiring the work to be made "special" should be plainly stated.**

Copy should be **carefully prepared and edited** previous to being sent to this office, and not in the proof, thus saving much time in the execution of the work and unnecessary charges against Department allotments.

TH. E. BENEDICT,
Public Printer.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 152.
Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., November 2, 1896.

CONTINUATION IN SERVICE AFTER PROBATIONAL TERM.

1896.
Department Circular No. 154.
Division of Appointments.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., November 16, 1896.

To all Officers in and under the Treasury Department:

Referring to the following provision of the Civil Service Rules, promulgated by the President on May 6, 1896, as follows:

Rule VIII, Paragraph 4. "A person selected for appointment shall be notified of his selection by the appointing or nominating officer, and upon his acceptance shall receive from the appointing officer a certificate of appointment for a probationary period of six months, at the end of which period, if the conduct and capacity of the probationer are satisfactory to the appointing officer, his retention in the service shall be equivalent to his absolute appointment; but if his conduct or capacity be not satisfactory, he shall be notified by the appointing officer that he will not receive absolute appointment because of such unsatisfactory conduct or want of capacity; and such notification shall discharge him from the service,"

you are informed that in each case of appointment for a probational period the continuance of the officer, clerk, or employee in the service is absolutely limited to a probationary period not to exceed six months.

To continue in the service, each probationer at the end of his probational period must be appointed permanently by action of the Department, and take a new oath of office

In case of discontinuance, for unsatisfactory conduct, want of capacity or other cause, the discontinuance must be by action of the Department to make it effective.

You are therefore directed to forward to the Department before the expiration of the probational period of each officer, clerk, or employee your recommendation as to his continuance or discontinuance in the service.

Continuance in the service without affirmative action of the Department will result in the loss of compensation in all cases where the Department deems such continuance not advisable.

J. G. CARLISLE,
Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.

REGULATIONS FOR ADMISSION OF OFFICERS AND CREWS OF REVENUE CUTTER
SERVICE TO BENEFITS OF MARINE-HOSPITAL SERVICE.

1896.
Department Circular No. 157.

Treasury Department,

OFFICE OF
SUPERVISING SURGEON-GENERAL U. S. MARINE-HOSPITAL SERVICE,

Washington, D. C., November 18, 1896.

To Medical Officers and Acting Assistant Surgeons of the
Marine-Hospital Service, Collectors of Customs, and Others:

The following regulations are hereby issued for your guidance with regard to the admission to the benefits of the Marine-Hospital Service of the officers and crews of the Revenue Cutter Service:

I.—Certificate.

1. The officers and crews of the Revenue Cutter Service will receive hospital or office treatment as hereinafter provided on certificate signed by the commanding officer, or executive officer of a revenue cutter, without regard to length of service; the certificate shall contain description of person. Officers on leave or waiting orders to sign their own certificates.

II.—Hospital Relief.

(a) Any such officer or seaman whose condition absolutely requires treatment in hospital will be admitted to hospitals at stations of the first class, and to all contract hospitals enumerated in the annual circular entitled "Contracts for Care of Seamen" subject to the provisions of the said circular with regard to the transfer of patients from a Contract to the nearest Marine hospital.

(b) No admission to hospital will be granted at any port not mentioned in said circular.

(c) At all ports mentioned in the circular, where no specific arrangements for treatment in hospital are made, the regulations governing admission at third-class (emergency) stations will be enforced.

III.—Office Relief.

(a) Office treatment will be furnished at all stations where there is a medical officer or acting assistant surgeon of the Marine-Hospital Service.

(b) At all other stations office relief will be granted only in case of emergency and under the provisions of the regulations relative to third-class (emergency) stations.

(c) No office relief will be granted at any station not mentioned in the annual circular, and in all other respects the regulations of the Marine-Hospital Service will be complied with.

All regulations inconsistent herewith are hereby rescinded.

WALTER WYMAN,
Supervising Surgeon-General U. S. M. H. S.

APPROVED BY DIRECTION OF THE PRESIDENT:

J. G. CARLISLE,

Secretary.

W. A. RICHARDS
DIRECTOR

1896.

Department Circular No. 158.

Division of Customs.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., November 21, 1896.

To Collectors and other Officers of the Customs:

The attention of officers of the customs is invited to paragraph 410 of the act of August 28, 1894, which is as follows:

Books, engravings, photographs, bound, or unbound, etchings, music, maps, and charts, which shall have been printed more than twenty years at the date of importation, and all hydrographic charts, and scientific books and periodicals devoted to original scientific research, and publications issued for their subscribers by scientific and literary associations or academies, or publications of individuals for gratuitous private circulation, and public documents issued by foreign governments.

It has been represented that books and periodicals not strictly "devoted to *original* scientific research" have been admitted to free entry, under too broad a construction of paragraph 410; the Department accordingly notifies officers of customs that the terms of the law must be carefully observed.

The Solicitor of the Treasury advises the Department that in his opinion the words "scientific books and periodicals devoted to original scientific research," relate to *new* discoveries in the field of science, and do not include text-books, compilations and discussions of scientific subjects already understood.

This construction of the law is concurred in by this Department.

CHARLES S. HAMLIN,

Assistant Secretary.

1871

CERTIFICATES OF INSPECTION.

1896.
Department Circular No. 169.
Marine-Hospital Service.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., November 21, 1896.

To Collectors of Customs:

Your attention is called to the following paragraphs of Article I, page 24, of the Quarantine Regulations of the Treasury Department:

1. Vessels arriving at ports of the United States under the following conditions should be inspected by a quarantine officer prior to entry.
 - A. Any vessel with sickness on board.
 - B. All vessels from foreign ports.
 - C. Vessels from domestic ports where cholera or yellow fever prevails or where smallpox or typhus fever prevails in epidemic form.

Exceptions.—Vessels not carrying passengers on inland waters of the United States. Vessels from the Pacific and Atlantic coast of British America, provided they do not carry persons or effects of persons nonresident in America for the sixty days next preceding arrival, and provided always that the port of departure be free from quarantinable disease. Vessels from other foreign ports via these excepted ports shall be inspected.

Reports from the inspecting officers of the Marine Hospital Service show that, at a number of stations, quarantine inspection is maintained throughout only a portion of the year, and that during the winter months, at some stations, this provision of the regulation is not carried out.

As this regulation is one that is essential for the prevention of the introduction of contagious disease, your attention is particularly directed to the above-mentioned clause in the Regulations, and you are requested to notify the proper health authorities that it will be enforced. You are directed hereby to admit no vessel to entry without the required certificate.

W. E. CURTIS,
Acting Secretary.

PAYMENT OF UNITED STATES SIX PER CENT BONDS, ACTS OF JULY 1, 1862, AND JULY 2, 1864, CURRENCY SIXES, DUE JANUARY 1, 1897.

1896.

Department Circular No. 160.

Division of Loans and Currency.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., November 25, 1896.

Public notice is hereby given that United States 6 per cent bonds of the face value of nine million seven hundred and twelve thousand dollars (\$9,712,000), issued under the acts of July 1, 1862, and July 2, 1864, in aid of certain Pacific railroads, as stated below, and commonly known as "Currency sixes," become due on the 1st day of January, 1897, and that interest on said bonds will cease on that day. As the day of maturity is a legal holiday, checks will be mailed December 31, 1896, in payment of the principal of all bonds embraced in this circular received for redemption on or before that date.

The interest due January 1, 1897, will be paid separately, in the usual way, by checks in favor of the holders of record on the 1st day of December, 1896.

The bonds are in denominations of \$1,000, \$5,000, and \$10,000, and were issued in aid of the following-named railroads:

Central Pacific Railroad.....	\$2, 112, 000
Union Pacific Railroad.....	3, 840, 000
Kansas Pacific Railway Company, late Union Pacific Railway, Eastern Division.....	2, 800, 000
Central Branch, Union Pacific Railway Company, late Atchison and Pike's Peak Railroad Company, assignees of the Hannibal and St. Joseph Railroad Company.....	640, 000
Western Pacific Railroad.....	320, 000
	<hr/>
	9, 712, 000

Packages containing bonds forwarded for redemption should be addressed to the "Secretary of the Treasury, Division of Loans and Currency, Washington, D. C.," and the bonds should be assigned to the "Secretary of the Treasury for redemption." *Assignments must be dated and properly acknowledged as prescribed in the note printed on the back of each bond.*

Where checks in payment are desired in favor of anyone but the payee, the bonds should be assigned to the "Secretary of the Treasury for redemption for account of". (Here insert the name of the person to whose order the check should be made payable.)

J. G. CARLISLE,
Secretary of the Treasury.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This section also covers the proper handling of cash and the need for regular reconciliation of the cash book with the bank statements.

The second part of the document provides a detailed explanation of the double-entry system. It describes how every transaction is recorded in two accounts, ensuring that the total debits always equal the total credits. This system is essential for maintaining the accuracy of the financial statements and for identifying any errors or discrepancies.

The final part of the document outlines the steps for preparing the financial statements. It includes instructions on how to calculate the profit or loss for the period, how to determine the net assets of the business, and how to present this information in a clear and concise manner. The document concludes by stressing the importance of regular financial reporting for the success of any business enterprise.

PECUNIARY OBLIGATIONS BETWEEN OFFICERS, CLERKS, AND EMPLOYEES.

1896.
Department Circular No. 162.
Division of Appointments

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., December 1, 1896.

To all officers, clerks, and employees in or under the Treasury Department:

It is hereby ordered that hereafter no officer, clerk, or employee in or under the Treasury Department whose duty it is or may become, under the law, custom, or practice, to make any recommendation or take any official action concerning the status in the service of any other officer, clerk, or employee, shall, either directly or indirectly, solicit, accept, or procure a loan from or make any loan to any such other officer, clerk, or employee, indorse any note or other evidence of indebtedness, or become liable for any pecuniary obligation whatever, on account of any such other officer, clerk, or employee; or permit any such other officer, clerk, or employee to indorse any note or other evidence of indebtedness, or become liable for any pecuniary obligation whatever on his account.

No officer, clerk, or employee in or under the Treasury Department shall, either directly or indirectly, solicit, accept, or procure a loan from any other officer, clerk, or employee whose duty it is or may become, under the law, custom, or practice, to make any recommendation or take any official action concerning his status in the service, or indorse any note or other evidence of indebtedness, or become liable for any pecuniary obligation whatever, on account of any such other officer, clerk, or employee; or permit any such other officer, clerk, or employee to indorse any note or other evidence of indebtedness, or become liable for any pecuniary obligation whatever, on his account.

That all persons who are indebted to others occupying, relative to them, either of the positions hereinbefore mentioned must take immediate steps to discharge their indebtedness to such others; and such indebtedness must be discharged within a reasonable time.

This order is not intended to affect any mutual benefit, insurance, or other association, the purpose of which is not to evade the provisions hereof.

Any person who willfully violates any provision of this order shall be summarily discharged from the public service.

J. G. CARLISLE,
Secretary.

VESSELS PROCEEDING COASTWISE WITH IMPORTED CARGO ON BOARD.

1896.
Department Circular No. 163.
Bureau of Navigation.

Treasury Department,

BUREAU OF NAVIGATION,

Washington, D. C., December 1, 1896.

To Collectors of Customs and others:

The Department's attention has been invited to recent cases in which vessels have been allowed to proceed coastwise under enrollment and license with merchandise on board which had not been unladen in the United States. The practice was prohibited by the Regulations of 1884 and preceding general regulations, but the prohibition seems to have been omitted from the revision of 1892.

Article 117, Regulations 1892, is hereby amended by the addition thereto of the following paragraph:

"Enrollment and license must not be granted to a vessel having on board merchandise brought in her from a foreign port and not unladen in the United States."

EUGENE T. CHAMBERLAIN,
Commissioner.

APPROVED:

CHARLES S. HAMLIN,
Assistant Secretary of the Treasury.

REPUBLIC OF THE PHILIPPINES

Division Office - Manila

Office Memorandum No. 100, Series of 1981

TO: All Schools, Divisions, and Offices under the Department of Education

FROM: Director, Department of Education

SUBJECT: **Guidelines for the Implementation of the New Curriculum Framework for the Elementary Schools**

1. The Department of Education has the honor to acknowledge the receipt of your letter dated 10/15/81 regarding the implementation of the new curriculum framework for the elementary schools.

GENERAL GUIDELINES

2. The new curriculum framework for the elementary schools is designed to provide a more relevant and meaningful learning experience for the children.

3. FAMILY

4. Secretary of the Department

EXECUTIVE ORDER REMOVING THE RESTRICTIONS PLACED HERETOFORE UPON THE IMPORTATION AND SALE, IN THE TERRITORY OF ALASKA, EXCEPT THE ISLANDS OF ST. GEORGE AND ST. PAUL, OF BREECH-LOADING RIFLES AND SUITABLE AMMUNITION THEREFOR.

1896.
Department Circular No. 164.
Division of Special Agents.

Treasury Department,

OFFICE OF THE SECRETARY,

Washington, D. C., December 2, 1896.

The following regulations are prescribed under the authority of section 14 of the act of May 17, 1884, entitled "An Act providing a civil government for Alaska," and section 1955 of the Revised Statutes:

1. All restrictions and prohibitions heretofore placed upon the importation into the Territory of Alaska of breech-loading rifles and ammunition therefor, and the sale thereof within the said Territory, except as hereinafter provided, are hereby removed.
2. Permission is granted hereby for the introduction into Alaska Territory of breech-loading rifles and ammunition therefor, and for the sale of such articles within said Territory, in the same manner as articles of merchandise upon the importation and sale of which no restrictions have been placed.
3. The foregoing provisions shall not affect existing restrictions upon the introduction and use of firearms and ammunition upon the Islands of St. George and St. Paul, Alaska, which restrictions shall remain in full force and effect as though this order had not been issued.

J. G. CARLISLE,
Secretary

APPROVED :
GROVER CLEVELAND.

TONNAGE TAX ON VESSELS FROM GERMAN PORTS.

1896.
Department Circular No. 165.
Bureau of Navigation.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., December 3, 1896.

To Collectors of Customs:

In pursuance of the Proclamation of the President dated the third instant, of which a copy is appended hereto, you will take measures for the collection, on and after January 2, 1897, from vessels entered in the United States from ports in Germany, of tonnage dues as provided for by section 11 of the Act of June 19, 1886.

EUGENE T. CHAMBERLAIN,

Commissioner of Navigation.

APPROVED:

W. E. CURTIS,

Acting Secretary.

[TONNAGE DUES—GERMANY.]

BY THE PRESIDENT OF THE UNITED STATES.

A PROCLAMATION.

Whereas, by a Proclamation of the President of the United States, dated January twenty-sixth, eighteen hundred and eighty-eight, upon proof then appearing satisfactory that no tonnage or light-house dues or any equivalent tax or taxes whatever were imposed upon American vessels entering the ports of the Empire of Germany, either by the Imperial Government or by the Governments of the German Maritime States, and that vessels belonging to the United States of America and their cargoes were not required in German ports to pay any fee or dues of any kind or nature, or any import due higher or other than was payable by German vessels or their cargoes in the United States, the President did thereby declare and proclaim, from and after the date of his said Proclamation of January twenty-sixth, eighteen hundred and eighty-eight, the suspension of the collection of the whole of the duty of six cents per ton, not to exceed thirty cents per ton per annum, imposed upon vessels entered in the ports of the United States from any of the ports of the Empire of Germany by section 11 of the Act of Congress approved June nineteenth, eighteen hundred and eighty-six, entitled "An Act to abolish certain fees for official services to American vessels and to amend the laws relating to shipping commissioners, seamen and owners of vessels and for other purposes;"

And whereas the President did further declare and proclaim in his Proclamation of January twenty-sixth eighteen hundred and eighty-eight that the said suspension should continue so long as the recip-

rocal exemption of vessels belonging to citizens of the United States and their cargoes should be continued in the said ports of the Empire of Germany and no longer ;

And whereas, it now appears upon satisfactory proof that tonnage or light-house dues or a tax or taxes equivalent thereto are in fact imposed upon American vessels and their cargoes entered in German ports higher and other than those imposed upon German vessels or their cargoes entered in ports of the United States, so that said Proclamation of January twenty-sixth, eighteen hundred and eighty-eight in its operation and effect contravenes the meaning and intent of said section 11 of the Act of Congress approved June nineteenth, eighteen hundred and eighty-six :

Now, therefore, I, GROVER CLEVELAND, President of the United States of America, by virtue of the aforesaid section 11 of the Act aforesaid as well as in pursuance of the terms of said Proclamation itself, do hereby revoke my said Proclamation of January twenty-sixth, eighteen hundred and eighty-eight suspending the collection of the whole of the duty of six cents per ton, not to exceed thirty cents per ton per annum (which is imposed by the aforesaid section of said Act) upon vessels entered in the ports of the United States from any of the ports of the German Empire ; this revocation of said Proclamation to take effect on and after the second day of January, eighteen hundred and ninety-seven.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this third day of December, in the year of Our Lord one [SEAL.] thousand eight hundred and ninety-six, and of the Independence of the United States the one hundred and twenty-first.

GROVER CLEVELAND.

By the President :

RICHARD OLNEY,

Secretary of State.

NOTICE OF CHANGE OF LAW REGARDING THE ISSUE OF STEAMBOAT OFFICERS' LICENSES.

1896.

Department Circular No. 166.

Treasury Department,

Steamboat-Inspection Service, Office of the Supervising Inspector-General,

Washington, D. C., December 8, 1896.

*To Supervising and Local Inspectors of Steam Vessels,
and others whom it may concern:*

An act of Congress approved May 28, 1896, chapter 255, First session, Fifty-fourth Congress, authorizes licenses to officers of steam vessels to be issued, after January 1, 1897, for a term of five years instead of one year as heretofore.

Inspectors will therefore, after the date indicated, in issuing original, or renewing old licenses, issue them for the term of five years.

New licenses for the purpose are being prepared, and will be furnished inspectors, it is hoped, in time to begin their use on the 2d of January, 1897. In case, however, the new license books should fail to reach any board of local inspectors by the 2d proximo, they will issue licenses from the old books, erasing the word "one" preceding the word "year" where it occurs therein, and interlining the word "five" instead, until such time as they shall receive the new license books.

The act referred to also provides that, after the first day of January, 1897, "no person shall be qualified to hold a license as a commander or watch officer of a merchant vessel of the United States who is not a native-born citizen, or whose naturalization as a citizen shall not have been fully completed." Inspectors will see that the law as here quoted is carried out, by refusing, after January 1, 1897, to issue licenses except to persons qualified as therein stated, and should also demand for cancellation all outstanding licenses held by persons not so qualified.

The act referred to also provides for issuing one renewal of license to licensed officers engaged in service outside the United States, upon receipt of an application in writing from the holder thereof, for such renewal, "verified before a consul, or other officer of the United States authorized to administer an oath, setting forth the reasons for not appearing in person."

Attached hereto will be found the full text of the act above referred to.

JAS. A. DUMONT,
Supervising Inspector-General.

APPROVED:

W. E. CURTIS,
Acting Secretary.

AN ACT To amend section forty-one hundred and thirty-one of the Revised Statutes of the United States, to improve the merchant-marine engineer service and thereby also to increase the efficiency of the Naval Reserve, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section forty-one hundred and thirty-one of the Revised Statutes of the United States be amended so as to read as follows:

"SEC. 4131. Vessels registered pursuant to law and no others, except such as shall be duly qualified

according to law for carrying on the coasting or fishing trade, shall be deemed vessels of the United States, and entitled to the benefits and privileges appertaining to such vessels; but no such vessel shall enjoy such benefits and privileges longer than it shall continue to be wholly owned by a citizen or citizens of the United States or a corporation created under the laws of any of the States thereof, and be commanded by a citizen of the United States. And all the officers of vessels of the United States who shall have charge of a watch, including pilots, shall in all cases be citizens of the United States. The word "officers" shall include the chief engineer and each assistant engineer in charge of a watch on vessels propelled wholly or in part by steam; and after the first day of January, eighteen hundred and ninety-seven, no person shall be qualified to hold a license as a commander or watch officer of a merchant vessel of the United States who is not a native-born citizen, or whose naturalization as a citizen shall not have been fully completed."

SEC. 2. That all licenses issued to such officers shall be for a term of five years, but the holder of a license may have the same renewed for another five years at any time before its expiration:

Provided, however, That any officer holding a license, and who is engaged in a service which necessitates his continuous absence from the United States, may make application in writing for one renewal and transmit the same to the board of local inspectors with a statement of the applicant verified before a consul, or other officer of the United States authorized to administer an oath, setting forth the reasons for not appearing in person; and upon receiving the same the board of local inspectors that originally issued such license shall renew the same for one additional term of such license, and shall notify the applicant of such renewal. And in all cases where the issue is the suspension or revocation of such licenses, whether before the local boards of inspectors as provided for in section forty-four hundred and fifty of the Revised Statutes, or before the supervising inspector as provided for in section forty-four hundred and fifty-two of the Revised Statutes, the accused shall be allowed to appear by counsel and to testify in his own behalf.

No master, mate, pilot, or engineer of steam vessels licensed under title fifty-two of the Revised Statutes shall be liable to draft in time of War, except for the performance of duties such as required by his license; and, while performing such duties in the service of the United States, every such master, mate, pilot, or engineer shall be entitled to the highest rate of wages paid in the merchant marine of the United States for similar services; and, if killed or wounded while performing such duties under the United States, they, or their heirs, or their legal representatives shall be entitled to all the privileges accorded to soldiers and sailors serving in the Army and Navy, under the pension laws of the United States.

SEC. 3. That all laws or parts of laws in conflict with this Act are hereby repealed. But this shall not be construed to modify or repeal that provision of the Act of June twenty-sixth, eighteen hundred and eighty-four, which reads as follows: "In cases where on a foreign voyage, or on a voyage from an Atlantic to a Pacific port of the United States, any such vessel is for any reason deprived of the services of an officer below the grade of master, his place, or a vacancy caused by the promotion of another officer to such place, may be supplied by a person not a citizen of the United States until the first return of such vessel to its home port; and such vessel shall not be liable to any penalty or penal tax for such employment of an alien officer."

Approved, May 28, 1896.

FEEES FOR OATHS IN VERIFICATION OF ACCOUNTS.

1896.
Department Circular No. 167.

Treasury Department,

OFFICE OF
COMPTROLLER OF THE TREASURY,

Washington, D. C., December 8, 1896.

To the Auditors and Disbursing Officers:

Below will be found a schedule of fees which Justices of the Peace and Notaries Public are authorized by the law of their respective States and Territories to charge for administering oaths.

When an account, or voucher in an account, is required by law or regulations to be verified by the oath of an officer or employee of the Government, for the cost of which oath said officer or employee is entitled to be reimbursed, the following list of fees may be allowed, and none other, except in cases where the persons claiming reimbursement shall show that a different fee is prescribed, making a specific reference to the statute authorizing the same, to-wit:

PROPOSALS FOR THE PURCHASE OF PACIFIC RAILROAD FIRST-MORTGAGE BONDS.

1896.
 Department Circular No. 170.
 Division of Bookkeeping and Warrants.

Treasury Department,

OFFICE OF THE SECRETARY.

Washington, D. C., December 15, 1896.

SEALED PROPOSALS for the purchase of \$2,780,000 first-mortgage bonds of the Central Pacific, Union Pacific, and Kansas Pacific Railroads, now constituting a part of the sinking fund of the Central Pacific Railroad, will be received at the Treasury Department, Office of the Secretary, until 12 o'clock M., on the 21st day of December, 1896. The bonds will be sold with all interest accrued and unpaid thereon, the dates of maturity, and of the last interest payment being as follows:

Central Pacific:

Due January 1, 1897.....	\$218, 000
Due January 1, 1898.....	1, 323, 000
	<u>1, 541, 000</u>

(Interest paid on the above to July 1, 1896.)

Union Pacific:

Due January 1, 1896	\$130, 000
Due January 1, 1897.....	83, 000
Due July 1, 1897.....	75, 000
Due January 1, 1898	211, 000
Due July 1, 1898	287, 000
Due January 1, 1899	103, 000
	<u>939, 000</u>

(Interest paid on the above to July 1, 1896.)

Kansas Pacific:

Due August 1, 1895 (interest paid to August 1, 1895).....	\$158, 000
Due June 1, 1896 (interest paid to December 1, 1894).....	142, 000
	<u>300, 000</u>

Bidders are requested to make separate proposals for the bonds of each road, and they may bid for any part or all of the bonds enumerated. The successful bidders will be duly notified of the allotment made to them and they will be required to pay for the bonds so allotted within ten days after the date of the notice of such allotment.

The Department having been guaranteed a certain price for the above-described bonds, the guarantors will have the preference over other bidders at the same price, and the Department expressly reserves the right to reject any or all of the proposals submitted under this advertisement.

J. G. CARLISLE,
 Secretary of the Treasury.

REVISED INTERNATIONAL RULES TO PREVENT COLLISIONS AT SEA (LIGHTS, STEERING,
SAILING, ETC.).

1897.
Department Circular No. 171.

Treasury Department,

BUREAU OF NAVIGATION.

Washington, D. C., December 31, 1896.

To Collectors of Customs and others:

The attention of all persons concerned is invited to the changes in the rules relating to lights, steering and sailing, etc., embodied in the act, as amended, to adopt regulations for preventing collisions at sea, approved August 19, 1890, and proclaimed by the President, to take effect July 1, 1897.

On and after July 1, 1897, these rules are to be followed by all public and private vessels of the United States upon the high seas and in all waters connected therewith navigable by seagoing vessels, except upon harbors, rivers, and inland waters, and upon the Great Lakes and their tributary waters as far east as Montreal.

Material changes from former acts are indicated by italics.

Amendments to the act are shown by a statement of the date of the passage of the amendment.

Article 9 of the act, relating to fishing vessels, was repealed May 28, 1894, and Congress by an act approved August 13, 1894, reenacted article 10 of the International Regulations of 1885, now in force, so far as said article relates to lights for fishing vessels. It is inserted, therefore, as reenacted, in place of article 9, repealed, of the act of August 19, 1890.

The laws to prevent collisions upon the harbors, rivers, and inland waters of the United States will be found below, and those relating to the Great Lakes in another publication.

A copy of this circular may be supplied by any collector of customs to the master of any vessel of the United States visiting a custom house on the seacoast of the United States, but the master's attention should be carefully invited to the date on which the regulations are to take effect.

The rules are printed below.

EUGENE T. CHAMBERLAIN,
Commissioner.

APPROVED :

J. G. CARLISLE,

Secretary.

I.

ACT of August 19, 1890, to adopt regulations for preventing collisions at sea, as amended by the acts of May 28, 1894, August 13, 1894, and June 10, 1896, and proclaimed by the President of the United States to take effect July 1, 1897.

[Material changes from former acts indicated by italics.]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following regulations for preventing collisions at sea shall be followed by all public and private vessels of the United States upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

PRELIMINARY.

In the following rules every *steam-vessel* which is under sail and not under steam is to be considered a *sailing-vessel*, and every *vessel* under steam, whether under sail or not, is to be considered a *steam-vessel*.

The word "*steam-vessel*" shall include any *vessel* propelled by machinery.

A *vessel* is "*under way*" within the meaning of these rules when she is not at anchor, or made fast to the shore, or aground.

RULES CONCERNING LIGHTS, AND SO FORTH.

The word "*visible*" in these rules when applied to lights shall mean visible on a dark night with a clear atmosphere.

ARTICLE 1. The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

ART. 2. A *steam-vessel* when under way shall carry—(a) On or in front of the foremast, or if a *vessel* without a foremast, then in the fore part of the *vessel*, at a height above the hull of not less than twenty feet, and if the breadth of the *vessel* exceeds twenty feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than forty feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of twenty points of the compass, so fixed as to throw the light ten points on each side of the *vessel*, namely, from right ahead to two points abaft the beam on either side, and of such a character as to be visible at a distance of at least five miles.

(b) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least two miles.

(c) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the port side, and of such a character as to be visible at a distance of at least two miles.

(d) The said green and red side-lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

(e) A *steam-vessel* when under way may carry an additional white light similar in construction to the light mentioned in subdivision (a). These two lights shall be so placed in line with the keel that one shall be at least fifteen feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

ART. 3. A *steam-vessel* when towing another *vessel* shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other, not less than six feet apart, and when towing more than one *vessel* shall carry an additional bright white light six feet above or below such light, if the length of the tow measuring from the stern of the towing *vessel* to the stern of the last *vessel* towed exceeds six hundred feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in article two (a), excepting the additional light, which may be carried at a height of not less than fourteen feet above the hull.

Such *steam-vessel* may carry a small white light abaft the funnel or aftermast for the *vessel* towed to steer by, but such light shall not be visible forward of the beam.

ART. 4. (a) A *vessel* which from any accident is not under command shall carry at the same height as a white light mentioned in article two (a), where they can best be seen, and if a *steam-vessel* in lieu of that light, two red lights, in a vertical line one over the other, not less than six feet apart, and of such a character as to be visible all around the horizon at a distance of at least two miles; and shall by day carry in a vertical line one over the other, not less than six feet apart, where they can best be seen, two black balls or shapes, each two feet in diameter.

(b) A *vessel* employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in article two (a), and if a *steam-vessel* in lieu of that light, three lights in a vertical line one over the other not less than six feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all around the horizon, at a distance of at least two miles. By day she shall carry in a vertical line, one over the other, not less than six feet apart, where they can best be seen, three shapes not less than two feet in diameter, of which the highest and lowest shall be globular in shape and red in color, and the middle one diamond in shape and white.

(c) The *vessels* referred to in this article, when not making way through the water, shall not carry the side-lights, but when making way shall carry them.

(d) The lights and shapes required to be shown by this article are to be taken by other *vessels* as signals that the *vessel* showing them is not under command and can not therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in article thirty-one.

ART. 5. A sailing vessel under way and any vessel being towed shall carry the same lights as are prescribed by article two for a steam-vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

ART. 6. Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights can not be fixed, these lights shall be kept at hand, lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than two points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy the lanterns containing them shall each be painted outside with the color of the light they respectively contain, and shall be provided with proper screens.

“ART. 7. Steam-vessels of less than forty, and vessels under oars or sails of less than twenty tons gross tonnage, respectively, and rowing boats, when under way, shall not be required to carry the lights mentioned in article two (a), (b), and (c), but if they do not carry them they shall be provided with the following lights:

“First. Steam-vessels of less than forty tons shall carry—

“(a) In the fore part of the vessel, or on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than nine feet, a bright white light constructed and fixed as prescribed in article two (a), and of such a character as to be visible at a distance of at least two miles.

“(b) Green and red side-lights constructed and fixed as prescribed in article two (b) and (c), and of such a character as to be visible at a distance of at least one mile, or a combined lantern showing a green light and a red light from right ahead to two points abaft the beam on their respective sides. Such lanterns shall be carried not less than three feet below the white light.

“Second. Small steamboats, such as are carried by seagoing vessels, may carry the white light at a less height than nine feet above the gunwale, but it shall be carried above the combined lantern mentioned in subdivision one (b).

“Third. Vessels under oars or sails of less than twenty tons shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

“Fourth. Rowing boats, whether under oars or sail, shall have ready at hand a lantern showing a white light which shall be temporarily exhibited in sufficient time to prevent collision.

“The vessels referred to in this article shall not be obliged to carry the lights prescribed by article four (a) and article eleven, last paragraph.”—[Act of May 28, 1894.]

ART. 8. Pilot-vessels when engaged on their station on pilotage duty shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all around the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes.

On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board may show the white light instead of carrying it at the masthead, and may, instead of the colored lights above mentioned, have at hand, ready for use, a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

Pilot-vessels when not engaged on their station on pilotage duty shall carry lights similar to those of other vessels of their tonnage.

ART. 9. (Article nine, act of August 19, 1890, was repealed by act of May 28, 1894, and article 10, act of March 3, 1885, was reenacted in part as follows, by act of August 13, 1894, and is reproduced here as article 9:)

Fishing-vessels of less than twenty tons net registered tonnage, when under way and when not having their nets, trawls, dredges, or lines in the water, shall not be obliged to carry the colored side-lights; but every such vessel shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side, and on approaching or being approached by another vessel such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

The following portion of this article applies only to fishing-vessels and boats when in the sea off the coast of Europe lying north of Cape Finisterre:

(a) All fishing-vessels and fishing-boats of twenty tons net registered tonnage or upward, when under way and when not having their nets, trawls, dredges, or lines in the water, shall carry and show the same lights as other vessels under way.

(b) All vessels when engaged in fishing with drift-nets shall exhibit two white lights from any part of the vessel where they can be best seen. Such lights shall be placed so that the vertical distance between them shall be not less than six feet and not more than ten feet, and so that the horizontal distance between them, measured in a line with the keel of the vessel, shall be not less than five feet and not more than ten feet. The lower of these two lights shall be the more forward, and both of them shall be of such a character and contained in lanterns of such construction as to show all round the horizon, on a dark night, with a clear atmosphere, for a distance of not less than three miles.

(c) All vessels when trawling, dredging, or fishing with any kind of drag-nets shall exhibit, from some part of the vessel where they can be best seen, two lights. One of these lights shall be red and the other shall be white. The red light shall be above the white light, and shall be at a vertical distance from it of not less than six feet and not more than twelve feet; and the horizontal distance between them, if any, shall not be more than ten feet. These two lights shall be of such a character and contained in lanterns of such construction as to be visible all round the horizon, on a dark night, with a clear atmosphere, the white light to a distance of not less than three miles and the red light of not less than two miles.

(d) A vessel employed in line-fishing, with her lines out, shall carry the same lights as a vessel when engaged in fishing with drift-nets.

(e) If a vessel, when fishing with a trawl, dredge, or any kind of drag-net, becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall show the light and make the fog signal for a vessel at anchor.

(f) Fishing-vessels may at any time use a flare-up in addition to the lights which they are by this article required to carry and show. All flare-up lights exhibited by a vessel when trawling, dredging, or fishing with any kind of drag-net shall be shown at the after-part of the vessel, excepting that if the vessel is hanging by the stern to her trawl, dredge, or drag-net they shall be exhibited from the bow.

(g) Every fishing-vessel when at anchor between sunset and sunrise shall exhibit a white light, visible all round the horizon at a distance of at least one mile.

(h) In a fog a drift-net vessel attached to her nets, and a vessel when trawling, dredging, or fishing with any kind of drag-net, and a vessel employed in line-fishing with her lines out, shall, at intervals of not more than two minutes, make a blast with her fog-horn and ring her bell alternately. [Art. 10, Act March 3, 1885.]

ART. 10. *A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.*

The white light required to be shown by this article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of twelve points of the compass, namely, for six points from right aft on each side of the vessel, so as to be visible at a distance of at least one mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

ART. 11. *A vessel under one hundred and fifty feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding twenty feet above the hull, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all around the horizon at a distance of at least one mile.*

A vessel of one hundred and fifty feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than twenty and not exceeding forty feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than fifteen feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fair-way shall carry the above light or lights and the two red lights prescribed by article four (a).

ART. 12. *Every vessel may, if necessary in order to attract attention, in addition to the lights which she is by these rules required to carry, show a flare-up light or use any detonating signal that can not be mistaken for a distress signal.*

ART. 13. *Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal-lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorized by their respective Governments and duly registered and published.*

ART. 14. *A steam-vessel proceeding under sail only but having her funnel up, shall carry in day-time, forward, where it can best be seen, one black ball or shape two feet in diameter.*

ART. 15. *All signals prescribed by this article for vessels under way shall be given:*

First. By "steam vessels" on the whistle or siren.

Second. By "sailing vessels" and "vessels towed" on the fog horn.

The words "prolonged blast" used in this article shall mean a blast of from four to six seconds duration.

A steam-vessel shall be provided with an efficient whistle or siren, sounded by steam or by some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog horn, to be sounded by mechanical means, and also with an efficient bell. (In all cases where the rules require a bell to be used a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small seagoing vessels.) A sailing vessel of twenty tons gross tonnage or upward shall be provided with a similar fog horn and bell.

In fog, mist, falling snow, or heavy rainstorms, whether by day or night, the signals described in this article shall be used as follows, namely:

(a) A steam vessel having way upon her shall sound, at intervals of not more than two minutes, a prolonged blast.

(b) A steam vessel under way, but stopped, and having no way upon her, shall sound, at intervals of not more than two minutes, two prolonged blasts, with an interval of about one second between.

(c) A sailing vessel under way shall sound, at intervals of not more than one minute, when on the starboard tack, one blast; when on the port tack, two blasts in succession, and when with the wind abaft the beam, three blasts in succession.

(d) A vessel when at anchor shall, at intervals of not more than one minute, ring the bell rapidly for about five seconds.

(e) A vessel when towing, a vessel employed in laying or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to maneuver as required by the rules, shall, instead of the signals prescribed in subdivisions (a) and (c) of this article, at intervals of not more than two minutes, sound three blasts in succession, namely: One prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats of less than twenty tons gross tonnage shall not be obliged to give the above-mentioned signals, but, if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

[Approved June 10, 1896.]

SPEED OF SHIPS TO BE MODERATE IN FOG, AND SO FORTH.

ART. 16. Every vessel shall, in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.

PRELIMINARY—RISK OF COLLISION.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

ART. 17. When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, namely:

(a) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.

(b) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.

(c) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(d) When both are running free, with the wind on the same side, the vessel which is to the windward shall keep out of the way of the vessel which is to the leeward.

(e) A vessel which has the wind aft shall keep out of the way of the other vessel.

ART. 18. When two steam-vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply by day to cases in which a vessel sees another ahead crossing her own course; or by

night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

ART. 19. When two steam-vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

ART. 20. When a steam-vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam-vessel shall keep out of the way of the sailing vessel.

Article twenty-one. Where, by any of these rules, one of two vessels is to keep out of the way the other shall keep her course and speed.

Note.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision can not be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See articles twenty-seven and twenty-nine.) [Act of May 28, 1894.]

ART. 22. Every vessel which is directed by these rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

ART. 23. Every steam-vessel which is directed by these rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

ART. 24. Notwithstanding anything contained in these rules every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, that is, in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel can not always know with certainty whether she is forward of or abaft this direction from the other vessel she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

ART. 25. In narrow channels every steam-vessel shall, when it is safe and practicable, keep to that side of the fair-way or mid-channel which lies on the starboard side of such vessel.

ART. 26. Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fair-way used by vessels other than fishing vessels or boats.

ART. 27. In obeying and construing these rules due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

SOUND-SIGNALS FOR VESSELS IN SIGHT OF ONE ANOTHER.

ART. 28. The words "short blast" used in this article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam-vessel under way, in taking any course authorized or required by these rules, shall indicate that course by the following signals on her whistle or siren, namely:

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going at full speed astern."

NO VESSEL, UNDER ANY CIRCUMSTANCES, TO NEGLECT PROPER PRECAUTIONS.

ART. 29. Nothing in these rules shall exonerate any vessel or the owner or master or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper lookout, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

RESERVATION OF RULES FOR HARBORS AND INLAND NAVIGATION.

ART. 30. Nothing in these rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbor, river, or inland waters.

DISTRESS SIGNALS.

Article thirty-one. When a vessel is in distress and requires assistance from other vessels or from the shore the following shall be the signals to be used or displayed by her, either together or separately, namely:

In the daytime—

First. A gun or other explosive signal fired at intervals of about a minute.

Second. The international code signal of distress indicated by N C.

Third. The distance signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball.

Fourth. A continuous sounding with any fog-signal apparatus.

At night—

First. A gun or other explosive signal fired at intervals of about a minute.

Second. Flames on the vessel (as from a burning tar barrel, oil barrel, and so forth).

Third. Rockets or shells throwing stars of any color or description, fired one at a time, at short intervals.

Fourth. A continuous sounding with any fog-signal apparatus. [Act of May 28, 1894.]

SEC. 2. That all laws or parts of laws inconsistent with the foregoing regulations for preventing collisions at sea for the navigation of all public and private vessels of the United States upon the high seas, and in all waters connected therewith navigable by sea-going vessels, are hereby repealed. [Act August 19, 1890.]

AN ACT in regard to collision at sea.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in every case of collision between two vessels it shall be the duty of the master or person in charge of each vessel, if and so far as he can do so without serious danger to his own vessel, crew, and passengers (if any), to stay by the other vessel until he has ascertained that she has no need of further assistance, and to render to the other vessel, her master, crew, and passengers (if any) such assistance as may be practicable and as may be necessary in order to save them from any danger caused by the collision, and also to give to the master or person in charge of the other vessel the name of his own vessel and her port of registry, or the port or place to which she belongs, and also the name of the ports and places from which and to which she is bound. If he fails so to do, and no reasonable cause for such failure is shown, the collision shall, in the absence of proof to the contrary, be deemed to have been caused by his wrongful act, neglect, or default.

SEC. 2. That every master or person in charge of a United States vessel who fails, without reasonable cause, to render such assistance or give such information as aforesaid shall be deemed guilty of a misdemeanor, and shall be liable to a penalty of one thousand dollars, or imprisonment for a term not exceeding two years; and for the above sum the vessel shall be liable and may be seized and proceeded against by process in any district court of the United States by any person; one-half such sum to be payable to the informer and the other half to the United States.

SEC. 3. That this act shall take effect at a time to be fixed by the President by Proclamation issued for that purpose.

Approved, September 4, 1890.

II.

REGULATIONS TO PREVENT COLLISIONS UPON THE HARBORS, RIVERS, AND INLAND WATERS OF THE UNITED STATES, EXCEPT THE GREAT LAKES AND THEIR TRIBUTARY WATERS AS FAR EAST AS MONTREAL.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That on and after March first, eighteen hundred and ninety-five, the provisions of sections forty-two hundred and thirty-three, forty-four hundred and twelve, and forty four hundred and thirteen of the Revised Statutes and regulations pursuant thereto shall be followed on the harbors, rivers and inland waters of the United States.

The provisions of said sections of the Revised Statutes and regulations pursuant thereto are hereby

declared special rules duly made by local authority relative to the navigation of harbors, rivers and inland waters as provided for in Article thirty, of the Act of August nineteenth, eighteen hundred and ninety, entitled "An Act to adopt regulations for preventing collisions at sea."

SEC. 2. The Secretary of the Treasury is hereby authorized, empowered and directed from time to time to designate and define by suitable bearings or ranges with light houses, light vessels, buoys or coast objects, the lines dividing the high seas from rivers, harbors and inland waters.

SEC. 3. Collectors or other chief officers of the customs shall require all sail vessels to be furnished with proper signal lights. Every such vessel that shall be navigated without complying with the Statutes of the United States, or the regulations that may be lawfully made thereunder, shall be liable to a penalty of two hundred dollars, one-half to go to the informer; for which sum the vessel so navigated shall be liable, and may be seized and proceeded against by way of libel in any district court of the United States having jurisdiction of the offense.

SEC. 4. The words "inland waters" used in this Act shall not be held to include the Great Lakes and their connecting and tributary waters as far east as Montreal; and this act shall not in any respect modify or affect the provisions of the Act entitled "An Act to regulate navigation on the Great Lakes and their connecting and tributary waters," approved February eighth, eighteen hundred and ninety-five.

[Act February 19, 1895.]

Pursuant to Section 2 of the Act approved February 19, 1895, the following lines dividing the high seas from rivers, harbors, and inland waters are hereby designated and defined:

(Bearings are magnetic.)

NEW YORK HARBOR.—From Navesink (southerly) Light House NE. $\frac{1}{2}$ E., easterly, to Scotland Light Vessel, thence NNE. $\frac{1}{2}$ E. through Gedney Channel Whistling Buoy (proposed position) to Rockaway Point Life-Saving Station.

BALTIMORE HARBOR AND CHESAPEAKE BAY.—From Cape Henry Light House NE. by E. $\frac{1}{2}$ E., easterly, to Outer Entrance Whistling Buoy, thence N. by E. $\frac{1}{2}$ E. to Cape Charles Light House.

GALVESTON HARBOR.—From Galveston Bar Whistling Buoy, N. by W. $\frac{1}{2}$ W. through the beacon, marking the outer extremity of the N. jetty, and SW. by W. $\frac{1}{2}$ W., westerly, through North Breaker Beacon.

BOSTON HARBOR.—From Point Allerton NNE. $\frac{1}{2}$ E., easterly, through Point Allerton Beacon to Northeast Grave Whistling Buoy, thence NNE. $\frac{1}{2}$ E. to Outer Breaker (Great Pig Rocks) Bell Buoy, thence NE. by E. $\frac{3}{4}$ E. to Halfway Rock Beacon, thence NE. by E. $\frac{1}{2}$ E. to Eastern Point Light House.

SAN FRANCISCO HARBOR.—From Point Bonita Light House SE. $\frac{1}{2}$ S. to Point Lobos.

PORTLAND, ME., HARBOR.—From Cape Elizabeth (E.) Light ENE. to Halfway Rock Light, thence E., southerly, to Seguin Light.

PHILADELPHIA HARBOR AND DELAWARE BAY.—From Cape Henlopen Light NE. by E. to South Shoal Whistling Buoy, thence NNE. $\frac{1}{2}$ E. to Cape May Light.

CHARLESTON HARBOR.—From Charleston Light Vessel NW. $\frac{1}{2}$ W. (toward Sullivan's Island Range Rear Light) to the North Jetty, and from Charleston Light Vessel SW. $\frac{1}{2}$ W. to Charleston Whistling Buoy, thence SW. $\frac{1}{2}$ W. to Charleston Main Channel Entrance Bell Buoy, thence W. to Folly Island.

SAVANNAH HARBOR AND CALIBOGUE SOUND.—From Tybee Whistling Buoy NNW. $\frac{1}{8}$ W. through North Slue Channel Outer Buoy to Braddock Point, Hilton Head Island, and from Tybee Whistling Buoy W. to Tybee Island.

ST. SIMON SOUND (BRUNSWICK HARBOR) AND ST. ANDREW SOUND.—From hotel on Beach of St. Simon Island $\frac{1}{8}$ mile NE. by E. $\frac{1}{2}$ E. from St. Simon Light House, SE. $\frac{1}{2}$ E. to St. Simon Sea Buoy, thence S. $\frac{1}{2}$ E. to St. Andrew's Sound Sea Buoy, thence W. to the Shore of Little Cumberland Island.

PENSACOLA HARBOR.—From Pensacola Entrance Whistling Buoy N. $\frac{1}{2}$ W., a tangent to the E. side of Fort Pickens, to the shore of Santa Rosa Island, and from the Whistling Buoy NW. $\frac{3}{16}$ W. to Fort McRee Range Front Light.

MOBILE HARBOR AND BAY.—From Mobile Bay Outer or Deep Sea Whistling Buoy (or its watch buoy in summer) NE. by N. to the shore of Mobile Point, and from the Whistling Buoy NW. by W. to the shore of Dauphin Island.

NEW ORLEANS HARBOR AND THE DELTA OF THE MISSISSIPPI.—From South Pass East Jetty Light N. by E. $\frac{1}{2}$ E. to Pass a Loure Light, thence N. to Errol Island and from South Pass East Jetty Light W. $\frac{1}{2}$ S. to Southwest Pass Light, thence N. to shore.

SAN DIEGO HARBOR.—From Point Loma Light S. $\frac{1}{2}$ E. to San Diego Bay Outside Bar Whistling Buoy, thence NNE. $\frac{1}{2}$ E. to tower of Coronado Hotel.

KITTERY HARBOR, ME., AND PORTSMOUTH HARBOR, N. H.—From Kitts Rocks Bell Buoy NNE. $\frac{1}{2}$ E. through Horn Island to the main shore, and from Kitts Rocks Bell Buoy NW. by W. $\frac{1}{2}$ W. through Frosts Point Ledge Buoy to Frosts Point, N. H.

NEWBURYPORT, IPSWICH, AND ANNISQUAM HARBORS, MASS.—From Salisbury Beach Range Rear Light a line SE. $\frac{1}{2}$ S. to Newburyport Bar Whistling Buoy, thence a line S. by E. $\frac{3}{4}$ E. (toward Annisquam Light) to a point of intersection with a line drawn from Ipswich Light E. $\frac{1}{2}$ S. to Halibut Point, thence, from the point of intersection, along the latter line E. $\frac{1}{2}$ S. to Halibut Point.

COLUMBIA RIVER ENTRANCE.—From Cape Disappointment Light SE. $\frac{1}{2}$ E. to Point Adams Light.

III.

RULES TO BE OBSERVED BY VESSELS OF THE NAVY AND THE MERCANTILE MARINE OF THE UNITED STATES, NAVIGATING THE HARBORS, LAKES, AND INLAND WATERS OF THE UNITED STATES, EXCEPT THE GREAT LAKES AND THEIR TRIBUTARY WATERS AS FAR EAST AS MONTREAL.

PRELIMINARY.

The instructions herein contained will be observed in the navigation of vessels of the mercantile marine of the United States; and by the provisions of the Revised Statutes the following rules, from one to twenty-four, inclusive, are made applicable to the navigation of vessels of the Navy.

Every sail-vessel of the mercantile marine navigated without complying with the instructions of this circular will be liable to a penalty of two hundred dollars, for which sum the vessel may be seized and proceeded against.

STEAM AND SAIL VESSELS.

RULE ONE. Every steam-vessel which is under sail, and not under steam, shall be considered a sail-vessel; and every steam-vessel which is under steam, whether under sail or not, shall be considered a steam-vessel.

LIGHTS.

RULE TWO. The lights mentioned in the following rules, and no others, shall be carried in all weathers, between sunset and sunrise.

LIGHTS FOR OCEAN-GOING STEAMERS AND STEAMERS CARRYING SAIL.

RULE THREE. All ocean-going steamers, and steamers carrying sail, shall, when under way, carry—

(A) At the foremast head, a bright white light, of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles, and so constructed as to show a uniform and unbroken light over an arc of the horizon of twenty points of the compass, and so fixed as to throw the light ten points on each side of the vessel, namely, from right ahead to two points abaft the beam on either side.

(B) On the starboard side, a green light, of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles, and so constructed as to show a uniform and unbroken light over an arc of the horizon of ten points of the compass, and so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side.

(C) On the port side, a red light, of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles, and so constructed as to show a uniform and unbroken light over an arc of the horizon of ten points of the compass, and so fixed as to throw the light from right ahead to two points abaft the beam on the port side.

The green and red light shall be fitted with inboard screens, projecting at least three feet forward from the lights, so as to prevent them from being seen across the bow.

LIGHTS FOR TOWING STEAMERS.

RULE FOUR. Steam-vessels, when towing other vessels, shall carry two bright white mast-head lights vertically, in addition to their side-lights, so as to distinguish them from other steam-vessels. Each of

these mast-head lights shall be of the same character and construction as the mast-head lights prescribed by Rule Three.

LIGHTS FOR STEAMERS NOT OCEAN-GOING NOR CARRYING SAIL.

RULE FIVE. All steam-vessels, other than ocean-going steamers and steamers carrying sail, shall, when under way, carry on the starboard and port sides lights of the same character and construction and in the same position as are prescribed for side-lights by Rule Three, except in the case provided in Rule Six.

LIGHTS FOR STEAMERS ON THE MISSISSIPPI RIVER.

RULE SIX. River-steamers navigating waters flowing into the Gulf of Mexico, and their tributaries, shall carry the following lights, namely: One red light on the outboard side of the port smoke-pipe, and one green light on the outboard side of the starboard smoke-pipe. Such lights shall show both forward and abeam on their respective sides.

LIGHTS FOR COASTING STEAM-VESSELS AND STEAM-VESSELS NAVIGATING BAYS, LAKES, AND RIVERS.

RULE SEVEN. All coasting steam-vessels, and steam-vessels other than ferry-boats and vessels otherwise expressly provided for, navigating the bays, lakes, rivers, or other inland waters of the United States, except those mentioned in Rule Six, shall carry the red and green lights as prescribed for ocean-going steamers; and, in addition thereto, a central range of two white lights; the after light being carried at an elevation of at least fifteen feet above the light at the head of the vessel. The head-light shall be so constructed as to show a good light through twenty points of the compass, namely: from right ahead to two points about the beam on either side of the vessel; and the after-light so as to show all around the horizon.

THE LIGHTS FOR FERRY-BOATS, BARGES, AND CANAL BOATS WHEN IN TOW OF STEAM VESSELS

shall be regulated by such rules as the Board of Supervising Inspectors of Steam-Vessels shall prescribe.

LIGHTS FOR SAILING-VESSELS.

RULE EIGHT. Sail-vessels, under way or being towed, shall carry the same lights as steam-vessels under way, with the exception of the white mast-head lights, which they shall never carry. (See Rule Three, *b* and *c*.)

EXCEPTIONAL LIGHTS FOR SMALL SAILING-VESSELS.

RULE NINE. Whenever, as in case of small vessels during bad weather, the green and red lights can not be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for instant exhibition, and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side. To make the use of these portable lights more certain and easy, they shall each be painted outside with the color of the light they respectively contain, and shall be provided with suitable screens.

LIGHTS FOR STEAM-VESSELS AND SAILING-VESSELS AT ANCHOR.

RULE TEN. All vessels, whether steam-vessels or sail-vessels, when at anchor in roadsteads or fairways, shall, between sunset and sunrise, exhibit where it can best be seen, but at a height not exceeding twenty feet above the hull, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light, visible all around the horizon, and at a distance of at least one mile.

LIGHTS FOR PILOT-VESSELS.

RULE ELEVEN. Sailing pilot-vessels shall not carry the lights required for other sailing-vessels, but shall carry a white light at the mast-head, visible all around the horizon, and shall also exhibit a flare-up light every fifteen minutes.

LIGHTS FOR COAL-BOATS, TRADING-BOATS, RAFTS, AND OTHER LIKE CRAFT.

RULE TWELVE. Coal-boats, trading-boats, produce-boats, canal-boats, oyster-boats, fishing-boats, rafts, or other water-craft, navigating any bay, harbor, or river, by hand-power, horse-power, sail, or by the current of the river, or which shall be anchored or moored in or near the channel or fair-way of any bay, harbor, or river, shall carry one or more good white lights, which shall be placed in such manner as shall be prescribed by the Board of Supervising Inspectors of Steam Vessels.*

Rule 12 shall be so construed as not to require row-boats and skiffs upon the river St. Lawrence to carry lights. (Act June 19, 1886.)

LIGHTS FOR OPEN BOATS.

RULE THIRTEEN. Open boats shall not be required to carry the side-lights required for other vessels, but shall, if they do not carry such lights, carry a lantern having a green slide on one side and a red slide on the other side; and, on the approach of or to other vessels, such lantern shall be exhibited in sufficient time to prevent collision, and in such a manner that the green light shall not be seen on the port side, nor the red light on the starboard side. Open boats, when at anchor or stationary, shall exhibit a bright white light. They shall not, however, be prevented from using a flare-up, in addition, if considered expedient.

LIGHTS ON VESSELS OF THE UNITED STATES NAVY.

RULE FOURTEEN. The exhibition of any light on board of a vessel of war of the United States may be suspended whenever, in the opinion of the Secretary of the Navy, the commander-in-chief of a squadron, or the commander of a vessel acting singly, the special character of the service may require it.

FOG-SIGNALS.

RULE FIFTEEN. Whenever there is a fog, or thick weather, whether by day or night, fog-signals shall be used, as follows:

(A) Steam-vessels under way shall sound a steam-whistle placed before the funnel, not less than eight feet from the deck, at intervals of not more than one minute.

(B) Sail-vessels under way shall sound a fog-horn at intervals of not more than five minutes.

(C) Steam-vessels and sail-vessels, when not under way, shall sound a bell at intervals of not more than five minutes.

(D) Coal-boats, trading-boats, produce-boats, canal-boats, oyster-boats, fishing-boats, rafts, or other water-craft, navigating any bay, harbor, or river, by hand-power, horse-power, sail, or by the current of the river, or anchored or moored in or near the channel or fairway of any bay, harbor, or river, and not in any port, shall sound a fog-horn, or equivalent signal, which shall make a sound equal to a steam-whistle, at intervals of not more than two minutes.

STEERING AND SAILING RULES.

SAILING-VESSELS.

RULE SIXTEEN. If two sail-vessels are meeting end on, or nearly end on, so as to involve risk of collision, the helms of both shall be put to port, so that each may pass on the port side of the other.

RULE SEVENTEEN. When two sail-vessels are crossing so as to involve risk of collision, then, if they have the wind on different sides, the vessel with the wind on the port side shall keep out of the way of the vessel with the wind on the starboard side, except in the case in which the vessel with the wind on the port side is close-hauled, and the other vessel free, in which case the latter vessel shall keep out of the way. But if they have the wind on the same side, or if one of them has the wind aft, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

STEAM-VESSELS MEETING.

RULE EIGHTEEN. If two vessels under steam are meeting end on, or nearly end on, so as to involve risk of collision, the helms of both shall be put to port, so that each may pass on the port side of the other.

* See additional rules.

TWO STEAMERS CROSSING.

RULE NINETEEN. If two vessels under steam are crossing so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

SAIL AND STEAM-VESSELS MEETING.

RULE TWENTY. If two vessels, one of which is a sail-vessel and the other a steam-vessel, are proceeding in such directions as to involve risk of collision, the steam-vessel shall keep out of the way of the sail-vessel.

STEAM-VESSEL APPROACHING ANOTHER VESSEL, OR IN A FOG.

RULE TWENTY-ONE. Every steam-vessel, when approaching another vessel, so as to involve risk of collision, shall slacken her speed, or, if necessary, stop and reverse; and every steam-vessel shall, when in a fog, go at a moderate speed.

VESSEL OVERTAKING ANOTHER.

RULE TWENTY-TWO. Every vessel overtaking any other vessel shall keep out of the way of the last-mentioned vessel.

RIGHT OF WAY.

RULE TWENTY-THREE. Where, by Rules seventeen, nineteen, twenty, and twenty-two, one of two vessels shall keep out of the way, the other shall keep her course, subject to the qualifications of Rule twenty-four.

SPECIAL INSTRUCTIONS.

RULE TWENTY-FOUR. In construing and obeying these rules, due regard must be had to all dangers of navigation, and to any special circumstances which may exist in any particular case rendering a departure from them necessary in order to avoid immediate danger.

SAILING-VESSELS TO BE FURNISHED WITH SIGNAL-LIGHTS AND TO SHOW TORCHES.

RULE TWENTY-FIVE. Collectors, or other chief officers of the customs, shall require all sail-vessels to be furnished with proper signal lights, and every such vessel shall, on the approach of any steam-vessel during the night-time, *show a lighted torch* upon that point or quarter to which such steam-vessel shall be approaching.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

1896.
Department Circular No. 172.
Division of Customs.

HOME PORTS OF VESSELS.

1896.
Department Circular No. 173.

Treasury Department,

BUREAU OF NAVIGATION,

Washington, D. C., December 21, 1896.

To Collectors of Customs and others:

The last paragraph of Article 2, Customs Regulations of 1892, states that the term "home port" means that port established by law at or nearest to which the owner, if there be but one, or if more than one, the husband or acting and managing owner, resides, or the port at which the vessel is documented, or the place in the same district where the vessel was built.

The statement is not in accordance with the statutes and has misled customs officers. The paragraph is hereby amended so as to read as follows:

"A vessel's home port is that port established by law at or nearest to which the owner resides, or, if there be more than one owner, that port at or nearest to which the husband or managing owner usually resides. It is also the port at which a vessel's permanent marine papers issue, and its name must be specified in all marine documents. But in reference to the painting of the name of a port of hail on the stern of a vessel, the word 'port' may be construed to mean either the port where the vessel is registered or enrolled or the place in the same district where the vessel was built, or where one or more of the owners reside." (R. S. 4141, 4178, and Act June 26, 1884.)

EUGENE T. CHAMBERLAIN,

Commissioner.

APPROVED:

S. WIKE,

Assistant Secretary.

REAPPRAISEMENTS OF MERCHANDISE BY UNITED STATES GENERAL APPRAISERS.

EMPLOYEES OF EXHIBITORS AT THE TENNESSEE CENTENNIAL EXPOSITION,
NASHVILLE, TENN.

1896.

Department Circular No. 175.

Bureau of Immigration.

Treasury Department,

Washington, D. C., December 31, 1896.

Congress having passed a joint resolution authorizing foreign exhibitors at the Tennessee Centennial Exposition to be held at Nashville, Tenn., to bring to this country foreign laborers from their respective countries for the purpose of preparing for and making their exhibits, which was approved by the President May 18, 1896, Commissioners of Immigration and Collectors of Customs are hereby charged with the duty of admitting such employees under the following regulations:

1. Upon the arrival of any such employee at any port of the United States the Commissioner of Immigration at such port, or where there is no Commissioner of Immigration, the Collector of Customs at such port will satisfy himself that such person is entitled to admission into the United States under the provisions of said joint resolution, and will thereupon permit him or her to land, and issue to him or her a certificate in accordance with the facts ascertained, and file in his office a memorandum thereof.

2. Certificates in the form hereto annexed will be used, and the stub attached with the blanks filled will be regarded as the memorandum to be filed. Immigration officers will make requisition for such number of certificates as may be required.

3. When any such certificate is returned by its holder, preparatory to departure for the country from which he or she came, the fact of such surrender and departure, and the date thereof, will be indorsed across the face of the certificate and entered upon the corresponding stub; and the certificate shall then be filed for reference.

4. In one year after the close of said Exposition, Commissioners of Immigration and Collectors of Customs who have issued such certificates will report to the Treasury Department the number issued, and whether any holder thereof (giving name) has failed to surrender his or her certificate and depart from the country; and in case any such holder depart from a port other than that at which he or she entered, the Commissioner or Collector to whom the certificate may be surrendered will transmit the same without delay to the officer who issued it, or his successor.

W. E. CURTIS,
Acting Secretary.

The following is a copy of the joint resolution:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of Congress approved February twenty-sixth, eighteen hundred and eighty-five, prohibiting the importation of foreigners under contract to perform labor, and the Acts of Congress prohibiting the coming of Chinese persons into the United States, and the Acts amendatory of these Acts, shall not be so construed, nor shall anything therein operate to prevent, hinder, or in anywise restrict any foreign exhibitor, representative, or citizen of a foreign nation, or the holder, who is a citizen of a foreign nation,

of any concession or privilege from the Tennessee Centennial Exposition Company of Nashville, Tennessee, from bringing into the United States, under contract, such mechanics, artisans, agents, or other employees, natives of their respective foreign countries, as they, or any of them, may deem necessary for the purpose of making preparations for installing or conducting their exhibits or of preparing for installing or conducting any business authorized or permitted under or by virtue of or pertaining to any concession or privilege which may have been granted by the Tennessee Centennial Exposition Company of Nashville, Tennessee, in connection with such exposition: *Provided, however,* That no alien shall by virtue of this Act enter the United States under contract to perform labor except by express permission, naming such alien, of the Secretary of the Treasury, and any such alien who may remain in the United States for more than one year, after the close of said exposition, shall thereafter be subject to all the processes and penalties applicable to aliens coming in violation of the alien contract-labor law aforesaid.

FORM OF CERTIFICATE.

No.....
 Name.....
 Native of.....
 Employed by.....
 of.....an exhibitor
 at the Tennessee Centennial Exposition
 Company of Nashville, Tenn.
 Issued....., 189...
 Surrendered at the port of.....
, 189...

Employee's Certificate of Admission.

No..... Port of....., 189...
 This is to certify that....., a native of.....
 who is duly accredited as an employee of....., an exhibitor at the
 Tennessee Centennial Exposition at Nashville, Tenn., has been permitted to enter
 the United States as such employee, in pursuance of a joint resolution of Congress
 approved May 18, 1896.

Commissioner of Immigration.

NOTE.—This certificate is valid for one year after the close of said Exposition, and is to be surrendered when the holder departs from the United States, to the Commissioner of Immigration or the Collector of Customs at the port at which he embarks.

REPORTS OF PASSENGER MOVEMENTS.

1896.
Department Circular No. 176.
Bureau of Navigation.

Treasury Department,

BUREAU OF NAVIGATION,

Washington, D. C., December 31, 1896.

To Principal Officers of the Customs:

You are hereby directed to forward at the end of each fiscal year only, the reports of passenger movements mentioned in Circular 87 of 1896, to the Bureau of Navigation, Treasury Department. The reports in question were formerly included in the reports of immigration, made monthly or quarterly, according to the circumstances, to the Bureau of Statistics—subsequently to the Bureau of Immigration, and since July 3, 1896, to the Bureau of Navigation.

Circulars 87 of 1896 and 111 of 1896, and Article 1272, Regulations of 1892, are hereby modified accordingly.

Form Number 21 should be amended by the pen, so as to conform to these instructions.

W. E. CURTIS,

Acting Secretary.
